AGENDA ITEM SUBMITTED BY:
Alan Bojorquez, City Attorney

BACKGROUND/HISTORY:
The City Council may on its own motion, and shall, upon the receipt of a petition signed by at least five percent of the qualified voters or by at least 20,000 qualified voters, whichever is less, submit to the voters any proposed amendment or amendments to the charter. Tex. Loc. Gov’t Code §9.004.

TITLE:

AGENDA ITEM SUBMITTED BY:
Tracy Waldron, Chief Financial Officer

BACKGROUND/HISTORY:
The Chief Financial Officer provides the City Council a monthly financial report overview for all funds to include detailed analysis for General Fund, Water-Wastewater Fund, Bastrop Power & Light and the HOT Tax Fund.

REVENUE
General Fund exceeded the forecast by over 13%. This is attributed substantially to development fees and sales tax. Sales tax is 7.5% above forecast and the development services category of revenue is already 28% of the budgeted amount. Property tax actual to forecast is in warning status but this is usually just a timing issue and should clear up in the next month.

Debt service and Hunter’s Crossing PID funds are being affected by the timing of property tax payments and should both clear up in the next month.

Hotel Occupancy Tax Fund is over the forecast amount. If this trend continues, this fund will need a budget amendment to update projected amounts.

Capital Bond Projects fund is below forecast due to interest estimates.

All other funds are performing positive to forecast.

EXPENDITURES
All funds are positive to budgeted amounts.

This reporting requirement is set forth by the City of Bastrop Financial Management Policies, Chapter IV. Operating Budget, Section D. Reporting, as adopted by Resolution R-2021-80 on August 24, 2021.

The City of Bastrop follows State of Texas and Federal 2CFR 200.318-200.327 and Appendix II to Part 200 procurement law and guidance in the purchasing and contract management of goods and services. Additional policy guidance below addresses federal purchasing requirements as required by 2 CFR 200 pertaining to the expenditure of federal grant funds.

A. Standards of Conduct

Public employment is a public trust. It is the policy of the City of Bastrop to promote and balance the objective of protecting government integrity and the objective of facilitating the recruitment and retention of personnel needed by the City of Bastrop. Such policy is implemented by prescribing essential standards of ethical conduct without creating unnecessary obstacles to entering public service.

Public employees must discharge their duties impartially to assure fair competitive access to governmental procurement by responsible contractors. Moreover, they should conduct themselves in such a manner as to foster public confidence in the integrity of the City of Bastrop procurement organization.

To achieve the purpose of this Article, it is essential that those doing business with the City of Bastrop also observe the ethical standards prescribed herein.

Code of Ethics

1 Personal Gain. It shall be a breach of ethics to attempt to realize personal gain through public employment with the City of Bastrop by any conduct inconsistent with the proper discharge of the employee's duties.

2 Influence. It shall be a breach of ethics to attempt to influence any public employee of the City of Bastrop to breach the standards of ethical conduct set forth in this code.

3 Conflicts of Interest. It shall be a breach of ethics for any employee of the City of Bastrop to participate directly or indirectly in procurement when the employee knows that:
   1) the employee of any member of the employee's immediate family has a financial interest pertaining to the procurement.
   2) a business or organization in which the employee, or any member of the employee's immediate family, has a financial interest pertaining to the procurement.
   3) any other person, business or organization with which the employee or any members of the employee's immediate family is negotiating or has an arrangement concerning prospective employment is involved in the procurement.
4 Gratuities. It shall be a breach of ethics to offer, give or agree to give any employee or former employee of the City of Bastrop, or for any employee or former employee of the City of Bastrop to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, requesting for ruling, determination, claim or controversy, or other particular matter pertaining to any program requirement or a contract or subcontract or to any solicitation or proposal therefore pending before this local government.

5 Kickbacks. It shall be a breach of ethics for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor for any contract for the City of Bastrop, or any person associated therewith, as an inducement for the award of a subcontract or order.

6 Contract Clause. The prohibition against gratuities and kickbacks prescribed above shall be conspicuously set forth in every contract and solicitation, therefore.

7 Confidential Information. It shall be a breach of ethics for any employee or former employee of the City of Bastrop knowingly to use confidential information for actual or anticipated personal gain, or for the actual or anticipated gain of any person.

8 The non-federal entity must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and condition of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources. See also §200.214.

9 The non-Federal entity must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: Rationale for the method of procurement, selection of contract type, contractor selection or rejection, and basis for the contract price.

10 (1) The Non-Federal entity may use a time-and-material type contract only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time-and-materials type contract means a contract whose cost to a non-Federal entity is the sum of:
   (i) The actual cost of materials; and
   (ii) Direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.
(2) Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the non-Federal entity awarding such a contract must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

11 The non-Federal entity alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the non-Federal entity of any contractual responsibilities under its contracts. The Federal awarding agency will not substitute its judgment for that of the non-Federal entity unless the matter is primarily a federal concern. Violations of law will be referred to the local, state, or Federal authority having proper jurisdiction.

**Competition**

All procurement transactions for the acquisition of property or services required under a Federal award must be conducted in a manner providing full and open competition consistent with the standards of this section and §200.320.

In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

(1) Placing unreasonable requirements on firms in order for them to qualify to do business;

(2) Requiring unnecessary experience and excessive bonding;

(3) Noncompetitive pricing practices between firms or between affiliated companies;

(4) Noncompetitive contracts to consultants that are on retainer contracts;

(5) Organizational conflicts of interest;

(6) Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement; and
(7) Any arbitrary action in the procurement process.

The non-Federal entity must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts state licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

The non-Federal entity must have written procedures for procurement transactions. These procedures must ensure that all solicitations:

1. Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and
2. Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

The non-Federal entity must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the non-Federal entity must not preclude potential bidders from qualifying during the solicitation period.

**Five Methods for Procuring with Federal Funds**

2 CFR § 200.320 provides for five methods that must be used when making purchases with Federal funds. In some cases, these Federal methods are more restrictive than State requirements; in other cases, the State requirements are more restrictive than these Federal methods. In all cases, the City of Bastrop affirms the more restrictive requirements or methods must be followed when making purchases with Federal funds.
The type of purchase method and procedures required depends on the cost (and type, in some cases) of the item(s) or services being purchased.

- Micro-purchases
- Small purchase procedures
- Sealed bids
- Competitive proposals
- Noncompetitive proposals (sole source)

**Micro-Purchases (Purchases up to $3,000.00)**

Federal methods provide for procurement by *micro-purchase*. *Micro-purchase* is defined in 2 CFR § 200.320(a) as a purchase of supplies or services using simplified acquisition procedures, the aggregate amount of which does not exceed $3,000.00. The micro-purchase method is used in order to expedite the completion of its lowest-dollar small purchase transactions and minimize the associated administrative burden and cost.

