MEETING DATE: November 10, 2020

AGENDA ITEM: 5A

TITLE:
Receive a presentation and hold a discussion with Jonathan Jenkins regarding the NEU community development project.

STAFF REPRESENTATIVE:
Trey Job, Assistant City Manager of Development Services

BACKGROUND/HISTORY:
Mr. Jenkins reached out to city staff requesting a pre-application meeting to discuss the proposed project on August 27, 2020. The first available date was September 10, 2020. However, the following day Aug. 28th staff provided information about the entities that would serve utilities to their site, and City Planner Land also provided a copy of the transportation grid map just to make sure the development was aware of the block standards adopted by city council as part of the update to chapter five of the Bastrop Comprehensive Plan.

At the September 10th meeting we discussed a plethora of items such as wastewater reuse, a low-pressure waste water collection system and a treatment plant, open space, walkability, street connectivity and we received a presentation on the type of housing product the development is proposing. The NEU development expressed a great deal of interest to have housing units on the ground in January of 2021. I explained the timeline was very aggressive but we would do our best to move the project as fast as we could once we received an application and something we could review. Also discussed at this meeting was alternative approaches the development could take to maintain compliance with the street grid requirement.

I then explained the quickest way to provide the development with waste water would be to tie into the city of Bastrop waste water system. Installing a separate collection system and treatment plant would require no less than a year to be permitted by the Texas Commission of Environmental Quality (TECQ). That spurred a follow up meeting with the project engineer on September 16th.

In the September 16th meeting we looked at another concept plan that did not address the ETJ’s grid requirements, and we discussed how to provide waste water utilities that included reuse. The engineer also asked about the possibility of connecting to the Colony’s Waste Water Treatment Plant. (City Manager Hofmann and I followed up with the Colony M.U.D. and there was no interest from the Mr. Neff or his team.) Once we got the utility discussion out of the way we discussed the provided concept in more detail. I explained if the road network they were requesting didn’t meet our transportation plan and that we were happy to take a zoning concept scheme to a future planning and zoning, and city council meeting. (Zoning would be required if voluntary annexation was being considered.) I also explained if annexation was not being considered, we would still need to bring a concept plan to city council for approval because it didn’t comply with the Master Transportation Plan.
Understanding the development was interested in moving as quick as possible I asked several questions such as:

- Will you be requesting a financing mechanism like a M.U.D, a PID or some other special district?
- Do you intend to voluntary annex?
- How many homes were you planning to build and how many L.U.E.s were you requesting?
- Do you have a phasing plan for the development?
- Do you plan to start with the commercial property or would some single family development be in the first phase?

The answer from Mr. Jenkins was he was unsure but would talk to his team and make decision quickly. I clarified we could put all of that detail into development agreement once some decisions were made but the decision all impacted his schedule so the quicker he submitted something the quicker he could move forward. Subsequent meetings were held on September 20th and October 15th.

The October 15th meeting was held at the BEDC office, it was attended by staff from Bastrop County, the City of Bastrop, the Bastrop Economic Development Corporation, and representatives from the proposed NEU development. Not quite all of those decisions had been made from the aforementioned questions, and more discussion was required about the development agreement, and the requirement to build a connection to S.H. 20. At the close of the meeting Mr. Jenkins was going to gather the information needed to write the development agreement and send it to staff by the following week starting on October 19th. On October 20th In an effort to assist our future customer I provided a list of items that should be addressed in a development agreement provided by our talented City Attorney.

On November 3rd I received an email from Mr. Jenkins asking that we begin review of draft development agreement and asked that we place a workshop item on the November 10th Bastrop City Council Agenda. I attached an email from Mr. Jenkins stating he would like to close on the 410-acre property by December 15th below that is a proposed timeline from the developer’s attorney that would allow the development agreement to be approved prior to closing on the property. Planning staff provided Mr. Jenkins with the process of submitting a development agreement through the MyGov software. As of November 4th no application or a complete development agreement has been submitted.

