Communications

We are excited to report the first edition of the MyGov User Guide has been published to the City of Bastrop website. You can access the guide by going to the City of Bastrop home page- clicking on the MyGov banner and then scrolling down to "Need Help?". The User Guide is a wonderful tool that was produced by the MyGov focus area CSET Team and Planning Department and is evidence of us serving our citizens with excellence. Moving forward, the MyGov CSET Team plans to make a few additions to the User Guide and once the additions are complete the User Guides will be sent to print. The User Guides will be made available to the community both in print and online. Once the User Guide initiative is complete, the next phase of the MyGov roll-out program will be setting up webinars with the community.

Also in the works is the promotion for an upcoming ribbon cutting to commemorate commencement of the Wastewater Treatment Plant #3 construction. Stay tuned for event promotion and coverage of the ribbon cutting.

As the City's Recreation programming is nearing Phase #2, the communications team is preparing for launch promotions campaigns and the payment portal for receiving payments, as the "Free" offerings are being transitioned to paid.

This week saw two meeting broadcasts, Tuesday's City Council and Thursday's Economic Development Corporation meeting. As a result of Tuesday's City Council meeting and to reflect the latest Governor's order, a new Covid Phase Out plan was created and posted online and new Masks Recommended signage was created and distributed to all City facilities and partners around Bastrop.

Chris Rose promoted to Water/Wastewater Foreman

Fabiola DeCarnalho started her employment March 8

Library Survey

The Bastrop Public Library initiated a survey to aid in the preparation of the Library's Long-Range Plan. A long-range plan is required by the Texas State Library and Archives Commission for state accreditation. This survey is the first step to creating direction for the library that is responsive and customer centered. It will help to provide direction for library services and facilities for the next five years.

A total of 406 surveys were returned. Of these, 86% participants have a library card and 40% visit the library weekly.

The survey asked respondents to rate several library services. 73% said staff customer service is excellent. Our facility is also viewed as excellent by 68% of participants. Hours of operation and online or internet services were rated excellent by roughly one third of respondents.

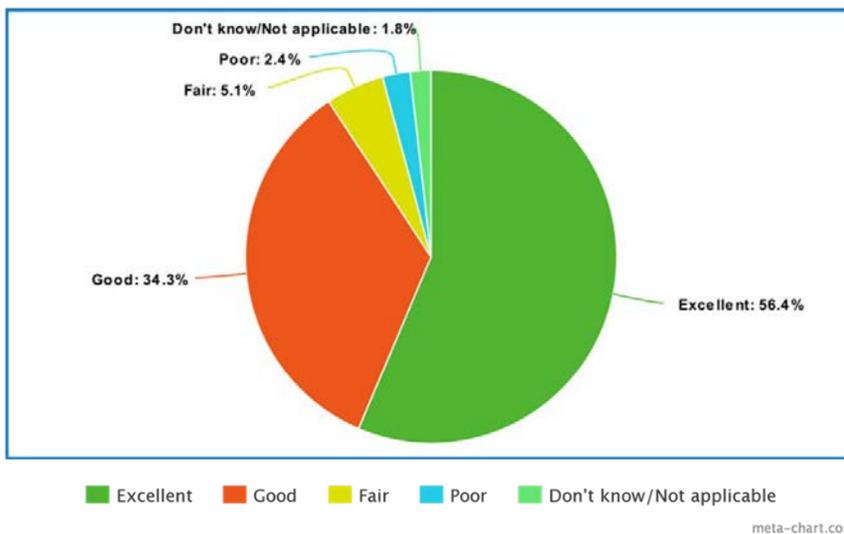

Borrowing materials is considered very important by 78% of the people. Online services are important to 52% and internet access is important to 48% of participants. Community spaces (study and meeting rooms) and programs were ranked important by one quarter of the respondents.

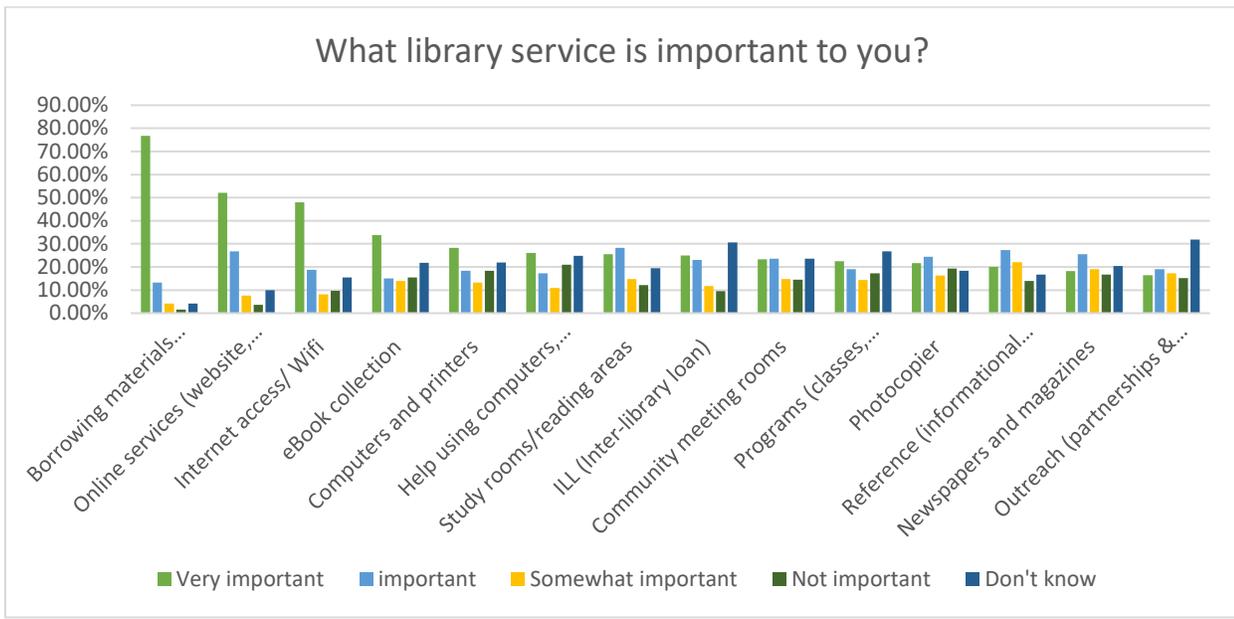

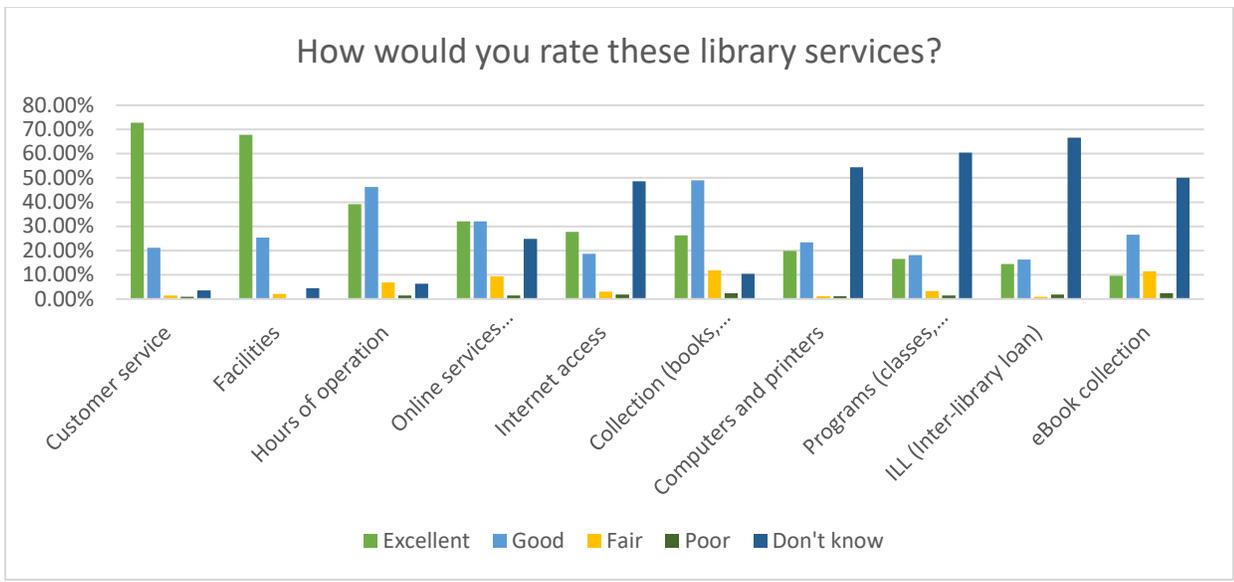

When asked to write in what they valued most or what could be improved, the top responses all mentioned books or the library's material collection. 56% reported that the variety of formats and availability of materials is what they value the most about the library. When looking at how the collection was rated as a service, it received a good or fair mark by 60% of respondents.

Overall, participants responded favorably about the library and the services it provides. We received positive comments about the staff, the facility, the hours of operation, the programs available, and the benefit the library brings to the community.

The following graphs highlight some of the results.

Overall, how would you rate the library?

Update on Pine Forest Property Owners Association Meeting

Chief Nagy attended the Pine Forest Property Owner Associations' monthly board meeting to help them navigate off-roading and trespassing in Unit 6. He explained that trespass signs were required because they help law enforcement enforce trespassing laws. One sign at each entrance and a few signs throughout the area were suggested. The board made a motion and approved putting no trespassing signs up. The topic of barriers was discussed as well. Chief Nagy explained the pros and cons of barriers to the board. Lastly, Chief Nagy explained law enforcement's trespassing enforcement procedures to the group.

Bond Rating

S and P Global ratings has informed us that we have retained our AA bond rating for the planned re-financing. I will share their final report once we receive it.

Stimulus Bill Analysis

The \$1.9 trillion COVID-19 stimulus package known as the American Rescue Plan has been approved by the U.S. Congress and signed by President Biden. According to an analysis provided by the Government Finance Officers Association, \$130 billion is allocated to cities and counties. For cities under 50,000, the funding allocation is determined by population share.

The City of Bastrop allocation is \$2.02 million. Whether we qualify for that amount is another matter.

Payments to local governments will be made in two tranches, the first 60 days after enactment of the package, the second one year later. Funding made available must be spent by the end of calendar year 2024.

Eligible uses are broader than that of the CARES Act. For example, this package includes a revenue replacement provision. The revenue loss is determined by comparing revenues to the most recent fiscal year prior to the COVID emergency. Eligible uses also include premium pay for essential workers, assistance to small businesses and households, and investments in water, wastewater, and broadband infrastructure.

We will be learning more about how all this works and the specifics of our eligibility and will have the appropriate discussions with Council about the way forward.

Legislative UPDATE

March 12, 2021
Number 9

“Our Home, Our Decisions” Launches New Website

TML’s “Our Home, Our Decisions” campaign has launched a [new website](#) focusing on the importance of local governments to maintain the ability to govern locally. The goal of the campaign is to emphasize the necessity for local decision-making and to preserve the ability for cities to retain the experts needed to achieve the goals of their communities.

The website contains a variety of resources for city officials including information that highlights the difficulties of a one-size-fits-all approach, and support for community advocacy. The website can be found [here](#).

“Our Home, Our Decisions” will play an active role on [Twitter](#) and we encourage city officials to follow and share posts on social media. If your city would like to highlight articles illustrating the great work that your city is doing in your community, please email articles to TML’s Grassroots and Legislative Services Manager JJ Rocha at jj@tml.org.

87th Legislative Session Bills to Watch

The Legislature has until March 12 to file bills to be considered during the 140-day legislative session. We will continue to summarize all city-related bills filed and you can find a comprehensive list of those bills [here](#). However, here are some bills worth noting. We ask all city

officials to begin conversations with your state representative and state senator on these important issues.

H.B. 749 (Middleton) – Community Censorship: would: (1) prohibit a political subdivision from spending public funds to: (a) hire an individual required to register as a lobbyist for the purpose of lobbying a member of the Texas legislature; or (b) pay a nonprofit state association or organization that: (i) primarily represents political subdivisions; and (ii) hires or contracts with an individual required to register as a lobbyist; (2) provide that if a political subdivision engages in activity prohibited by (1), above, a taxpayer or resident of the political subdivision is entitled to injunctive relief to prevent any further prohibited activity or any further payments of public funds; and (3) provide that a taxpayer or resident who prevails in an action under (2), above, is entitled to recover reasonable attorney’s fees and costs from the political subdivision. (Companion bill is **S.B. 234** by **Hall**.)

H.B. 1869 (Burrows) – Debt Financing: would modify the definition of “debt” for purposes of the debt service property tax rate calculation to only include debt approved at an election. (Note: this means that debt obligations like certificates of obligation, time warrants, anticipation notes, and lease-purchase agreements must be financed through a city’s maintenance and operations tax rate if payable solely through property tax revenue.)

H.B. 3 (Burrows) – Texas Pandemic Response Act: this bill, known as the Texas Pandemic Response Act, would make numerous changes regarding how the state and local governments prevent, prepare for, respond to, and recover from a pandemic disaster. Of primary importance to cities, the bill would, among many other things:

1. define the term “pandemic disaster” to mean the occurrence or imminent threat of an outbreak of an infectious disease that spreads to a significant portion of the population of multiple countries or the world and that threatens widespread or severe damage, injury, or loss of life or property in the state resulting from any natural or man-made cause related to the outbreak;
2. authorize the governor, by executive order or proclamation, to declare a state of pandemic disaster if the governor determines that a state of pandemic disaster is occurring in the state or that the occurrence or threat of a pandemic disaster is imminent;
3. authorize the governor to, on request of a city, waive or suspend a deadline, including a deadline relating to a budget or property tax rate, imposed on the political subdivision by a statute or a state agency order or rule if he waiver or suspension is reasonably necessary to cope with the pandemic disaster;
4. authorize the governor to temporarily reassign resources, personnel, or functions of state agencies and cities for the purpose of performing or facilitating emergency services during a pandemic disaster;
5. provide that the presiding officer of a city council is designated as the pandemic emergency management director for the city;
6. authorize a pandemic emergency management director to serve as the governor’s designated agent in the administration and supervision of duties under the Texas Disaster Pandemic Act, and authorize the pandemic emergency management director to exercise the powers granted to the governor on an appropriate local scale;

7. authorize a pandemic emergency management director to designate a person to serve as pandemic emergency management coordinator, who serves as an assistant to the pandemic emergency management director;
8. provide that a deadline imposed by local law on a city, including a deadline relating to a budget or property tax, is suspended if: (a) the city is wholly or partly located in an area in which a pandemic disaster has been declared by the president of the United States or the governor; and (b) the city's presiding officer proclaims that the city is unable to comply with the requirement because of the pandemic disaster;
9. authorize a city's presiding officer to issue an order ending the suspension of a deadline under Number 8, above, and provide that a deadline may not be suspended for more than 30 days after the date the presiding officer issues the proclamation described by Number 8(b), above;
10. provide that any local order or rule issued in response to a state or local state of pandemic disaster is superseded and void to the extent that it is inconsistent with orders, declarations, or proclamations issued by the governor or Department of State Health Services;
11. prohibit an election official of a political subdivision from seeking to alter, in response to a pandemic disaster, any voting standard practice, or procedure in a manner not otherwise expressly authorized by state law, unless the election official first obtains approval of the proposed alternation from the secretary of state by submitting a written request for approval to the secretary of state;
12. provide that if the governor issues a written determination finding that the presiding officer of a city council has taken issued an order requiring the closure of a private business in response to a pandemic, the city council for that city may not adopt a property tax rate for the current tax year that exceeds the lesser of the city's no-new-revenue tax rate or voter-approval tax rate for that tax year;
13. provide that, for a tax year in which the restriction in Number 12, above, applies to a city, the difference between the city's actual tax rate and voter-approval tax rate for purposes of calculating the city's unused increment rate is considered to be zero;
14. provide that a city is no longer subject to the limitation prescribed by Number 12, above, in the first tax year in which the governor rescinds the governor's written determination;
15. provide that a person commits an offense if the person violates a provision of the pandemic components of a state, local, or interjurisdictional emergency management plan or a rule, order, or ordinance adopted under those provisions, and that a violation is punishable by a fine only in an amount not to exceed \$1000 to be enforced by state and local officials; and
16. authorize the attorney general to provide legal counsel to a city subject to a declared state of pandemic disaster on issues related to pandemic disaster mitigation, preparedness, response, and recovery applicable to the area subject to the pandemic disaster declaration, if a request for legal counsel is submitted by the emergency management director or mayor of a city.