The City of Bastrop utilizes the micro-purchases method for acquiring supplies or services that do not exceed an aggregate amount of $3,000.00 if the price is reasonable. The program manager responsible for the Federal award determines if the price is reasonable.

Quotes are not required but encouraged. If quotes are obtained for items under $3,500.00, they should be kept in the department and attached to the requisition.

**Small Purchase Procedures (Purchases between $3,000.01 and $149,999.99 in the Aggregate)**

The Federal threshold for small purchase procedures is $150,000. 2 CFR § 200.320(b).

*Small purchase procedures* (as defined in 2 CFR § 200.320[b]) may be used in those relatively simple and informal procurement methods for securing non-personal contracted services, supplies, or other property that do not cost more than $149,999.99.

For purchases funded from *local funds*, to obtain the most competitive price, the City of Bastrop, may, at its option, obtain price quotes for items costing less than $150,000. Unlike the mandatory competitive procurement described for purchases over $150,000, if an item to be paid from local funds costs less than $150,000, the City of Bastrop may utilize price quotations or competitive procurement process (purchasing cooperatives, sole source, an existing RFP/bid or a new RFP/bid) to stimulate competition and to attempt to receive the most favorable pricing.

However, if using *State or Federal funds* to purchase goods or services, *price or rate quotations must be obtained* from an adequate number of qualified sources for all purchases between $3,000.01 and $49,999.99 or use the competitive procurement process. The City of Bastrop must
obtain more than one price or rate quote unless using a purchasing cooperative, existing Bid/RFP or sole source vendor, in which case, the prices have already been awarded. If purchasing from a purchasing cooperative or existing Bid/RFP, the departments can elect to obtain only one quote to purchase the goods or services although it is recommended to obtain more than one quote. Such price or rate quotations may be obtained orally and/or documented in writing, and the City of Bastrop must demonstrate that price or rate quotations were obtained from an adequate number of qualified sources.

**Purchases $150,000 or More in the Aggregate**

According to Texas law, one of the following competitive methods must be used for purchases of $150,000 or more in the aggregate:

1. competitive bidding for services other than construction services;
2. competitive sealed proposals, for services other than construction services;
3. a request for proposals, for services other than construction services;
4. an interlocal contract;
5. a method provided by Chapter 2269, Government Code, for construction services;
6. the reverse auction procedure as defined by Section 2155.062(d), Government Code; or
7. the formation of a political subdivision corporation under Section 304.001, Local Government Code.

In addition, one of the three following methods must be used, depending on the circumstance described below, when purchasing with Federal funds: sealed bids (formal advertising); competitive proposals; or noncompetitive proposals (sole source).

**Sealed Bids (Formal Advertising)**

Bids are publicly solicited and a *firm fixed-price contract* (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the following conditions apply:

- A complete, adequate, and realistic specification or purchase description is available;
- Two or more responsible bidders are willing and able to compete effectively for the business; and
- The procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.
If sealed bids are used, the following requirements apply:

- Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids. The invitation for bids must be publicly advertised.
- The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond.
- All bids will be opened at the time and place prescribed in the invitation for bids. The bids must be opened publicly.
- A firm fixed-price contract award must be made in writing to the lowest responsive and responsible bidder.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

**Competitive Proposals**

A competitive proposal is normally used with more than one source submitting an offer, and either a fixed price or a cost-reimbursement type contract is awarded. (A cost reimbursement contract reimburses the contractor for actual costs incurred to carry out the contract.) Competitive proposals are generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

- Requests for proposals must be publicized and must identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
- Proposals must be solicited from an adequate number of qualified sources.
- The City of Bastrop must have a written method for conducting technical evaluations of the proposals received and for selecting recipients.
- Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

When using Federal funds, the City of Bastrop may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used
as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

**Noncompetitive Proposals (Sole Sourcing)**

Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used when using Federal funds only when one or more of the following circumstances apply:

- The item is available only from a single source and an equivalent cannot be substituted. This must be documented.
- The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation.
- After solicitation of a number of sources, competition is determined inadequate.

Additionally, State requirements related to sole source purchasing are, in some ways, more restrictive. In addition to the Federal requirements above, sole source purchases must meet established criteria:

- Identification and confirmation that competition in providing the item or product to be purchased is precluded by the existence of a patent, copyright, secret process or monopoly;
- A film, manuscript, or book;
- A utility service, including electricity, gas, or water; and
- A captive replacement part or component for equipment.

According to State requirements, sole source does not apply to mainframe data-processing equipment and peripheral attachments with a single item purchase price in excess of $15,000.

In this case, the City of Bastrop must document why only this product can meet their needs and that it is not available from any other vendor. In all cases, the City of Bastrop will obtain and retain documentation from the vendor which clearly delineates the reasons which qualify the purchase to be made on a sole source basis.
Contracting with Historically Underutilized Businesses (HUB), Small and Minority Businesses, Women’s Business Enterprises, and Labor Surplus Firms

The City of Bastrop will take all necessary steps to affirmatively assure HUBs, small and minority businesses, women’s business enterprises, and labor surplus firms are notified of bidding opportunities and utilized whenever possible. Affirmative steps will include the following:

- Placing qualified small and minority businesses and women's business enterprises on solicitation lists.
- Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
- Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises.
- Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises.
- Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
- Require the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in parts (1)-(5) above.

Domestic preferences for procurements.

As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award.

“Produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

“Manufactured products” means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.
Procurement of recovered materials.

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Cost/Price Analysis for Federal Procurements in Excess of $150,000

In accordance with the requirements in 2 CFR § 200.324, the City of Bastrop will make independent estimates of the goods or services being procured before receiving bids or proposals to get an estimate of how much the goods and services are valued in the current market.

To accomplish this, before bids and proposals are received, the City of Bastrop conducts either a price analysis or a cost analysis, depending on the type of contract, in connection with every procurement with Federal funds in excess of $150,000. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the City of Bastrop will come to an independent estimate prior to receiving bids or proposals, 2 CFR § 200.324(a).

Accordingly, the City of Bastrop performs a cost or price analysis in connection with every Federal procurement action in excess of $150,000, including contract modifications, as follows:

**Cost Analysis ➔ Non-competitive Contracts**: A cost analysis involves a review of proposed costs by expense category, and the Federal cost principles apply, which includes an analysis of whether the costs are allowable, allocable, reasonable, and necessary to carry out the contracted services. In general,

- A cost analysis must be used for all non-competitive contracts, including sole source contracts.
- The Federal cost principles apply.
All non-competitive contracts must also be awarded and paid on a cost-reimbursement basis, and not on a fixed-price basis.

In a cost-reimbursement contract, the contractor is reimbursed for reasonable actual costs incurred to carry out the contract.

Profit must be negotiated as a separate element of the price in all cases where there is no competition.