**RECOMMENDATION:**
Council should receive the information from Mr. Jenkins and provide feedback as appropriate. Important considerations are the time necessary to adequately review the draft development agreement, concept plan, and PID financials, the conformance of the proposed development with B3 code requirements, master transportation plan, infrastructure development, and annexation. City staff is happy to work with the developer to create a reasonable timeframe for city review and consideration.

- Email from Mr. Jenkins
Hi Connie, Paul, and Trey;

Hope y'all are doing well. I wanted to forward you below an email from our lawyer and the initial draft of the development agreement.

I very much appreciate your support to date as we are on a very rushed schedule to begin our NEU Community project in Bastrop. Our scheduled close date on the property is Dec 15th and for legal, tax and financial reasons we must close on schedule and get to work to hit our goal of our modular units on the ground as soon as possible. However, to get the property closed on time and started on the work we need to have the development agreement approved first.

I just found out from Jean at EDC that the city counsel will only be meeting once in November and once in December. Our legal and financial team has put a schedule below that can help us accomplish what we need to do.

Allison just got me what I need to set up the mygov account to submit plans for review. We will be sending you all the exhibits to this agreement and PID financial analysis this week as well, along with the tax revenue to the city. But I didn't want to wait to get you the draft of this agreement until the exhibits are complete.

Talley Williams, who is our legal counsel, is happy to engage you and your legal team right away to answer any comments you have on this draft. I believe we addressed everything we talked about in our meeting with you and the county. If I have missed something please let me know so we can include it.

I know this is a unique project with a unique schedule but I again very much appreciate you working with us.

On another note, I already have other cities around the country who are excited to use this model of how we are working with Bastrop to quickly deploy their own NEU Communities in their regions. When we get our first units on site there will be a flood of mayors and local leaders from all over the country coming in to see how we accomplished this together.

Happy to jump on a call anytime to review. And let me know if we can get on the agenda as outlined below.

Jonathan

Jonathan-

Attached is the latest draft of the Development Agreement. It is my understanding that 1 of the 2 council meetings for both November and December have been cancelled, so our timeframe to get the Development Agreement and PID completed before our drop dead date of December 15th is going to be very tight. Those of us on the legal/engineering/financing side for you are ready and able to get things turned around as quickly as needed. That being said, I’ve put together the following schedule that would need to be met in order to meet the project’s deadline:

1. November 3, 2020 – Development Agreement submitted to the City for review.

2. November 6, 2020 – Exhibits to the Development Agreement submitted to the City;
   PID financial analysis provided to the City; Concept Plan submitted to the City

3. November 10, 2020 – City Council Workshop – Jonathan to present project overview to the Council. PID Petition will also be submitted and a formal request made for the Council to accept the PID Petition and set the public hearing for the PID Creation.

4. Publish notice of the public hearing in the Bastrop newspaper at least 15 days prior to the public hearing – need to know the publication days to provide an accurate date.

5. Week of November 30th – City Council to hold a Special Called City Council Meeting to: 1) Consider approval of the Development Agreement 2) conduct the Public Hearing for the PID Creation, 3) Consider approval of the PID Creation (and any other related documents)

6. December 8, 2020 – this regularly scheduled City council meeting could be used as a backup date for any additional items related to the project - if needed.

For the legal and financial reasons we have discussed, we need all of the foregoing to happen in advance of our December 15th deadline. Please let me know if you have any questions. Thank you.

AGENDA ITEM: 6A

TITLE: Receive an update on all City of Bastrop active, pending, and future grants.

STAFF REPRESENTATIVE: Trey Job, Assistant City Manager of Development Services

BACKGROUND/HISTORY:
Grants can provide valuable resources for organizations to carry out projects or provide services they otherwise would not be able to. It is important to remember, however, that grants are competitive. A lot of time and preparation are required to find grant opportunities, plan a project, and then develop a proposal.

Having a realistic understanding of the grant process and of the time and resources required to submit a competitive application is important and should be managed holistically. Regardless, grants have many advantages and are a great way to further our organization’s mission.