H.B. 233 (Murr) – **Building Materials and Methods**: would provide that the prohibition on city regulation of building products, materials, or methods passed by H.B. 2439 in 2019 does not apply to a city with a population of less than 25,000.

H.B. 1030 (Shaheen) – **Newspaper Notice**: would: (1) allow a political subdivision to satisfy any law that requires notice to be published in a newspaper by publishing the notice in the following

locations: (a) social media, free newspapers, school newspapers, a homeowners' association newsletter or magazine, utility bills, direct mailings, or any other form of media authorized by the comptroller; and (b) the internet websites maintained by the political subdivision and the comptroller; (2) provide that before providing notice under (1), a political subdivision must hold a public meeting about the alternative notice under (1)(a) and demonstrate that the circulation will be greater than the circulation of the newspaper with the greatest circulation in the political subdivision; (3) authorize the comptroller to grant a city's request for a waiver from (1)(b) if the city provides sufficient proof that Internet access is limited in the city, and if the comptroller grants the waiver, the city must provide additional notice on a public agenda board within the city; (4) require a city using alternative media described in (1)(a) to submit notice to the comptroller describing the alternative notice method in (1)(a) and certain other information; (5) authorize the comptroller to require a political subdivision to provide notice in a newspaper if the comptroller determines that the means under (1)(a) do not have greater circulation than a newspaper with the greatest circulation in the political subdivision; and (6) require the comptroller to prepare a report identifying and comparing the effectiveness of different methods of notice publication used by political subdivisions and provide the report to the governor, lieutenant governor, and the speaker of the house.

H.B. 1241 (Shine) – **Annexation of Rights-of-Way**: would provide that: (1) a city annexing an area on request of the owners, an area with less than 200 population by petition, an area with at least 200 population by election, or certain special districts may also annex with the area: (a) the right-of-way of a street, highway, alley or other public way or of a railway line spur, or roadbed that is contiguous to the city's boundaries and the area being annexed or a right-of-way described in (b); or (b) the right-of-way of a public road or highway connecting the area being annexed to the city by the most direct route; (2) a city may only annex a right-of-way described under (1) if the city: (a) provides written notice of the annexation to the owner of the right-of-way not later than the 61st day before the date of the proposed annexation; and (b) the owner of the right-of-way does not submit a written objection to the city before the date of the proposed annexation; and (3) certain width requirements do not apply to the annexation of a right-of-way under (1). (Companion bill is **S.B. 374** by **Seliger**.)

S.B. 402 (Johnson) – **Street Maintenance Sales Tax**: would, among other things, provide that: (1) for a city in which a majority of the voters voting in each of the last two consecutive elections concerning the adoption or reauthorization of the street maintenance sales tax favored adoption or reauthorization and in which the tax has not expired since the first of those two consecutive elections, the city may call an election to reauthorize the tax for a period of eight or ten years, instead of four years; and (2) revenue from the street maintenance sales tax may be used to maintain and repair: (a) a city street or sidewalk; and (b) a city water, wastewater, or stormwater system located in the width of a way of a city street. (Companion bill is **H.B. 1538** by **Julie Johnson**.)

H.B. 1888 (Fierro) – **Open Meetings**: would: (1) authorize a governmental body to hold an open or closed meeting by conference call; (2) define "conference call" to mean a meeting held by telephone conference call, videoconference call, or telephone conference and videoconference call; (3) require that each part of a meeting held by conference call required to be open to the public shall: (a) be audible to the public; (b) be visible to the public if it is a videoconference call; and

(c) have two-way communication with each participant; (4) provide that a member or employee of a governmental body may participate in a meeting by conference call only if the audio signal of the participant is heard live at the meeting; (5) provide that a member of a governmental body who participates in a meeting by conference call shall: (a) be counted as present at the meeting for all purposes; and (b) be considered absent from any portion of the meeting during which audio communication with the member is lost or disconnected, but allow the governmental body to continue the meeting if a quorum of the body continues to participate in the meeting; (6) provide that a governmental body may allow a member of the public to testify at a meeting by conference call; (7) provide that a meeting held by conference call is subject to the notice requirements applicable to other meetings and also must include certain instructions to the public; (8) require that a meeting held by conference call be recorded, and that the recording be made available to the public; and (9) require the Department of Information Resources by rule to specify minimum standards for the recording of a meeting held by conference call.

S.B. 639 (Menéndez) – Open Meetings: would: (1) provide that, without regard to whether a member of the governmental body is participating in a meeting from a remote location by telephone conference call, a governmental body may allow a member of the public to speak at a meeting from a remote location by telephone conference call; (2) provide that, when a member of a governmental body loses audio or video during a videoconference meeting, the meeting may continue when a quorum of the body remain audible and visible to each other and, during the open portion of the meeting, to the public; (3) allow a meeting by videoconference so long as the presiding officer is present at a physical location open to the public where members of the public may observe and participate in the meeting; (4) set out the notice requirements for a videoconference meeting; and (5) provide that, without regard to whether a member of the governmental body is participating in a meeting from a remote location by videoconference call, a governmental body may allow a person to speak at a meeting from a remote location by videoconference call.

H.B. 5 (Ashby) – Broadband Development Office: would, among other things:

1. require the governor's broadband development council to: (a) research the progress of deployment of broadband statewide and the purchase of broadband by residential and commercial customers; and (b) study industry and technology trends in broadband;
2. establish a broadband development office within the comptroller's office;
3. for purposes of the broadband development office, define "broadband service" as internet service with the capability of providing: (a) a download speed of 25 megabits per second or faster; and (b) an upload speed of three megabits per second or faster;
4. authorize the comptroller by rule to adjust the threshold speeds for broadband services defined in Number 3, above, if the Federal Communications Commission adopts upload or download threshold speeds for advanced telecommunications capability that are different from those listed in Number 3, above;
5. require the broadband development office to: (a) serve as a resource for information regarding broadband service in the state; (b) engage in outreach to communities regarding the expansion and adoption of broadband service and the programs administered by the office; and (c) serve as an information clearinghouse in relation to federal programs providing assistance to local entities with respect to broadband service;

6. require the broadband development office to create, update annually, and publish on the comptroller's website a map classifying each designated area in the state as: (a) an eligible area, if fewer than 80 percent of the addresses in the designated area have access to broadband service; or (b) an ineligible area, if 80 percent or more of the addresses in the designated area have access to broadband service;
7. require the map described in Number 6, above, to display: (a) the number of broadband service providers that serve each designated area; (b) for each eligible area, an indication of whether the area has access to Internet service that is not broadband service, regardless of the technology used to provide the service; and (c) each public school in the state and an indication of whether the area has access to broadband service;
8. provide that if information available from the Federal Communications Commission is not sufficient for the broadband development office to create or update the map, the office may request the necessary information from a political subdivision or broadband service provider, and the subdivision or provider may report the information to the office;
9. establish a petition process, under which a political subdivision or broadband service provider may petition the broadband development office to re-designate designated area on the map as an eligible area or ineligible area;
10. require the broadband development office to establish a program to award grants, low-interest loans, and other financial incentives to applicants for the purpose of expanding access to, and adoption of, broadband service in designated areas determined to be eligible areas;
11. require the broadband development office to establish and publish eligibility criteria for award recipients under Number 10, above, limiting grants, loans, and other financial incentives awarded to the program for use on capital expenses, purchase or lease of property, and other expenses, including backhaul and transport that will facilitate the provision or adoption of broadband service;
12. provide that the office may not award a grant, loan, or other financial incentive to a noncommercial provider of broadband service for an eligible area if a commercial provider of broadband service has submitted an application for the eligible area;
13. provide that an award granted under the broadband development program does not affect distributions received by a broadband provider from the state universal service fund;
14. require the broadband development office to prepare, update, and publish on the comptroller's Internet website a state broadband plan that establishes long-term goals for greater access to and the adoption of broadband service in Texas;
15. require the broadband development office, in developing the state broadband plan, to: (a) to the extent possible, collaborate with state agencies, political subdivisions, broadband industry stakeholders and representatives, and community organizations that focus on broadband services; (b) consider the policy recommendations of the governor's broadband development council; (c) favor policies that are technology-neutral and protect all members of the public; and (d) explore state and regional approaches to broadband development; and
16. establish the broadband development account in the state's general revenue fund consisting of: (a) appropriations of money to the account by the legislature; (b) gifts, donations, and grants, including federal grants; and (c) interest earned on the investment of the money in the account.

(H.B. 5 is similar, but not identical, to S.B. 5 by Nichols.)

S.B. 861 (Paxton) – **Open Meetings**: would provide for remote meetings under the Open Meetings Act, and:

For city meetings held by telephone conference:

1. provide the governmental body is not prohibited from holding an open or closed meeting from one or more remote locations by telephone conference;
2. remove the requirement that an emergency or public necessity exist;
3. require the notice of the meeting: (a) include the statement “Telephone conference call under Section 551.125, Government Code” in lieu of the place of the meeting; (b) list each physical location where members of the public may listen to or participate in the meeting; (c) include access information for an audio feed of the meeting; and (d) if applicable, include instructions for members of the public to provide testimony to the governmental body;
4. require that any method of access that is provided to the public for listening to or participating in the telephone conference call meeting be widely available at no cost to the public;
5. require that each part of the meeting that is required to be open to the public shall be audible to the public and shall be recorded, and the recording shall be made available to the public;
6. require the identification of each party to the telephone conference be clearly stated prior to speaking;
7. require that, if the governmental body prepares an agenda packet that would have been distributed to members of the public at a face-to-face meeting, the packet must be available electronically so that members of the public listening remotely can follow along with the meeting.

For city meetings held by videoconference:

1. provide the governmental body is not prohibited from holding an open or closed meeting from one or more remote locations by videoconference;
2. allow a member of the governmental body to participate remotely in a meeting by videoconference call if the audio feed and, if applicable, video feed of the member’s or employee’s participation complies with the other requirements for a videoconference meeting;
3. provide that a member of a governmental body who participates as described in Number 2, above, shall be counted as present at the meeting for all purposes;
4. provide that a member of a governmental body shall be considered absent from any portion of the meeting during which audio communication with the member is lost or disconnected, and that the body may continue the meeting only if members in a number sufficient to constitute a quorum remain audible and visible to each other and, during the open portion of the meeting, to the public;
5. require the notice of the meeting: (a) include the statement “Videoconference call under Section 551.127, Government Code” in lieu of the place of the meeting; (b) list each physical location where members of the public may observe or participate in the meeting; (c) include access information for both audio-only and audiovisual feeds of the meeting;

- and (d) if applicable, include instructions for members of the public to provide testimony to the governmental body;
6. require that any method of access that is provided to the public for the purpose of observing or participating in a meeting be widely available at no cost to the public;
 7. require each portion of a meeting held by videoconference call that is required to be open to the public shall be audible and, if applicable, visible to the public;
 8. provide that if a problem occurs that causes a meeting to no longer be audible to the public, the meeting must be recessed until the problem is resolved;
 9. require an audio recording of the meeting, and that the recording be made available to the public;
 10. provide that the face of each participant who is participating in the call using video communication, while that participant is speaking, be clearly visible and audible to each other participant, and during the open portion of the meeting, to the members of the public, including at any location described by Number 5(b);
 11. provide that participant using solely audio communication: (a) shall, while speaking, be clearly audible to each other participant and, during the open portion of the meeting, to the members of the public, including at any location described by Number 5(b);
 12. authorize the Department of Information by rule to specify minimum technical quality standards for the meeting, and require that access information described by Number 5(c) be of sufficient quality so that members of the public can observe the demeanor or hear the voice, as applicable, of each participant in the open portion of the meeting;
 13. provide that a governmental body: (a) may allow a member of the public to testify at a meeting from a remote location by videoconference call; and (b) must allow a member of the public testify from a remote location using video or audio communication if holding a meeting by videoconference call where public testimony is taken; and
 14. require that, if the governmental body prepares an agenda packet that would have been distributed to members of the public at a face-to-face meeting, the packet must be available electronically so that members of the public observing remotely can follow along with the meeting.

H.B. 2500 (Bailes) – **Newspaper Notice**: would provide that a governmental entity or representative may publish notice on a third-party Internet website, as an alternative to certain newspaper notice requirements, if: (1) the governing body finds, after holding a public hearing on the matter that: (a) Internet publication of notices is in the public interest; (b) Internet publication of notices will not, after consideration of the level of Internet access in the applicable area, unreasonably restrict public access to the notices; and (c) the cost of publishing the notices in a newspaper exceeds the cost of Internet publication; (2) the governmental entity or representative posts the findings in (1) on the entity's or representative's website; and (3) the governmental entity or representative also prominently posts each notice for public review at the office location of the governmental entity or representative that is the most accessible to the intended recipients of the notice.

Stay Engaged During the Legislative Session: Grassroots Involvement Program

During the upcoming Texas legislative session, Texas cities will face many challenges and opportunities. TML will need to mobilize our membership at key points during session. The Grassroots Involvement Program (GRIP) is one way to do so. Our GRIP survey focuses on a variety of items including your areas of expertise and involvement with other professional organizations. Most importantly, the GRIP survey asks how well you know various state legislators and if you are willing to communicate with those legislators during the session. With many unknowns on how the capitol will operate during a pandemic, TML's grassroots approach will be crucial to our efforts.