When performing a cost analysis, the City of Bastrop negotiates profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor’s investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work, 2 CFR § 200.323(b).

**Price Analysis ➔ Competitive Contracts:** A price analysis determines if the lump sum price is fair and reasonable based on current market value for comparable products or services. In general,

- A price analysis can only be used with competitive contracts and is usually used with fixed-price contracts. It cannot be used with non-competitive contracts.
- Compliance with the Federal cost principles is not required for fixed-price contracts, but total costs must be reasonable in comparison to current market value for comparable products or services.
- A competitive contract may be awarded on a fixed-price basis or on a cost-reimbursement basis. If awarded on a cost-reimbursement basis, the Federal cost principles apply and costs are approved by expense category, and not a lump sum.

Costs or prices based on estimated costs for contracts are allowable only to the extent that costs incurred, or cost estimates included in negotiated prices would be allowable costs under the Federal cost principles.

**Federal awarding agency or pass-through entity review.**

The non-Federal entity must make available, upon request of the Federal awarding agency or pass-through entity, technical specifications on proposed procurements where the Federal awarding agency or pass-through entity believes such review is needed to ensure that the item or service specified is the one being proposed for acquisition. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the non-Federal entity desires to have the review accomplished after a solicitation has been developed, the Federal awarding agency or pass-through entity may still review the
specifications, with such review usually limited to the technical aspects of the proposed purchase.

The non-Federal entity must make available upon request, for the Federal awarding agency or pass-through entity pre-procurement review, procurement documents, such as requests for proposals or invitations for bids, or independent cost estimates, when:

1. The Non-Federal entity's procurement procedures or operation fails to comply with the procurement standards in this part;

2. The procurement is expected to exceed the Simplified Acquisition Threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation;

3. The procurement, which is expected to exceed the Simplified Acquisition Threshold, specifies a “brand name” product;

4. The proposed contract is more than the Simplified Acquisition Threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

5. A proposed contract modification changes the scope of a contract or increases the contract amount by more than the Simplified Acquisition Threshold.

The non-Federal entity is exempt from the pre-procurement review in paragraph (b) of this section if the Federal awarding agency or pass-through entity determines that its procurement systems comply with the standards of this part.

The non-Federal entity may request that its procurement system be reviewed by the Federal awarding agency or pass-through entity to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews must occur where there is continuous high-dollar funding, and third-party contracts are awarded on a regular basis.

The non-Federal entity may self-certify its procurement system. Such self-certification must not limit the Federal awarding agency's right to survey the system. Under a self-certification procedure, the Federal awarding agency may rely on written assurances from the non-Federal entity that it is complying with these standards. The non-Federal entity must cite specific policies, procedures, regulations, or standards as being in compliance with these requirements and have its system available for review.

**Bonding requirements.**
For construction or facility improvement contracts or subcontracts exceeding the Simplified Acquisition Threshold, the Federal awarding agency or pass-through entity may accept the bonding policy and requirements of the non-Federal entity provided that the Federal awarding agency or pass-through entity has made a determination that the Federal interest is adequately protected. If such a determination has not been made, the minimum requirements must be as follows:

(a) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified.

(b) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s requirements under such contract.

(c) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

**Contract Administration**

The City of Bastrop maintains the following oversights to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders, 2 CFR § 200.318(b). The program manager/director of the Federal award is responsible for monitoring contractor performance. The manager/director will compare actual performance of contract against projected performance and have the contractor explain any differences. They may also compare fees paid to date to contractor versus how far along the contractor is in performing the contractual duties. The manager/director may establish surveys of those directly benefitted by the contractor’s work for feedback purposes.

To ensure proper administration of contracts and any subgrants that may be awarded by the City of Bastrop, the City of Bastrop uses the following guidelines to determine whether each agreement it makes for the disbursement of Federal funds is a **contract**, whereby funds are awarded to a **contractor**, or a **subaward**, whereby funds are awarded to a **subrecipient**. The substance of the relationship is more important than the form of the written agreement, 2 CFR § 200.330.
Subawards/Subgrants

A subaward/subgrant is for the purpose of carrying out a portion of a Federal award and creates a Federal assistance relationship with the subrecipient. The City of Bastrop determines who is eligible to receive what Federal assistance, and a subrecipient/subgrantee:

- Has its performance measured in relation to whether objectives of a Federal program are met
- Has responsibility for programmatic decision making
- Is responsible for adhering to applicable Federal program requirements, and
- In accordance with the subgrant agreement, uses the Federal funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the City of Bastrop.

Contracts

A contract is for the purpose of obtaining goods or services for the City of Bastrop’s own use and creates a procurement relationship with the contractor.

A contractor:

- Provides goods and services within normal business operations
- Provides similar goods or services to many different purchasers
- Normally operates in a competitive environment
- Provides goods or services that are ancillary to the operation of the Federal program, and
- Is not subject to compliance requirements of the Federal program as a result of the contract, though similar requirements may apply for other reasons

Documentation for Contracts

The City of Bastrop maintains the following written documentation, at a minimum, for each contract paid with Federal funds:

1. A copy of the written, signed contract/agreement for services to be performed
2. The rationale or procedure for selecting a particular contractor
3. Evidence the contract was made only to a contractor or consultant possessing the ability to perform successfully under the terms and conditions of the contract or procurement
4. Records on the services performed – date of service, purpose of service – ensuring that services are consistent and satisfactorily performed as described in the signed contract or purchase order

5. Documentation that the contractor was not paid before services were performed, and

6. Records of all payments made (such as a spreadsheet or report generated from the general ledger), including the total amount paid to the contractor

Payment Only After Services Are Performed

For both State and Federally funded contracts, it is not permissible under Texas law to pay a contractor or consultant in advance of performing services. Advance payment to contractors is considered “lending credit” to the contractor and is prohibited under the Texas Constitution, Article 3, §§ 50 and 52. For ongoing services that occur monthly, payment can be made at the end of every month (based on a proper invoice submitted by the contractor and verification of work performed) for services performed during the month, or some other similar arrangement.

Consultants and contractors will not be paid without having a properly signed and dated contract or other written agreement in place which clearly defines the scope of work to be performed, the beginning and ending dates of the contract, and the agreed-upon price. The contract should also include a description of the payment procedures.

Upon performance of services (at contract milestones or upon completion of services), the contractor is required to submit an invoice to the City of Bastrop that contains at a minimum the following:

- a clear identification of the contractor/consultant, including name and mailing address
- a corresponding contract (or written agreement) number, if applicable
- the dates (beginning and ending date) during which the services were performed (i.e., billing period)
- a description of the services/activities completed during the billing period
- the total amount due to the contractor for the billing period

By submitting a properly-prepared invoice, the contractor is certifying that it is true and correct.

