AGENDA ITEM SUBMITTED BY:
Tracy Waldron, Chief Financial Officer

BACKGROUND/HISTORY:
The Chief Financial Officer provides the City Council a monthly financial report overview for all funds to include detailed analysis for General Fund, Water-Wastewater Fund, Bastrop Power & Light and the HOT Tax Fund.

REVENUE
General Fund exceeded the forecast by over 18.5%
- Sales tax is 12.8% above forecast and 18% over same period prior year
- Development fees are 42% of the budgeted amount.

Street Maintenance and Capital Bond Projects are in negative status due to interest not meeting forecast.

Impact Fee Fund is in warning status.

All other funds are performing positive to forecast.

EXPENDITURES
All funds are positive to budgeted amounts.

The preliminary ending fund balance for General Fund at the end of FY2021 is $7.18M which is $1.6M over the projection used for the FY2022 budget. Increased sales tax revenue and development fees contributed to the variance along with salary savings on the expense side. This excess fund balance over the 25% set by policy will be addressed during the FY 2023 budget process.

This reporting requirement is set forth by the City of Bastrop Financial Management Policies, Chapter IV. Operating Budget, Section D. Reporting, as adopted by Resolution R-2021-80 on August 24, 2021.

AGENDA ITEM: 9A

TITLE:
Consider action to approve a recommendation to increase salaries for Water & Wastewater Distribution and Plant Operation staff.

AGENDA ITEM SUBMITTED BY:
Tanya Cantrell, Human Resources Director

BACKGROUND/HISTORY:
The Water & Wastewater Distribution Division of Public Works is funded to have six Systems Technicians, a Foreman, and a Crew Leader. The Division is charged with ensuring public safety by maintaining seventy-seven miles of water mains, 4,068 water connections, 769 fire hydrants, 1,372 valves, sixty-three miles of wastewater system mains, 3,619 wastewater connections, and 700 manholes.

In December of 2021, there were five vacant System Technician positions that were unable to be filled. As the result of being unable to fill those positions, we asked Public Sector Personnel Consultants (PSPC), the third-party consultant that completed the City’s compensation study in 2021, to look at the market rates for those positions and found that our competition’s starting salaries were falling in the mid-range of the City’s pay schedule. In an effort to recruit the experience needed, and also compete with other jurisdictions, the salary for vacant Water & Wastewater Systems Technicians positions was increased from $15.15 per hour to $18.03 per hour ($37,502 annually). In order to retain our experienced Systems Technicians and Operators, remain competitive in the market, minimize salary compression, and maintain internal equity, the current Systems Technicians and Operator salaries must also be adjusted. This is in addition to adjustments made a few pay periods ago. The estimated cost of the new pay grade placements for all employees in Water & Wastewater Distribution and Plant Operations for the remainder of FY2022 is approximately $60,000. The impact to the FY2023 budget would be approximately $92,000.

Because the change in salaries impacts future budgets, we are asking City Council to approve this base salary increase.

FISCAL IMPACT:
There will be no impact on the FY2022 budget due to salary savings.

RECOMMENDATIONS FOR FY2022:
Tanya Cantrell, Director of Human Resources recommends the City Council of the City of Bastrop, Texas approve the recommended salary increases in order to recruit and retain experienced Water & Wastewater Distribution and Plant Operations staff.

RECOMMENDATIONS FOR INCLUSION IN FY2023 BUDGET:
• Plan to budget for step increases.
• Increase the base budget by $92,000

Memo
TO: Paul A. Hofmann, City Manager
From: Curtis Hancock, Director of Public Works
Date: February 16, 2022
Subject: W-WW Salary Increase Justification

Due to volatility in the labor market coupled with rising inflation, the City’s ability to recruit and retain personnel within the Water and Wastewater Division has been negatively affected. We have lost employees and potential candidates to other utility systems multiple times in the past twelve to eighteen months (City of Kyle, City of Austin), as well as generally less-skilled market employers (solid waste, general maintenance/landscaping), where higher wages are being offered.

The Water and Wastewater Division has not been fully staffed in over a year, with as many as five Systems Technician vacancies (~70%) in December 2021. The starting salary for W/WW System Technicians was increased from $15.15/hour to $18.03/hour, effectively increasing our applicant pool and reducing our current vacancies to three. However, the increase in starting salary for entry level positions has created salary inequalities amongst our more experienced employees and supervisors. It is my belief that if this issue is not promptly addressed and resolved, the City can expect to lose valuable, experienced water and wastewater leaders that play a vital role in ensuring the public health and safety of our water and wastewater customers.

In order to retain our experienced personnel and minimize salary compression, a pay step adjustment is recommended.

AGENDA ITEM: 9B

TITLE: Consider action to approve a recommendation to increase salaries for the patrol division of the Bastrop Police Department.

AGENDA ITEM SUBMITTED BY:
Tanya Cantrell, Human Resources Director

BACKGROUND/HISTORY:
Policing is changing in significant ways. The work of policing is becoming more complex, and communities are demanding far-reaching change. These changes go to the core of what police officers should do for their communities and how they should do it. As a result, the knowledge, skills, and attitudes for good policing must be redefined. In addition, departments must move beyond the struggle to get enough applicants to fill vacant positions and begin to focus on methods and incentives that help them attract and retain top talent. This means abandoning traditional approaches that emphasize meeting minimum qualifications and considering strategies that raise the bar and embrace change.

The Bastrop Police Department is dedicated to attracting top talent by recruiting officers that intend to have meaningful careers with the department. Top talent officers have the attributes and skills of integrity, service orientation, empathy, tolerance, self-control, team orientation, communication, critical thinking, mediation skills, decision-making skills, problem-solving skills, knowledge of mental illness, knowledge of drug addiction and drug-induced medical conditions, cultural awareness, defensive tactics, and physical stamina. All successful police departments desire and compete for applicants that possess or are willing to learn these traits and qualities.

The department is competing for the best applicants and retaining the best talent against all police agencies in central Texas.

The crisis in policing, the “great-resignation”, and COVID-19 have greatly contributed to continuous patrol openings due to attrition from transfers to retirements.

To recruit and retain top talent, and begin competing with other jurisdictions for this talent, the Police Department proposes an hourly wage increase for patrol officers and sergeants of 12.5% for the remainder of FY2022. This equals approximately $80,000 in salary increase. The impact to the FY2023 budget would be approximately $160,000 for sworn personnel departmental-wide, fully staffed, and excluding the Chief of Police. In addition, about $62,000 is allocated from salary savings in FY2022 for two cadets to attend CAPCOG’s police academy. This amount will be required in FY2023 to train new recruits.

Because the change in salaries impacts future budgets, we ask City Council to approve this base salary increase.