If you have a relationship with your legislator(s) or want to be more involved during session, please take the time to complete the [GRIP survey](#). Past efforts have proven that such participation is a highly effective tool.

We ask that you complete the survey as soon as possible.

City Officials Testify

When the legislature is in session, nothing compares to the effectiveness of city officials testifying at the Capitol. City officials who take the time to attend legislative committee meetings – whether virtually or by traveling to Austin – to speak out on important city issues should be applauded by us all. The League extends its thanks to all those who are vigilantly representing cities during this session. If we missed your testimony let us know by an email to ford@tml.org, and we will recognize you in next week's edition.

The following officials testified in committee hearings held March 3 through March 8:

- Stephanie Hayden Howard, Director, Austin Public Health, City of Austin
- Dr. Colleen Bridger, Metro Health Director, City of San Antonio
- Lee Kleinman, Councilmember, City of Dallas
- Joe Zimmerman, Mayor, City of Sugar Land
- Carlos Contreras, Assistant City Manager, City of San Antonio
- Larissa Philpot, EDC Director, City of Nacogdoches
- Jeff Williams, Mayor, City of Arlington

City-Related Bills Filed

(Editor's Note: You will find all of this session's city-related bill summaries online at <https://www.tml.org/DocumentCenter/View/2507/City-Related-Bills>.)

Property Tax

H.B. 2711 (Hinojosa) – Homestead Exemption: would provide that a qualified residential structure does not lose its character as a residence homestead when the owner who qualifies for the exemption temporarily stops occupying it as a principal residence if that owner does not establish a different principal residence and the absence is caused by the owner’s service outside of the United States as a foreign service officer employed by the United States Department of State.

H.B. 2723 (Meyer) – Tax Rate Notice: would require certain existing property tax rate notices to contain a statement encouraging taxpayers to visit a website collecting property tax database information to read as follows: “Visit PropertyTaxes.Texas.gov to find a link to your local property tax database on which you can easily access information regarding your property taxes, including information about proposed tax rates and scheduled public hearings of each entity that taxes your property.”

H.B. 2832 (Patterson) – Property Tax Exemption: would exempt from property taxation the residence homesteads of qualifying disabled first responders and their surviving spouses. (See **H.J.R. 119**, below.)

H.B. 2941 (Burns) – Appraisal Review Board: would, among other things, provide that appraisal review board members be appointed by the local administrative district judge in the county in which the appraisal district is established.

H.B. 2958 (Shine) – Appraisal District Review: would require the comptroller to conduct a limited-scope review of an appraisal district in lieu of a more extensive review of an appraisal district if, during the most recently conducted review, the comptroller found the appraisal district to be in compliance with generally accepted appraisal standards, procedures, and methodology, and did not make any recommendations for improvement.

H.B. 2966 (Tinderholt) – De Minimis Property Tax Rate: would repeal all statutory provisions related to the de minimis property tax rate passed as a part of Senate Bill 2 in 2019. (Note: the effect of H.B. 2966 is, among other things, to require all cities under 30,000 population to hold an automatic election on the November uniform election date if the city adopts a property tax rate exceeding the city’s voter-approval tax rate.)

H.B. 3070 (Ellzey) – Property Tax Exemption: would provide that: (1) a disabled veteran is entitled to an exemption from property taxes of the following applicable portion of the assessed value of a designated property owned by the veteran: (a) \$20,000 for a veteran having a disability rating of at least 10 percent but less than 30 percent; (b) \$30,000 for a veteran having a disability rating of at least 30 percent but less than 50 percent; (c) \$40,000 for a veteran having a disability rating of at least 50 percent but less than 70 percent; or (d) \$48,000 for a veteran having a disability rating of at least 70 percent; (2) a disabled veteran is entitled to an property tax exemption of \$48,000 of the assessed value of a designated property the veteran owns if the veteran: (a) is 65 years of age or older and has a disability rating of at least 10 percent; (b) is totally blind in one or both eyes; or (c) has lost the use of one or more limbs; (3) if an individual dies while on active

duty as a member of the armed forces of the United States: (a) the individual's surviving spouse is entitled to a property tax exemption of \$20,000 of the assessed value of a designated property the spouse owns; and (b) each of the individual's surviving children who is younger than 18 years of age and unmarried is entitled to a property tax exemption of a portion of the assessed value of a designated property the child owns computed by dividing \$20,000 by the number of eligible children. (See **H.J.R. 124**, below.)

H.B. 3171 (Slaton) – Appraisal Districts: would, among other things: (1) require a chief appraiser to be elected at the general election for state and county officers by the voters of the county in which the appraisal district is established; (2) provide that the chief appraiser serves a four-year term beginning January 1 of every other odd-numbered year; and (3) provide that to be eligible to serve as chief appraiser, an individual must be a resident of the county in which the appraisal district is established and must have resided in the county for at least four years preceding the date the individual takes office.

H.J.R. 118 (Allison) – Appraisal Cap: would amend the Texas Constitution to provide that, for each tax year following the year in which the property was purchased until the end of the tax year in which the ownership of the property changes, the legislature may limit the maximum appraised value of real property for property tax purposes to: (1) the lesser of the market value of the property as determined by the appraisal entity; or (2) the sum of the amount the owner of the property paid for the property and the initial market value of each new improvement to the property.

H.J.R. 119 (Patterson) – Property Tax Exemption: would amend the Texas Constitution to authorize the legislature to exempt from property taxation the residence homesteads of qualifying disabled first responders and their surviving spouses. (See **H.B. 2832**, above.)

H.J.R. 124 (Ellzey) – Property Tax Exemption: would amend the Texas Constitution to authorize the legislature to provide that: (1) a disabled veteran is entitled to an exemption from property taxes of the following applicable portion of the assessed value of a designated property owned by the veteran: (a) \$20,000 for a veteran having a disability rating of at least 10 percent but less than 30 percent; (b) \$30,000 for a veteran having a disability rating of at least 30 percent but less than 50 percent; (c) \$40,000 for a veteran having a disability rating of at least 50 percent but less than 70 percent; or (d) \$48,000 for a veteran having a disability rating of at least 70 percent; (2) a disabled veteran is entitled to an property tax exemption of \$48,000 of the assessed value of a designated property the veteran owns if the veteran: (a) is 65 years of age or older and has a disability rating of at least 10 percent; (b) is totally blind in one or both eyes; or (c) has lost the use of one or more limbs; (3) if an individual dies while on active duty as a member of the armed forces of the United States: (a) the individual's surviving spouse is entitled to a property tax exemption of \$20,000 of the assessed value of a designated property the spouse owns; and (b) each of the individual's surviving children who is younger than 18 years of age and unmarried is entitled to a property tax exemption of a portion of the assessed value of a designated property the child owns computed by dividing \$20,000 by the number of eligible children. (See **H.B. 3070**, above.)

S.B. 916 (Seliger) – Appraisal Districts: would, among other things, authorize a local governmental entity to request from the Texas Department of Licensing and Regulation (TDLR) information on a registered professional appraiser the entity is considering for appointment as chief

appraiser of the entity's appraisal district; and (2) require TDLR to inform the entity of a notation of noncompliance if the appraiser, during two or more previous reviews, served as chief appraiser of an appraisal district that TDLR determined had failed to comply with the comptroller's recommendations.

S.B. 1027 (West) – Property Tax Installment Payments: would, among other things, provide that, for property taxes imposed by a taxing unit in a tax year on property that is used for residential purposes and has fewer than three living units, a person may pay the taxing unit's property taxes on property that the person owns in eight equal installments without penalty or interest if the person: (1) provides written notice to the taxing unit not later than December 31 of the year for which the taxes are imposed that the person will pay the taxes in eight equal monthly installments; and (2) pays the first installment before the date on which the taxes become delinquent.

S.B. 1029 (Huffman) – Property Tax Exemption: would provide that a person is entitled to an exemption from property taxes of the appraised value of a solar or wind-powered energy device owned by the person that is: (1) installed or constructed on real property; and (2) primarily for production and distribution of energy for on-site use, regardless of whether the person owns the real property on which the device is installed or constructed.

S.B. 1034 (Hughes) – Notice of Appraised Value: would require the notice of appraised value delivered to a residential property owner by the chief appraiser of an appraisal district to include a separate document dedicated to providing sales price information for each single-family home recently sold in the same neighborhood as the residence homestead.

S.B. 1096 (Creighton) – Appraisal Cap: would reduce the property tax appraisal cap on residence homesteads from ten percent to the following applicable percentage: (1) three percent if the appraised value of a homestead is \$1 million or less; or (2) five percent if the appraised value of a homestead is more than \$1 million. (See **S.J.R. 46**, below.)

S.B. 1131 (Paxton) – Property Tax Rate Calculation: would modify the definition of "last year's levy" for purposes of property tax rate calculation to include the amount of taxable value equal to the difference between: (1) the total taxable value for the preceding year of property taxable by the taxing unit in the preceding year that is the subject of a judicial appeal on July 25; and (2) the product of the amount described by (1), above, and the average percentage, expressed as a decimal, by which the total taxable value of property taxable by the taxing unit was reduced in judicial appeals during the five-year period ending with the preceding tax year.

S.J.R. 46 (Creighton) – Appraisal Cap: would amend the Texas Constitution to authorize the legislature to provide one percentage to be used when calculating the limitation on the maximum appraised value of a residence homestead with a lesser appraised value and another percentage to be used when calculating that limitation on a residence homestead with a greater appraised value. (See **S.B. 1096**, above.)

Public Safety

H.B. 1540 (S. Thompson) – Civil Remedies: would provide, among other things, that: (1) if a law enforcement agency has reason to believe an activity related to prostitution or the violation of licensing requirements related to massage therapy or massage services has occurred at property that is leased to a person operating a massage establishment, the law enforcement agency may provide written notice by certified mail to each person maintaining the property of the alleged activity; (2) a person or enterprise commits racketeering if, for financial gain, the person or enterprise commits an offense related to trafficking of persons; and (3) a sex offender who is placed under community supervision may not go in, on, or within 1,000 feet of certain child-care facilities that operate as residential treatment centers. (Companion bill is **S.B. 1036** by **Huffman**.)

H.B. 1911 (White) – Firearms Regulation: would, among other things: (1) authorize certain persons to carry a handgun, regardless of whether the person is licensed to carry the handgun; (2) provide that a peace officer acting in the lawful discharge of the officer's official duties may disarm a person who is carrying a handgun under certain circumstances and must return the handgun if, among other things, the person is not prohibited by law from carrying a handgun; (3) provide that a public or private employer may not prohibit an employee who is not otherwise prohibited by state or federal law from possessing a firearm or ammunition from transporting or storing a firearm or ammunition in the employee's private, locked motor vehicle; and (4) provide that a city may regulate the carrying of an air gun or firearm, other than a handgun carried by a person not prohibited by state or federal law from carrying the handgun, at a public park, meeting, political rally, parade, or certain other events.

H.B. 2572 (Reynolds) – Office of Law Enforcement Oversight: would, among other things: (1) create the Office of Law Enforcement Oversight (Office) as a state agency for the purpose of monitoring the operations of law enforcement agencies and the use of force practices of those agencies; (2) provide that the director of the Office shall: (a) review the complaints received by the Office regarding the use of force by peace officers of law enforcement agencies; and (b) if the director determines that, based on complaints and other evidence, there is a pattern of use of excessive force at a law enforcement agency, the director may conduct an investigation into the agency's use of force practices; and (3) if the investigation substantiates the alleged pattern of use of excessive force, request the appropriate district or county attorney to bring an action to institute reforms to the agency's use of force practices, including an action against the agency for: (a) appropriate equitable relief, including authority for the Office to require and monitor any changes to policies, procedures, and other measures necessary to end, to the extent practicable, the use of excessive force by the peace officers of the law enforcement agency; or (b) the appointment of the Office as receiver of the law enforcement agency for the purpose of instituting the changes described in (3)(a), above; (4) provide that a law enforcement agency shall allow the Office access to the agency's records relating to an investigation conducted under (2), above, and in allowing access to such records, the law enforcement agency shall fully cooperate and collaborate with the Office in a prompt manner in order for the Office to carry out its duties and improve the agency's operations and conditions; (5) the Office may inspect or review without notice any part of a facility of a law enforcement agency under investigation or any operation, policy, procedure, record, or log of the agency relating to: (a) a complaint received by the office; (b) the use of force against an individual; (c) the internal investigations process of the agency; and (d) employee or officer

recruitment, training, supervision, or discipline; and (6) waive sovereign or governmental immunity, as applicable.

H.B. 2583 (Campos) – Failure to Report Offense: would provide that the penalty for the offense of failure to report that an elderly person or a person with a disability has been abused, neglected or exploited is enhanced to a state jail felony if it is shown on the trial of the offense that the actor is a peace officer who encountered the abused, neglected, or exploited person in the course of discharging his or her duties as a peace officer.

H.B. 2588 (Crockett) – Cite and Release: would provide that: (1) each law enforcement agency shall adopt a written policy regarding the issuance of citations for misdemeanor offenses, other than violent misdemeanors; (2) the policy must provide a procedure for a peace officer, on a person's presentation of appropriate identification, to verify the person's identity and issue a citation to the person and must comply with the provisions under (3), (4), (5), (6) and (7), below; (3) a peace officer or any other person may not, without a warrant, arrest an offender who commits only one or more misdemeanor offenses, other than a violent misdemeanor or an offense of public intoxication, unless the officer or person has probable cause to believe that: (a) the failure to arrest the offender creates a clear and immediate danger to the offender or the public; or (b) the failure to arrest the offender will allow a continued breach of the public peace; (4) a peace officer who is charging a person, including a child, with committing an offense that is a misdemeanor, other than a violent misdemeanor or an offense of public intoxication shall, instead of taking the person before a magistrate, issue a citation to the person that contains certain information; (5) a peace officer who is charging a person, including a child, with committing an offense that is a violent misdemeanor and that is punishable by fine only may, instead of taking the person before a magistrate, issue to the person a citation that contains certain information; (6) any peace officer may arrest without warrant a person found committing a violation of the rules of the road, except that the officer may not arrest a person found committing only one or more misdemeanors, other than a violent misdemeanor, unless the officer has probable cause as described in (3), above; and (7) unless an officer is authorized to arrest a person as described under (6), above, the officer shall issue a written notice to appear if the offense is a misdemeanor under the rules of the road and the person makes a written promise to appear in court.