Verification of Receipt of Goods and Services Provided by Contractors

If the purpose of the contract or purchase order is to deliver goods, the City of Bastrop will designate the appropriate staff to verify that the quantity and quality of goods were as specified
in the contract/purchase order. The receiving report and procedures used in all other State/local purchases will be used for all Federal purchases.

If the purpose of the contract is to purchase services, the contract manager along with the County Judge/City Mayor will verify that the quality and scope of services were received as specified in the contract.

**Prompt Payment to Vendors/Contractors**

The City of Bastrop pays all vendors/contractors within thirty (30) days of receipt of a proper invoice and the receipt of the goods or services in accordance with the [Texas Prompt Payment Act](https://www.legis.state.tx.us/Legislation/TexasPromptPaymentAct). *Government Code, Chapter 2251, Subchapter A, for all contractors, and Property Code, Chapter 28 for Construction Contractors.*

**Suspension and Debarment**

The City of Bastrop will ensure, prior to award, that all contractors have met all the eligibility requirements outlined in state and Federal law. The following steps will be taken to ensure contractor eligibility for all services procured.

- **Contractors:** All contractors, including professional consulting and engineering firms, must be cleared via a search of the Federal System of Award Management (‘SAM’) to ensure the contractor is in good standing and has not been debarred. The SAM portal can be found here: [https://sam.gov/SAM/pages/public/searchRecords/search.jsf](https://sam.gov/SAM/pages/public/searchRecords/search.jsf).
- **Subcontractors:** Subrecipients must notify the selected prime contractors that it is the sole responsibility of the prime contractor to verify subcontractor eligibility based on factors such as past performance, proof of liability insurance, possession of a federal tax number, debarment, and state licensing requirements.

AGENDA ITEM: 8F

TITLE:
Consider action to approve Resolution No. R-2022-01 of the City Council of the City of Bastrop, Texas approving the Bastrop Police Department to apply for a grant from the 2021 State Homeland Security Program (SHSP) Terrorism grant for a Regional Law Enforcement Surveillance Trailer at a total cost of forty-nine thousand nine-hundred fifty dollars ($49,950) with no matching funds from the City of Bastrop; authorizing the Chief of Police as the Grantee’s Authorized Official; providing for a severability clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Clint Nagy, Chief of Police

BACKGROUND/HISTORY:
Protecting, deterring, and identifying are the keys to preventing a terror attack. A Regional Law Enforcement Surveillance Trailer (LEST) is ideal for deployment at special events, fairs, sporting events, concerts, or any space in which a terrorist attack could occur. The City of Bastrop alone has more than fifteen (15) special events that individually bring thousands of persons to the City of Bastrop each year. The City of Bastrop has numerous places and events that could be targeted for an attack.

These targets include electric, water, and wastewater infrastructure, a thriving historic downtown Main Street and special event venues to include fairgrounds and a convention center. Lastly, there are six (6) schools within the city, and countywide, there are fourteen (14).

The LEST is a specialty designed trailer that can be immediately deployed to meet any surveillance requirement at any terrorist situation. The LEST is equipped with high tech cameras that are attached to an extendable boom to gain a bird’s eye view of the surrounding area.

Furthermore, these cameras can be watched from any distance away from the LEST and recorded after for after-the-fact review. This would provide a safe and secure environment for receiving real-time information and conducting strategic planning.

The LEST can be towed by a small SUV or car. It has its own power source and can be moved from one strategic location to the next.

Bastrop County and the cities of Bastrop, Elgin, and Smithville do not currently own a LEST. State-owned LESTs that may be available for a response are not permanently assigned in Bastrop County. This is a deficiency in our current response plan.

If awarded the grant, the City of Bastrop would store and maintain the LEST. The LEST would be available for a countywide response to all incidents.
FISCAL IMPACT:
This project is completely grant funded and has no adverse impact to the City’s budget.

RECOMMENDATION:
Clint Nagy, Chief of Police, recommends approval of Resolution No. R-2021-12 of the City Council of the City of Bastrop, Texas approving the Bastrop Police Department to apply for a grant from the 2021 State Homeland Security Program (SHSP) Terrorism grant for a Regional Law Enforcement Surveillance Trailer at a total cost of forty-nine thousand nine-hundred fifty dollars ($49,950) with no matching funds from the City of Bastrop; authorizing the Chief of Police as the Grantee’s Authorized Official; providing for a severability clause; and establishing an effective date.

**Project Summary**

This project will improve and will allow operational coordination in the City of Bastrop and throughout Bastrop County to prevent terrorism and respond to terrorism by providing a Regional Law Enforcement Security Trailer. Protecting, deterring, and identifying are the keys to preventing a terror attack. LEST is ideal for deployment at special events, fairs, sporting events, concerts, or any space in which a terrorist attack could occur. The City of Bastrop alone has more than fifteen (15) special events that individually bring thousands of persons to the City of Bastrop occur each year. The City of Bastrop has numerous places and events that could be targeted for an attack. These targets include electric, water, and wastewater infrastructure, a thriving historic downtown Main Street and special event venues to include fairgrounds and a convention center. There are six (6) schools within the city, and countywide, there are fourteen (14). Lastly, there are approximately forty-two (42) places of worship, a Federal Correctional Institution, and a Texas Army National Guard training center in Bastrop County.

This resource is not currently owned by Bastrop County or any of the municipalities within Bastrop County. The City of Bastrop is requesting forty-nine thousand nine-hundred and fifty dollars ($49,950.00) for the purchase of the LEST. The LEST will be stored and maintained by the City of Bastrop. However, it may be utilized by Bastrop County, Bastrop County Emergency Management, Bastrop Independent School District, the City of Elgin, and the City of Smithville.

**Problem Statement**

This project will improve the prevention, protection, and response coordination in a response to terrorism related threats and hazards identified in the 2019 Threat and Hazard Identification and Risk Assessment (THIRA). Terrorist activity could come in a variety of methods such as an active shooter, bomb threats / explosions, or hazardous materials release.

**Existing Capability Levels**

The City of Bastrop has trained personnel within all of the City Departments. Each of these personnel has received the appropriate level of Incident Command System (ICS) and National Incident Management System (NIMS) for their assigned positions. The City of Bastrop has developed “Readiness Level” procedures for how city departments will plan and respond to all types of events that may impact the City of Bastrop.

**Capability Gaps**

This project will assist in addressing the need in the Stakeholder Preparedness Review- “Operational Coordination” core capability (pg. 10-12), by targeting the “Response.” The LEST will also serve as a critical resource to the Incident Commander by providing a 24-7 real-time and after-the-fact review of video from numerous angles to include high definition, overhead, and zoom.