This update is to provide a brief summary of the grants the city has recently completed and or pending at various levels of approval/award. Grants often are completed over multiple fiscal years. For example, the hazardous mitigation grant program funded by FEMA and managed through the Texas Department of Emergency Management (TDEM) allowed the city to make several drainage projects that required a local match of 25%. Other hazardous mitigation or Community development grants are managed through various state organizations such as the General Land Office (GLO) or the Texas Department of Agriculture (TDA).

In addition to the grants provided by various state and federal organizations for disaster recovery city staff is constantly searching for other grants. This report will provide an update on grants specific to monies provided by the CARES ACT, libraries, police and fire departments.

POLICY EXPLANATION:
In the past the City of Bastrop City Council has encouraged staff to find new funding sources to promote fiscal sustainability, protect the public health, life safety, and enhance service we provide.

- Sec. 26.05 (d) the governing body of a taxing unit may not adopt a tax rate that exceeds the lower of the voter-approval tax rate or the no-new-revenue tax rate calculated as provided by this chapter until the governing body has held one public hearing on the proposed tax rate.

ATTACHMENTS:  
November 5 Memorandum from the City Manager describing the Reorganization Plan.
TO: Honorable Mayor and Members of the Bastrop City Council
FROM: Paul A. Hofmann, City Manager
DATE: November 5, 2020
SUBJECT: Presentation of City Manager’s Proposed Reorganization Plan

**Background**

As we discussed in August, elements of the City’s organizational structure remained in flux as Council considered the FY 21 budget. At the time, I suggested to Council that we avoid adding new positions to the budget, that we keep the Planning Director position vacant for six months, and that I take more time to assess the organizational plan for the hospitality, multimedia, and main street operations.

After several weeks of receiving Council input, becoming familiar with the staff team, and meeting with community partners, I am prepared to present a reorganization plan during the November 10 City Council meeting. As the plan would ultimately result in a different departmental alignment, Council would be asked to approve the plan on December 8. Should we stay on that schedule, the plan goes into effect the first of calendar year 2021.

**What we are hoping to accomplish**

As the still relatively new Bastrop City Manager, I feel very fortunate to have inherited the team of department directors and other staff employed here. This management team cares deeply about this community, is committed to Council’s priorities, works well with each other, and understands the job. My objective is to create horizontal and vertical alignment while not detracting from what the team already does well.

**City Council Focus Areas**

Everything we do should link back to the City’s Comprehensive Plan and in particular the Council’s Nine Focus Areas. An area of focus for our Communications and Special Events cross-functional team is the production of quarterly reports intended to provide information to the Council and public on what we are doing towards Council’s priorities as established in those 9 areas.

The City Council recently provided additional clarity and precision via the City Manager candidate profile in letting the potential new City Manager know that they would be asked to concentrate on three of the focus areas. Those areas are:

- Communication
- Fiscal Responsibility
- Organizational Excellence

**Communication**

The Reorganization Plan creates structural emphasis on how the City sends and receives messages from the community. We are developing a *messaging strategy* that will ensure we are listening and responding to our citizens and community partners, that our formal reporting is relevant and meaningful, and that everyone knows their responsibility for delivering the City’s message.
The Plan creates a role for the facilitation of public and private special events. Collaborative community-wide event planning will increase creativity and link together existing events with community assets and local hotels. The conversations held so far with community partners on the possibilities have been encouraging and much appreciated.

The Plan calls for the reestablishment of the position of city engineer. A responsibility of the city engineer will be the development, monitoring, and reporting on the City’s long-range capital plan. The city engineer will be expected to produce frequent status reports on the status of capital project schedule and funding. The city engineer position will be reclassified from the currently vacant Planning Director position.

**Fiscal Responsibility**

The Plan requires no additional positions and is accomplishable within the current budget. We will take advantage of vacancy savings, savings in contracted engineering services, and we will utilize existing capital project funding for a portion of the compensation of the City Engineer.