H.B. 2622 (Holland) – Federal Firearms Regulation: would: (1) prohibit a political subdivision of this state, and a law enforcement officer or other person employed by a political subdivision, from contracting with or providing assistance to a federal agency or official with respect to the enforcement of a federal statute, order, rule, or regulation purporting to regulate a firearm, a firearm accessory, or firearm ammunition if the statute, order, rule, or regulation imposes a prohibition, restriction, or other regulation, such as a capacity or size limitation or a registration requirement, that does not exist under Texas law; (2) provide that the prohibition in (1) doesn't apply to a federal statute, order, rule or regulation in effect on January 19, 2021; and (3) provide that a violation of the prohibition in (1) may be enforced: (a) by denying state grant funds to the city; and (b) through court action by the attorney general.

H.B. 2650 (Jarvis Johnson) - Children in Custody: would provide, among other things, that a law enforcement shall: (1) adopt a written policy regarding the safe placement of a child who is in the custody of a person that is arrested; and (2) enter into an agreement with the Department of

Family and Protective Services (Department) that provides a procedure to release a child to the care of the Department.

H.B. 2655 (Crockett) – Reporting Peace Officer Misconduct: would provide that: (1) the Department of Public Safety (DPS) shall: (a) adopt a form for the reporting of allegations of misconduct concerning a peace officer employed by a law enforcement agency that includes the nature of the allegation, the results of the agency’s investigation of the allegation, and any disciplinary action taken by the agency as a result of the allegation; (b) establish a database for information concerning reports received under (1)(a), above; and (c) make the database accessible to law enforcement agencies; and (2) each law enforcement agency shall promptly report to DPS, for inclusion in the database established in (1), above, each allegation of misconduct concerning a peace officer employed by the agency.

H.B. 2669 (Guillen) - Criminal Record of a Child: would provide that all records, files, and information stored by electronic means or otherwise, from which a record or file could be generated, relating to a criminal case for a fine-only misdemeanor other than a traffic offense, that is committed by a child and that is appealed are confidential and may not be disclosed to the public, except under limited circumstances.

H.B. 2695 (Noble) – Law Enforcement Funding: would:

1. characterize a “defunding local government” as a city or county: (a) that adopts a budget for a fiscal year that, in comparison to the local government’s preceding fiscal year, reduces: (i) the appropriation to the local government’s law enforcement agency; (ii) the number of peace officers the local government’s law enforcement agency is authorized to employ; (iii) funding for peace officer overtime compensation for the local government’s law enforcement agency; or (iv) funding for the recruitment and training of new peace officers to fill each vacant peace officer position in the local government’s law enforcement agency; and (b) for which the criminal justice division of the governor’s office issues a written determination finding that the local government has taken an action described by (a), above;
2. provide that in making a determination of whether a local government is a “defunding local government” according to the budget adopted for the first fiscal year beginning on or after September 1, 2021, the criminal justice division of the governor’s office shall compare the funding and personnel in that budget to the funding and personnel in the budget of the preceding fiscal year or the second preceding fiscal year, whichever is greater;
3. provide that a local government is considered a defunding local government until the criminal justice division of the governor’s office issues a written determination finding that the local government has reversed the inflation-adjusted reductions described in Number 1(a), above;
4. require the criminal justice division of the governor’s office to: (a) compute the inflation rate used to make determinations under Number 3, above, each fiscal year using a price index that accurately reports changes in the purchasing power of the dollar for local governments in this state; and (b) publish the inflation rate in the Texas Register;

5. provide that a defunding city may not increase the combined revenues of the city's general fund, enterprise funds, and special revenue funds for a fiscal year above the combined revenues of the same funds for the immediately preceding fiscal year ;
6. provide that the limitation in Number 5, above, does not apply to revenues used to repay voter-approved bonded indebtedness, excluding certificates of obligation;
7. require the chief fiscal officer of a defunding city to, before the city council may adopt a budget for a fiscal year, verify in writing that the budget complies with Number 5, above;
8. provide that if a defunding city adopts a budget that exceeds the combined revenues allowed under Number 5, above, a taxpayer of the defunding city may bring a lawsuit against the budget or the property tax rate adopted for the same fiscal year; and
9. provide that a city is no longer considered to be a defunding city for purposes of this section when the criminal justice division of the governor's office issues a written determination finding that the city has reversed the reductions described in Number 1(a).

H.B. 2733 (Tinderholt) – Alcohol Monitoring Devices: would provide, among other things, that: (1) a peace officer shall make a report to the Department of Public Safety if the peace officer has reasonable cause to believe that a person has violated: (a) a condition of bond, a condition of community supervision, a condition of holding an occupational driver's license, or a court order issued restricting the person to the operation of a motor vehicle equipped with an ignition interlock device; or (b) a condition of bond or a condition of community supervision requiring the person to submit to alcohol monitoring through the use of an alcohol monitoring device other than an ignition interlock device; and (2) a magistrate may require as a condition of release on bond that the defendant submit to alcohol monitoring through the use of an alcohol monitoring device other than an ignition interlock device, for a defendant charged with certain intoxication offenses.

H.B. 2798 (Wilson) – Refusal to Consent: would repeal the requirement that a peace officer take possession of a person's driver's license following the person's failure to pass or refusal to consent to a test for intoxication.

H.B. 2844 (Goodwin) – TCOLE License: would, among other things:

1. provide that, if a person licensed by the Texas Commission on Law Enforcement (TCOLE) retires or resigns, the police chief or the police chief's designee must include in the explanation of the circumstances under which a person resigned or retired that is provided to TCOLE, information regarding any pending investigation known to internal affairs, supervisors, or management that was not completed due to the officer's resignation or retirement;
2. amend the definition of the term "dishonorably discharged" to include a license holder who was terminated by a law enforcement agency or retired or resigned in lieu of termination by the agency in relation to the following conduct: (a) lack of competence in performing the license holder's duties as an officer; (b) illegal drug use or an addiction that substantially impairs the license holder's ability to perform the license holder's duties as an officer; (c) lack of truthfulness in court proceedings or other governmental operations, including: (i) making a false statement in an offense report or other report as part of an investigation; (ii) making a false

statement to obtain employment as an officer; (iii) making a false entry in court records or tampering with evidence, regardless of whether the license holder is prosecuted or convicted for the false entry or tampering; or (iv) engaging in conduct designed to impair the results or procedure of an examination or testing process associated with obtaining employment as an officer or a promotion to a higher rank; (d) failure to follow the lawful directives of a supervising officer or to follow the policies of the employing law enforcement agency; (e) discriminatory conduct, including engaging in a course of conduct or a single egregious act, based on the race, color, religion, sex, pregnancy, national origin, age, disability, or sexual orientation of another that would cause a reasonable person to believe that the license holder is unable to perform the license holder's duties as an officer in a fair manner; or (f) conduct indicating a pattern of: (i) excessive use of force; (ii) abuse of official capacity; (iii) inappropriate relationships with persons in the custody of the license holder; (iv) sexual harassment or sexual misconduct while performing the license holder's duties as an officer; or (v) misuse of information obtained as a result of the license holder's employment as an officer and related to the enforcement of criminal offenses;

3. eliminate the provision that provides that a peace officer or a reserve law enforcement officer must have previously been dishonorably discharged from another law enforcement agency before the Texas Commission on Law Enforcement (TCOLE) may suspend the license of the officer upon notification that the officer has been dishonorably discharged; and
4. provide that TCOLE by rule shall establish grounds under which TCOLE shall suspend or revoke an officer license on a determination by the commission that the license holder's continued performance of duties as an officer constitutes a threat to the public welfare, and such grounds must include the conduct described in (2), above.

H.B. 2852 (Wu) – Toxicological Evidence: would provide, among other things, that: (1) a governmental or public entity or an individual, including a law enforcement agency, prosecutor's office, or crime laboratory, that is charged with the collection, storage, preservation, analysis, or retrieval of toxicological evidence shall ensure that toxicological evidence collected pursuant to an investigation or prosecution of intoxication and alcoholic beverage offenses is retained and preserved for the greater of two years or the period of the statute of limitations for the offense if the indictment or information charging the defendant has been dismissed without prejudice; (2) a person from whom toxicology evidence was collected shall be notified of the periods for which evidence may be retained and preserved, and the notice must be given by: (a) an entity or individual described by (1), above, that collects the evidence, if the entity or individual collected the evidence directly from the person or collected it from a third party; or (b) the court, if the records of the court do not show that the person was not given the notice described by (2)(a), above, and the toxicological evidence is subject to the certain retention periods; (3) before requesting a person to submit to the taking of a specimen, the officer shall, among other things, inform the person orally and in writing that: (a) if the person submits to the taking of a blood specimen, the specimen will be retained and preserved in accordance with (1), above; and (4) if a person consents to the request of an officer to submit to the taking of a specimen, the officer shall request the person to sign a statement that: (a) the officer requested that the person submit to the taking of a specimen; (b) the

person was informed of the consequences of not submitting to the taking of a specimen; and (c) the person voluntarily consented to the taking of a specimen.

H.B. 2878 (Goodwin) – Extreme Risk Protective Orders: would, among other things: (1) provide that, in certain circumstances, courts may issue an extreme risk protective order against a person exhibiting dangerous behavior or conduct, including any behavior or conduct related to the person’s use of firearms, requiring the person to relinquish his or her firearms; (2) require local law enforcement agencies to: (a) take possession of a person’s firearms when a court issues an extreme risk protective order against that person and to immediately provide the person a written copy of the receipt for the firearm and written notice of the procedure for return of the firearm; (b) if applicable, notify the court that issued the extreme risk protective order that the person who is the subject of the order has relinquished the firearm not later than seven days after the law enforcement agency receives the firearm; (c) conduct a check of state and national criminal history record information to verify whether the person may lawfully possess a firearm not later than 30 days after receiving notice from the court that the extreme risk protective order has expired; (d) if the check described in (c) verifies that the person may lawfully possess a firearm, provide written notice to the person by certified mail stating that the firearm may be returned to the person if the person submits a written request before the 121st day after the date of the notice; (3) provide that a local law enforcement agency in possession of a firearm relinquished because of an extreme risk protective order may not destroy the firearm but may sell the firearm to a licensed firearms dealer if the check in (2)(c) shows that the person may not lawfully possess a firearm or the person does not submit a written request as required by (2)(d); and (4) provide that the proceeds from the sale of a firearm in (3) shall be paid to the owner of the seized firearm, less the cost of administering this article with respect to the firearm.

H.B. 2895 (Romero) – Family Violence: would provide that: (1) the Texas Commission on Law Enforcement (TCOLE) shall develop and make available to all law enforcement agencies in this state a model policy establishing procedures applicable to a peace officer who responds to a report of an offense involving family violence that was committed in the physical presence or within the hearing of a child younger than 18 years of age; (2) the model policy described in (1), above, must require the responding peace officer to: (a) document the child’s exposure to the family violence; (b) speak to the child at eye level and explain in an age-appropriate manner the applicable procedures for investigating the offense; (c) validate the child’s emotional response to the situation; (d) assist in comforting the child; (e) provide information to the child’s parent or other appropriate caregiver regarding: (i) services available to support the child; and (ii) the negative impacts of family violence on a child; and (3) identify and document any other children in the family or household; and (3) each law enforcement agency in this state shall adopt the model policy described in (1) and (2), above, regarding peace officer response to reports of certain offenses involving family violence.

H.B. 2900 (Hefner) – Firearms: would, among other things, allow for the legal carrying of a handgun, either concealed or openly in a holster, without a license by someone who is not otherwise prohibited from possessing the handgun under state or federal law.

H.B. 2911 (White) – Next Generation 9-1-1 Service: would provide that: (1) before September 1, 2025, all parts of the state must be covered by Next Generation 9-1-1 service; (2) the

Commission on State Emergency Communications shall: (a) provide for the implementation and provision of next generation 9-1-1 service; and (b) shall impose a monthly 9-1-1 emergency service fee in the amount of either \$0.75, \$1.00, or \$1.25 on each wireless telecommunications connection that has a place of primary use within the geographic area in which a regional planning commission provides 9-1-1 service, including in an area served by an emergency communication district participating in the state system; (3) an emergency communication district not participating in the state system shall impose a monthly 9-1-1 emergency service fee in an amount equal to either \$0.75, \$1.00 or \$1.25 on each wireless telecommunications connection that has a place of primary use within the district's jurisdiction; (4) a political subdivision may not impose a fee other than a fee described by (2) or (3) on a wireless service provider or subscriber for 9-1-1 service; (5) for a wireless telecommunications connection subject to a 9-1-1 emergency service fee under (3), above, a wireless service provider shall collect the fee for each wireless telecommunications connection from its subscribers and pay the money collected to the comptroller not later than the 30th day after the last day of the month during which the fees were collected, but the wireless service provider may retain an administrative fee of two percent of the amount of fees collected; (6) not later than the 15th day after the end of the month in which the money is collected, the Commission shall distribute to each emergency communication district that does not participate in the state system the total amount of money remitted to the comptroller under (5), above, for wireless telecommunications connections within the geographic jurisdiction of that emergency communication district; (7) the following actions are required prior to the Commission or an emergency communication district imposing the 9-1-1 emergency service fee on each wireless telecommunications connection in their respective geographic jurisdiction: (a) the commission or the emergency communication district must consider and adopt at an open meeting a plan for implementation and provision of Next Generation 9-1-1 service and the imposition of the 9-1-1 emergency service fee on each wireless telecommunications connection; and (b) any individual plan for implementation and provision of Next Generation 9-1-1 service adopted by the Commission or an emergency communication district shall be reviewed periodically to confirm that the plan continues to meet increased consumer expectation for 9-1-1 service from modern communications technologies; (8) not later than the 15th day after the last day of the month in which the prepaid wireless 9-1-1 emergency services fee is collected, the Commission shall distribute to each emergency communication district that does not participate in the applicable regional plan a portion of the total money collected in the same proportion that the population of the area served by the district bears to the population of the state; (9) the comptroller shall provide to each of the emergency communication districts a monthly report that outlines the money collected and remitted to the comptroller by the wireless service provider from each wireless telecommunications connection within the geographic jurisdiction of these emergency communication districts; and (10) repeal the provision: (a) that provides that on receipt of an invoice from a wireless service provider for reasonable expenses for network facilities, including equipment, installation, maintenance, and associated implementation costs, the Commission or an emergency services district of a home-rule city or an emergency communication district created under state law shall reimburse the wireless service provider in accordance with state law for all expenses related to 9-1-1 service; and (b) funds collected under the equalization surcharge are not precluded from being used to cover costs under (10)(a), above, as necessary and appropriate, including for rural areas that may need additional funds for wireless 9-1-1.