**Impact Statement**
This project will enhance the prevention and operational coordination and response to acts of terrorism and major criminal acts by allowing the ICP to operate proactively and remotely. The LEST can be utilized in two major ways. First, the LEST can be placed where there has been a threat as a preemptive strike. A clear example is a threat of violence at a church or school. The LEST’s very presence may deter an attack, and if an attack occurred, the recorded camera system should provide valuable documented evidence. Lastly, once an incident has occurred, once safe, the area could be monitored 24-7 by law enforcement, providing constant insight. The LEST will be available to the Bastrop County Office of Emergency Management, the Bastrop County Sheriff’s Office, the Bastrop Independent School District Police Department, the Elgin Police Department, and the Smithville Police Department.

**Homeland Security Priority Action**

Texas Homeland Security Strategic Plan-Respond 4.1: Maximize response capabilities by enhancing statewide regional response resources and the state and regional mutual aid network.

**Target Group**

The agencies that will utilize the LEST will be the City of Bastrop, Bastrop County, the Bastrop Independent School District, the City of Elgin, and the City of Smithville. These agencies respond to and protect approximately 97,000 citizens in Bastrop County. The Bastrop ISD has fifteen schools with 11,500 students and 1300 staff members. Bastrop ISD encompasses 450 square miles within their district. The City of Elgin contains one campus of higher education. Lastly, there are approximately 42 places of worship, a Federal Correctional Institution, and a Texas Army National Guard training center in Bastrop County.

**Long-Term Approach**

Support for purchasing the LEST is solely dependent on this grant. Long-term maintenance cost will be provided by the City of Bastrop and Memorandums of Understanding will be executed with Bastrop County, the City of Elgin, the City of Smithville, and the Bastrop Independent School District.

TITLE:
Consider action to approve the second reading of Ordinance No. 2021-20 of the City Council of the City of Bastrop, Texas, designating and recognizing an area, that being approximately 546 acres located at 1240 Lover’s Lane, in the extraterritorial jurisdiction of Bastrop, Texas, as a media production development zone; and authorizing the City Manager to execute all necessary documents; providing for a repealing clause and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Tracy Waldron, Chief Financial Officer

BACKGROUND/HISTORY:
On June 22, 2021 City Council approved a Development Agreement with Bastrop Colorado Bend, LLC for approximately 546 acres to be developed for mixed commercial to include multi-faceted film studio, lodging, restaurants, event space, recreational facilities, parks and greenbelt areas.

On October 21, 2021, the City of Bastrop received an application from Bastrop Colorado Bend, LLC a request for exemption of a Media Production Development Zone. This exemption would exempt certain items from the sales and use tax as provided by Section 151.3415 of the Tax Code. The Government Code Chapter 485A establishes the rules regarding a Media Production Development Zone.

The Media Production Development Zone Act (MPDZ) was established in 2009 and administered by the Texas Film Commission. It is designed to encourage the further development of permanent moving image production sites to help strengthen Texas’ economy. MPDZ allows for a sales and use tax exemption for the construction, maintenance, expansion, improvement, or renovation of a media production facility at a qualified media production location over a two year period. Media production facilities include but are not limited to: animation/CGI studios, post production facilities, sound stages, video game development studios, and production office spaces.

In order for Bastrop Colorado Bend, LLC’s (the requestor) application to be considered for consideration and approval, the City of Bastrop must take several actions. The first is to designate an area within the city’s jurisdiction (which includes territory in the extraterritorial jurisdiction) as a Media Production Development Zone. This zone is only approved for a maximum of five years. The second is to nominate a location within the Media Production Development Zone. This location would be the applicant’s property location. Both actions must be done through Ordinance. The third is to submit an application to the Texas Film Commission on behalf of the requestor.

The requestor contracted a third party to conduct an Economic Impact Study on August 30, 2021. The study concentrated on the two-year construction/development of Phase 1 and the first 10 years of production activity facilitated by these structures. The below chart is taken from the report.
and reflects the cost and benefits over the next 12 years. The highlighted line is the estimate of what the exemption created by the MPDZ would be over the next 12 years. The exemption is only approved for a two year period.

The Emile Multicultural Center/Recreation Complex will construct a Historic/Recreation Site to educate others of all the contributions made by students, teachers and principals of Emile High School during the 77 years of existence, and to serve as a catalyst to bring the community together.

The stated Goals are:

- **Build a Historic/Recreation Site by the end of 2024**
- **Acknowledge contributions made by students, teachers and principals of Emile High School from 1892 to 1969**
- **Promote good health and the spirit of UNITY by connecting communities through History and Recreational activities**
- **Introduce Progressive Thinking and Embrace Differences**
- **Secure the National Historic Designation for the Site**

The Non-Profit has engaged the services of an architect who has developed preliminary schematics of the proposed facility. As currently envisioned, the project would consist of a 42,000 square foot recreation center, including space for three courts, classrooms, office space, and a multicultural museum. The proposed location is currently owned by the Bastrop Independent School District (BISD), who leases the property to the Bastrop Youth Soccer Organization (BYSO).

The Non-Profit is anxious to begin fund-raising efforts, and believes it is important to provide assurance to potential donors that the property is available for use of the project. The Letter of
Intent is structured so as to provide a reasonable amount of assurance to the public that the City of Bastrop and the BISD see the value in the project and intend to work towards the project’s success. This includes the stated intention for the City and BISD to swap land so that the City ultimately owns the approximate 20 acres identified for the project, generally bounded by Pine Street, MLK, Highway 95, and Emile Elementary. In exchange, the BISD would own the 25 acres currently owned by the City on Lover’s Lane. BISD would be able to continue their relationship with the BYSO at that location.

The Non-Profit has also been clear in their expectations of the City of Bastrop. An objective is for the city to work with their architect to develop a design that works with the site and complies with city development requirements, and to ultimately construct, operate, and own the facility.

There have been two meetings so far with the architect, and those meetings have been productive. Assistant City Manager Trey Job has made suggestions for the orientation of buildings, proposed soccer field, and parking so that traffic and drainage concerns can be effectively addressed.

Traffic in the area is currently a concern, especially associated with drop off and pick up traffic at Emile elementary. We’ve discussed a plan that would be consistent with our development standards, provide adequate ingress and egress to the project, and provide needed traffic circulation improvements in the area.

Prior to learning of the Non-Profit’s existence, the City had included a “New Recreation Center Building” in the capital improvements plan “that would be informed by an updated Parks Master Plan”. The City has also developed a fiscal forecast that assumes a bond election in November 2023 that would provide funding, including for major street reconstruction, beginning in FY 2024.

The draft LOI suggests that the City take responsibility for the roadway improvements associated with the project, those improvements being funded in the proposed bond election. These would be roadway improvements that would improve traffic in the area, and the newly owned City property, irrespective of the proposed project and would also serve to benefit the project.

BISD Board review and approval of the LOI will follow that of the City Council.

FISCAL IMPACT:
There is no impact of the Letter of Intent. The City would continue to build a proposed bond program for the November 2023 bond election, that would include roadway improvements in the area.

