TITLE:
Public hearing and consider action on variances to Chapter 14, Zoning Ordinance, Exhibit B – Downtown Bastrop Form-Based Code, Section 7.3 Façade Composition, Section 7.6 Exterior Building Materials, Section 8.0 Streetscape and Landscape Standards to allow the continued use of a temporary modular building for 0.194 acres of Building Block 8 West of Water Street, located at 1006 Alley A, in the city limits of Bastrop, Texas.

STAFF REPRESENTATIVE:
Jennifer C. Bills, AICP, LEED AP, Assistant Planning Director

ITEM DETAILS:
Site Address: 1006 Alley A (Attachment 1)
Total Acreage: 0.194 acres
Legal Description: Building Block 8, west of Water Street, 0.194 acres

Property Owner: Calvary Episcopal Church
Applicant Contact: Shelby Hopkins

Existing Use: Private school
Existing Zoning: Form-Based Code – Downtown Mixed Use (DMU) Character Zone
Future Land Use: Downtown Bastrop

BACKGROUND/HISTORY:
Calvary Episcopal Church has private school located at 603 Spring Street and other properties along Alley A. The private school was created in 2008 and started as a Pre-Kindergarten through sixth grade. The school has recently expanded to offer seventh and eighth grade classes as well continued to expand enrollment.

Temporary buildings are not allowed to be used on a permanent basis. A modular building may be considered if it can meet all of the Site Development Plan requirements. On April 3, 2013, a variance was granted to allow a temporary building that did not meet the Site Development Plan requirements of the Zoning Ordinance (Attachment 3). A Site Development Plan was approved on July 17, 2013 that shows the location of the building but does not address all of the required site plan elements.

The building is to be removed 60 days after the end of the school year in 2018, which ends in May, and future development is to come into compliance with site requirements. Currently, the building is used for private school classrooms during the week and for Sunday school classes on the weekends.

The applicant is requesting a variance to extend the temporary building usage until the end of the 2023-2024 school year while they explore options for a new campus site. The applicant states that they do not intend to use this site as the permanent school location. The justification for the need for a temporary building is that they need time for a capital campaign to raise funds for the new campus. The applicant requests variances to the site development requirements are needed because installation of a permanent foundation, required building façade, exterior materials, and landscaping is not effective or practical (Attachment 2).
PUBLIC COMMENTS:
Notifications were sent to 15 adjacent property owners. At the time of this report, no responses were received.

 POLICY EXPLANATION:
The Zoning Board of Adjustment may authorize a variance from these regulations when, in its opinion, undue hardship will result from requiring strict compliance. In granting a variance, the Board shall prescribe only those conditions that it deems necessary to or desirable in the public interest.

In making the findings hereinafter required, the Board shall take into account the nature of the proposed use of the land involved, existing uses of land in the vicinity, the number of persons who will reside or work in the proposed use, and the probable effect of such variance upon traffic conditions and upon the public health, safety, convenience and welfare in the vicinity.

A. In order to grant a variance from these zoning regulations, the Zoning Board of Adjustments must make written findings that undue hardship exists, using the following criteria:

   a. Special circumstances or conditions exist which affect the land involved such that the strict application of the provisions of this ordinance would deprive the applicant of the reasonable use of the land.

   • The special circumstance that the applicant has listed is that the building will be temporary; however, the building has already been in place for five years and are requesting a six-year extension. They have also listed that the rules of the Episcopal Diocese of Texas prohibits private schools from borrowing money to finance a permanent building, which is a condition of the occupant, not of the use of the site.

   b. The variance is necessary for the preservation and enjoyment of a substantial property right of the applicant.

   • A variance is not necessary for use of this property. A permanent structure that meets all of the site plan requirements can be constructed in this location.

   c. Granting of the variance will not be detrimental to the public health, safety or welfare or injurious to other property in the area, and the spirit of the ordinance will be observed. Variance may be granted only when in harmony with the general purpose and intent of this ordinance.