H.B. 2922 (Buckley) – Alert System for Adolescents in Danger: would provide, among other things, that: (1) the Department of Public Safety shall develop and implement a system to allow a statewide alert to be activated on behalf of an individual 16 years of age or younger who is reported or suspected to be with a registered sex offender (an adolescent in danger); (2) A local law enforcement agency may notify DPS regarding an adolescent in danger if: (a) the local law enforcement agency believes that an adolescent is in danger and circumstances indicate that: (i) the adolescent is younger than 16 years of age; (ii) the adolescent is reported or suspected to be with a registered sex offender other than the adolescent’s parent or guardian; and (iii) regardless of whether the adolescent departed willingly with the other person, the adolescent has been taken from the care and custody of the adolescent’s parent or legal guardian without the permission of the parent or guardian or, if the parent or guardian is a registered sex offender, with or without the parent’s or guardian’s permission; (b) the local law enforcement agency believes that the adolescent is in immediate danger of suffering bodily injury or becoming the victim of certain offenses; and (c) sufficient information is available to disseminate to the public that could assist in locating the adolescent in danger, a registered sex offender suspected of being with the adolescent in danger, or a vehicle suspected of being used by the registered sex offender or the adolescent in danger; (3) in determining whether to notify DPS, the local law enforcement agency shall consider all factors relevant to the safety of the adolescent in danger, including: (a) whether the registered sex offender has previously committed criminal acts of violence; and (b) whether the registered sex offender is more than three years older than the adolescent in danger; (4) when a local law enforcement agency notifies DPS as described in (2), above, DPS shall confirm the accuracy of the information and, if confirmed, immediately issue an alert; and (4) a local law enforcement agency that locates an adolescent in danger who is the subject of an alert shall notify DPS as soon as possible that the adolescent in danger has been located.

H.B. 3017 (Wu) – Swatting: would provide, among other things, that: (1) a person commits an offense if the person reports a crime or an emergency to a law enforcement officer, law enforcement agency, 9-1-1 service, official or volunteer agency, or any other governmental employee or contractor who is authorized to receive reports of a crime or emergency and: (a) the person knows that the report is false; (b) the report is reasonably likely to cause an emergency response from a law enforcement agency or other emergency responder; and (c) the person makes the report or causes the report to be made with reckless disregard about whether the emergency response by a law enforcement agency or other emergency responder may directly result in bodily harm to any individual; (2) an offense described in (1), above, is a Class A misdemeanor, except that: (a) the offense is a state jail felony if it is shown on the trial of the offense that the defendant has been previously convicted on two or more occasions of an offense under this section; or (b) the offense is a felony of the third degree if the false report results in an emergency response to a reported crime and a person is killed or suffers serious bodily injury as a proximate result of lawful conduct arising out of that response; and (3) a court may order a defendant convicted of an offense to make restitution to a public agency for the reasonable costs of the emergency response by that public agency resulting from the false report. (Companion is **S.B. 1056** by **Huffman**.)

H.B. 3021 (Burns) – Law Enforcement Funding: would:

1. characterize a “defunding local government” as a city or county: (a) that adopts a budget for a fiscal year that, in comparison to the local government’s preceding fiscal year,

reduces: (i) the appropriation to the local government's law enforcement agency; (ii) the number of peace officers the local government's law enforcement agency is authorized to employ; (iii) funding for peace officer overtime compensation for the local government's law enforcement agency; or (iv) funding for the recruitment and training of new peace officers to fill each vacant peace officer position in the local government's law enforcement agency; and (b) for which the criminal justice division of the governor's office issues a written determination finding that the local government has taken an action described by (a), above;

2. provide that in making a determination of whether a local government is a "defunding local government" according to the budget adopted for the first fiscal year beginning on or after September 1, 2021, the criminal justice division of the governor's office shall compare the funding and personnel in that budget to the funding and personnel in the budget of the preceding fiscal year or the second preceding fiscal year, whichever is greater;
3. provide that a local government is considered a defunding local government until the criminal justice division of the governor's office issues a written determination finding that the local government has reversed the inflation-adjusted reductions described in Number 1(a), above;
4. require the criminal justice division of the governor's office to: (a) compute the inflation rate used to make determinations under Number 3, above, each fiscal year using a price index that accurately reports changes in the purchasing power of the dollar for local governments in this state; and (b) publish the inflation rate in the Texas Register;
5. provide that the comptroller may not, before July 1 of each state fiscal year, send to a defunding city its share of city sales and use taxes collected by the comptroller during the state fiscal year;
6. provide that before sending the defunding city its share of sales and use taxes, the comptroller shall deduct the amount reported to the comptroller for the defunding city under Number 7, below, and credit that deducted amount to the general revenue fund, which must be appropriated only to the Department of Public Safety;
7. provide that not later than August 1 of each state fiscal year, the criminal justice division of the governor's office shall report to the comptroller for each defunding city the amount of money the state spent in that state fiscal year to provide law enforcement services in the defunding city; and
8. provide that a city is no longer considered to be a defunding city for purposes of this section when the criminal justice division of the governor's office issues a written determination finding that the city has reversed the reductions described in Number 1(a).

H.B. 3026 (Canales) – Dedicated Autonomous Vehicles: would: (1) define "dedicated autonomous vehicle" as an automated motor vehicle that is incapable of operation by a human operator present in the vehicle; and (2) provide an exemption for certain required vehicle equipment and inspection screenings.

H.B. 3174 (Lopez) – Police Marihuana Hiring Policy: would provide that: (1) law enforcement agency of a city or county may not adopt or enforce a hiring policy provision that: (a) automatically disqualifies peace officer position applicants because of prior marihuana use; and (b) considers marihuana use that occurred more than three years before the date of application; (2) a law enforcement agency is not prohibited from adopting or enforcing a hiring policy provision that disqualifies applicants for other acts or conditions related to marihuana, including: (a) the sale or distribution of marihuana by the applicant; or (b) an applicant's criminal history related to the possession of marihuana.

H.B. 3226 (Hinojosa) – Essential Workers Minimum Wage: would provide that an employer, including a city, shall pay to each individual who is designated as an essential critical infrastructure

worker by the United States Department of Homeland Security, Cybersecurity and Infrastructure Security Agency and employed by the employer not less than the greater of: (1) \$15 an hour; or (2) the federal minimum wage (currently \$7.25 an hour).

S.B. 1105 (Hughes) – TMRS Return To Work: would provide, among other things, that: (1) the retirement annuity of a person who is reemployed by a city in which the employee most recently performed creditable service before the person’s retirement shall not be suspended, provided that the person does not become an employee of the reemploying city at any time during the 12 consecutive months after the effective date of the person’s last retirement from the reemploying city; and (2) if the annuity payments of a person who resumed employment with the person’s reemploying municipality before September 1, 2021, were discontinued and suspended, on filing of a written application with TMRS, TMRS shall resume making the annuity payments to the person, provided: (a) the person’s retirement that preceded the resumption of employment was based on a bona fide termination of employment; (b) the person did not become an employee of the person’s reemploying municipality at any time during the 12 consecutive months after the effective date of the person’s retirement; and (c) the person has not terminated employment with the reemploying municipality.

Purchasing

H.B. 2558 (Capriglione) – Firearms: would: (1) prohibit a governmental entity from entering into a contract with a company for the purchase of goods or services unless the contract contains a written verification from the company that it: (a) doesn’t have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and (b) will not discriminate during the term of the contract against a firearm entity or firearm trade association; and (2) provide that the prohibition in (1) applies only to a contract paid partly or wholly from public funds between a governmental entity and a company with at least 10 full-time employees that has a value of at least \$100,000.

H.B. 2581 (Kacal) – Construction and Civil Works Projects: would, among other things: (1) allow a governmental entity to: (a) implement a prequalification process to eliminate unqualified offerors from and prequalify potential offerors meeting minimum standards for consideration for a civil works project for which a request for bids, proposals, or qualifications is authorized; and (b) directly solicit qualifications from potential offerors 30 days before the project solicitation is issued if the competitive requirements and other applicable law are followed; (2) provide that: (a) an offeror who submits a bid, proposal, or response to a request for qualifications for a construction contract under certain law may, after the contract is awarded, make a request in writing to the governmental entity to provide documents related to the evaluation of the offeror’s submission; and (b) not later than the 30th day after the date a request is made, the governmental entity shall deliver to the offeror the documents relating to the evaluation of the submission including, if applicable, its ranking of the submission; (3) provide that for civil works projects, the weighted value assigned to price must be at least 50 percent of the total weighted value of all selection criteria; however, if the governing body of a governmental entity determines that assigning a lower weighted value to price is in the public interest, the governmental entity may assign to price a weighted value of not less than 40 percent of the total weighted value of all selection criteria; and

(4) provide that when the competitive sealed proposal procurement method is used, the governmental entity shall make the evaluations, including any scores, public and provide them to all offerors not later than the seventh business day after the date the contract is awarded.

S.B. 19 (Schwertner) – Firearms: would: (1) prohibit a governmental entity from entering into a contract with a company for the purchase of goods or services unless the contract contains a written verification from the company that it: (a) doesn't have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and (b) will not discriminate during the term of the contract against a firearm entity or firearm trade association; and (2) provide that the prohibition in (1) applies only to a contract paid partly or wholly from public funds between a governmental entity and a company with at least 10 full-time employees that has a value of at least \$100,000.

S.B. 1014 (Buckingham) – Public Work Contracts: would, among other things: (1) define: (a) "public work contract" to include work performed on public property leased by a governmental entity to a nongovernmental entity; and (b) "prime contractor" to include a person that makes a public work contract with a person who leases any public property; and (2) require a performance and payment bond when a governmental entity authorizes a nongovernmental entity leasing public property from the governmental entity to contract with a prime contractor. (Companion bill is **H.B. 1477** by **K. Bell**.)

S.B. 1097 (Creighton) – Public Works Contracts Retainage: would provide that:

1. "warranty period" means the period of time specified in a contract during which certain terms applicable to the warranting of work performed under the contract are in effect;
2. a governmental entity: (a) shall include in each public works contract a provision that establishes the circumstances under which a public works project is considered substantially complete; (b) may release the retainage for substantially completed portions of the project, or fully completed and accepted portions of the project; (c) shall maintain an accurate record of accounting for the retainage withheld on periodic contracts payments and the retainage released to the prime contractor for a public works contract; and (d) shall, for certain public works contracts with a value of \$10 million or more, pay any remaining retainage on periodic contract payments, and the interest earned on the retainage, to the prime contractor on completion of the contract;
3. if the total value of a public works contract is \$1 million or more, a governmental entity may not withhold retainage in an amount that exceeds five percent of the contract price, and the rate of retainage may not exceed five percent for any item in a bid schedule or schedule of values for the project;
4. except certain contracts funded through the Texas Water Development Board from the limitation described in (3), above;
5. for a competitively awarded contract with a value of \$10 million or more, and for a contract awarded using a method other than competitive bidding, a governmental entity and prime contractor may agree to deposit in an interest-bearing account the retainage withheld on periodic contract payments;
6. a governmental entity may not withhold retainage: (a) after completion of the contract by the prime contractor, including during the warranty period; or (b) for the purpose of requiring the prime contractor, after completion of the contract, to perform work on

manufactured goods or systems that were specified by the designer of record and properly installed by the contractor;

7. on application to a governmental entity for final payment and release of retainage, the governmental entity may withhold retainage if there is a bona fide dispute between the governmental entity and the prime contractor and the reason for the dispute is that labor, services, or materials provided by the prime contractor or the prime contractor's subcontractors were not provided in compliance with the contract; and
8. if there is no bona fide dispute as described (7), above, and neither party is in default, a prime contractor is entitled to: (a) cure any noncompliant labor, services, or materials; or (b) offer the governmental entity a reasonable amount of money as compensation for any noncompliant labor, services, or materials that cannot be promptly cured. (Companion bill is **H.B. 692** by **Shine**.)

S.B. 1098 (Creighton) – Airport Contracts: would provide that: (1) a local government, including a city, or a person operating an airport on behalf of a local government may not enter into a contract for the acquisition, construction, improvement, or renovation of airport infrastructure or equipment, including a terminal, security system, or passenger boarding bridge, used at an airport or an air navigation facility associated with an airport (an “airport infrastructure or equipment contract”) with the following entities: (a) an entity that a federal court determines has misappropriated intellectual property or trade secrets from another entity organized under federal, state, or local law and is owned wholly or partly by, is controlled by, or receives subsidies from the government of a country that: (i) is identified under federal law as a priority foreign country; or (ii) is subject to monitoring by the Office of the United States Trade Representative for compliance with a measure or trade agreement; or (b) any entity that owns, controls, is owned or controlled by, is under common ownership with, or is a successor to an entity described by (1)(a), above; and (2) an airport infrastructure or equipment contract for goods or services entered into by a local government or a person operating an airport on behalf of a local government must contain a written statement by the entity with which the local government or person is contracting verifying that the entity is not an entity described by (1), above. (Companion bill is **H.B. 1739** by **Romero**.)

Transportation

H.B. 2637 (Cook) – Urban Air Mobility: would require the Texas Transportation Commission to appoint an advisory committee to assess current state law and any potential changes to state law that are needed to facilitate the development of urban air mobility operations and infrastructure in this state. (Companion bill is **S.B. 763** by **Powell**.)

H.B. 2673 (Guillen) – Grants: would provide that, for a grant awarded by the Texas Department of Transportation for the construction of a transportation project in a county with a population of less than 25,000 or a city with a population of less than 15,000, the department must reimburse a grant recipient for costs incurred by the recipient that exceed the amount of the grant if the project is managed by the department.

H.B. 2700 (Martinez) – Highway Maintenance: would: (1) provide that the Texas Department of Transportation and a city may enter into an agreement to allow the city to maintain all or a

portion of the state highway right-of-way located in the city or the city's extraterritorial jurisdiction; and (2) provide that an agreement under (1) must provide compensation to the city that is equal to the cost the department would incur if the department or a contractor acting on behalf of the department maintained the right-of-way.

H.B. 2931 (Israel) – Gas Tax: would increase the rate of the state gasoline tax from 20 to 40 cents per gallon. (Companion bill is **S.B. 1041** by **Eckhardt**.)

S.B. 1041 (Eckhardt) – Gas Tax: would increase the rate of the state gasoline tax from 20 to 40 cents per gallon. (Companion bill is **H.B. 2931** by **Israel**.)

S.B. 1055 (Huffman) – Crosswalk: would provide that it is a criminal offense for a person, with criminal negligence, to operate a motor vehicle within the area of a crosswalk and cause bodily injury to a pedestrian or a person operating a bicycle, scooter, electronic personal assistive mobility device, neighborhood electric vehicle, or golf cart. (Companion bill is **H.B. 2081** by **Reynolds**.)