FISCAL IMPACT:
There will be no impact on the FY2022 budget due to salary savings.
RECOMMENDATIONS FOR FY2022:
Tanya Cantrell, Director of Human Resources recommends the City Council of the City of Bastrop, Texas approve the recommended salary increases in order to recruit and retain top talent at the Bastrop Police Department.

RECOMMENDATIONS FOR INCLUSION IN FY2023 BUDGET:
- Plan to budget for step increases.
- Increase the base budget by between $160,000.

ATTACHMENTS:
Memorandum by Clint Nagy, Chief of Police
The City of Bastrop Police Department, like all police departments, large to small, progressive to traditional, is in a policing crisis. As a result, all of these agencies are simultaneously competing to recruit, hire, and retain patrol officers from the same talent pool.

Since 2002, the dialog in law enforcement has revolved around anecdotal evidence about the difficulty of hiring qualified police officers, especially those assigned to patrol. More recently, the concerns have become more frequent, more complex, and more dire. This has correlated with a series of high-profile police shootings, the uncertainty of the Covid-19 pandemic, and the "great-resignation." Lately, the police department has focused its attention on retaining and recruiting not just good but excellent officers who can provide a high level of service to our community by being guardians of the public.

From the beginning of 2020 through present, the Police Department has had an above-normal attrition rate. In all, twelve officers have left the department, with over half having left under looming performance improvement plans, pressure to perform, or terminated for cause. The remainder chose to retire or left for better opportunities.

**Data Collection**

In January 2022, the Police Department began a data-intensive study to identify the steps for hiring and retaining the best patrol officers who can read situations, balance competing demands, know the law, have the skills to do the traditional work of policing, and have a passion for community policing that builds trust.

The Police Department analyzed data from forty-five patrol and cadet applicants to determine the level of competition we are facing when attempting to hire and retain officers. Upon review of the forty-five applicants' personal history statements, it was determined the group as a whole had applied for at least 269 other law enforcement agencies before considering the Bastrop Police Department.

The Police Department also made open records requests to other Central Texas police agencies and obtained civil service exam results to determine if their applicants had considered the Bastrop Police Department. The vast, overwhelming answer was that they had not. The industry indicates officers choose their employment opportunities based on salary, location, and special assignments which may include VICE and SWAT. Of these big three factors, the only factor we currently influence is salary. After reviewing the data, the Bastrop Police Department competes with other agencies such as the Round Rock, Georgetown, Leander, San Marcos, Kyle, Hutto, Lockhart, and Pflugerville police departments as well as the Sheriff's Offices in Travis and Williamson Counties. Even more locally, the police department competes with the Bastrop County Sheriff's Office and the BISD Police Department. It is important to state that the Bastrop Police Department is not competing with agencies such as La Grange, Smithville, and Elgin police departments; however, they compete with us.
Bastrop Statistics

In 2021, the department's patrol division, although short-staffed, made 2,560 traffic stops and thousands of other police contacts. Patrol responded to over 11,000 calls for service, including nearly 1,000 motor vehicle collisions. The police department's response times are about seven and a half minutes. The patrol division receives more written positive accolades than complaints at about a ratio of 20 or greater to 1. Even under the stress of long hours, overtime, and minimum staffing, patrol works to keep the City of Bastrop citizens and our visitors safe. While successful, this accelerated pace will wane under the pressures of growth and changing needs. The Bastrop Police Department is already experiences consequences because of the crisis in policing. For example, the department's overall officer experience has fallen by 21% and the cost of hiring and training new officers has been repeated at about $23,000 per occurrence.

A priority of the Bastrop Police Department is to retain and grow its diversity. The Assistant Chief of Police is female, and four of the five sergeants are of color. Demographically the department is 59% white, 25% Hispanic, and 15% Black compared to our community that is 67% white, 25% Hispanic, and 4% Black. It is imperative we remain competitive to hit this goal.

Currently, to ensure Bastrop Police Department hires and retains officers who service with excellence, the plan includes three steps as outlined below. This memo will focus on step number two as it is the one currently being considered.

Step One- Sponsorship of Cadets

In 2021, the Police Department took steps to hire officers by sponsoring two cadets through CAPCOG's Academy; each is at the highest of their class. Now, the department is funding two more cadets through the academy. The department is proud of our recruiting and cadet sponsor incentives, yet other police agencies have done this for years. This initiative by the police department can be considered step one to hiring and retaining top talent. To hire two cadets a year to attend CAPCOG's basic police academy is at a total cost of $62,000 and should be allocated year after year as needed.

Step Two- Patrol Division Salary Increases

The following proposed salary increase is step two and is designed to help the police department recruit and retain the best officers for the patrol division.

This salary increase is for patrol officers and their supervisors only. Patrol is where the department struggles to hire and retain officers. The average starting hourly wage among Central Texas departments with whom the department is competing is $26.58, with a range of $23.03-$30.43. Regarding senior officer hourly pay, the average wage at about five years of service is $30.10 with a range of $24.42-$35.34. At a starting wage of $23.80, Bastrop ranks 14th out of 15 Texas police departments and is $2.78 below the Central Texas average. At $26.27 for senior officer hourly pay, Bastrop ranks 14th out of 15 departments and is $3.3 below the Central Texas average. Since salary and pay raises are major considerations for new hires and experienced officers, the Bastrop Police Department is at a distinct disadvantage for hiring qualified officers and retaining the ones we have.

The increase is set at 12.5% at the cost of about $80,000 between April and September 2022 and an increase to the base budget of $160,000 for FY2023. This salary increase is necessary and urgent to allow the Police Department to compete with other top agencies.

Step Three- Review Additional Personnel
To minimize salary compression, step three is to compensate additional sworn personnel in FY 2023, such as the criminal investigations division and Assistant Chief of Police.

Conclusion

As of February 16th, 2022, the department has three patrol positions vacant. For a department of 26 patrol officers, three vacancies has a large impact on workload.

It is important to recognize that Bastrop cannot go on as if it is "business as usual." While this has been possible in the past, it is not possible now. The Police Department, along with most other police departments in the US, is facing serious challenges in attracting and retaining talented officers. When you add unprecedented growth in the area to an already stretched department, the consequences can be dire. The competition is greater and other departments are responding with higher pay and more incentives. It is essential that we make the City of Bastrop Police Department a stronger competitor in the current job market and shift our focus from struggling to just fill positions to getting and retaining the "right" people to serve.

AGENDA ITEM: 9C

TITLE:
Consider action to approve Resolution No. R-2022-29 of the City Council of the City of Bastrop, Texas, approving a cost sharing agreement between the City of Bastrop and Lennar Homes of Texas Land and Construction LTD for the oversizing of water main improvements to a not to exceed amount of Eighty-Six Thousand, Nine Hundred and Nine Dollars ($86,909.00) as attached in Exhibit A; authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Fabiola de Carvalho, MIAM, Director of Engineering and Capital Project Management

BACKGROUND/HISTORY:
The City of Bastrop City Council authorized approval of a construction contract with BAR Contracting for the construction of the Wastewater Treatment Plant #3 (WWTP#3). One of the items to be constructed by BAR, as part of the WWTP#3, was a 12-inch water line that would service the WWTP#3. This 12-inch water line would connect the WWTP#3 to an existing water line located at the Hunter’s Crossing sub-division.