   • The Downtown Mixed Use Character Zone is intended to encourage compatible mixed-use redevelopment in the historic downtown of Bastrop. Temporary buildings are not in the spirit of this ordinance.

   d. Granting of a variance will not have the effect of preventing the orderly use of other land in the area in accordance with the provisions of this ordinance.

   • The variance would not affect the orderly use of surrounding properties.
e. Granting of a variance must be predicated on a finding that the applicant’s practical difficulties or unnecessary hardship arise from unusual conditions or circumstances, such as exceptional irregularity of the land involved, which are not shared generally by other parcels in the neighborhood or district.

- The hardship cited by the applicant is the lack of funding to build a permanent building. There are no unusual conditions or circumstance that are unique to this property.

B. A variance is to be denied if conditions or circumstances relied on for a variance were created by a person having an interest in the property.

- This situation has been created by the applicant as raising the capital for expanded facilities was not completed in the time frame allowed by the previous variance nor in concurrence with the need for expanded facilities.

C. Financial hardship to the applicant, standing alone, shall not be deemed to constitute a hardship.

- The primary argument for needing temporary building is financial, as the applicant will move the site when funds are raised for a new location and building.

D. The applicant bears the burden of proof in establishing the facts justifying a variance.

- The Applicant has provided a letter (Attachment 2).

The recommended findings for denial are attached in the proposed Record of Action (Attachment 4). If the board feels that other findings are necessary for approval or denial, a blank Record of Action form (Attachment 5) is attached to record the findings.

RECOMMENDATION:
Public hearing and consider action on variances to Chapter 14, Zoning Ordinance, Exhibit B – Downtown Bastrop Form-Based Code, Section 7.3 Façade Composition, Section 7.6 Exterior Building Materials, Section 8.0 Streetscape and Landscape Standards to allow the continued use of a temporary modular building for 0.194 acres of Building Block 8 West of Water Street, located at 1006 Alley A, in the city limits of Bastrop.

Re:  Calvary Episcopal Church and School
     Variance – Modular Building
     Variance – Landscaping
     Variance – Detention

Chairman and Board,

We are requesting a variance for the continued placement of modular buildings within the Central Business District through the end of the 2023-2024 school year. The address of the lot and placement of the existing modular buildings is 1008 Alley A. Approval for the placement of the buildings was previously granted April 3, 2013. The buildings will continue to be used primarily by Calvary Episcopal School for classrooms and will be available for use by Calvary Episcopal Church for Sunday School Classes or other purposes.

Background:
Calvary Episcopal Church has been a fixture of downtown Bastrop since 1869. With over 450 members and its long history in Bastrop, Calvary is an anchor of Bastrop’s historic downtown district. Calvary Episcopal School (CES) began in 2003 as a Mother’s Day Out program prior to the establishment of the school. CES received accreditation status from the Southwestern Association of Episcopal Schools (SAES) in 2008 and now offers classes for PreK3 through sixth grade. The Rector of Calvary Episcopal Church chairs the Board of Trustees, which governs the school. The Board of Trustees is developing a plan of action to offer seventh and eighth grade classes. Clearly, CES fills a need within the Bastrop community with a demand that is increasing as our community grows.

The rules of the Episcopal Diocese of Texas prohibit parish day schools as CES from borrowing money. Therefore, CES does not have the ability to borrow money to construct facilities to house future grades and use future revenue to repay those loans. Instead, CES must raise money through charitable contributions of the community and grants to fully fund the construction of new buildings. CES must continue to build enrollment to sustain school growth and provide incentive for the capital funds campaign. In recent years the developers of XS Ranch had discussions with CES for a campus on land donated within their proposed development. Given the delay by XS Ranch and failure to develop the property, CES ended the discussions with XS Ranch and are now considering other options. The capital campaign could not proceed without the commitment by XS Ranch. The modular buildings provide the required space for the current enrollment and growth and expansion until a campus can be constructed.
The continued use of the modular buildings is necessary for the amount of time required for a capital campaign.