RECOMMENDATION:
The City Manager recommends approval of the Letter of Intent. This project aligns extremely well with the City’s “Uniquely Bastrop” Focus Area, which reads “maintain and enhance our historic community feel by leveraging the unique combination of community, parks, cultural and recreational assets that make Bastrop a special place to live and work.”

MEMO

Date: December 27, 2021

To: Governing Body of Bastrop County, School Districts, and Cities within Bastrop County

From: Faun Cullens

Subject: Notice of Proposal for Bastrop CAD Facilities

The Board of Directors is considering alternatives for the Bastrop CAD facilities to accommodate the current and future growth of the appraisal district. It is important to consider our present facilities and the growth challenges we are facing.

Present Facilities:
In 1997 the Board of Directors of the Bastrop CAD began the process of purchasing the land located at 212 Jackson Street. Construction of the current 12,000 square foot facility began in 1998. Construction was completed in 1999 at which time the appraisal district, collections and McCreary Veselka Bragg & Allen (MVBA) occupied the building.

Around 2001 collection of tax dollars was turned over to the County Tax Assessor. Collections and MVBA moved to offices within the courthouse at that time.

With the entities need to have complete and timely values, the accelerated growth of our county, and legislative changes every two years on how we do business, we are facing the need to add new staff members to efficiently keep up with the changes. It is our goal to continue positive service to the property owners and taxing entities of Bastrop County.

Most of the customer traffic involves two departments within the appraisal district, mapping, and administrative support (homestead applications and agricultural applications). These two departments would be better suited closer to the entrance on the east side of the building. We believe this would enhance customer service and the flow of customer traffic.

Just as all the taxing entities are prudently making plans, Bastrop CAD has the same challenge and the stewardship to plan for the future. Below you will find our recommendation for consideration.
**Bastrop CAD is considering a remodel of its existing facility.**

The present Bastrop CAD facilities, with remodeling could be converted into much more efficient office space. The proposed remodel would move high traffic customer areas closer to the front of the building. The remodel would convert the existing front porch to a lobby area, which would allow for the expansion of the reception area to efficiently handle customers. The proposed remodel involves the east half of the building at this time. The west half of the building is already divided into offices.

With an estimated cost of $600,000 to complete the remodel, the district would propose to use $400,000 dollars of committed reserve for building projects leaving a balance of $200,000.

The district proposes to finance $200,000 as a construction loan for one year for the balance and unexpected construction costs. With the anticipated completion of the remodel of April 1, 2022. The balance would be budgeted for the 2023 Appraisal District Budget, upon approval by the taxing authorities and adoption by the Board of Directors.

**The Bastrop CAD Board of Directors believes the most economical and prudent option is to remodel the existing facility.** This would provide for the least amount of change for the property owners, entities, and staff. It removes the question of marketing the existing facility. The board of directors believes this would result in the lowest financial impact to the taxing entities. Please find enclosed the Bastrop CAD Board Resolution on this proposal and an estimated allocation of the proposal.

**Section 6.051(b) of the Property Tax Code requires that “on or before the 30th day after the date the presiding officer receives notice of proposal, the governing body may approve or disapprove the proposal.”**

We look forward to sharing this information with your governing body at your meeting within the next 30 days. Please find enclosed a sample resolution for your considered support of this proposal. I look forward to receiving notification of when your meeting is scheduled. We will be there to present this information and answer any questions you may have.

BACKGROUND/HISTORY:
Please see attached memo

FISCAL IMPACT:
Fifty-Five Thousand Dollars and no/100 ($55,000.00) is to be utilized from the Professional Services Budget from the General Funds.

RECOMMENDATION:
Curtis Hancock, Director of Public Works recommends approval of Resolution No. R-2022-04 of the City Council of the City of Bastrop, Texas for the Professional Engineering Services of Applied Pavement Technology for the Pavement Condition Index Study, In The Amount Of Fifty-Five Thousand Dollars and no/100 ($55,000.00) for the Project; and providing an effective date, as attached as Exhibit A; authorizing the City Manager to execute all necessary document; providing for a repealing clause; and establishing an effective date.

ATTACHMENTS:
• Attached Memo
There are two ways to measure the condition of a road network. The first way is called “the squeaky wheel”; sit back and wait for the complaints to come in. The more complaints you receive, the worse the condition of the road. The second way is to use a more thorough, comprehensive, and proactive approach to review the entire road network, using the Pavement Condition Index (PCI).

PCI is a numerical index between 0 and 100, which is used to indicate the general condition of a pavement section and is a simple, convenient way to monitor the condition of road surfaces, identify the need for maintenance and rehabilitation and ensure that road maintenance budgets are wisely spent. The PCI is widely used in transportation civil engineering and asset management, and many municipalities use it to measure the performance of their road infrastructure and their levels of service.

The City of Bastrop’s street system has 54.6 miles of asphaltic concrete, 2.1 miles of Portland cement, and 3.8 miles of gravel. In FY2018, the City Council funded a Pavement Condition Index Study to evaluate and grade the City’s streets and Applied Pavement Technology was hired to conduct the study using enhanced data gathering equipment. The results of this study indicated that the City’s asphaltic concrete streets had an overall score of 66; the Portland cement streets had an overall score of 89, and the City’s combined overall score was 68.

The proven method to stabilize road conditions and minimize additional deterioration is the “keep the good streets good!” Therefore, City staff put together a five (5) year strategy to stabilize road conditions.

We recommend using the services of Applied Pavement Technology, a Civil Engineering company whose primary focus is pavement evaluation, maintenance, and design, to conduct a new PCI study so that we are relying on current data as we continue to develop and implement strategies to keep our roads safe and operational.

Consider action to approve Resolution No. R-2022-05 of the City Council of the City of Bastrop, Texas awarding a research agreement with Texas A&M Engineering Experiment Station for the GIS (Geographic Information System) Database project in the amount of Fifty-Two Thousand Two Hundred and Fifty-Two Dollars ($52,252.00) as attached Exhibit A; authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Fabiola de Carvalho, MIAM, Director of Engineering and Capital Project Management

BACKGROUND/HISTORY:
GIS has become invaluable for many cities when it comes to effective planning and operating and maintenance of its assets. With the growth that the City has been experiencing, there is no shortage of information/data, however, this information is fragmented, incomplete and not in a centralized location. By developing a database in a centralized location with critical data, it will assist the City in better decision-making to its assets, for instance allocating funds where needed, and building a resilient, stronger and sustainable community. In other words, a GIS database takes someone’s data in paper or pdf files and brings it to everyone’s cellphone, computer, tablet, etc.

The goal of this project is to update City’s infrastructure spatial database to enhance visibility into data and make it suitable for the future use in asset management applications. In addition, it will enable smart city planning development by allowing staff to better understand existing infrastructure and current and future needs for the City.