Utilities and Environment

H.B. 11 (Paddie) – Extreme Weather Emergency Preparedness: would: (1) define “extreme weather emergency” as a period when: (a) the previous day's highest temperature did not exceed 10 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Service reports; or (b) the National Weather Service issues a heat advisory for any county in the relevant service territory, or when such an advisory has been issued on any one of the previous two calendar days; (2) require the Public Utility Commission (PUC) to adopt rules that require each provider of generation in the ERCOT power region to: (a) implement measures to prepare generation facilities to provide adequate electric generation service during an extreme weather emergency; (b) make all reasonable efforts to prevent interruptions of service during an extreme weather emergency; (c) reestablish service within the shortest possible time, should an interruption occur due to an extreme weather emergency; and (d) make reasonable efforts to manage emergencies resulting from a failure of service caused by an extreme weather emergency, including issuing instructions to its employees on procedures to be followed in the event of an extreme weather emergency; (3) require the PUC to adopt rules to require each electric cooperative, municipally owned utility, and transmission and distribution utility providing transmission or distribution service in the ERCOT power region to: (a) implement measures to prepare facilities to maintain service quality and reliability during a weather emergency; (b) make all reasonable efforts to prevent interruptions of service during an extreme weather emergency; (c) reestablish service within the shortest possible time, should an interruption occur due to an extreme weather emergency; and (d) make reasonable efforts to manage emergencies resulting from a failure of service caused by an extreme weather emergency, including issuing instructions to its employees on procedures to be followed in the event of an extreme weather emergency; and (4) provide that the rules adopted under (2) and (3) may not neglect any local neighborhood or geographic area, including rural areas, communities or less than 1,000 people, and low-income areas.

H.B. 12 (Raymond) – Study on Statewide Extended Power Outage: would:

1. require the Texas Division of Emergency Management to conduct a study on the efficacy of existing mass notification deployments by local governmental entities throughout this state and the feasibility of establishing a statewide disaster alert system;
2. provide that the study in (1) must: (a) identify the costs to local governmental entities associated with existing local disaster alert or notification systems; (b) examine the potential benefits to local governmental entities of implementing an alert system in coordination with this state, including: (i) improving this state's ability to coordinate state and local responses to disasters; and (ii) eliminating barriers to successful mass notification and communication encountered by local governmental entities during disasters; (c) examine the importance of a local governmental entity's discretion regarding the entity's level and manner of participation in the alert system; (d) examine potential costs to local governmental entities or this state associated with implementing the alert system; (e) examine the ability of local governments to communicate with ERCOT, the PUC, and electric utilities that serve their area; and (f) identify any state or local governmental entity actions necessary to implement a comprehensive alert system that would include alerts related to extended power outages;
3. provide that TDEM shall prepare a report on the findings of the study and submit it to the governor, lieutenant governor, and the legislature;
4. provide that an electric utility, ERCOT, and the PUC shall provide information related to the comprehensive alert system to TDEM on request and such information is confidential and excepted from disclosure under the Public Information Act;
5. provide that TDEM, with the cooperation of the office of the governor, the PUC, and ERCOT, may develop and implement a statewide disaster alert system to activate in the event of a disaster affecting any location in this state;
6. provide that if, based on the findings of the study conducted in Number 1, above, the division and office of the governor conclude that the benefits to this state and local governmental entities of implementing a coordinated alert system outweigh any additional costs, TDEM, with the cooperation of the office and other appropriate state agencies and using money available for the purpose, shall develop and implement the alert system;
7. provide that a local governmental entity that chooses to participate in an alert system in Number 5, above, may use available local funds for that purpose and may contract with TDEM for services associated with the alert system and that a local governmental entity is not required to use local funds to allow an electric utility to participate in the alert system;
8. provide that an alert system in Number 5, above may be: (a) operated in conjunction with any other emergency alert system required by federal or state law; and (b) designed to notify persons statewide of a disaster affecting any location in this state;
9. provide that an alert system in Number 5, above, designed to communicate about an extended power outage must apply to areas served by non-ERCOT utilities;
10. provide that when TDEM determines a disaster has occurred or the occurrence or threat of disaster is imminent or is notified of a declaration of disaster, TDEM may immediately activate any alert system implemented in Number 5, above, and that a participating local governmental entity may, in coordination with TDEM, choose the manner in which the alert system is activated and notifications are issued within the entity's geographic region;

11. provide that TDEM, or local governmental entity, as appropriate, may issue updated notifications for the duration of the disaster;
12. require an electric utility to notify ERCOT, the PUC, and TDEM of an interruption in service that is likely to last more than 24 hours;
13. provide that a notification issued under Number 5, above, may include information necessary to: (a) assist a person affected by the disaster with making informed decisions regarding the person's safety; and (b) enable a person in another location in this state to assist an affected person;
14. provide that TDEM may terminate the activation of an alert system when: (a) the division determines that the threat or danger has passed or the disaster has been addressed to the extent that emergency conditions no longer exist; (b) the service interruption caused by the extended power outage has ended; or (c) the state of disaster is terminated; and
15. provide that TDEM may adopt rules to implement the alert system and may consult with the PUC, ERCOT, or an electric utility when drafting the rules.

H.B. 17 (Deshotel) – Restriction on Regulation of Utility Services: would: (1) define “regulatory authority” as the Public Utility Commission, Railroad Commission, or the governing body of a municipality, in accordance with the context; (2) define “utility” as a person, company, or corporation engaged in furnishing water, gas, telephone, light, power, or sewage service to the public; (3) prohibit a regulatory authority, planning authority, or political subdivision of this state from adopting or enforcing an ordinance, resolution, regulation, code, order, policy, or other measure that has the purpose, intent, or effect of directly or indirectly banning, limiting, restricting, discriminating against, or prohibiting the connection or reconnection of a utility service or the construction, maintenance, or installation of residential, commercial, or other public or private infrastructure for a utility service based on the type or source of energy to be delivered to the end-use customer; (4) prohibit an entity, including a regulatory authority, planning authority, political subdivision, or utility, from imposing any additional charge or pricing difference on a development or building permit applicant for utility infrastructure that: (a) encourages those constructing homes, buildings, or other structural improvements to connect to a utility service based on the type or source of energy to be delivered to the end-use customer; or (b) discourages the installation of facilities for the delivery of or use of a utility service based on the type or source of energy to be delivered to the end-use customer; and (5) provide that the bill does not limit the ability of a regulatory authority or political subdivision to choose utility services for properties owned by the regulatory authority or political subdivision.

H.B. 2563 (Crockett) – Solar Energy: would provide that a transmission and distribution utility or electric utility must allow the owner of a solar energy device that is interconnected to the utility's electricity distribution system, at the discretion of the owner, to: (1) decline to sell electricity produced by the solar energy device to the distribution system; or (2) temporarily disconnect from the utility's electricity distribution system to use on site the electricity produced by the solar energy device during a power outage or interruption.

H.B. 2573 (Kuempel) – Water Regulations: would provide that a city may not extend into its extraterritorial jurisdiction a city ordinance that imposes cut and fill depth requirements or other water quality regulations on a project that are more stringent than the applicable minimum state

and federal water quality requirements unless the project is located in an area that is an aquifer recharge or contributing zone.

H.B. 2604 (Allison) – Load Shedding: would require the Public Utility Commission to adopt rules that require each electric utility, municipally owned utility, and electric cooperative to exclude any circuits that provide power to a public elementary or secondary school facility from participation in the utility's or cooperative's attempt to shed load in response to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates.

H.B. 2638 (Meza) – Load Shedding: would require the Public Utility Commission to adopt rules that require each electric utility, municipally owned utility, and electric cooperative that is subject to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates to rotate customer curtailment so that no part of the distribution system that serves a multifamily property with more than 25 units is subject to an outage of more than 6 hours.

H.B. 2642 (Campos) – Load Shedding: would provide that a municipal housing authority, in cooperation with the municipality in which the authority is located and with any electric utility, municipally owned utility, or electric cooperative that provides power to housing facilities operated by the authority, shall prioritize in an emergency the provision of electric utility services to each housing facility that is operated by the authority and that has residents that are elderly or disabled individuals.

H.B. 2646 (Jarvis Johnson) – Concrete Plant: would provide that, in determining whether to approve an application for a standard permit for a concrete batch plant, the executive director of the Texas Commission on Environmental Quality must base the decision, in part, on a consideration of the potential harm to local property values and the location of the facility relative to homes, schools, churches, parks, and other community assets.

H.B. 2652 (Larson) – Surface Water and Groundwater Study: would establish an advisory board to study surface water and groundwater interaction and require the board to provide a report of its findings to the governor, lieutenant governor, speaker of the house of representatives, and each member of the legislature. (Companion bill is **S.B. 1039** by **Eckhardt**.)

H.B. 2661 (Muñoz) – Rolling Blackouts: would require the Public Utility Commission to: (1) adopt rules that require each electric utility, municipally owned utility, and electric cooperative that is subject to a rolling blackout initiated by an independent organization to rotate customer curtailment so that no customer is subject to an outage of more than 12 hours; and (2) conduct a study on: (a) methods to make the imposition of a rolling blackout equitable across Texas; and (b) measures needed in Texas to prevent the necessity of rolling blackouts.

H.B. 2686 (Reynolds) – Interconnection of Transmission Facilities: would require the Public Utility Commission to: (1) identify transmission facilities in ERCOT that may be interconnected with transmission facilities outside of ERCOT for the purpose of allowing federal regulation of transmission service and wholesale power sales in ERCOT; and (2) require an electric utility,

municipally owned utility, or electric cooperative that owns a transmission facility identified in (1) to make requests, obtain approvals, enter into contracts, and construct facilities as necessary to interconnect the facility with a transmission facility outside of ERCOT.

H.B. 2687 (Reynolds) – Prevention of Power Blackouts: would, among other things: (1) require the Public Utility Commission to adopt rules that require a power generation company operating in the ERCOT power region to: (a) weatherize the company's generation facilities and associated equipment on an annual basis so that the facilities and equipment are able to operate in extreme cold and heat; and (b) submit annual weatherization plans to the PUC and the independent organization for the ERCOT power region; (2) provide that if the PUC or independent organization for the ERCOT power region determines that changes in the amounts of existing ancillary service obligations required by load serving entities are needed: (a) the PUC by rule may address the imbalance; and (b) the independent organization may make changes to its ancillary service obligations through a stakeholder process to address the imbalance; (3) require the PUC to adopt rules to establish a process for obtaining emergency response services in addition to ancillary services as appropriate to prevent rolling blackout conditions caused by shortages of supply in the ERCOT power region; (4) require the PUC to ensure that the total cost for ensuring emergency response services does not exceed \$100 million annually; (5) in accordance with the rules in (3), require the independent organization for the ERCOT power region to contract with qualified loads, electric storage companies, and power generation companies, including aggregation of loads and generators, for a defined amount of emergency response service capacity the organization may call on to ensure that power shortages or demand spikes do not create a need for rolling blackouts; and (6) provide that before the independent organization for the ERCOT power region calls on the emergency response service capacity to prevent rolling blackouts, the organization shall use all market sources of power, including electric energy storage and demand reduction, in accordance with PUC rules.

H.B. 2708 (Patterson) – Hazardous and Solid Waste Remediation Fee: would provide that money in the account attributable to fees on the sale of batteries may be used for environmental remediation at the site of a closed battery recycling facility located in the city limits of a city if the city submits to the Texas Commission on Environmental Quality a voluntary compliance plan for the site and is paying or has paid for part of the costs of the environmental remediation of the site.

H.B. 2717 (Landgraf) – Boil Water Notices: would: (1) require the operator of a public drinking water supply system, when required by a Texas Commission on Environmental Quality rule to issue a boil water notice to its customers, to: (a) provide the notice in writing to each customer as prescribed by TCEQ rule to the street address of the customer; and (b) attempt to reach each customer by electronic means to provide notice as prescribed by TCEQ rule; (2) require the operator of a public drinking water supply system to notify each customer that the boil water notice has expired in the manner described by (1); and (3) provide that TCEQ may require that a public utility that furnishes water to the public complete a program of weatherization if TCEQ finds that the public utility is at risk of being unable to provide water to customers for a significant period of time due to weather-related failures in equipment or infrastructure.

H.B. 2762 (Rogers) – Load Shedding: would require the Public Utility Commission to adopt rules that require each electric utility, municipally owned utility, and electric cooperative to

exclude any circuits that provide power to a hospital facility or to a facility necessary to provide water to wholesale customers from participation in the utility's or cooperative's attempt to shed load in response to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates.

H.B. 2768 (Rogers) – Load Shedding: would require the Public Utility Commission to adopt rules that require each electric utility, municipally owned utility, and electric cooperative to exclude any circuits that provide power to a commercial or public radio or television broadcasting facility from participation in the utility's or cooperative's attempt to shed load in response to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates.

H.B. 2786 (Vasut) – Load Shedding: would: (1) define “critical customer” as a customer for whom electric service is considered crucial for the protection or maintenance of public safety, including a: (a) hospital facility; (b) nursing facility, assisted living facility, or facility that provides hospice services; (c) police or fire station; or (d) critical water and wastewater facility; (2) define “critical industrial or residential customer” as: (a) an industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the customer's premises; or (b) a residential customer who has a person permanently residing in the customer's home who has been diagnosed by a physician as: (i) having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a major life function through a significant deterioration or exacerbation of the person's medical condition; or (ii) being dependent upon an electric-powered medical device to sustain life; (3) except as provided by (4) and (5), require the Public Utility Commission to adopt rules that require each electric utility, municipally owned utility, and electric cooperative that is subject to a rolling blackout initiated by an independent organization to: (a) exclude any parts of the utility's or cooperative's distribution system that provide power to a critical customer from participation in the utility's or cooperative's attempt to shed load; and (b) rotate curtailment of all other parts of the distribution system so that no customer is subject to an outage of more than: (i) 24 hours; or (ii) 12 hours during an extreme weather emergency; (4) provide that the PUC may allow an electric utility, municipally owned utility, or electric cooperative to maintain an outage for more than 24 hours for a part of the distribution system if necessary to supply critical customers; and (5) provide that the PUC may require that an electric utility, municipally owned utility, or electric cooperative exclude a critical industrial or residential customer from load shedding under (3)(a).

H.B. 2805 (Goodwin) – Public Utility Agency Boards: would: (1) provide that if a public utility agency has a service area that includes the unincorporated area of a county that is outside the boundaries of the agency's participating public entities, the commissioners court of the county that is outside the boundaries of the agency's participating public entities may appoint the same number of directors as the number appointed by the participating public entity with the largest population that is less than the population of the unincorporated area; and (2) require a director of a public utility agency to be a customer of the public utility agency and reside in the area served by the agency.

H.B. 2814 (C. Turner) – Oil and Gas Wells: would provide that: (1) the Railroad Commission of Texas must require an applicant for a permit to drill a new oil or gas well to indicate in the application whether the proposed well site is located within 1,500 feet of the property line of a child-care facility, private school, or primary or secondary public school; (2) the Railroad Commission may not grant an application for a permit to drill a new oil or gas well that is located within 1,500 feet of the property line of a child-care facility, private school, or primary or secondary public school unless: (a) the commission holds a public hearing in the county in which the proposed well site is located to receive public comments on whether granting the permit application is in the public interest; and (b) the commission considers the comments received when determining whether to grant the application; and (3) the bill does not affect the authority of a political subdivision to enact, amend, or enforce an ordinance or other measure related to the drilling of new oil or gas wells.

