Council Liaison Report

STAFF REPRESENTATIVE:

Dock Jackson, Council Liaison

Curtis Hancock, Public Works Director

RECOMMENDATION:

Council Liaison Jackson received an email from a citizen regarding food allergies in children and would like to discuss adding signs in City Parks to make residents aware.

Email received from Courtney Pinkowski, Bastrop resident:

I am a mother of a 3-year-old with several food allergies and I would like to propose we put up signs at the seven Bastrop parks with playgrounds that simply ask people not to eat on the playgrounds and to clean their hands after eating. I have attached some examples. Did you know Researchers estimate that 32 million Americans have food allergies, including 5.6 million children under age 18. That's one in 13 children, or roughly two in every classroom and every three minutes, a food allergy reaction sends someone to the emergency room. a food allergy can turn places that should be fun for a child into a potential danger. This is true of playgrounds. While playgrounds are places for being active, playing and interacting with other children, they also create a space where children can become exposed to a food allergen. Of course, signs are not fail-proof, because people may not always notice or follow them, but they are a step in the right direction toward helping children with food allergies. The more we can designate and separate areas for eating and areas for other activities, the better and safer life can be for children with food allergies. Also, signs educate the public about allergies and teach them how they can play a part to help. Thank you for taking the time to read and consider my proposal to put signs up at the parks.

Update and discuss the Disc Golf in Bob Bryant

STAFF REPRESENTATIVE:

Curtis Hancock, Public Works Director

BACKGROUND/HISTORY:

John Castruita talked with the Tournament Director David Feldberg who ran the Nationals Amateur Disc Golf Tour Championships back in Nov 2021 with over 1000 players from around the USA. The event generated over 3 million dollars for Austin and the surrounding towns using 14 courses. The city of Austin agreed to run it again in Nov 2022 and maybe make it permanent to be here every year. David Feldberg would like to use Bob Bryant to be part of the next tour. This will generate a lot of revenue for the City of Bastrop. Motels and restaurants will benefit from this. The event will rent out the Bob Bryant course and pavilion for 4 to 5 days generating revenue for the city. We will need to work on Cost to rent the course.

The Bob Bryant Disc Golf Ribbon Cutting is scheduled for April 22nd at 2:00 pm. Hope to see everyone.

POLICY EXPLANATION:

The Parks and Public Tree Advisory Board serves in an advisory role to the City Council and may make recommendations for actions to be considered as related to the parks.

Bastrop River Loop Project

STAFF REPRESENTATIVE:

Curtis Hancock, Public Works Director

BACKGROUND/HISTORY:

Myers Concrete construction kicked off the Bastrop River Loop Project, on October 28th, 2021. The project started at Ferry Park, with sidewalk and headwalls construction going along parts of Hwy 71 access and Loop 150. To date 2500 feet of sidewalk, and 770 feet of headwalls has been constructed, putting the project at 70% completion.

The project is in cooperation with the Bastrop Economic Development Corporation, Texas Department of Transportation, and the City of Bastrop. The \$596,545.70 cost for this project was made possible by the Bastrop Economic Development Corporation.

When completed, the Bastrop River Loop, will connect existing sidewalks on Main St. that will go onto the Hwy 71 overpass and Loop 150, then connect to the existing sidewalk at Eskew St. This will make mobility from downtown to across the river more accessible for our residents and visitors alike.

On July 13, 2021, the City Council approved the construction of the project.