Work continues on the compensation analysis approved in the FY 21 budget. That analysis will provide assistance in the precise establishment of revised job descriptions and will confirm the right placement of positions in the market. As we discussed during the adoption of the FY 21 budget, a budget amendment may be necessary after we review the study analysis. We will have good data on where we stand both generally and specifically with particular positions. Unappropriated reserves above the Council policy amount are available to fund a potential budget amendment.

The Plan also puts focus on the expenditure of hotel-motel funds, ensuring that an ongoing objective is linking those expenditures to overnight stays in Bastrop. Reference the facilitated events planning with community partners mentioned above.

**Organizational Excellence**

**City Planning**

The Plan puts people in positions where they can be most effective. In the new plan, Assistant City Manager Trey Job will continue to also serve as director of the planning department. Mr. Job’s knowledge of and commitment to the B3 Code would not be matched by any new addition to the team. Mr. Job is in the midst of building a very effective and responsive planning and development team; and we do not wish to lose momentum. Strides have already been made with filling important positions, implementing MyGov, and creating expectations for excellent customer service. Successful implementation of the B3 Code is still a work in progress and warrants the attention of an Assistant City Manager.

**Engineering and Capital Project Management**

Mr. Job will also supervise the newly created Engineering and Capital Project Management Department. This department will be resourced by our in-house construction manager. A significant portion of Mr. Job’s current workload associated with both funded and unfunded capital projects will shift to the city engineer. This is an important objective given the need to focus on the B3 Code implementation mentioned above.

In addition to improved reporting on capital projects, the City Engineer will have an important development review role, including filling the role of flood plain administrator for the City. As Council is aware, an emphasis on managing growth in the extraterritorial jurisdiction is stormwater management. It is beneficial to have an in-house resource for this important and ongoing work. This is consistent with Council’s “Manage Growth” Focus Area.
Public Works and Bastrop Power & Light Departments

Mr. Job will also continue to supervise the Public Works and Bastrop Power & Light Departments. An improvement area will be how the City manages facilities within the Public Works Department.

Main Street Program

The Plan also elevates the role of Main Street Manager Rebecca Gleason to Assistant City Manager, and in so doing also elevates the presence of the Main Street Program and the Historic District. Here we fold in the “Uniquely Bastrop” Focus Area, recognizing, taking advantage of, and resourcing the soul of the community. The Plan puts structure around our efforts to “maintain our historic community feel by leveraging the unique combination of community, cultural, and recreational assets that make Bastrop a special place to live and work” (reference City Council 9 Focus Areas document).

This is Assistant City Manager-level work, and Ms. Gleason’s background and time spent as Main Street Manager uniquely qualifies her for the role. She has made a career out of values-based leadership, logical problem solving, and establishing healthy relationships and networks with community partners. Similar to the situation with Mr. Job, Ms. Gleason will be asked to serve as both Director and Assistant City Manager and to maintain the positive momentum.

Events

As indicated earlier, one key to success will be facilitating event planning. A priority will be the successful marketing of local (Historic District) events to visitors. We should not be myopic in our view of local events vs. events targeted at visitors, how the convention center is utilized vs. local hotels, the City’s management of events vs. non-city events. Ms. Gleason, along with altered roles for Victoria Psencik and Kathy Danielson, will be responsible for making sure the long list of community support groups, community assets, event organizers, and Visit Bastrop are all working collaboratively toward the same objectives and effectively programming our City assets including the Convention Center and Historic District.

Library and Information Technology Departments

Ms. Gleason as Assistant City Manager will also be responsible for supervising the Library and Information Technology Departments. These departments have an important function in how we use and share information, and the Plan establishes important horizontal alignment. Ms. Gleason will also oversee our public information function and will supervise a reclassified position focused on customer service and responsiveness to citizens who contact the City with service requests.

Public Safety and Administration

Reporting to the City Manager in this Plan will be the departments of Human Resources, Finance, City Secretary, Police, and Fire.