Special Circumstances:
The community demand for private, Christian education has outpaced the rate at which the school has been able to raise funds and construct facilities. The only viable option is the use of the modular buildings until a permanent campus can be funded and constructed.

Preservation of Property Rights:
Calvary has been a part of the downtown Bastrop community for well over a century. In that time, Calvary has not only worked to help the community at large, Calvary has worked hand in hand with the City to solve community problems. As an example, when the City of Bastrop wanted to construct a new library but did not have sufficient land to construct parking, Calvary provided a long-term lease (at no cost) to the City to construction of parking on land adjacent to the library owned by the church.

In order to continue to grow and meet its mission of providing a private, Christian education to the community of Bastrop, CES needs the modular buildings for classroom space for five years while arrangements are finalized for permanent facilities.

Detrimental to Public Health, Safety or Welfare:
The modular buildings at CES comply with all health and safety regulations and the Uniform Building Code for such structures and do not affect any adjacent property owner’s rights.

Orderly Use of Land in the Area:
Calvary is committed to a strong and vibrant Bastrop. As an example, Calvary (under a subsidiary) operates a “business incubator” on Main Street (the R.A. Greene Mercantile) that provides an effective environment for start-up locally owned retailers to get a start. This variance request is temporary (through the end of the 2023-2024 school year) and property in question is bounded by land owned by the church with the exception of a small strip of land (approximately 30-ft wide) used occasionally for the parking of one to two cars. Therefore, the proposed variance will not impact the orderly development of land in the area.

Public Health, Safety and Welfare:
The modular buildings at CES will continue to comply with all health and safety regulations and the Uniform Building Code for such structures. The spirit of the City of Bastrop’s ordinances will be preserved by the granting of the variance.

Secondary Variances:
Being a temporary facility, strict application of several requirements of the City of Bastrop code would be injurious to CES and not serve a practical purpose. Specifically, the installation of permanent trees and shrubs and the City’s detention requirements would not be effective and not practical.
Landscaping. Any permanent landscaping (trees, shrubs, etc.) would not effectively screen the buildings for many years – and would be destroyed when the temporary structures are removed. In addition, the zoning district permits zero lot line development – so it is unclear how side lot landscaping requirements are applied within this zoning district.

Detention. No detention was required as part of the initial installation of the modular buildings. The property drains directly to an area inlet located at the end of Church Street at Loop 150. In existing conditions, the 100-year storm water runoff to the drain is approximately 10-cubic feet per second (cfs). The addition of the modular buildings over the existing gravel loading area has increased the total run off to this area inlet by 0.1-cfs or less (an inconsequential increase). Coincidentally, CES completed improvements to a grass play field adjacent to the shared library/Calvary parking lot in 2012 that resulted in decreased storm water runoff to the same area inlet that the storm water from the temporary building drains to; essentially off setting any increased flows. In the event runoff that exceeds the capacity of this area inlet, it will drain across property owned by the church and the Loop 150 embankment to reach the 100-year floodplain of the Colorado River.

Thank you for your consideration.

ACTION OF THE CITY OF BASTROP
ZONING BOARD OF ADJUSTMENT

GRANTING VARIANCE

WHEREAS, Calvary Episcopal Church, ("Applicant") of Bastrop, Texas, is the owner of the property legally described as being approximately 0.1945 acres within Building Block 8, West of Water Street, commonly known as 603 Spring Street (1008 Alley A); Bastrop, Bastrop County, Texas ("Property"); and

WHEREAS, said Property is located in an area zoned under the City’s Zoning Ordinance as CBD, Central Business District; and

WHEREAS, Applicant has applied for a variance to the City of Bastrop Zoning Ordinance, for the Property within the CBD, Central Business Zoning District, in accordance with Section 9.8 of the City’s Zoning Ordinance; and

WHEREAS, Applicant desires a variance be granted to allow “temporary” building and site construction for a total of 5 years until the end of school year 2017/2018 and variances to landscaping and site plan detail for a 3,150 square foot building located at 603 Spring Street (1008 Alley A); and

WHEREAS, Applicant has filed a proper request for such variance; and

WHEREAS, Applicant alleges that strict compliance with the City’s Zoning Ordinance would result in undue hardship to Applicant, pursuant to Section 9.8 of the City’s Zoning Ordinance; and

WHEREAS, public notice has been given and a public hearing was held on April 3, 2013 before the Bastrop Zoning Board of Adjustment, with at least the statutory required 75% of members being present.