During the planning review process of the public infrastructure plans of the Bastrop Grove 1A sub-division, City staff identified that an 8-inch water line to serve this sub-division, being proposed by Lennar, was to be constructed in close proximity to a segment of the 12” water line BAR was to construct to serve the WWTP#3, as described above, and would be running parallel to the same when crossing 304 HWY. City recognized it would be more beneficial to have only one water line as opposed to two, especially for the purposes of operations and maintenance. Therefore, City requested Lennar to oversize herein described proposed water line from 8-inch to 12-inch.

The 920 linear feet of 12-inch water line has already been constructed from a point of connection to an existing water system at Hunter’s Crossing sub-division, to the Bastrop Grove sub-division. Since this work has been completed, Lennar is seeking payment for the services provided. Refer to Exhibit A attached for the Cost Sharing Agreement for the Oversizing of Water Main Improvements.

The costs associated with this work are in the amount of Eighty-Six Thousand, Nine Hundred and Nine Dollars ($86,909.00), which has been calculated based on the difference of the construction costs to oversize the water line from an 8-inch water line, to a 12-inch water line and its associated appurtenances.

Because this scope of work was removed from BAR’s contract, there is an expected credit to the City from BAR in the amount of Thirty-Six Thousand, Six Hundred and Seventy-Six Dollars ($36,676.00). BAR will later connect the water line to serve the WWTP#3 from the point of connection at the recently constructed 12-inch water at Bastrop Grove.

Attached and marked Exhibit “A” is a drawing showing the route of the proposed MAIN with reference points relating to the approved engineering plans and showing with clarity the land to be developed. Exhibit “A” to which further reference is made herein shall be part of this Agreement for all purposes. The MAIN is further described as follows: approximately 95.00 linear feet of 24” encasement and 920.00 linear feet of 12-inch water main and associated appurtenances.
II.
By the execution of this Agreement, it is expressly understood that the CITY does not assume any obligations, other than its obligation to pay the CITY’s share of the costs as set forth herein.

III.
The subject MAIN shall upon completion and acceptance by the City become the property of the CITY and subject to its jurisdiction and control.

IV.
a. The CITY, in consideration of the DEVELOPER constructing the larger diameter MAIN than otherwise required to serve the land within the Bastrop Grove subdivision, agrees to pay a sum equal to but not exceeding the difference in the Construction Costs of the oversized MAIN and the cost of constructing a main 8-inches in diameter. The CITY’s proportionate share of the oversize construction costs, not including engineering, testing and other costs related to construction of the MAIN, is estimated to be: Eighty-Six Thousand Nine Hundred and Nine Dollars ($86,909.00), see Exhibit “B.” The DEVELOPER shall send the City an invoice for the CITY’s share of the construction costs, which payment will be due within thirty (30) days after receipt of the invoice.

b. The CITY shall pay its share of Construction Costs following the completion of the MAIN. Following completion of the MAIN, DEVELOPER will provide to CITY verification of: (a) all costs incurred by or on behalf of the DEVELOPER for the MAIN, including but limited to, construction and construction management. The Parties agree that no payment under this Section will occur unless and until the MAIN has been accepted by the CITY.

V.
The DEVELOPER agrees to obtain and make available any necessary easements, permits and rights of way, together with necessary working space as may be required to construct subject MAIN wherever the MAIN crosses property owned by DEVELOPER. The CITY, subject to its review and approval of plans and specifications for the MAIN, hereby grants DEVELOPER permission to install or construct subject MAIN wherever this MAIN crosses or parallels any public easement, street or property owned or controlled by the CITY.

VI.
The MAIN shall be installed in accordance with current City standards and specifications. The CITY has the right to observe and inspect, at the CITY’s expense, the construction of the MAIN. The City Engineer or his/her representative will determine that subject MAIN is constructed in accordance with approved engineering plans and specifications and upon completion this MAIN shall become the property of the CITY and an integral part of the CITY's system and subject to maintenance, jurisdiction and control of the CITY.
VII. Payment for the performance of governmental functions or services under this Agreement will be made from the current revenues legally available to the City.

VIII. Should any provision of this Agreement be declared illegal by a court of competent jurisdiction, the other and remaining provisions of this Agreement shall not in any way be affected and all provisions of this Agreement which are not declared to be illegal shall be binding upon the CITY, and DEVELOPER.

IX. THE DEVELOPER, ON BEHALF OF ITSELF, ITS CONTRACTOR AND ITS AND THEIR AGENTS COVENANTS AND AGREES INDEMNIFY, SAVE HARMLESS AND DEFEND THE CITY, ITS PAST, PRESENT, AND FUTURE OFFICERS, AGENTS, SERVANTS, AND EMPLOYEES FROM AND AGAINST ANY AND ALL SUITS, ACTIONS, LEGAL PROCEEDINGS, CLAIMS, DEMANDS, DAMAGES, COSTS, EXPENSES, ATTORNEY’S FEES AND ANY AND ALL OTHER COSTS OR FEES (WHETHER GROUNDED IN CONSTITUTIONAL LAW, TORT, CONTRACT, OR PROPERTY LAW, OR RAISED PURSUANT TO LOCAL, STATE OR FEDERAL STATUTORY PROVISION), ARISING OUT OF THE PERFORMANCE OF THE AGREEMENT AND/OR ARISING OUT OF A WILLFUL OR NEGLIGENT ACT OR OMISSION OF THE DEVELOPER ITS OFFICERS, AGENTS, AND EMPLOYEES.

X. The DEVELOPER and the CITY agree that no party may assign or transfer any interest in this Agreement without the written consent of the other Parties, which consent shall not be unreasonably withheld, conditioned or delayed.

XI. It is expressly agreed by the Parties that this Agreement is for the sole benefit of the Parties hereto and shall not be construed or deemed made for the benefit of any third party or parties.

XII. In the event of any dispute, litigation or other proceeding between the Parties hereto to enforce any of the provisions of this Agreement or any right of either party hereunder, each party to such dispute, litigation or other proceeding shall be responsible for payment of its own costs and expenses, including reasonable attorneys’ fees, incurred at trial, on appeal, and in any arbitration, administrative or other proceedings, all of which may be included in and as a part of the judgment rendered in such litigation.

XIII. Time is of the essence of this Agreement, provided that if any date upon which some action, notice or response is required of any party hereunder occurs on a weekend or national holiday, such action,
notice or response shall not be required until the next succeeding business day.