Span of Control

As a result, the City Manager will have seven direct reports, the Assistant City Manager for Community Development (Mr. Job) will have four, and the Assistant City Manager for Community Engagement (Ms. Gleason) will have seven. I believe given the nature of the work this is an appropriate span of control distribution.
Next Steps

I look forward to providing additional detail and answering your questions during the November 10 City Council meeting. Bastrop is blessed with strong volunteers and several community partners. An objective of this Plan is to better align the City’s resources with the good work already being done in the community. The idea is not to manage that good work, but because there is a natural overlap in service delivery, ensure that roles, responsibilities, and relationships are understood. The City has an important role to play, especially when City resources are involved, to ensure there is good communication and accountability.

Council will not be asked to vote on November 10. On December 8, Council will be asked to amend current City Code language regarding the establishment of City departments. As indicated earlier, we are planning a January 1 implementation date.

In the meantime, we have begun the process of rewriting job descriptions in accordance with the Plan. We are also providing information to our compensation study consultant so that we can compare the newly defined positions in the market.

Based on the feedback I receive on November 10; I would like to proceed with filling the City Engineer position as soon as possible.

Thank you for your consideration.

AGENDA ITEM: 8B

TITLE:
Consider action to approve Resolution No. R-2020-110 of the City Council of the City of Bastrop, Texas, approving the Bastrop Public Library to accept a grant in the amount of Twelve Thousand and 00/100 Dollars ($12,000) from the Hancher Foundation for the purchase of laptops and hotspots for use by library patrons and providing an effective date.

STAFF REPRESENTATIVE:
Becca Sexton, Library Director

BACKGROUND/HISTORY:
The Bastrop Public Library has applied for and been awarded a $12,000 Hancher Foundation grant for libraries serving populations of 50,000 or less. This funding will support the creation of a program to circulate laptops and hotspots to increase technology access and connectivity in our community.

The original grant application was for $18,111 for ten laptops and ten hotspots. To keep the project within the $12,000 budget we will reduce the number of circulating laptops to five, saving $5,105 on laptops and $350 on software, and the number of hotspots to 9, saving $520 on the hotspot and internet service plan. The remaining $136 will be saved by purchasing a smaller storage cart to accommodate the reduced number of laptops.

POLICY EXPLANATION:
The City of Bastrop’s Finance Policy requires all grants to be formally accepted by the City Council.

FUNDING SOURCE:
Hancher Foundation, Columbus, Texas

MEETING DATE:  November 10, 2020                      AGENDA ITEM: 8F

TITLE:
Consider action to approve Resolution No. R-2020-114 of the City Council of the City of Bastrop, Texas approving the Fourth Amendment to Consent Agreement for the Colony Municipal Utility District No. 1 and Successor Districts to be Created by Division of the Colony Municipal Utility District No. 1, as attached in Exhibit A; authorizing the City Manager to execute all necessary documents; and establishing an effective date.

STAFF REPRESENTATIVE:
Trey Job, Assistant City Manager of Development Services

BACKGROUND/HISTORY:
The City of Bastrop previously entered into a “Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be created by the Division of the Colony Municipal Utility District No. 1” on February 23, 2004, which provided for the creation of the Original District, the division of the Original District into Successor Districts, and a regulatory process for the development of ±1491.04 acres of land within the City’s extraterritorial jurisdiction.

The City of Bastrop subsequently entered into a “First Amendment to Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be created by the Division of the Colony Municipal Utility District No. 1” on June 14, 2016, a “Second Amendment” on November 7, 2017, and a “Third Amendment” on November 12, 2019.

In the last amendment, not all references within the previous documents were amended to increase the allowable Living Unit Equivalents (LUEs), from 2,500 to 4,300, which this amendment corrects.

The amendments also are revising the development standards to allow block lengths that exceed the city subdivision standards of 1,500 feet where there are project limits or geographic issues. The Land Use Standards table will also be amended to allow a single-family lot standard 40-feet wide to offer greater diversity in housing products.