This project will consist in digitizing spatial data and entering their corresponding attributes that will assist with asset management. In addition, a database Schema for the infrastructure will be developed for consistency in collecting future asset attributes.

At the end of the project a training workshop will be provided to present the details of the database schema and how to maintain the database.

FISCAL IMPACT:
The funding for this project will come from contractual services from Engineering (pg. 152), Water/Wastewater (pg. 160), and BP&L (pg. 78) budgets.
RECOMMENDATION:
Consider action to approve Resolution No. R-2022-05 of the City Council of the City of Bastrop, Texas awarding a research agreement with Texas A&M Engineering Experiment Station for the GIS (Geographic Information System) Database project in the amount of Fifty-Two Thousand Two Hundred and Fifty-Two Dollars ($52,252.00) as attached Exhibit A; authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date.

BETWEEN THE  
TEXAS A&M ENGINEERING EXPERIMENT STATION  
AND  
CITY OF BASTROP

This RESEARCH AGREEMENT ("Agreement") is between the Texas A&M Engineering Experiment Station, a member of The Texas A&M University System and an agency of the State of Texas, having a place of business at 400 Harvey Mitchell Parkway South, Suite 300, College Station, Texas 77845, ("TEES"), and the City of Bastrop, a Home Rule Municipal Corporation, duly incorporated and validly existing under the laws of the State of Texas, with address at 1311 Chestnut Drive, Bastrop, Texas 78602, ("SPONSOR"), each of the aforementioned being referred to individually as the “Party” or collectively as the “Parties”;

TEES and Sponsor each desire to encourage and facilitate the discovery, dissemination and application of new knowledge, and Sponsor desires to support this research ("Research") which results are of public use and necessity. TEES will share its findings with SPONSOR. SPONSOR’s findings are crucial for SPONSOR’s infrastructure;

The Parties agree as follows:

1. STATEMENT OF WORK. TEES shall use its reasonable efforts to perform the Research entitled “Geographic Information System (GIS) Databases and Develop Asset Management Framework” as further described in the attached Appendix A. The statement of work shall not be changed except by written amendment to this Agreement signed by the Parties.

Nothing in this Agreement limits the freedom of researchers, whether as participants in this Agreement or not, to engage in similar inquiries made independently under other grants, contracts or agreements with parties other than SPONSOR.

2. PRINCIPAL INVESTIGATOR. The Research will be supervised by Dr. Francisco Olivera, Ph.D., P.E., F.ASCE of the Department of Civil Engineering to serve as Principal Investigator. If, for any reason, they are unable to continue to serve as Principal Investigator(s) and a successor acceptable to both TEES and the SPONSOR is not available, this Agreement shall be terminated for convenience as provided in Article 7. TEES will communicate with SPONSOR any change on the Principal Investigator or any other staff, within seven (7) days of the change.

3. PERIOD OF PERFORMANCE. The period of performance shall commence on the date last signed by the Parties (the "Effective Date") and, unless earlier terminated in accordance with this Agreement, ending one year from that date (the "Completion Date").

TEES shall submit monthly invoices to SPONSOR’s address below and SPONSOR shall remit payment to TEES within 30 days of receipt of invoice.
Costs shall be incurred in accordance with TEES’s current policies and procedures. Transfers between budget line items are allowable without SPONSOR prior approval.

Invoices for compensation shall be submitted to the following address:

6. DELIVERABLES. The Principal Investigator shall furnish SPONSOR with deliverables and reports as specified in Appendix A.

7. TERMINATION.

A. Performance under this Agreement may be terminated for convenience by either Party upon 30 days written notice.

B. In addition to the termination right set forth above in 7A hereof, either Party may terminate this Agreement effective upon written notice to the other Party, if the other Party breaches any of the terms and conditions of this Agreement and fails to cure such breach within 30 days after receiving written notice thereof. In the event of an incurable breach, the non-breaching Party may terminate this Agreement effective immediately upon written notice to the breaching Party.

C. Upon termination, SPONSOR shall reimburse TEES as specified in Article 4 for all costs and non-cancelable commitments incurred in the performance of the Research up to the date of termination, such reimbursement not to exceed the total amount specified in Article 4. Upon early termination, TEES agrees to reimburse SPONSOR any funds that have been received but remain unexpended at the time of termination, except for those funds needed to pay for non-cancelable obligations.
8. INTELLECTUAL PROPERTY.

A. “Intellectual Property” means all intellectual property, including without limitation, electronic or otherwise, technical information, know-how, copyrights, patents and trade secrets, ideas, thoughts, concepts, processes, techniques, data, development tools, models, drawings, specifications, prototypes, inventions and software.

B. “Project IP” or “Project Intellectual Property” shall mean all Intellectual Property that is authored or conceived and reduced to practice in the performance of the Research.

C. Ownership of Project IP shall be as follows:

   (i) Title to any Project IP made or conceived solely by employees of TEES vests in TEES.

   (ii) Title to any Project IP made or conceived solely by employees of SPONSOR vests in SPONSOR.

   (iii) Title to any Project IP made or conceived jointly by employees of both TEES and SPONSOR (hereinafter called “Joint IP”) vests jointly in TEES and SPONSOR.

D. TEES shall promptly disclose all Project IP and Joint IP in sufficient detail as to allow SPONSOR’s evaluation (“Invention Disclosure”), and SPONSOR shall have a time-limited option to negotiate a license to TEES’s interests in such disclosed Project IP as set forth in Article 9. Any such Invention Disclosure shall be considered Confidential Information.

E. For Joint IP conceived under this Agreement, TEES and SPONSOR will be independent owners of any corresponding patent rights under 35 USC 262 with no obligation of accounting to one another, in the absence of a written agreement to the contrary.

9. INTELLECTUAL PROPERTY RIGHTS.

A. For a period of 90 days from the receipt by SPONSOR of an Invention Disclosure, or from the date of SPONSOR’s identification of Project IP and disclosure of same to TEES, SPONSOR shall have, to the extent that TEES has the legal right to do so and in consideration of TEES’s receipt of SPONSOR’s funding of the Research, an exclusive option to negotiate a commercial license, to TEES’s interests in the disclosed Project IP (“Option Period”).

B. At any time during the Option Period, SPONSOR may exercise its option by written notice to TEES. Upon exercise, the Parties shall negotiate diligently and in good faith, for a period not to exceed 90 days (“Negotiation Period”), an exclusive, sublicensable (or nonexclusive and non-sublicensable, at SPONSOR’s option) royalty-bearing commercial license to TEES’s interest in Project IP. The terms of such license shall be commercially reasonable and shall provide, in the case of an exclusive license, for diligent development of the Project IP towards commercialization by SPONSOR.

