Please note that the above listed testers are not affiliated with the City of Bastrop. They are independent, certified backflow assembly testers. **The City neither endorses nor recommends any company listed above. This list is provided only as a courtesy; it is the property owner's responsibility to contact the Certified Backflow Tester of their choice and make arrangements for the testing of the backflow device(s) that is installed on their property.**

Once the test(s) has been completed, the tester will submit a completed Test and Maintenance Report to this office. If you would like a copy of this report for your records, please notify your certified tester.

If you'd like the names of other testers in the Austin area, please call Kimberly at the City of Bastrop Water & Wastewater Office. (512) 332-8960
