STAFF REPORT

MEETING DATE: July 16, 2019

AGENDA ITEM: 3B

TITLE:

Discuss the review and adoption of the 2018 International Building codes (I-Codes), including but not limited to the International Building Code (IBC) and the International Mechanical Code (IMC).

STAFF REPRESENTATIVE:

Matt Jones, Director of Planning and Development

BACKGROUND/HISTORY:

Building Bastrop launched on August 15, 2018 to create a new set of tools that will support the community in a responsible manner for generations to come. When looking at the Policy Statement adopted by City Council on February 26, 2019, a key component is that the codes be fiscally sustainable. The Building Bastrop Codes focus on the public realm (first 15' of a property), infrastructure, and life safety. The International Code Council (ICC) Building Codes (I-Codes) will regulate life safety. The I-Codes are standards used in the design, build, and compliance process to construct safe, sustainable, affordable, and resilient structures.

It is not uncommon for cities to update their codes every few years. Bastrop last updated these codes in 2012 when the 2009 I-Codes were adopted. There have been several updates to the I-Codes since 2009 and with the release of the 2018 I-Codes, we are now two (2) code updates behind and our building codes are over ten (10) years old.

The Construction Standards Board (CSB) has two main responsibilities. The first is to hear appeals of a decision made by the Building Official, and the second is to review and make recommendations to City Council regarding building codes. The CSB and Staff will review the 2018 I-Codes using the following proposed purpose statement as amended by City Council on March 26, 2019 for the basis of the code review:

“Review national best practices and establish locally amended life safety expectations that protect our public and ensure the asset meets or exceeds its useful life.”

The I-Code review process provides the CSB, Staff, and the community a chance to evaluate the codes for opportunities to make local amendments. Adopting localized amendments will ensure that the I-Codes as amended are fiscally sustainable, authentic Bastrop, and protect life safety.

Staff is committed to improve the development and permitting process. A part of that commitment will involve resolving conflicting language in different sections of the codes as part of this review. To decrease the chance of conflicting language in the future, the I-Codes will be referenced in the Building Bastrop Codes, but will be located in the Technical Manual. The Technical Manual will be a comprehensive manual serving as a single location for all technical criteria required to

develop or build in Bastrop. Having the codes located in one location will discourage the possibility of conflicting codes in different sections of the code.

Staff has established a set of review criteria that will serve as a guide when evaluating the codes. The evaluation criteria are listed below:

- Does it meet our purpose statement?
- Remember who the customer is.
- Does it make common sense?
- Can we legally enforce it?
- Does the code need to be inspected annually or another routine basis?

POLICY EXPLANATION:

Using Council's Purpose Statement for Building Bastrop as a guide, Staff developed a Purpose Statement for the I-Code update for use by the Construction Standards Board and Staff related to all code review. The proposed statement was reviewed and revised by City Council at their March 26th meeting.