XIV.
THIS AGREEMENT SHALL BE CONSTRUED AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS AND THE OBLIGATIONS OF THE PARTIES HERETO ARE AND SHALL BE PERFORMABLE IN BASTROP COUNTY, TEXAS, WHEREIN THE PROPERTY IS LOCATED. BY EXECUTING THIS AGREEMENT, EACH PARTY HERETO EXPRESSLY (i) CONSENTS AND SUBMITS TO PERSONAL JURISDICTION CONSISTENT WITH THE PREVIOUS SENTENCE, (ii) WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ANY CLAIM OR DEFENSE THAT SUCH VENUE IS NOT PROPER OR CONVENIENT, AND (iii) CONSENTS TO THE SERVICE OF PROCESS IN ANY MANNER AUTHORIZED BY TEXAS LAW. ANY FINAL JUDGMENT ENTERED IN AN ACTION BROUGHT HEREUNDER SHALL BE CONCLUSIVE AND BINDING UPON THE PARTIES HERETO.

XV.
A reference in this Agreement to any gender, masculine, feminine or neuter, shall be deemed a reference to the other, and the singular shall be deemed to include the plural and vice versa, unless the context otherwise requires. The terms “herein,” “hereof,” “hereunder,” and other words of a similar nature mean and refer to this Agreement as a whole and not merely to the specified section or clause in which the respective word appears unless expressly so stated.

XVI.

XVII.
This Agreement may be executed in counterparts, and when so executed shall be deemed executed as one agreement. CITY, and DEVELOPER shall execute any and all documents and perform any and all acts reasonably necessary to fully implement this Agreement.

XVIII.
This Agreement may not be modified, amended or otherwise changed in any manner except by a writing executed by DEVELOPER and CITY.

XIX.

XXV.

Certificate of Interested Parties (TEC Form 1295). For contracts that require City Council approval or that is for services that would require a person to register as a lobbyist under Chapter 305 of the Government Code, the City may not accept or enter into a contract until it has received from the DEVELOPER a completed, signed, and notarized Texas Ethics Commission (TEC) Form 1295 complete with a certificate number assigned by the (TEC), pursuant to Texas Government Code § 2252.908 and the rules promulgated thereunder by the TEC. The DEVELOPER understands that failure to provide said form complete with a certificate number assigned by the TEC may prohibit the CITY from entering the Agreement.

Pursuant to the rules prescribed by the TEC, the TEC Form 1295 must be completed online through the TEC’s website, assigned a certificate number, printed, signed and notarized, and provided to the CITY. The TEC Form 1295 may accompany the bid or may be submitted separately but must be provided to the City prior to the award of the contract. Neither the CITY nor its consultants have the ability to verify the information included in a TEC Form 1295, and neither have an obligation nor undertake responsibility for advising any potential DEVELOPER with respect to the proper completion of the TEC Form 1295.

Anti-Boycott Israel Verification. In accordance with Chapter 2270, Texas Government Code, the CITY may not enter into a contract with a company, excluding a sole proprietorship, with 10 or more full-time employees for goods or services valued at $100,000 or more unless the contract contains a written verification from the company that it: (1) does not boycott Israel; and (2) will not boycott Israel during the term of the Agreement.

The signatory executing the Agreement on behalf of DEVELOPER verifies that DEVELOPER and its parent company, wholly-owned subsidiaries, majority-owned subsidiaries and other affiliates, if any, do not boycott Israel and, to the extent the Agreement is a contract for goods or services, will not boycott Israel during the term of the Agreement. The foregoing verification is made solely to comply with Section 2270.002, Texas Government Code, and to the extent such Section does not contravene applicable Federal law. As used in the foregoing verification, “boycott Israel” means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes. The signatory understands “affiliate” to mean an entity that controls, is
controlled by, or is under common control with the signatory and exists to make a profit. This section does not apply to a DEVELOPER which is a sole proprietorship and/or which has less than 10 full-time employees. This section does not apply to a contract valued at less than $100,000

**Iran, Sudan, and Foreign Terrorist Organizations.** The signatory executing the Agreement on behalf of DEVELOPER represents that neither DEVELOPER nor any of its parent company, wholly-owned subsidiaries, majority-owned subsidiaries, and other affiliates is a company identified on a list prepared and maintained by the Texas Comptroller of Public Accounts under Section 2252.153 or Section 2270.0201, Texas Government Code, and posted on any of the following pages of such officer’s internet website:

https://comptroller.texas.gov/purchasing/docs/sudan-list.pdf,
https://comptroller.texas.gov/purchasing/docs/iran-list.pdf, or
https://comptroller.texas.gov/purchasing/docs/fto-list.pdf.

The foregoing representation is made solely to comply with Section 2252.152, Texas Government Code, and to the extent such Section does not contravene applicable Federal law and excludes the entity and each of its parent company, wholly-owned subsidiaries, majority-owned subsidiaries, and other affiliates, if any, that the United States government has affirmatively declared to be excluded from its federal sanctions regime relating to Sudan or Iran or any federal sanctions regime relating to a foreign terrorist organization. The signatory understands “affiliate” to mean any entity that controls, is controlled by, or is under common control with the signatory and exists to make a profit.

**Disclosure of Business Relationships/Affiliations; Conflict of Interest Questionnaire.** DEVELOPER represents that it is in compliance with the applicable filing and disclosure requirements of Chapter 176 of the Texas Local Government Code.

**Verification Regarding Energy Company Boycotts.** To the extent the Agreement constitutes a contract for goods or services for which a written verification is required under Section 2274.002, Texas Government Code, (as added by Senate Bill 13, 87th Texas Legislature, Regular Session) as amended, the DEVELOPER hereby verifies that it and its parent company, wholly- or majority- owned subsidiaries, and other affiliates, if any, do not boycott energy companies and, will not boycott energy companies during the term of the Agreement. The foregoing verification is made solely to comply with Section 2274.002, Texas Government Code, as amended, to the extent Section 2274.002, Texas Government Code does not contravene applicable Texas or federal law. As used in the foregoing verification, “boycott energy companies” shall have the meaning assigned to the term “boycott energy company” in Section 809.001, Texas Government Code. The DEVELOPER understands “affiliate” to mean an entity that controls, is controlled by, or is under common control with the DEVELOPER and exists to make a profit.

**Verification Regarding Discrimination Against Firearm Entity or Trade Association.** To the extent the Agreement constitutes a contract for the purchase of goods or services for which a written verification is required under Section 2274.002, Texas Government Code, (as added by Senate Bill 19, 87th Texas Legislature, Regular Session, “SB 19”), as amended, the DEVELOPER hereby verifies that it and its parent company, wholly- or majority- owned subsidiaries, and other affiliates, if any,

(1) do not have a practice, policy, guidance or directive that discriminates against a
firearm entity or firearm trade association; and 
(2) will not discriminate during the term of the Contract against a firearm entity or firearm 
trade association.

