## **Exhibit A-1**

### **Piney Creek Bend Planned Development**

#### **A. Purpose and Intent**

The Piney Creek Bend PD is composed of approximately 90.91 acres, as described in Exhibit D (Field Notes). The development of this property is planned as a high quality, residential community with multiple residential product types.

Piney Creek Bend has been designed to create a walkable, pedestrian friendly neighborhood. The contents of this PD further explain and illustrate the overall appearance and function desired for this community. A Land Use Plan (Exhibit B) and Conceptual Lot Layout (Exhibit C) are attached to illustrate the general community vision and design. The Conceptual Lot Layout depicts a mix of residential products and open space areas that are contemplated within the community. The final Development shall not exceed a total of 170 residential lots.

#### **B. Land Use Plan and Conceptual Lot Layout**

The Conceptual Lot Layout (Exhibit C) which will be limited to a total of 170 residential lots is a schematic development plan intended to visually convey the design intent for the Piney Creek Bend community. The design of the community is not final, and is subject to refinement during the Preliminary and Final platting stages. This PD zoning document does not constitute plat or site plan approval of the attached plan.

Piney Creek Bend is composed of two single-family detached products. The project will include a cohesive network of open spaces, including parks, storm-water detention areas [if necessary], floodplain and trail corridors. The open space and trails system combined with the sidewalk network will be critical in establishing a walkable community.

The intent for this development is to save as many of the existing trees as possible. On each lot where native trees are not present or preserved in the front yard, the builder will install (2) - 2" caliper trees and 10 shrubs in the front yard during the construction of each residential unit. [No additional trees are required to be planted on a lot if at least two (2) native trees with a minimum diameter of 4" measured 18" above finished grade are preserved on the lot.]

#### **C. Applicability and Base Zoning**

All aspects regarding the development of this PD shall comply with the City of Bastrop Composite Zoning Ordinance, except as established in this exhibit, titled Exhibit A.

For the purpose of establishing development standards for the PD, base zoning districts have been selected from the Bastrop Composite Zoning Ordinance for the various residential products proposed within the PD.

- *For Lots 6,000 - 7,199 sf. - Urban 5*
- *For Lots 7,200 sf. and above - Suburban 6*

This PD allows the flexibility to mix the various residential products and define boundaries for each lot type during the platting process. Each plat submitted to the City will identify the type at the time of Final Plat submittal. In the case that this PD does not address a specific City requirement, the Bastrop Composite Zoning Ordinance shall apply. In the event of a conflict between this PD and the base-zoning district found in the Bastrop Composite Zoning Ordinance, the PD shall be the controlling document.

#### **D. Residential Product Type Requirements**

To ensure a variety and mix of residential product types within Piney Creek Bend, the following standards have been established:

1. Urban 5 (Single-Family Residential Detached) – 6,000 sf. lots  
Minimum of 50 lots but no more than 60% of the total single-family lot count.
2. Suburban 6 (Single-Family Residential Detached) – 7,200 sf. lots  
Minimum of 50 lots but no less than 40% of the single-family lot count.

Total residential lot layout shall not exceed 170 lots.

To allow architectural consistency with locally prevalent and regionally appropriate architectural styles, roof pitches lower than 4:12 will be allowed within the PD.

#### **E. Lot Design Standards**

Piney Creek Bend will include a mix of residential product types and sizes. The detached residential products have been broken into two categories based upon lot width and area. Detailed design standards are included within this PD as Table 1, and are based upon the type of residential product being constructed.

**I. Trails and Parkland**

A substantial portion of the site will be dedicated as parkland/open space and development of the site will include a trail system tying back into the sidewalks creating a network of pedestrian ways within the community that can ultimately be connected to and become a critical link in the regional trail system envisioned by the City. A proposed Land Use Plan with a schematic layout of proposed trails is shown on attached Exhibit B. Parkland and Open Space will be a minimum of 25 acres.

**J. Street Standards**

Right-of-way dedication for all public streets shall conform to current City regulations at the time of platting. Street widths shall be a minimum of 26' (twenty-six feet) face-of-curb to face-of-curb within the Piney Creek Bend subdivision. Cul-de-sacs shall have a minimum radius of 50' (fifty feet).

**K. Term, Expiration and Extension of the PD**

The PD applicable to the Piney Creek Bend Development shall have a term of a maximum of ten (10) years ("Term"), at which time the PD shall automatically expire, without further notice or action by the City. However, in the event that the Developer has successfully completed a minimum of sixty percent (60%) of the

construction of the infrastructure and completed construction of at least sixty (60%) of the residential structures in the Development, as shown on the final Site Plan for the Development that has been approved and accepted by the City, and if the Developer desires to continue development of the PD, on or before 120 days prior to the expiration date of the 10 year Term of the PD, the Developer must submit a written request for an extension of the Term of the PD to the City Manager, providing documentation of the progress made in the Development of the Piney Creek Bend Subdivision, to date, and requesting the City grant an extension to same, identifying the exact length of the extension sought. Upon receipt of the written request, the Director of Planning and Development and the City Manager will coordinate a hearing before the Council, at a regular agenda, at which time the Council will hear and take action on the Developer's requested extension to the Term of the Piney Creek Bend PD. Any extension granted will be noted in the minutes of the Council and appended to this PD as an amendment to this Ordinance.
