## ARTICLE 8.2 MASTER SIGN PLANS

---

(a) A Master Sign Plan is a comprehensive document containing specific regulations for an entire Project's Signs. Master Sign Plans are appropriate for Planned Development Districts, Master Planned Developments, development agreements or in the case where a Project applicant is seeking several variances to the Signs Chapter of the B<sup>3</sup> Code.

- (1) Master Sign Plans for areas with a multi-unit complex are highly encouraged to meet the unique needs of each multi-unit complex.
- (2) All owners, tenants, subtenants and purchasers of individual units within the Development shall comply with the approved Master Sign Plan.
- (3) Master Sign Plans are not appropriate for a single tenant to increase the amount or size of signage.
- (4) A change in Sign Types cannot be approved if not allowed in the base Place Type District for the site.
- (5) Cannot include changes to non-conforming signs.

### SEC. 8.2.001 APPROVAL OF MASTER SIGN PLANS

(a) A Responsible Party that seeks approval of a Master Sign Plan must file a request for a Master Sign Plan with the Sign Administrator along with a Sign permit fee, as stated in the City's most recent fee schedule. The Sign Administrator will indicate what documentation the Responsible Party must provide in support of the request.

- (b) Once the necessary documentation has been provided to the Sign Administrator, the Sign Administrator may administratively deny or approve the Master Sign Plan, with or without conditions.
- (c) The Sign Administrator may determine to present the Master Sign Plan to the City Council for approval or denial in lieu of Administrative Approval.
- (d) If the Responsible Party disagrees with a decision of the Sign Administrator to deny a Master Sign Plan, or disagrees with the conditions placed on a Master Sign Plan by the Sign Administrator, the Responsible Party may submit a written request that the City Council review the Master Sign Plan request, the supporting documents, and the Sign Administrator's decision. The City Council can affirm, reverse, or modify the decision of the Sign Administrator.
- (e) The City Council has final authority to approve a Master Sign Plan or conditions on a Master Sign Plan.
- (f) A Master Sign Plan ordinance can modify Variance procedures for its specific property.

**SEC. 8.2.002 PROCEDURE FOR VARIANCES TO MASTER SIGN PLANS**

(a) A Responsible Party that wants a Variance from a Master Sign Plan adopted under this chapter must file a request for Variance with the Sign Administrator along with a Variance fee, as stated in the City's most recent fee schedule. The Sign Administrator will indicate what documentation the Responsible Party must provide in support of the request.

(b) Once the necessary documentation has been provided to the Sign Administrator, the Sign Administrator may administratively deny or approve a Variance, with or without conditions, from an adopted Master Sign Plan if the change is related to:

- (1) Change the location of the Sign within the area designated by the Master Sign Plan;
- (2) Change the location of the Sign within the right-of-way or into the right-of-way so long as a license agreement is presented and approved by the Sign Administrator;
- (3) Change illumination of the Sign so long as the illumination complies with Section 6.5.004 - Outdoor Lighting;

(4) Change of Sign Face so long as the size of the Sign Face is not increased;

(5) Change in number of panels or size of panels on a Monument Sign so long as total size of Sign Face is not increased; or

(6) Change in letter size or line number so long as total size of Sign Face is not increased.

(c) Administrative Approval is not allowed and Variance procedures in Section 8.2.003 - Variances - shall be followed if:

(1) Additional Signs are requested;

(2) Increase in the size of the Sign is requested;

(3) Change in Sign type is requested;

(4) Increase in the Height of the Sign is requested; or

(5) The Sign Administrator determines the Variance request shall be reviewed in the regular Variance process.

- (d) If the Responsible Party disagrees with a decision of the Sign Administrator to deny a Variance request, or disagrees with the conditions placed on a grant of a Variance by the Sign Administrator, the Responsible Party may submit a written request that the ZBA review the Variance request, the supporting documents, and the Sign Administrator's decision. The ZBA can affirm, reverse, or modify the decision of the Sign Administrator.
- (e) The ZBA has final authority to approve a Variance or conditions on a Variance.
- (f) A Master Sign Plan ordinance can modify Variance procedures for its specific property.