The foregoing verification is made solely to comply with Section 2274.002, Texas Government Code, as 
amended, to the extent Section 2274.002, Texas Government Code does not contravene applicable Texas 
or federal law. As used in the foregoing verification, “discriminate against a firearm entity or firearm 
trade association” shall have the meaning assigned to such term in Section 2274.001(3), Texas 
Government Code (as added by SB 19). The DEVELOPER understands “affiliate” to mean an entity that 
controls, is controlled by, or is under common control with the DEVELOPER and exists to make a profit.

IN WITNESS THEREOF, the Parties have executed this Agreement on this the ________________

BACKGROUND:
The City has the ability under the Texas Local Government Code, Section 43.013 Navigable Stream to annex the Colorado River. The City owns property to the north of the River as Park and Open Space for Pecan Park.

Notice of the public hearing was posted in the Bastrop Advertiser per the Texas Local Government Code, Chapter 43, Subchapter C-1 “Annexation Procedure for Areas Exempted from Consent Annexation Procedures”. Existing Use: Vacant/Undeveloped

Adopted Plan: June 22, 2021, Development Agreement
Existing Future Land Use Category: Rural Residential (FLU amendment requested to Industry)

BACKGROUND/HISTORY:
The Bastrop Colorado Bend development is a proposed 546-acre development with a mix of land uses and development types that support a primary use as a film studio. The site is currently located within the City’s Statutory Extraterritorial Jurisdiction, but applicant has requested the annexation and rezoning of 312.591 +/- of the total tract for the first phase of development.

This tract is bordered on the west by the Colorado River. As a property that is mostly within the 100-year and 500-year flood plain, the Future Land Use Plan envisioned the best use for this property to be low-density residential. Taken as a single development, this property also has limited access to the west without the construction of bridges over the Colorado River. With this considered, the Major Thoroughfare Map adopted in 2017 established a Collector Level Road across the property from Lovers Lane that includes a bridge to cross the Colorado River and connect to SH 304 to the west (Attachment 2). The 2019 Transportation Master Plan Street Grid reclassified this as a Primary Multimodal Street and added 720-foot grid Local Connector Streets that fit the Rural Residential Character District. As this property is in the Extraterritorial Jurisdiction, Bastrop County has also adopted a Transportation Plan in 2016 which also included the connection over the Colorado River to align the roads.

The applicant is requesting a change to the Comprehensive Plan - Master Transportation Plan to eliminate any streets that would bisect the property. To do this, the Local Connector Streets would be removed, and the Primary Multimodal Street, as well as the bridge crossing the Colorado River would be relocated to the eastern boundary of the property. The Transportation Master Plan was adopted on February 28, 2017, and Chapter 5 – Thoroughfare Plan including the Major Thoroughfare Map was amended on November 12, 2019. The TMP and amendment can be found here: https://www.cityofbastrop.org/page/plan.long_range
At the March 8, 2021 Bastrop County Commissioners’ Court meeting, the Commission voted to “convey our willingness to conceptually amend our Transportation Plan and be flexible to honor this developer’s request not to have a new regional corridor go through his development to connect Lovers Lane to SH 304.” (Attachment 3). No actual route was determined or amended in the County’s Transportation Plan.

As the current annexation only covers a portion of the entire development, the Transportation Master Plan amendment reflects changing only the area within the current annexation area (Exhibit A). This would relocate the Primary Multimodal Street and remove the 720 local street grid requirements within the 312.591 +/- acres but leave the grid in place until the annexation on the remaining 233.773 +/- acres.

Staff is proposing to relocate the Primary Multimodal Street to the east boundary of the property and to relocate the bridge to the southeast corner of the tract. A future Transportation Plan Amendment will be brought forward by Planning Staff to propose a route for a connection from the bridge to SH 304.

The applicant is proposing to allow the site to develop as a single tract with no public internal roads (Local Connector Streets). This would allow for the development of a multi-faceted film studio facility which would include production facilities, sound stages, backlots, storage, and other ancillary spaces. Lodging, restaurants, event spaces, and recreational facilities would all support the film studio use.

**POLICY EXPLANATION:**

Comprehensive Plan Amendments are regulated under Section 213 of the Texas Local Government Code.

Sec. 213.003. Adoption of Amendment of Comprehensive Plan

(a) A comprehensive plan may be adopted or amended by ordinance following:

(1) a hearing at which the public is given the opportunity to give testimony and present written evidence; and

_A public hearing was held on January 27, 2022 at the Planning & Zoning Commission meeting and a public hearing will be held on February 22, 2022 at the City Council meeting._

(2) review by the municipality's planning commission or department, if one exists.

_The Planning & Zoning Commission voted to recommendation the amendment by a vote of 3-2. A minimum vote of 5 affirmative votes is required to make a report to city Council, so no recommendation was made._

(b) A municipality may establish, in its charter or by ordinance, procedures for adopting and amending a comprehensive plan.

_Amendments to the Comprehensive Plan are adopted by ordinance following the requirements of the City Charter._

A published notice was placed in the Bastrop Advertiser on January 8th and sent mailed notices to 61 property owners within 200 feet of the property (Attachment 3). At the time of this report, three responses to the project have been received, 2 opposed and 1 no objection (Attachment 4).
RECOMMENDATION:
Hold public hearing and consider action to approve the first reading of Ordinance 2022-06 of the City Council of the City of Bastrop amending the Transportation Master Plan - Master Thoroughfare Plan and Street Grid for Bastrop Colorado Bend, LLP for 546.364 +/- acres of land out of the Stephen F. Austin Survey Abstract 2, to the west of Lovers Lane, located within the city limits of the City of Bastrop and the City of Bastrop Extraterritorial Jurisdiction; as attached in Exhibit A; and providing for findings of fact, adoption, enforcement, a repealer, and severability; establishing an effective date; and proper notice and meeting and move to the March 8, 2022 Regular Agenda.

She introduced Kim LeBlanc from the Texas Film Commission, who stated they are celebrating 50 years as a State Agency. Kim stated that Bastrop County is a Film Friendly County due to the efforts of Adena Lewis and presented a Film Friendly Certification to the County. The Judge thanked Adena for her excellent work. She thanked Bastrop County Cares, St. David’s Foundation, The Hogg Foundation, Bastrop Economic Development Corporation, Elgin Economic Development Corporation, First National Bank of Bastrop, Frontier Bank of Texas and Smithville Area Chamber of Commerce for their generous donations toward this project. The full report and interactive map is located on the County website thanks to Lyndsey Schroeder. Broadband has never been addressed in Bastrop County like it is now and Adena is excited about this. There will be a follow up meeting on March 25, 2021 at 2:00 p.m. in the Annex conference room with all providers being present. Grants can be applied for because of this study.

