THUS ORDERED:

by: 
Robert J. Wood
Interim City Manager
City of Bastrop

This proposal is for an exterior mural on the side of the restroom wall at Fisherman's Park. This building is located in a city park, thus neighborhood approval isn't necessary. In addition, the building has no historical significance to be considered in the design process. There are no technical issues to address. Building surface, drainage, etc... are all satisfactory for a quality long lasting mural.

Dimensions of Mural: The proposed project is approximately 212 sq. feet. There are several vents dropping down 8 inches from the top. Two wires run the from top to bottom on the left side of the wall. No other objects are on the wall. The wall is in good condition, requiring only priming before beginning the mural process. See image.

Proposed Mural Description: The design is intended to call attention to the recent Bird City designation. The imagery utilized in this proposal is meant to convey a general sense of scale and complexity and may not be exactly as the final design. The image is an original design by Maria Montoya Hohenstein of an interactive hummingbird mural. The mural will display the Bird City Bastrop logo. See image.

The building face will be properly primed and prepped before painting. The artists will use professional grade acrylic paint. A high quality varnish will be applied and will secure the longevity of the mural. This mural will be executed by three experienced artists: Maria Montoya Hohenstein, Jeffrey Stayton, and Theresa Dawson. All three artists have been trained in mural-making by a well-renown muralist. All three artists have also worked on chalk murals and on different substrates of indoor and outdoor murals.

Mural Process: The lead artist has been meeting with the Bird City Bastrop Coalition Chair and members in defining the theme and finding a proper location for the mural. After many hours of sketching and planning, the artists will weave the best ideas for the final design.

The location will not require scaffolding or a lift. The artists will require and will provide a ladder and a 10 x 10 tent for shade. In the time of social distancing, we are asking for traffic cones and tape to mark off a 10 foot space from the wall while the work is in progress.

We anticipate that the work will be completed within a week, provided the weather cooperates.