The Parties recognize that having approved multiple amendments to the original agreement has created difficulty in applying the standards and requirements found in all of the documents. The developer will submit a revised Consent Agreement and a separate Development Agreement for review in the next year to have a comprehensive document for ease of use, reference, and administration.

POLICY EXPLANATION:
The Local Government Code allow municipalities to authorize Municipal Utility Districts within the extraterritorial jurisdictions.

RECITALS

WHEREAS, the City and Sabine Investment Company, a Delaware corporation (“Sabine”), previously entered into a Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be Created by the Division of The Colony Municipal Utility District No. 1 dated effective as of February 23, 2004 (the “Original Consent Agreement”), which, among other things, provided for the creation of the Original District, the division of the Original District in to the Successor Districts, and a regulatory process for the development of ±1491.04 acres of land within the City’s extraterritorial jurisdiction;

WHEREAS, as permitted by the Creation Legislation and the Original Consent Agreement, the Original District subsequently divided in to the Successor Districts pursuant to an election held by the Original District on February 5, 2005;

WHEREAS, as required by the Original Consent Agreement, District 1A joined in and consented to the Original Consent Agreement by Joinder and Consent to Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be Created by the Division of The Colony Municipal Utility District No. 1 dated May 18, 2005, and each of the remaining Successor Districts joined in and consented to the Original Consent Agreement by a Joinder and Consent to Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be Created by the Division of The Colony Municipal Utility District No. 1 dated June 14, 2005;
WHEREAS, effective December 30, 2006, Sabine merged with and into Forestar (USA) Real Estate Group Inc., a Delaware corporation (“Forestar”), at which time Forestar succeeded, by operation of law, to Sabine’s interest in and to the Original Consent Agreement. To memorialize the merger, Forestar also joined in and consented to the Original Consent Agreement by Joinder and Consent to Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be Created by the Division of The Colony Municipal Utility District No. 1 dated effective December 30, 2006;

WHEREAS, the City, Forestar, and the Successor Districts entered into a First Amendment to Consent Agreement for the Colony Municipal Utility District No. 1 and Successor Districts to be Created by Division of the Colony Municipal Utility District No. 1 dated effective as of June 14, 2016 (the “First Amendment”) to amend the Original Consent Agreement to establish development standards for single family residential lots in the Project, revise the procedures for inspections and testing of subdivision infrastructure, and reflect certain administrative updates;

WHEREAS, Forestar, with the consent of the City and the Successor Districts, subsequently assigned all of its right, title, and interest in, to, and under the Consent Agreement to Hunt pursuant to an Assignment of Consent Agreement for The Colony Municipal Utility District No. 1 and Successor Districts to be Created by the Division of The Colony Municipal Utility District No. 1 and Consent dated effective December 30, 2016;

WHEREAS, the City, Hunt, and the Successor Districts later entered into a Second Amendment to Consent Agreement for the Colony Municipal Utility District No. 1 and Successor Districts to be Created by Division of the Colony Municipal Utility District No. 1 dated effective as of November 7, 2017 (the “Second Amendment”) to further amend the Original Consent Agreement to (i) modify the lot standards approved in the First Amendment in order to incorporate a new category for single family attached product; (ii) establish certain minimum building standards for the single-family residential uses within the Project; (iii) ratify the City’s prior consent to the annexation of the so-called Isbell and Archer tracts into District 1A; and (iv) establish a procedure for administrative approval by City staff of future amendments that are minor in nature;

WHEREAS, the City, Hunt, and the Successor Districts subsequently entered into a Third Amendment to Consent Agreement for the Colony Municipal Utility District No. 1 and Successor Districts to be Created by Division of the Colony Municipal Utility District No. 1 dated effective as of March 4, 2020 (the “Third Amendment”) to further amend the Original Consent Agreement to (i) adopt a Project Master Plan and vesting for the Project; (ii) increase the maximum density for the Project; and (iii) clarify the responsibility for providing utility services to the Project (the Original Consent Agreement as amended by the First Amendment, the Second Amendment, and the Third Amendment being referred to herein collectively as the “Consent Agreement”); and

WHEREAS, the Parties now desire to amend the Consent Agreement to update the land use standards applicable to the Project, memorialize the Parties’ course of dealings on various matters, and make certain conforming amendments and clarifications;

NOW, THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties amend the Consent Agreement as follows:

AGREEMENT
1. **Defined Terms.** Capitalized terms not defined in this Amendment have the meanings ascribed thereto in the Consent Agreement.