H.B. 2816 (Thierry) – Electric Reliability Standards: would require the independent organization to determine the amount of reserve capacity necessary to maintain a one-in-ten reliability standard in the ERCOT power region.

H.B. 2828 (Canales) – One-Time Payment to Utility Customers: would, among other things: (1) require the Public Utility Commission to establish a program to provide onetime cash payments from state funds appropriated for that purpose to retail customers of municipally owned utilities, electric cooperatives, and retail electric providers in the ERCOT power region in the amount of: (a) \$250 for each residential retail account; and (b) \$250 for each commercial retail account; and (2) require each municipally owned utility, electric cooperative, and retail electric provider to provide to the PUC a list of each retail account served by the utility, cooperative, or provider after February 13, 2021, and before February 19, 2021.

H.B. 2838 (Longoria) – Rolling Blackouts: would: (1) require the Public Utility Commission to adopt rules that require each electric utility, municipally owned utility, and electric cooperative that is subject to a rolling blackout initiated by an independent organization to rotate customer curtailment so that no customer is subject to an outage of more than 12 hours; and (2) provide that the PUC may make exceptions to the requirements in (1) to the extent necessary to supply facilities the PUC determines are critical to maintaining public health and safety.

H.B. 2849 (Larson) – Winter Weather Emergency Preparedness: would require the Public Utility Commission to adopt rules that require each provider of generation in the ERCOT power region to implement measures to prepare the provider's generation facilities to provide adequate electric generation during a winter weather emergency.

H.B. 2861 (Bucy) – Load Shedding: would require the Public Utility Commission to adopt rules to require each electric utility, municipally owned utility, and electric cooperative to exclude any circuits that provide power to a facility that treats patients with end stage renal disease from participation in the utility's or cooperative's attempt to shed load in response to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates.

H.B. 2877 (Beckley) – Notice of Widespread Outage: would provide that as soon as practicable after: (1) an electric utility, municipally owned utility, or electric cooperative experiences a widespread power outage or a widespread electric service emergency, the utility or cooperative shall notify by telephone and e-mail each: (a) United States senator who represents Texas; (b) member of the United States House of Representatives who represents a district affected by the disruption or emergency; (c) statewide elected official; (d) member of the legislature who represents a district affected by the disruption or emergency; (e) elected official of a county government who represents an area affected by the disruption or emergency; and (f) elected official of a municipal government who represents an area affected by the disruption or emergency; (2) an electric utility, municipally owned utility, or electric cooperative experiences a widespread natural gas shortage or a widespread natural gas emergency, the utility or cooperative shall notify by telephone and e-mail each: (a) United States senator who represents Texas; (b) member of the United States House of Representatives who represents a district affected by the disruption or emergency; (c) statewide elected official; (d) member of the legislature who represents a district affected by the disruption or emergency; (e) elected official of a county government who represents an area affected by the disruption or emergency; and (f) elected official of a municipal government who represents an area affected by the disruption or emergency; and (3) a retail public utility experiences a widespread water service outage or a widespread water service emergency, the utility shall notify by telephone and e-mail each: (a) United States senator who represents Texas; (b) member of the United States House of Representatives who represents a district affected by the disruption or emergency; (c) statewide elected official; (d) member of the legislature who represents a district affected by the disruption or emergency; (e) elected official of a county government who represents an area affected by the disruption or emergency; and (f) elected official of a municipal government who represents an area affected by the disruption or emergency.

H.B. 2898 (Lopez) – Utility Shutoff Notice: would provide that: (1) not later than three hours after an electric utility, municipally owned utility, or electric cooperative intentionally shuts off electric power to a customer in response to an emergency event, the utility or cooperative shall notify the customer by e-mail or text message of: (a) the shutoff; (b) the estimated time and date that the utility or cooperative will restore electric power to the customer; and (c) whether the shutoff is part of a rolling outage; and (2) not later than three hours after a retail public utility intentionally shuts off water service to a customer in response to an emergency event, the utility shall notify the customer of the shutoff and the estimated time and date that the utility will restore water service to the customer by e-mail or text message.

H.B. 2905 (Morrison) – Public-Private Partnership Water Projects: would provide that: (1) a person that receives money from the state water implementation revenue fund may enter into an agreement with a private entity to design, develop, finance, or construct a certain projects funded by the Texas Water Development Board and may use money received from the fund to make payments for the agreement; (2) an eligible political subdivision that receives money from the flood infrastructure fund may enter into a contract as provided for by law with a private entity to design, develop, finance, or construct a flood project and may use money from the fund to make payments under a contract; and (3) an eligible political subdivision that receives money from the water infrastructure fund may enter into a contract as provided for by law with a private entity to design, develop, finance, or construct a flood project and may use money from the fund to make payments under a contract.

H.B. 2979 (Paul) – Backup Power Supply: would: (1) require the Commission on State Emergency Communications to develop minimum performance standards for equipment and operation of 9-1-1 service to be followed in developing regional plans, including requirements that the plans provide for the installation and use of a backup power supply for a power outage; (2) require a city that owns or operates a utility service to provide water service to ensure that the utility system has a backup power supply for water treatment during a power outage; and (3) provide that the Texas Commission on Environmental Quality may not grant a new certificate of convenience and necessity to an applicant unless the applicant demonstrates that the applicant has a backup power supply for water treatment during a power outage.

H.B. 2990 (Shaw) – Permit Applications Available Online: would, among other things, require an applicant: (1) for certain environmental and water use permits issued by the Texas Commission on Environmental Quality to post a copy of the application on a publicly accessible Internet website and provide to TCEQ the address of the website; and (2) applying to appropriate unappropriated state water to post a copy of the application, the map, and any supporting materials on a publicly accessible Internet website and provide TCEQ with the address of that website in its application. (Companion bill is **S.B. 348** by **Zwiener**.)

H.B. 2991 (Shaw) – Rolling Blackouts: would require the Public Utility Commission to adopt rules to require each electric utility, municipally owned utility, and electric cooperative: (1) to exclude any circuits that provide power to an assisted living facility, a facility that provides hospice services, or a nursing facility from participating in the utility's or cooperative's attempt to shed load in response to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates; and (2) to rotate customer curtailment so that no part of the distribution system is subject to an outage of more than 12 hours in a 24 hour period when it is subject to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates.

H.B. 3030 (Goodwin) – Notice of Outage: would: (1) define “significant interruption of service” as an interruption of essential products and services provided by a public service provider that lasts one or more hours and affects the provider's entire system, a major division of the provider's system, a community, a critical load, or service to interruptible customers, and a scheduled interruption lasting more than four hours that affects customers who are not notified in advance and includes: (a) a loss of service to 20 percent or more of the provider's customers, or 20,000 customers for a provider serving more than 200,000 customers; and (b) interruptions adversely affecting a community such as interruptions of governmental agencies, military bases, universities and schools, major retail centers, and major employers; (2) require all public service providers to enter into a contract for an emergency notification system for use in informing the provider's customers, governmental entities, and other affected persons regarding: (a) notice of a disaster, emergency, or significant interruption of service; and (b) any actions a recipient is required to take during a disaster, emergency, or significant interruption of service; (3) require the emergency notification system under a contract in (2) to provide notice of a significant interruption of service as soon as reasonably possible after the interruption occurs and include in the notification: (a) the general location of the interruption; (b) the cause of the interruption, if known; (c) the date and time that the interruption began; (d) the estimated date and time that service will be restored; and

(e) the name and telephone number of the public service provider; and (4) provide that if the duration of a significant interruption of service is longer than 24 hours, the emergency notification system under a contract in (2) must provide an update to the information required in (3) not less than once every 24 hours that the interruption continues.

H.B. 3038 (Goodwin) – Electric Distribution Upgrades: would, among other things: (1) require each transmission and distribution utility, municipally owned utility, and electric cooperative to install and connect to an information network, for each customer, an advanced meter capable of allowing the utility or cooperative to shut off the customer's power when a rolling blackout is necessary; (2) require a transmission and distribution utility, municipally owned utility, and electric cooperative to develop or acquire the equipment or software necessary to shut off a customer's power in the event of a rolling blackout by using an advanced meter in (1); (3) require a utility or cooperative to make the software in (2) available to: (a) a county or municipal government, for the purpose of identifying critical load public safety customers; and (b) a retail electric provider, for the purpose of providing the utility or cooperative with a preferential order for customer curtailment; (4) require each transmission and distribution utility, municipally owned utility, and electric cooperative to make upgrades to the distribution system operated by the utility or cooperative for the purpose of more evenly distributing a rolling blackout; (5) require each transmission and distribution utility, municipally owned utility, and electric cooperative to install under-frequency relays throughout the distribution system operated by the utility or cooperative and rotate which relays are active every year; (6) provide that a transmission and distribution utility, municipally owned utility, and electric cooperative may recover reasonable and necessary costs incurred in implementing (1)-(5); (7) require each transmission and distribution utility, municipally owned utility, and electric cooperative to make a plan for using advanced metering technology, software, equipment, and other upgrades to a distribution system authorized by the bill to deploy a rolling blackout; (8) provide that a critical load public safety customer includes: (a) long-term care facilities; (b) food pantries; (c) homeless shelters; (d) temporary shelters identified by the county government; and (e) critical telecommunications facilities; (9) require the Public Utility Commission to allow the county to designate a critical load public safety customer; (10) require a transmission and distribution utility, municipally owned utility, or electric cooperative to identify customers in the utility's or cooperative's service area who qualify as critical load public safety customers under PUC rules and are not designated as critical load public safety customers; and (11) require a utility or cooperative to notify the following entities of any critical load public safety customers identified in (10): (a) the PUC; (b) the independent system operator for the ERCOT power region, if applicable; and (c) a county or municipality where the customer resides.

H.B. 3059 (Guerra) – Load Shedding: would require the Public Utility Commission to adopt rules to require each electric utility, municipally owned utility, and electric cooperative to exclude any circuits that provide power to a facility necessary to provide water to wholesale customers and a facility necessary to provide natural gas transmission services from participation in the utility's or cooperative's attempt to shed load in response to a rolling blackout initiated by an independent organization or another reliability council or power pool in which the utility or cooperative operates.

H.B. 3061 (Davis) – Electricity Generation: would: (1) require the Public Utility Commission to adopt rules that require each provider of generation in the ERCOT power region to: (a) submit to the PUC annual maintenance plans showing how the provider will maintain generation assets; (b) periodically inspect and maintain generation assets to ensure that the assets can withstand extreme weather conditions; and (c) report to the independent organization for the ERCOT power region annual forecasts of the provider’s generation capacity for a five-year period beginning with the year following the year in which the forecast is submitted; (2) require the PUC to require a person who operates a natural gas generation facility to maintain at the site of the facility an amount of natural gas as a reserve that will allow the facility to provide generation for at least 48 hours that equals at least 10 percent of the net dependable capability of the facility in the event of a natural gas shortage; (3) define “net dependable capability” as the maximum load in megawatts, net of station use, which a generating unit or generating station can carry under specified conditions for a given period of time, without exceeding approved limits of temperature and stress; and (4) require the PUC to submit a report to the legislature on the potential costs and benefits of establishing an emergency strategic electric energy reserve, including the feasibility of establishing a natural gas reserve and of constructing a state-owned power plant.

H.B. 3079 (Larson) – Water and Sewer Rates: would, among other things: (1) provide that the Public Utility Commission may not hold a hearing or otherwise prescribe just and reasonable amounts to be charged under a contract for the rates a municipally owned utility charges if it furnishes wholesale water or sewer service to another political subdivision unless the PUC determines the amount charged under the contract harms the public interest; and (2) provide a judicial review process to challenge a PUC decision in (1). (Companion bill is **S.B. 997** by **Nichols**.)

H.B. 3084 (Larson) – Interregional Water Projects: would, among other things: (1) provide that the purpose of the interregional water planning council is to: (a) identify and propose water projects for the state water plan that involve multiple water planning areas; (b) develop proposals for innovative funding mechanisms for the projects identified in (1)(a); and (c) share best practices regarding operation of the regional, interregional, and state water planning processes; and (2) require the council to prepare a report to the Texas Water Development Board on the council’s work, including projects and funding methods proposed under (1)(a) and (b).

H.B. 3090 (Vasut) – Power Generation: would: (1) define “intermittent power generation facility” as a power generation facility with a power output that, in the course of the facility’s ordinary and proper operation, cannot be predicted, controlled, or varied at will and includes a solar or wind generation facility; and (2) provide that an intermittent power generation facility, the construction of which began after September 1, 2021, may not operate in Texas unless the owner of the facility certifies to the Public Utility Commission that, in the event of a power output disruption at the facility: (a) the owner can supply or has a contract that guarantees the supply of not less than 50 percent of the facility’s average output over a 48-hour period; and (b) the owner’s additional or contracted power supply comes from: (i) a power generation facility with a power output that, in the course of the facility’s ordinary and proper operation, can be predicted, controlled, or varied at will, including a hydroelectric, biomass, natural gas, coal, or nuclear generation facility; or (ii) an electric energy storage facility.

H.B. 3177 (Rosenthal) – Power Generation: would provide that a transmission and distribution utility, municipally owned utility, or electric cooperative that transmits or distributes power purchased at wholesale in the ERCOT power region may construct, own, and operate facilities as necessary to: (1) access transmission service from outside of the ERCOT power region; and (2) purchase power at wholesale from outside of the ERCOT power region.

H.B. 3181 (Rosenthal) – Electric Emergency Preparedness: would require the Public Utility Commission to: (1) adopt rules that require each provider of generation in the ERCOT power region to implement measures to prepare the provider's generation facilities to provide full electric generation service at ambient temperatures between 0 degrees Fahrenheit and 120 degrees Fahrenheit; and (2) reduce the base capacity rating of a generation facility that is operated in violation of a rule adopted under (1) by 10 percent annually until the generation facility is no longer in violation or until the base capacity rating is reduced to zero.