NOW THEREFORE, THE BASTROP ZONING BOARD OF ADJUSTMENT FINDS THAT:

1. The circumstances required for granting approval of the above described variance, as set out in Section 39 and Section 42.1 C of the City’s Zoning Ordinance, do exist on the property legally described as being approximately 0.1945 acres within Building Block 8, West of Water Street, commonly known as 603 Spring Street (1008 Alley A);

WHEREAS, Calvary Episcopal Church, (“Applicant”) submitted a request for a Zoning Variance the Form-based Code Section 7.3 Façade Composition, Section 7.6 Exterior Building Materials, Section 8.0 Streetscape and Landscape Standards to allow the continued use of a temporary modular building for 0.194 acres of Building Block 8 West of Water Street, located at 1006 Alley A, in the city limits of Bastrop, Texas (“Property”); and

WHEREAS, the Property is located in an area zoned under the Bastrop Zoning Ordinance as Form-based Code Downtown Mixed Use (DMU) Character Zone; and

WHEREAS, the Applicant has requested a variance in accordance with Section 9.8 of the Bastrop Zoning Ordinance; and

WHEREAS, the Applicant is requesting variances to the Site Development Plan requirements to extend the use of a temporary building approved April 3, 2013 until the end of the 2023-2024 school year; and

WHEREAS, the Section 42 of the Bastrop Zoning Ordinance requires a Site Development Plan that complies with all site plan regulations; and

WHEREAS, a temporary building does not meet Form-based Code Section 7.3 Façade Composition, Section 7.6 Exterior Building Materials, Section 8.0 Streetscape and Landscape Standards; and

WHEREAS, the Applicant alleges that strict compliance with the Bastrop Zoning Ordinance would result in undue hardship, pursuant to Section 9.6 of the Bastrop Zoning Ordinance; and

WHEREAS, public notice has been given and public hearing was held on February 7, 2018 before the Bastrop Zoning Board of Adjustment, with at least the statutory required 75% of members being present, and

WHEREAS, in order to grant a variance from these zoning regulations, the Zoning Board of Adjustments must make written findings.

NOW THEREFORE, THE BASTROP ZONING BOARD OF ADJUSTMENT MAKES THE FOLLOWING FINDINGS:

1. In order to grant a variance from these zoning regulations, the Board of Adjustments must make written findings that undue hardship exists, using the following criteria:
a. Special circumstances or conditions exist which affect the land involved such that the strict application of the provisions of this ordinance would deprive the applicant of the reasonable use of the land.

- The special circumstance that the applicant has listed is that the building will be temporary; however, the building has already been in place for five years and are requesting a six-year extension. They have also listed that the rules of the Episcopal Diocese of Texas prohibits private schools from borrowing money to finance a permanent building, which is a condition of the occupant, not of the use of the site.

b. The variance is necessary for the preservation and enjoyment of a substantial property right of the applicant.

- A variance is not necessary for use of this property. A permanent structure that meets all of the site plan requirements can be constructed in this location.

c. Granting of the variance will not be detrimental to the public health, safety or welfare or injurious to other property in the area, and the spirit of the ordinance will be observed. Variance may be granted only when in harmony with the general purpose and intent of this ordinance.

- The Downtown Mixed Use Character Zone is intended to encourage compatible mixed-use redevelopment in the historic downtown of Bastrop. Temporary buildings are not in the spirit of this ordinance.

d. Granting of a variance will not have the effect of preventing the orderly use of other land in the area in accordance with the provisions of this ordinance.