2. **Land Use Standards.** The Lot Standards attached as Exhibit “A” to the Second Amendment (the “Prior Lot Standards”) are hereby replaced with the Land Use Standards attached as Exhibit “A” to this Amendment (the “Land Use Standards”). The Land Use Standards will supersede and replace the Prior Lot Standards for all purposes under the Consent Agreement; however, for the avoidance of doubt, the Land Use Standards will only apply to Future Phases, as defined in the First Amendment.

3. **Conforming Amendments and Clarifications.**
   
   (a) The Third Amendment increased the maximum density for the Project from 2,500 living unit equivalents (“LUEs”) to 4,300 LUEs. Section 5 of the Second Amendment contains a legacy reference to 2,500 LUEs, and the Parties now desire to amend Section 5 of the Second Amendment to conform to the maximum density changes in the Third Amendment. Accordingly, the reference to 2,500 LUEs in clause 1) of the second-to-last sentence of Section 5 of the Second Amendment is hereby amended to refer to 4,300 LUEs.

   (b) Based on the future off-site connectivity contemplated by the Project Master Plan attached as Exhibit “A” to the Third Amendment, block lengths within the Project may exceed 1,500’ when such blocks abut The Colony boundary between collector streets or abut a natural waterway.

   (c) For purposes of the filing fees and other charges established in the Fee Schedule under the City’s Code of Ordinances (Appendix A), future amendments to the Consent Agreement (including the amendment/restatement described in Section 4 below) will be considered and processed as an amendment to a development agreement, rather than as a new municipal utility district consent agreement.

4. **Agreement to Divide Consent Agreement into Two Agreements – Consent Agreement (for MUD matters) and Development Agreement (for development matters).** Within six months of the full execution of this Amendment, the Developer will submit to the City a restated Consent Agreement along with a separate restated Development Agreement to consolidate the original and all amendments for each into separate documents for ease of use, reference, and administration. The City will review and submit for approval the separate restated agreements to the City Council within one year from the effective date of this Amendment.

5. **Effect of Amendment.** Except as specifically provided in this Amendment, the terms of the Consent Agreement continue to govern the rights and obligations of the parties, and the terms of the Consent Agreement remain in full force and effect. If there is any conflict or inconsistency between this Amendment and the Consent Agreement, this Amendment will control and modify the Consent Agreement.

6. **Counterparts.** To facilitate execution, (a) this Amendment may be executed in any number of counterparts; (b) the signature pages taken from separate individually executed counterparts of this instrument may be combined to form multiple fully executed counterparts; and (c) an electronic signature, or a signature delivered by facsimile or in another electronic format (e.g., PDF via email), will be deemed to be an original signature for all purposes. All executed counterparts of this instrument will be deemed to be originals, and all such counterparts, when taken together, will constitute one and the same agreement.
* * *

**IN WITNESS WHEREOF**, the Parties have executed this Amendment to be effective as of the date first written above.

Texas Local Government Code Chapter 212, Subchapter A. Regulation of Subdivisions, Section 212.002 Rules, grants authority to a governing body of a municipality, after conducting a public hearing on the matter, to adopt rules governing plats and subdivisions of land within the municipality’s jurisdiction to promote the health, safety, morals, or general welfare of the municipality and the safe, orderly, and healthful development of the municipality.