**SEC. 8.2.003 VARIANCES**

- (a) A Responsible Party that wants a Variance from the Sign Chapter of the B<sup>3</sup> Code must file a request for Variance with the Sign Administrator along with a Variance application fee, as stated in the City's most recent fee schedule. The Sign Administrator will indicate what documentation the Responsible Party must provide in support of the request.
- (b) Once the complete and necessary documentation has been provided to the Sign Administrator, the Sign Administrator shall review the request and make a

determination based on the documentation provided by the Responsible Party.

- (c) The Sign Administrator may, in specific cases and subject to appropriate conditions, and only after a finding based on the evidence presented that strict compliance with the requirements of this Chapter will result in substantial undue hardship, sufficient mitigation, or inequity to the applicant without sufficient corresponding benefit to the City and its citizens in accomplishing the objectives of this Chapter:
  - (1) Permit a Variance for a noncommercial or Commercial Sign of the Setback, effective area, size of internal components of a Sign so long as total size of Sign Face is compliant, or Height requirements of this Chapter;
  - (2) Authorize one additional Sign on Premises more than the number permitted by this Chapter; or
  - (3) Approve an increase in Height up to four (4) feet.
- (d) Other requests for variances shall be forwarded to the ZBA. The ZBA may decide, subject to appropriate conditions, and only after a finding based on the evidence presented that strict compliance with the

requirements of this Code will result in substantial undue hardship, sufficient mitigation, or inequity to the applicant without sufficient corresponding benefit to the City and its citizens in accomplishing the objectives of this Chapter.

The Sign Administrator and ZBA shall consider:

- (1) Special or unique hardship because of the size or shape of the property on which the Sign is to be located, or the visibility of the property from public roads.
- (2) Hardship claim based on the exceptional topographic conditions or physical features uniquely affecting the property on which a Sign is to be located.
- (3) Proposed Sign location, configuration, design, materials, and colors are harmonious.
- (4) The Sign and its supporting structure is in architectural harmony with the surrounding Structures.
- (5) Mitigation measures related to the Sign in question or other Signs on the same Premises.

- (6) Demonstrated and documented correlation between the Variance and protecting the public health and safety.
- (7) Whether the Sign could have been included in a Master Sign Plan. Master Sign plans are highly encouraged. The City will be more inclined to favorably consider a Variance request when the Variance is part of a Master Sign Plan. There will be a presumption against granting variances piecemeal, ad hoc, on a case-by-case basis when the Sign for which a Variance is sought could have been included in a Master Sign Plan and considered in the course of a comprehensive review of the entire Project's signage.
- (8) The Sign Administrator may authorize the remodeling, renovation, or alteration of a Sign when some nonconforming aspect of the Sign is thereby reduced.
- (f) Where a permit was required for a Sign's erection according to the law in effect at the time the Sign was erected and where the Sign Administrator finds no record of a permit being issued, the Sign Administrator may authorize the issuance of a replacement permit when, from the evidence presented, the Sign Administrator finds either that a permit was issued or that arrangements were made with a sign company to obtain such permit.

(g) If a Variance applicant wishes to appeal the decision of the Sign Administrator, the applicant shall file for an appeal with the ZBA within 10 days of receipt of the Sign Administrator's decision. The ZBA shall consider the appeal at its next regular meeting or as soon as practicable. The ZBA shall either:

(1) Approve, reject, or approve upon condition the Variance Application, if any, at its meeting;

(2) Postpone its decision on the request of the applicant;  
or,

(3) Postpone its decision to its next regular meeting for good cause based on need for further review by the board of adjustment. Upon approval by the board of adjustment, the Sign permit and variances, if any, the permit shall be issued by the city administrator or the administrator's designee.

#### **SEC. 8.2.004 CONDITIONS**

(a) The Sign Administrator or ZBA may impose conditions upon the granting of a Variance under this chapter. Such conditions must be related to the Variance sought and be generally intended to mitigate the adverse effects of the Sign on neighboring tracts and the general aesthetic ambiance of the community. A non-exhaustive list of

examples of conditions include increased setbacks, added vegetation, muted colors, and decreased Lighting. The ZBA may condition Sign variances on the Responsible Party bringing other existing, nonconforming Signs into compliance with current regulations. A Responsible Party's failure to comply with conditions placed on a Variance may result in the ZBA voiding the Variance and authorizing all available code enforcement actions and other remedies available in equity or at law.