2. Abram Barker gave an update on Floodplain Management. He stated that February was a very busy month with new floodplain maps being released. This affects how the community builds and grows. He stated the most impacted areas are the cities and the Cedar Creek watershed because of Cedar Creek and its’ tributaries. The Colorado River did not have any major changes. Beckett thanked Abram for the report and thanked the Court for these studies dating back to 2005. She is happy to see updated maps due to these investments that were made.

Dr. Walke’s contract also expires at the end of March. The EOC recommends extending her contract. These items will be put on the next agenda.

Judge Pape stated how efficiently every vaccine clinic is run. The comments received reflect that they are very well organized like a well-oiled machine and they all run so smoothly. Judge Pape thanked Debbie Bresette from Bastrop County Cares for the beautiful organization of the volunteers and Dr. Walkes for the organization of the various clinics—over 5000 vaccines were given out in Bastrop County last week with another 1000 assigned to us at Circuit of the Americas. *PLEASE SEE COMMENTS ON NEXT PAGE
Unfortunately, I cannot attend this important meeting in person but wanted to state my opposition to approval of the above-referenced agenda items.

1. The newest drawings published in the Statesman and other media outlets do not align with previous drawings we’ve been provided.

2. Questions made in-person to the City regarding the perimeter road have gone unanswered. The City states this will be a County road and the County has no knowledge of this. Many details regarding this road need to be addressed and clearly conveyed to the citizenry.

3. The City previously stated its plans to annex a portion of the Colorado River at the southern point of the Bastrop 552 development where it meets El Camino. The logical assumption is that a future bridge will be constructed here; however, there is a home at the end of El Camino that will surely require removal. Numerous requests have been made to the City for clarification of its future plans requiring annexation of the river and no reply has been received.

4. Numerous requests for sound surveys have been made and as with other requests, this request has also gone unanswered. We need to understand the true impact of neighboring residents whenever concerts are held and/or when movies are in production. The landscape is unique and sound travels very far up the hills and down the river.

5. If the taxpayers are footing the numerous breaks being given to this development, we deserve to benefit from this project. Current plans prohibit public access. We’d like to see that change. The development should host City/County events for the benefit of the public a set number of times throughout the year.

I truly appreciate your consideration of my concerns.

AGENDA ITEM SUBMITTED BY:
Jennifer C. Bills, Director of Planning & Development

BACKGROUND/HISTORY:
The Colorado Bend development is a proposed 546.364 +/- acre development with a mix of land uses and development types that support a primary use as a film studio. The site is currently located within the City’s Statutory Extraterritorial Jurisdiction, but the applicant has requested the annexation and rezoning of 312.591 +/- of the total tract for the first phase of development.

The applicant is requesting a change to the Comprehensive Plan Future Land Use to Industry which would allow a future Employment Center Place Type zoning. A Development Agreement was approved by the City Council on June 22, 2021 that laid out the process for the owner to annex the development in phases in order to build out the infrastructure and site incrementally. This amendment is listed as one of the development steps within the approved agreement. See the attached Background Memo for complete analysis.

PLANNING & ZONING COMMISSION REPORT:
The P&Z Commission voted 3-2 to recommend approval. A vote of 5 affirmative votes is required for the Commission to make a recommendation to City Council, so no recommendation has been made by P&Z.

ITEM DETAILS:

- **Total Acreage:** 312.591 +/- acres
- **Legal Description:** 546.364 +/- acres of land out of the Stephen F. Austin Survey, Abstract 2

- **Agent Contact:** Matt Synatschk, Carlson, Brigance, and Doering, Inc.

- **Existing Zoning:** None. Extra-Territorial Jurisdiction
- **Adopted Plan:** June 22, 2021, Development Agreement
- **Existing Future Land Use Category:** Rural Residential
- **Proposed Future Land Use Category:** Industry

BACKGROUND/HISTORY:
The Colorado Bend development is a proposed 546.364 +/- acre development with a mix of land uses and development types that support a primary use as a film studio. The site is currently located within the City’s Statutory Extraterritorial Jurisdiction, but the applicant has requested the annexation and rezoning of 312.591 +/- acres of the total tract for the first phase of development.

This tract is bordered on the west by the Colorado River. As a property that is mostly within the 100-year and 500-year flood plain, the Future Land Use Plan envisioned the best use for this property to be low-density residential. Taken as a single development, this property also has limited access to the west without the construction of bridges over the Colorado River.

The applicant is requesting a change to the Comprehensive Plan Future Land Use to Industry which would allow a future Employment Center Place Type zoning. This would allow for the development of a multi-faceted film studio facility which would include production facilities, sound stages, backlots, storage, and other ancillary spaces. Lodging, restaurants, event spaces, and recreational facilities would all support the film studio use. As the current annexation only covers a portion of the entire development, the Future Land Use Map amendment reflects changing the Character Area to Industry on the current annexation area (Exhibit A). The remainder of the property (233.773 +/- acres) would remain as Rural Residential until the next annexation request.

The 2036 Comprehensive Plan was adopted on November 22, 2016. The Comprehensive Plan is used to establish City Council policy for managing the future development of private and public land within the city limits and ETJ. Part of this plan is recognizing that development conditions and trends do change over time, so City Council has the ability to amend the Comprehensive Plan through public hearings.
Chapter 5, Land Use & Community Image, established 10 Character Areas on the Future Land Use Map that area used as the guiding document to determine changes to the zoning map and implementation development through the Bastrop Building Block (B³) Code standards. The 2036 Comprehensive Plan is available here: https://www.cityofbastrop.org/page/plan.long_range.

A Development Agreement was approved by the City Council on June 22, 2021 that laid out the process for the owner to annex the development in phases in order to build out the infrastructure and site incrementally. This amendment is listed as one of the development steps within the approved agreement.

POLICY EXPLANATION:
Comprehensive Plan Amendments are regulated under Section 213 of the Texas Local Government Code.

Sec. 213.003. Adoption of Amendment of Comprehensive Plan

(a) A comprehensive plan may be adopted or amended by ordinance following:

(1) a hearing at which the public is given the opportunity to give testimony and present written evidence; and

A public hearing was held on January 27, 2022 at the Planning & Zoning Commission meeting and a public hearing will be held on February 22, 2022 at the City Council meeting.

(2) review by the municipality's planning commission or department, if one exists.

The Planning & Zoning Commission voted to recommendation the amendment by a vote of 3-2. A minimum vote of 5 affirmative votes is required to make a report to city Council, so no recommendation was made.

(b) A municipality may establish, in its charter or by ordinance, procedures for adopting and amending a comprehensive plan.

Amendments to the Comprehensive Plan are adopted by ordinance following the requirements of the City Charter.

A published notice was placed in the Bastrop Advertiser on January 8th and sent mailed notices to 61 property owners within 200 feet of the property (Attachment 3). At the time of this report, three responses to the project have been received, 2 opposed and 1 no objection (Attachment 4).