- The variance would not affect the orderly use of surrounding properties.

e. Granting of a variance must be predicated on a finding that the applicant's practical difficulties or unnecessary hardship arise from unusual conditions or circumstances, such as exceptional irregularity of the land involved, which are not shared generally by other parcels in the neighborhood or district.

- The hardship cited by the applicant is the lack of funding to build a permanent building. There are no unusual conditions or circumstance that are unique to this property.
2. A variance is to be denied if conditions or circumstances relied on for a variance were created by a person having an interest in the property.

- This situation has been created by the applicant as raising the capital for expanded facilities was not completed in the time frame allowed by the previous variance nor in concurrence with the need for expanded facilities.

3. Financial hardship to the applicant, standing alone, shall not be deemed to constitute a hardship.

- The primary argument for needing temporary building is financial, as the applicant will move the site when funds are raised for a new location and building.

4. The applicant bears the burden of proof in establishing the facts justifying a variance.

- The Applicant has provided a letter.

Therefore, the request to grant the variances to Zoning Variance the Form-based Code Section 7.3 Façade Composition, Section 7.6 Exterior Building Materials, Section 8.0 Streetscape and Landscape Standards to allow the continued use of a temporary modular building, as noted herein, IS HEREBY DENIED with the following conditions, if any: and

WHEREAS, a temporary building does not meet Form-based Code Section 7.3 Façade Composition, Section 7.6 Exterior Building Materials, Section 8.0 Streetscape and Landscape Standards; and

WHEREAS, the Applicant alleges that strict compliance with the Bastrop Zoning Ordinance would result in undue hardship, pursuant to Section 9.6 of the Bastrop Zoning Ordinance; and

WHEREAS, public notice has been given and public hearing was held on February 7, 2018 before the Bastrop Zoning Board of Adjustment, with at least the statutory required 75% of members being present, and

WHEREAS, in order to grant a variance from these zoning regulations, the Zoning Board of Adjustments must make written findings.

NOW THEREFORE, THE BASTROP ZONING BOARD OF ADJUSTMENT MAKES THE FOLLOWING FINDINGS:

1. In order to grant a variance from these zoning regulations, the Board of Adjustments must make written findings that undue hardship exists, using the following criteria:

</tr>
<tr>
<td>c.</td>
<td>Granting of the variance will not be detrimental to the public health, safety or welfare or injurious to other property in the area, and the spirit of the ordinance will be observed. Variance may be granted only when in harmony with the general purpose and intent of this ordinance.</td>
</tr>
<tr>

</tr>
<tr>
<td>d.</td>
<td>Granting of a variance will not have the effect of preventing the orderly use of other land in the area in accordance with the provisions of this ordinance.</td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>e.</td>
<td>Granting of a variance must be predicated on a finding that the applicant's practical difficulties or unnecessary hardship arise from unusual conditions or circumstances, such as exceptional irregularity of the land involved, which are not shared generally by other parcels in the neighborhood or district.</td>
</tr>

2. A variance is to be denied if conditions or circumstances relied on for a variance were created by a person having an interest in the property.

•

3. Financial hardship to the applicant, standing alone, shall not be deemed to constitute a hardship.

•

4. The applicant bears the burden of proof in establishing the facts justifying a variance.

•

Therefore, the request to grant the variance to Form-based Code Section 6.7 b (i) to allow a 25 foot front setback, as noted herein, IS HEREBY _________, with the following conditions, if any:

1. ________________________________________________________________
2. ________________________________________________________________
3. ________________________________________________________________
4. ________________________________________________________________
5. ________________________________________________________________

This matter was heard by at least 75% of the members of the Board who voted as follows:

And; The action of the Bastrop Zoning Board of Adjustment, concerning this request for a variance to the City’s Zoning Ordinance, was approved by a minimum of at least four (4) members of the Board, in full compliance with the Local Government Code, Section 211.009(c)(3); and
