

Featuring Attractive Eco-Friendly Packaging*

Water Kit

Niagara's Water EcoKit™ features our most popular water saving products, helping to make any household or water-using space more efficient.

In addition to Niagara's effective, easy-to-install, eco-friendly products that will help save money on utility bills while saving valued resources, each Water EcoKit™ includes helpful, everyday tips for water conservation.

Item#: **XSWEK07**

*Niagara is proud to offer eco-friendly products in environmentally sound packaging made from recycled paperboard and soy-based inks.

1.5 GPM Earth® Massage Showerhead - N2915N

Powerful two-setting massage spray showerhead that does not sacrifice performance for efficiency.

1.5 GPM Kitchen Swivel Aerator - N3115V-FC

Dual-spray functionality meets efficiency in this swivel aerator, including wide-spray radius and water-pausing on/off valve, perfect for washing dishes. Powered by the same pressure-compensating technology as Niagara's showerheads.

(2) 1.0 GPM Bathroom Aerators - N3210N

Half the flow, twice the power. Commercial grade aerators for the home.

(2) Leak Detection Tablets and Tips - N3141

Two moisture resistant packets containing FDA-certified, non-toxic, dye tablets used to detect leaks in toilets. Instruction card also includes useful tips to fix leaky faucets.

Flow Meter Bag - S3151

Use to identify wasteful flow rates in sinks and showers.

Toilet Tank Bank™ - N3137

Worry-free water savings for the lifetime of the toilet. Displaces .8 gallons per flush. Patented snap closure prevents leaks and evaporation.

Toilet Water Saver (Fill Cycle Diverter) - N3164

A patented fast and easy water saver, this product takes excess water from the bowl and diverts it to the tank to reduce water consumption. (This is NOT a flow-restricting device.)

Teflon Tape - N4101

For use with threaded fixture installations. 1/2" x 60"

Water Conservation Wheel - N9116

A convenient tool which provides users with helpful tips on ways to conserve water every day.

Savings* from Water EcoKit™

	Water (gallons)	Electric (kWh)	Gas (therms)	Total Annual Dollar Savings
Electric Water Heater	25,000	1,568	n/a	\$288
Gas Water Heater	25,000	n/a	86	\$203

*based on FEMP/DOE data and an average water rate of \$4 per 1,000 gal.