H.B. 3182 (Rosenthal) – Gas Pipeline and Electric Emergency Preparedness: would, among other things: (1) require the Public Utility Commission to adopt rules that require each provider of generation in the ERCOT power region to: (a) prepare, submit to the PUC, and update as necessary an emergency operations plan for providing adequate electric generation service during a weather emergency; and (b) implement measures to prepare generation facilities to provide adequate electric generation service during a weather emergency; (2) require the PUC to adopt rules that require each electric cooperative, municipally owned utility, and transmission and distribution utility providing transmission or distribution service in the ERCOT power region to: (a) prepare, submit to the PUC, and update as necessary an emergency operations plan for maintaining service quality and reliability during a weather emergency; and (b) implement measures to prepare facilities to maintain service quality and reliability during a weather emergency; (3) provide that an emergency operations plans under (1) and (2) are public information except for the portions considered confidential under the Public Information Act or other state or federal law; (4) require the Railroad Commission to adopt rules regarding measures gas pipeline facility operators must implement to prepare gas pipeline facilities to maintain service quality and reliability during a weather emergency; (5) require the PUC to analyze the emergency operations plans in (1) and (2) and prepare an annual weather emergency preparedness report on power generation, transmission, and distribution for submission to the lieutenant governor, the speaker of the house of representatives, and the members of the legislature; and (6) provide that the PUC may require an updated report from a utility in (1) and (2) if the PUC finds that an emergency operations plan on file does not contain adequate information to determine whether the entity can provide adequate service during a weather emergency.

H.B. 3183 (Rosenthal) – Gas Pipeline and Wells Emergency Preparedness: would, among other things: (1) require the Railroad Commission to adopt rules that require an operator of a gas well to: (a) implement measures to prepare the well to operate during sustained periods of cold weather; and (b) provide to the RRC a biannual report of the efforts the operator has taken to implement the measures required in (1)(a); (2) provide that a failure to submit a report under (1)(b) is punishable by: (a) for a first violation, a fine of \$5,000; and (b) for a subsequent or continuing violation of more than four months: (i) a fine of \$7,500; or (ii) a revocation of each permit authorizing the operation of a well for which a report has not been submitted; (3) require the RRC to submit an annual report to the legislature regarding the rules adopted under (1); (4) require the

RRC to adopt rules regarding measures gas pipeline facility operators must implement to prepare gas pipeline facilities to maintain service quality and reliability during sustained periods of cold weather, including requiring: (a) the installation of condensate drains in pipelines; (b) that drains installed in (4)(a) be installed in a manner that ensures the drain remains free of frost at all times; and (c) that valves, pumps, and other pressure-sensitive equipment be protected from weather by insulation or heaters; (5) require a pipeline facility operator to submit to the RRC a biannual report of the efforts the operator has taken to implement the measures in (4)(c); and (6) provide that a failure to submit a report in (5) is punishable by: (a) for a first violation, a fine of \$5,000; and (b) for a subsequent or continuing violation of more than four months: (i) a fine of \$7,500; or (ii) a revocation of each permit authorizing the operation of the pipeline facility.

H.B. 3213 (Sherman) – Electric and Gas Emergency Preparedness: would: (1) require the Railroad Commission to adopt rules that require an operator of a gas well to implement measures to prepare the well to operate during a weather emergency; (2) require the Public Utility Commission to adopt rules that require each provider of generation in the ERCOT power region to: (a) ensure that adequate maintenance and inspection of freeze protection elements is conducted on a timely and repetitive basis; (b) inspect and maintain generating unit heat tracing equipment; (c) inspect and maintain generating unit thermal insulation; (d) make a plan to erect adequate windbreaks and enclosures, where needed; (e) develop and annually conduct winter-specific and plant-specific operator awareness and maintenance training; (f) ensure that winterization supplies and equipment are in place before the winter season; (g) ensure that adequate staffing is in place for cold weather events; (h) take preventative action in anticipation of cold weather events in a timely manner; (i) install insulation and heated pipes as necessary; (j) use crushers to break up frozen coal; (k) ensure that equipment can withstand ambient temperatures of -40 degrees Fahrenheit for at least two days; and (l) heat any wind turbines and ensure that the turbines can withstand temperatures of -22 degrees Fahrenheit for at least two days; (3) require the PUC to adopt rules that require each electric cooperative, municipally owned utility, and transmission and distribution utility providing transmission or distribution service in the ERCOT power region to: (a) ensure that transmission facilities are capable of performing during cold weather conditions; (b) ensure that communications responsibility is placed on more than one system operator or on several key personnel during an emergency; (c) consider using persons who are not otherwise responsible for emergency operations for communications during an emergency or likely emergency; (d) conduct critical load review for gas production and transmission facilities and determine the level of protection such facilities should be accorded in the event of system stress or load shedding; (e) train operators in proper load shedding procedures and conduct periodic drills to maintain load shedding skills; (f) install insulation and heated pipes as necessary; and (g) ensure that equipment can withstand ambient temperatures of -40 degrees Fahrenheit for at least two days; and (4) require an independent organization for the ERCOT power region to: (a) communicate with transmission and distribution utilities, municipally owned utilities, and electric cooperatives about deteriorating weather conditions in a timely manner; and (b) provide transmission and distribution utilities, municipally owned utilities, and electric cooperatives with access to information about loads on the systems of the utilities and cooperatives that could be curtailed by the organization to provide operating reserves or as emergency interruptible load service.

S.B. 952 (Hinojosa) – Concrete Batch Plants: would require a plot plan for an application for a standard permit for a concrete batch plant issued by the Texas Commission on Environmental Quality. (Companion bill is **H.B. 416** by **Walle**.)

S.B. 953 (Hinojosa) – Concrete Plants: would extend the distance within which a concrete plant or crushing facility must be from a single- or multi-family residence, school, or place of worship from 440 yards to 880 yards. (Companion bill is **H.B. 56** by **Jarvis Johnson**.)

S.B. 997 (Nichols) – Water and Sewer Rates: would, among other things: (1) provide that the Public Utility Commission may not hold a hearing or otherwise prescribe just and reasonable amounts to be charged under a contract for the rates a municipally owned utility charges if it furnishes wholesale water or sewer service to another political subdivision unless the PUC determines the amount charged under the contract harms the public interest; and (2) provide a judicial review process to challenge a PUC decision in (1). (Companion bill is **H.B. 3079** by **Larson**.)

S.B. 1039 (Eckhardt) – Surface Water and Groundwater Study: would establish an advisory board to study surface water and groundwater interaction and require the board to provide a report of its findings to the governor, lieutenant governor, speaker of the house of representatives, and each member of the legislature. (Companion bill is **H.B. 2652** by **Larson**.)

Coronavirus (COVID-19) Updates

The Texas Municipal League is open for business. The building is closed to all but essential personnel and most staff is working remotely, but the League remains open for business and is fully ready to serve. Cities are encouraged to call or email for legal assistance, help with ordinances, or for general advice or assistance. Let us know how we can assist you and your city.

Re: Main Street & Pine Street Parking

Dear Bastrop City Council Members:

Can we do anything to prevent business owners and their employees from parking on Main Street and Pine Street? This has been an ongoing problem since I had my business, Cripple Creek & Company, from 2009-2015. I do remember that there were signs posted on Main Street and Pine Street regarding the 2 hour parking. I have no idea when the signs disappeared, but my customers did ask about the 2 hour parking limit.

I still work on Main Street and the problem still exists. We have plenty of space in the various parking lots for employees to park. I do not think that people understand that if a customer cannot find a parking spot, that customer will go somewhere else, especially when it comes to restaurants and boutiques. I do wish we could get back to the 2 hour parking limits and if employees and business owners see these signs, it might deter them from parking in front of other businesses.

Re: Zone 3 Pressure Loss

See the synopsis below for the events that transpired on March 3, 2021 that led to reduced water pressures across Zone 3.

At approximately 12:00AM on March 3, 2021: The Bob Bryant WTP chlorine feed equipment unsuccessfully attempted to change from cylinder numbers 1&2 to cylinders 3&4 resulting in a reduction in chlorine disinfection levels.

At approximately 7AM: Crews noticed the chlorine residual was lower than normal, and crews were dispatched to the Bob Bryant WTP to begin troubleshooting the situation. Chem Equip was contacted to request a service call to identify and correct the chlorine feed issue. The problem was later identified to be faulty vacuum tubing in combination with a fouled gas regulator.

By 8:30AM: An isolation valve outside of the Bob Bryant plant was closed to prevent any water from entering the distribution system that would be improperly disinfected, and operators began draining the ground storage tank at the Bob Bryant WTP site. It was understood that the demand of the water system in Zone 3 would be accommodated through the Willow WTP.

At approximately 10:30AM: The Willow WTP was able to maintain water pressures in Zone 3, until operators started to flush fire hydrants in dead-end areas of Zone 3. As the fire hydrants were being flushed, City offices started to receive multiple calls regarding low water pressure from various parts of Zone 3. Calls were made to the operators to immediately cease flushing until the problem had been resolved.

At approximately 11AM: Crew members arrived at a pressure reducing valve on College St. that provides water to Zone 3 from Zone 2 to find a gate valve partially open, which was restricting flow to Zone 3. The crew then continued to fully open the valve, restoring normal operating pressures to Zone 3.

At approximately 12PM: Operators were instructed to pull precautionary bacteriological samples for

Zone 3 and take them to Aqua Lab.

At approximately 2PM: Further discussions took place to determine why the Willow WTP had not been able to keep up with the demand placed on Zone 3 when the Bob Bryant WTP was taken offline. It was determined that the valve located at the PRV on College St. had not yet been fully opened following the operations conducted during Winter Storm URI. An additional valve located at the Willow WTP site was also identified as being closed during the storm, but never reopened. The valve at the Willow WTP prevented flow from entering Zone 3 by means of a different pipeline along Old Austin Hwy. This valve was promptly reopened.

At approximately 6:30PM: Bob Bryant WTP restored to fully operational status, with chlorine residuals within an acceptable range. The isolation valve outside of the Bob Bryant WTP was reopened.

March 4, 2021 4:50PM: Confirmation was received from Aqua Water Lab confirming that the bacteriological samples pulled for Zone 3 were free of coliform, indicating that the water is safe and eliminating the need for residents to boil their water.

The fact that we owe our water customers the best service possible does not escape me, and the Water Dept. is working toward a solution to prevent situations such as these from occurring in the future. The City is required by the EPA to develop a Risk and Resiliency Plan that will be followed by an Emergency Response Plan, focusing on our water and wastewater infrastructure. I will ensure that this scenario is brought to the table during the drafting of these documents, which is set to start taking place this month. Additionally, Standard Operating Procedure manuals are planned to be drafted and made available at each Water Dept. office and water production facility that should help with the expedited recovery of different water distribution Zones if a facility experiences a failure that inhibits water production/distribution.

As for the Bob Bryant WTP specifically, a contractor has already visited the site and is preparing a takeoff list to improve the chlorine feed system.

Texas has a serious problem: not enough electricity when we really need it. While a lot needs to be fixed, three issues need immediate attention.

The Electric Reliability Council of Texas is responsible for managing the flow of electric power to meet about 90% of the state's electricity demand. During the recent severe winter weather event, ERCOT planning and execution issues proved problematic.

Let's first examine two planning problems.

The first deals with ERCOT naiveté. According to ERCOT, the Texas grid has a little more than 100,000 megawatts of

“installed” capacity, of which about 28% is made up of intermittent renewable sources — wind and solar. ERCOT’s baseload capacity comes from coal and natural gas, together making up 67% of installed capacity, and nuclear, which is about 5%. ERCOT includes a significant portion of each of these sources when calculating what’s called the reserve margin, or the amount of capacity that exceeds demand.

In early November 2020, ERCOT issued its Seasonal Assessment of Resource Adequacy report for this winter. “ERCOT anticipates there will be sufficient installed generating capacity available to serve system wide forecast peak demand this winter season, December 2020-February 2021,” ERCOT said. The assessment estimated that “nearly 83,000 megawatts of resource capacity is expected to be available for the winter peak,” well in excess of the “57,699 megawatts” forecast for peak demand.

Then came the arctic cold.

As temperatures began to plummet across Texas on Sunday, Feb. 14, ERCOT projected that demand would peak at about 74,000 MW, significantly higher than originally forecast. As night approached, wind turbines began to freeze, some thermal plants tripped offline due to the extreme cold, and natural gas production and delivery were constrained, causing additional thermal plants to fail.

By 1 a.m. Monday, Feb. 15, coal and natural gas-fired generation were supplying 79% and 77% of their installed capacity, respectively, while wind was supplying 21% of its installed capacity. By Monday night, those numbers had dropped. Coal and natural gas-fired generation were supplying 59% and 56% of their installed capacity, while wind was supplying only 3% of its installed capacity.

It is a serious planning mistake to include renewable sources when estimating how much power — actual generation — will be available at times of peak demand. When a thermal generator is unable to meet its obligation to serve demand, the generator must pay a penalty. Renewable resources have no such obligation. If the wind is not blowing or the sun is not shining, these generators have no obligation and pay no penalty. That has to change.

A second planning problem is somewhat related to the first. Texas has been exceptionally successful in promoting the

development of renewable energy resources. When the wind is blowing and the sun is shining, Texans reap the benefit in the form of cheap electricity. But this comes at a cost in the form of lost baseload capacity, that is, power plants that generate electricity constantly. In the last five years alone, some 8,500 MW of baseload capacity has closed down. Those plants will not come back.

As the Texas population and economy continue to grow, we must build more baseload capacity. Winterization measures alone will not solve the problem. At a minimum, Texas needs to build 10,000 MW of additional thermal generation.

To incentivize investment in new baseload generation, changes in the Texas energy-only market may be required. Whether or how the market should be tweaked is a question for policymakers. But regardless, the decline in baseload generation must be reversed — and soon.

Now let's turn to a potential execution problem.

In the U.S., all power plants operate on an established frequency of 60 hertz. Think of it as a spinning top designed to remain upright at exactly 60 revolutions per second. If the frequency of power plant turbines moves above or below 60 hertz for just a few minutes, really bad things can happen.

Turbines and generators can overheat, vibrate severely, become inoperable and even explode.

About 1:50 a.m. Monday, Feb. 15, the frequency on the ERCOT grid began to decline. Generation capacity was falling, and demand was growing. The ERCOT control room operators had an emergency on their hands.

During the Texas House and Senate hearings of Feb. 25-26, industry executives testified that as ERCOT took action to bring the frequency back up by abruptly and significantly reducing demand (called shedding load), some power plants had to trip themselves offline due to the frequency instability on the grid. This happened not because of the cold conditions, but because ERCOT did not act to methodically shed load earlier to stabilize frequency. As a result, ERCOT came dangerously close to a catastrophe that would have shut down the entire grid for weeks.

An independent third party should be retained to conduct a thorough investigation of exactly what was happening in the ERCOT control room before and after 1:50 a.m. on that Monday and if the operators had full understanding of the operational risks that generators face when frequency changes that fast. If the investigation concludes the ERCOT operators had the appropriate knowledge and performed as they should

have, this question will be resolved. However, if such an investigation finds mistakes caused thermal generation to automatically trip offline due to the frequency event, then significant changes should be made in ERCOT operational protocols.

In sum, three big issues — two dealing with planning and a third dealing with real-time execution — need to be addressed and fixed. Failure to do so is not an option.