RECOMMENDATION:
Hold public hearing and consider action to approve the first reading of Ordinance 2022-05 of the City Council of the City of Bastrop, Texas, amending the Comprehensive Plan by changing the Future Land Use designation from Rural Residential to Industry for Bastrop Colorado Bend, LLP for 312.591 +/- acres of land out of the Stephen F. *PLEASE SEE COMMENTS ON NEXT PAGE
Unfortunately, I cannot attend this important meeting in person but wanted to state my opposition to approval of the above-referenced agenda items.

1. The newest drawings published in the Statesman and other media outlets do not align with previous drawings we’ve been provided.

2. Questions made in-person to the City regarding the perimeter road have gone unanswered. The City states this will be a County road and the County has no knowledge of this. Many details regarding this road need to be addressed and clearly conveyed to the citizenry.

3. The City previously stated its plans to annex a portion of the Colorado River at the southern point of the Bastrop 552 development where it meets El Camino. The logical assumption is that a future bridge will be constructed here; however, there is a home at the end of El Camino that will surely require removal. Numerous requests have been made to the City for clarification of its future plans requiring annexation of the river and no reply has been received.

4. Numerous requests for sound surveys have been made and as with other requests, this request has also gone unanswered. We need to understand the true impact of neighboring residents whenever concerts are held and/or when movies are in production. The landscape is unique and sound travels very far up the hills and down the river.

5. If the taxpayers are footing the numerous breaks being given to this development, we deserve to benefit from this project. Current plans prohibit public access. We’d like to see that change. The development should host City/County events for the benefit of the public a set number of times throughout the year.

I truly appreciate your consideration of my concerns.

ITEM DETAILS:

- Acreage Rezoned: 312.591 acres
- Legal Description: 312.591 acres out of the Stephen F. Austin Survey, Abstract 2

- Agent Contact: Matt Synatschk, Carlson, Brigance, and Doering, LLC
- Existing Use: Vacant/Undeveloped
- Existing Zoning: P2 Rural (upon annexation)
- Proposed Zoning: PEC Employment Center (Attachment 4)
- Character District: Pine Village (upon annexation)
- Future Land Use: Rural Residential – Companion Request to Change to Industry (Attachment 5)

BACKGROUND:
The applicant has submitted an application for a Zoning Concept Scheme (ZCS) for Bastrop Colorado Bend (Exhibit A). The development is proposed to be Place Type EC – Employment Center zoning with a mix of land uses and development types that support a primary use as a film studio.

Place Type EC – Employment Center is defined in the code as:
“Areas that by their function, deposition, or configuration cannot, or should not, conform to one or more of the Place Types. EC shall be used for job creation centers and building forms that do not fit within the character of the Place Types.”

The Future Land Use Plan describes Industry as:
“The Industry character area supports light industrial, and warehousing and distribution, land uses. Activities within this character area include the assembly, production, and storage of finished products, and may require industrialized buildings of substantial size, as well as areas for outdoor storage. Primary land uses may be expected to generate high volumes of heavy vehicle traffic. The Industry character area may also support some heavy manufacturing activity on a case-by-case basis, but only where performance measures on nuisances (e.g., noise, dust, light, etc.) may be mitigated.

Zoning Concept Schemes usually consider the variety of place type zoning districts in a pedestrian shed. Due to the unique mixed-use development proposed, this requirement was waived within the approved Development Agreement (DA). The land is intended to be used as one large development with a mix of uses that will support a film studio. As shown in the Zoning Concept Scheme ZCS-002, this will include studios, back
lots, recreation areas, short term lodging, open space, and a temporary sound stage. Additionally, most of the area that would be encompassed within the pedestrian sheds is currently in the ETJ and does not have a zoning district to take into consideration.

This ZCS only covers part of the total area that is a part of the Development Agreement. The DA allows for annexation and construction of the development in phases. The north-south perimeter road will be required with the development of the southern portion of the tract.

**Drainage**
A Zoning Concept Scheme must be accompanied by a Conceptual Drainage Plan to ensure that the proposed development is feasible. A Conceptual Drainage Plan has been reviewed and approved by the City Engineer. The site includes multiple location for detention and also contemplates discharge into the adjacent Colorado River. The maximum impervious cover allowed in Place Type EC is 80%. The applicant will still have to complete a Preliminary Drainage Plan prior to Preliminary Plat and Final Drainage Plans before Final Plats and Site Development Plans. At each stage, the drainage and flood plain will be studied in more detail in relation to the intended development.

**Traffic Impact Analysis**
A traffic impact analysis is being completed as part of the development process and required improvements will be included in the Public Improvement Plans (it is not required for the rezoning). The draft TIA does not call for the developer to construct the bridge but does anticipate improvements at Lovers Lane and SH 71. The future bridge construction will be a capital improvement project led by the City or County. At this point there are no conceptual plans for the bridge other than the general location at the end of the north-south perimeter road and no funding has been identified.

**Annexation**
This ZCS is accompanied by an annexation request for the 312.591 acres. The property will be annexed as P2 Rural. City Council will consider and approve the annexation prior to considering the rezoning from P2 to PEC.

**Comprehensive Plan Amendments – Future Land Use and Transportation Master Plan**
This ZCS is accompanied by amendments to the Future Land Use Map and the Transportation Master Plan. Both of these amendments will be considered by P&Z and City Council prior to recommendation or approval of the ZCS.

**PUBLIC COMMENTS:**
A notice was placed in the Bastrop Advertiser on January 8, 2022. Property owner notifications were sent to 61 adjacent property owners on January 14, 2022 (Attachment 3). At the time of this report, three responses to the project have been received, 2 opposed and 1 no objection (Attachment 6).

**POLICY EXPLANATION:**
Texas Local Government Code
Sec. 211.006. PROCEDURES GOVERNING ADOPTION OF ZONING REGULATIONS AND DISTRICT BOUNDARIES. (a) The governing body of a municipality wishing to exercise the authority relating to zoning regulations and zoning district boundaries shall establish procedures for adopting and enforcing the regulations and boundaries. A regulation or boundary is not effective until after a public hearing on the matter at which parties in interest and citizens have an opportunity to be heard. Before the 15th day before the date of the hearing, notice of the time and place of the hearing must be published in an official newspaper or a newspaper of general circulation in the municipality.
Notice was published in the Bastrop Advertiser and notice was sent to property owners within 200 feet of the property boundary.

(b) In addition to the notice required by Subsection (a), a general-law municipality that does not have a zoning commission shall give notice of a proposed change in a zoning classification to each property owner who would be entitled to notice under Section 211.007(c) if the municipality had a zoning commission. That notice must be given in the same manner as required for notice to property owners under Section 211.007(c). The governing body may not adopt the proposed change until after the 30th day after the date the notice required by this subsection is given.

N/A. Bastrop is not a general-law municipality.

