The Contract is modified as follows upon execution of this Change Order:

Description: Existing 6-inch (6") sanitary sewer line was discovered upon removal of existing concrete pavement and beginning of excavation activities within channel. Based on location / depth, existing line would be exposed upon completion of improvements and potentially catch trash / debris and block storm water flows if left in place. This change order would re-locate the existing 6-inch (6") sewer line to the north side of the drainage improvements and allow for the existing line that is crossing the channel to be removed.