To ensure compliance with Texas Local Government Code Chapters 211 and 212, City Council will annually adopt Schedules of Uniform Submittal Dates for Zoning Concept Scheme applications, Public Improvement Plan applications, Plat applications, and Site Plan applications. The Schedules of Uniform Submittal Dates will include dates applications will be accepted, when review for completeness checks will occur, when recommendations or approvals are made, and dates of any required Planning & Zoning Commission and/or City Council meetings.

This year’s calendar roughly adheres to the following monthly schedule:
- First Monday: Plats
- Second Monday: Zoning
- Third Monday: Site Development Plans and Public Improvement Plans (PIPs)

Holiday considerations include moving submittal dates to Tuesdays when Monday is a City holiday, moving the Planning & Zoning Commission meetings to the week ahead of Thanksgiving.
and Christmas holidays, and adjusting completeness checks around any Tuesday holidays. Adjustments from the regularly scheduled day are in bold and italics on the schedules.

The Zoning schedule includes City Council meeting dates. These dates may be adjusted by ordinance amendment after City Council adopts their 2021 meeting calendar. The Zoning schedule currently assumes that the second meeting in November and December will be cancelled due to the holidays.

The schedules may also be adjusted if changes to the development process require different dates to provide consistent and predictable workflows. Any changes will be brought back to the Planning & Zoning Commission at the time of any development ordinance changes.

Recommendation

• The Assistant Planning Director recommends approval of Ordinance 2020-31.

• At the October 29, 2020 Planning & Zoning Commission, the Commission recommended approval by unanimous vote.
MEETING DATE: November 10, 2020

AGENDA ITEM: 9D

TITLE:
Consider action to approve Resolution No. R-2020-111 of the City Council of the City of Bastrop, Texas, establishing priorities for the 87th Legislative Session in Texas, and authorizing the Mayor, Mayor Pro-Tem, City Manager, and City Attorney to communicate with the Office of the Governor and Texas Legislature on behalf of the City of Bastrop Texas; and establishing an effective date.

STAFF REPRESENTATIVE:
Rebecca Gleason, Main Street Manager

BACKGROUND/HISTORY:
During the 2017 Legislative Session, more than 7,500 bills were introduced with more than 2,000 of them affecting the governing of Texas municipalities in a substantial way. The 2019 Legislative Session saw numerous bills filed in both the Texas Senate and House of Representatives that affected the authority, obligations, and funding of Texas municipalities, including the City of Bastrop, in a substantial way. Further the City of Bastrop has several legislative priorities that are unique to the needs of Bastrop that need support at a legislative level.

POLICY EXPLANATION:
By approving Resolution R-2020-111, the City Council would publicly support legislation that encourages interlocal cooperation, promotes local lawful statutory authority, and protects municipal revenue. Further the Resolution supports legislation that prioritizes funding opportunities for historic bridge revitalization and well as funding for digital evidence storage for our police forces. In addition, the Resolution supports legislation that would allow for the expenditure of hotel occupancy taxes for construction of improvements in municipal parks and trails/sidewalks that connect parks, lodging establishments, tourist attractions, and related public facilities. Furthermore, this Resolution publicly supports the work being completed by the Texas Municipal League Legislative Program.

This Resolution opposes legislation that would preempt the City from the ability to respond to local challenges and opportunities, reduce the ability of the City to collect revenue, or anything that would prohibit the expenditure of municipal funds on intergovernmental communications through advocacy services.

By approving this Resolution the Mayor, Mayor Pro-Tem, City Manager, and City Attorney are authorized to communicate with the Office of the Governor, Texas Senate, and/or Texas House of Representatives regarding pending or proposed legislation, including any amendments or committee substitutes. The Resolution will also authorize the Mayor, Mayor Pro-Tem, City Manager, and City Attorney to publicly voice, on behalf of the City of Bastrop, positions that are consistent with this Resolution, any policy statements previously enacted by the City Council, or specific directives from the City Council. This Resolution further provides authority for these positions to provide written or verbal testimony and position statements on behalf of the City of Bastrop. Lastly, this Resolution
provides for City staff to provide a copy of this Resolution to the City’s legislative delegation, the media, and the Texas Municipal League.