(c) If the governing body of a home-rule municipality conducts a hearing under Subsection (a), the governing body may, by a two-thirds vote, prescribe the type of notice to be given of the time and place of the public hearing. Notice requirements prescribed under this subsection are in addition to the publication of notice required by Subsection (a).

Notice of the meeting was posted at least 72 hours in advance.

(d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either:

(1) the area of the lots or land covered by the proposed change; or

(2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

(e) In computing the percentage of land area under Subsection (d), the area of streets and alleys shall be included.

At the time of this report, no protest has been received. If a valid protest is received, a three-fourths vote of the City Council members would be required to approve the rezoning request.

(f) The governing body by ordinance may provide that the affirmative vote of at least three-fourths of all its members is required to overrule a recommendation of the municipality's zoning commission that a proposed change to a regulation or boundary be denied.

If the Planning & Zoning Commission recommends denial of the zoning request, the City Council must have a minimum vote of 4 out of 5 members to approve the rezoning request.

At least 5 members of the Planning & Zoning Commission must vote to make an official recommendation to the City Council. Failure to reach five vote means no official recommendation can be forwarded, but this does not impact the City Council’s vote requirement to approve or deny the request.

The Planning & Zoning Commission voted to recommendation the amendment by a vote of 3-2. A minimum vote of 5 affirmative votes is required to make a report to city Council, so no recommendation was made.
Compliance with 2036 Comprehensive Plan:
Future Land Use Plan – The Industry character area supports light industrial, and warehousing and distribution, land uses. Activities within this character area include the assembly, production, and storage of finished products, and may require industrialized buildings of substantial size, as well as areas for outdoor storage. Primary land uses may be expected to generate high volumes of heavy vehicle traffic. The Industry character area may also support some heavy manufacturing activity on a case-by-case basis, but only where performance measures on nuisances (e.g., noise, dust, light, etc.) may be mitigated.

- Land uses should be located on and take vehicular access from arterial roads, or from industrial streets which lead directly to arterial streets.
- Substantial landscaping should be placed in required yards to enhance buffering and screening. The maintenance of existing tree cover in required yards should be encouraged to meet landscaping requirements.
- Screen proposed uses related to outdoor storage (including dumpsters), whether as a primary use or a secondary associated use, from all public rights-of-way by a six- to eight-foot-tall opaque wood or masonry fence (depending on the height of the equipment or materials it is screening) and landscaping visible from the right-of-way.

The proposed PEC and Zoning Concept Scheme will be in compliance with the Future Land Use Plan, once the Future Land Use Plan is amended, and is in compliance with approved Development Agreement.

The development will make public improvements along Lovers Lane and the roads on the perimeter of the development, which will provide access across the area and increase landscaped and physical buffering between the development and the surrounding neighborhood.

Compliance with Bastrop Building Block (B³) Code:
B³ CODE INTENT (See Executive Summary)
The code is built around three core intents:

- Fiscal Sustainability
  New development and redevelopment must be done with a focus on the intersection of the Public and Private Realms. This is the area where city and utility infrastructure are maintained in an efficient manner and the commercial development creates a complete neighborhood.

As this tract is to be developed as one large tract, the emphasis in the Development Agreement has focused on extending existing water and wastewater utilities from the existing limits of the city to this development. Along Lovers Lane, sidewalk, street trees, and streetlights will be provided. For the portions of the Future East-West Road the developer is required for the development of a new Local Connector Street: Rural Street cross-section, with the addition of a public sidewalk, street trees, and streetlights on the north side of the road. This provides additional vehicular and pedestrian access and necessary access for the development.

- Geographically Sensitive Developments
  Development will retain its natural form and visual character, which is derived from the topography and native environment.
A part of this development is within the 1% Annual Chance Floodplain (previously 100-year Floodplain). The ZCS lays out the permanent buildings and parking areas to provide minimal disruption to the floodplain and drainage.

- Perpetuation of Authentic Bastrop
The B³ Code will perpetuate the built form that has been predominate over the City’s 189-year history. The recent trend of allowing parking and automobile traffic as the predominate feature has created a pattern that is contrary to the historical building patterns of the city and creates sites/buildings that are not adaptable and sustainable in the long-term.

The proposed style of development is meant to house a specific land use and development with the primary use as a movie studio. As this is a proposed single owner/user, the Development Agreement acknowledges that this a new development pattern for the City. Should this development not occur, the City can revert the site back to the grid network and request revisions to the Place Type Zoning for a new future development.

B³ Code ARTICLE 5.1 INTENT OF DEVELOPMENT PATTERNS
(b) The Development Pattern type will be used to guide the creation of the Zoning Concept Scheme and Neighborhood Regulating Plan (see Article 2-3 Neighborhood Regulating Plans in B³ Technical Manual) configurations suitable for different geographies and Character Districts.

Upon annexation, the Pine Village Character District will be extended to cover this property. It is the nearest Character District with the most applicable description. The Development Patterns were waived with the Development Agreement, as this project is notably unique in its development needs.

SEC. 5.2.002 TND STANDARDS
1. Detail the block perimeters, block lengths, pedestrian shed area, place type allocations per B³ Code 3.2.002b.

With the PEC Place Type, the ZCS can designate different block pattern for the proposed future development. In this request the applicant will provide sidewalk, street trees and streetlights along Lovers Lane. For the portions of the Future East-West Road the developer is required for the development of a new Local Connector Street: Rural Street cross-section, with the addition of a public sidewalk, street trees, and streetlights on the north side of the road. For the remainder of the development, they have removed the internal blocks, which is in compliance with the approved Development Agreement.

*PLEASE SEE COMMENTS ON NEXT PAGE*
Unfortunately, I cannot attend this important meeting in person but wanted to state my opposition to approval of the above-referenced agenda items.

1. The newest drawings published in the Statesman and other media outlets do not align with previous drawings we’ve been provided.

2. Questions made in-person to the City regarding the perimeter road have gone unanswered. The City states this will be a County road and the County has no knowledge of this. Many details regarding this road need to be addressed and clearly conveyed to the citizenry.

3. The City previously stated its plans to annex a portion of the Colorado River at the southern point of the Bastrop 552 development where it meets El Camino. The logical assumption is that a future bridge will be constructed here; however, there is a home at the end of El Camino that will surely require removal. Numerous requests have been made to the City for clarification of its future plans requiring annexation of the river and no reply has been received.

4. Numerous requests for sound surveys have been made and as with other requests, this request has also gone unanswered. We need to understand the true impact of neighboring residents whenever concerts are held and/or when movies are in production. The landscape is unique and sound travels very far up the hills and down the river.

5. If the taxpayers are footing the numerous breaks being given to this development, we deserve to benefit from this project. Current plans prohibit public access. We’d like to see that change. The development should host City/County events for the benefit of the public a set number of times throughout the year.

I truly appreciate your consideration of my concerns.