C. During the Option Period or Negotiation Period, TEES may, at its sole election and expense, file for statutory intellectual property protection for the optioned Project IP. SPONSOR may also request that TEES file for statutory intellectual property protection
for the optioned Project IP, and in such case SPONSOR shall reimburse TEES for its patent expenses within 30 days of receiving an invoice for such expenses.

D. If the Option Period elapses without exercise, or the Negotiation Period elapses without the execution of a license agreement, SPONSOR shall have no further rights to the Intellectual Property. However, the Parties may extend either the Option Period or Negotiation Period by written agreement.

E. To the extent TEES has the legal right to do so and in consideration of TEES’s receipt of SPONSOR’s funding of the Research, TEES shall grant to SPONSOR a non-exclusive, royalty-free license with the right to sublicense to any TEES Project Intellectual Property developed under this Agreement for non-commercial research and development use only.

10. CONFIDENTIAL INFORMATION.

A. Confidential Information. It is contemplated that the disclosing Party (“Disclosing Party”) may be disclosing certain confidential and/or proprietary information to the receiving Party (“Receiving Party”) unknown to the general public (hereinafter referred to as "Confidential Information"). The Parties agree the terms of this Article shall apply to any confidential and/or proprietary information that may be disclosed under this Agreement, and that such Confidential Information shall be used solely for the benefit of the Disclosing Party. Receiving Party acknowledges the above-described Confidential Information is confidential and/or proprietary to the Disclosing Party and is claimed to be a valuable, special, and unique asset of the Disclosing Party. Update Geographic Information System (GIS) Databases and Develop Asset Management Framework for the City of Bastrop

Francisco Olivera and Ivan Damnjanovic, Texas A&M University

1. Goals and Requirements

The goal of this project is to update the City of Bastrop’s infrastructure spatial database and make it suitable for the future use in asset management applications.

The updating of the infrastructure spatial database will be conducted in the most recent Geographic Information System (GIS) software platform, ArcGIS Pro. It will consist of digitizing spatial data and entering their corresponding attributes provided by the City. From interactions with the City, it is understood that there are complete areas that lack spatial data. Spatial features will be attributed with information provided by the City but also, as part of the development of the asset management framework, recommendations will be made to include additional attributes that are deemed to help asset management in the future.

2. Scope of Work

Task 1. Assess the Status of the Existing Infrastructure Spatial Database

In this task, we will survey the City’s existing infrastructure database. This survey will pay particular attention to: (1) consistency in the file format of the different datasets; (2) consistency in the naming of the datasets, and in the naming of the attributes; (3) consistency in the spatial accuracy; and (4) assessment of the area covered by the current datasets.

Task 2. Develop a Consistent Database Schema for the Infrastructure Spatial Database

In this task, and depending on the findings of Task 1, we will propose a database schema consisting of a geodatabase and, if needed, feature datasets to store all the infrastructure data. Additionally, feature class and attributes names, and suggested relationships between classes, will be proposed.

Task 3. Populate the Proposed Infrastructure Spatial Database

In this task, we will import all existing spatial data to the proposed geodatabase and organize them according to the database schema of Task 2. Feature classes and attributes will/might-need-to be renamed to match the database schema.

Task 4. Digitize Spatial Data

In this task, we will digitize spatial data in dwg or pdf format provided by the City of Bastrop. Once digitized, they will be imported to the proposed geodatabase and organize them according to the database schema of Task 2. Feature class and attribute names will match the geodatabase schema.
Task 5. Training Workshop

In this task, we will organize a one-day workshop to present the details of the database schema. This presentation will include a discussion on the relevance of each attribute and on how they can be used for asset management. We will also provide guidelines for updating it as future data becomes available. Finally, tips for transitioning to ArcGIS Pro from ArcGIS and learning materials will be provided.

Task 6. Prepare Final Report

In this task, we will prepare a final report documenting Tasks 1 through 5.

3. Schedule and Budget

The proposal is structured as a 1 year project.

BACKGROUND/HISTORY:
The applicant has submitted an application for a Zoning Concept Scheme (ZCS) for Bastrop Business and Industrial Park (Exhibit A). The request is to rezone part of the Bastrop Business and Industrial Park from P2 Rural to PEC Employment Center and establish development standards for the entire Park including the area zoned PEC.

Place Type Employment Center is defined in the code as “Areas that by their function, deposition, or configuration cannot, or should not, conform to one or more of the Place Types. EC shall be used for job creation centers and Building forms that do not fit within the character of the Place Types. The Development Standards set in the B³ Code for PEC are based on Place Type 5 zoning but have several standards that are left blank and are intended to be determined during the ZCS, Neighborhood Regulating Plan, or on individual sites by Warrant.

The proposed ZCS plans for the extensions of Technology Drive, S. Jackson Street, and two additional future streets. The base development standards call for the 720-foot block grid, however this area has a number of existing developed and geographic features.
To the west, the entire development is bounded by the Union Pacific Railroad. To the south and east, the property is bounded by existing residential lots. The ZCS lines up the future road extensions with currently vacant lots. To the east of the future road extension from S. Jackson Street, there is a ravine that would require additional infrastructure and the road would connect through developed residential lots. Due to these conditions, the block lengths will exceed 720 feet and the block perimeter or 2,880 feet. See block perimeter diagram below.
Zoning Concept Schemes also take into account the variety of place type zoning districts in a pedestrian shed. For this area, the applicant has shown four pedestrian sheds covering the existing P2 Place Type. For the Pedestrian Shed mix, PEC is not a required Place Type, as it is considered on a case-by-case basis. As there is no minimum for P2 Rural zoning, the change to PEC does not reduce the compliance with the Pedestrian Shed requirements.

Landscape plans for overall style and Street Type compliance are also considered. The landscape plan conceptually addresses the requirements, showing an emphasis on landscaping on the secondary street frontages and states that the development will provide street trees. Compliance with this regulation is verified upon review of the Public Improvement Plans and Site Development Plans. For the Street Type, the ZCS refers to the Regional Commercial cross section, which can be modified during the Public Improvement Plan review by the City Engineer to meet existing natural and built conditions of the existing development.
Drainage
A Zoning Concept Scheme must be accompanied by a Conceptual Drainage Plan to ensure that the proposed development is feasible. A Conceptual Drainage Plan has been reviewed with no major issues. With the new development, the plan identifies three new potential drainage ponds to mitigate the new development.

PUBLIC COMMENTS:
Property owner notifications were sent to 70 adjacent property owners on December 2, 2021 (Attachment 4). At the time of this report, 5 responses have been received, 2 in favor, 1 with no objection and 2 opposed (Attachment 5). Additionally, two owners of one residential ETJ property to the south spoke at the P&Z meeting and were concerned about what kind of buffer/separation would be provided at the southern border of the park.

POLICY EXPLANATION:
Texas Local Government Code
Sec. 211.006. PROCEDURES GOVERNING ADOPTION OF ZONING REGULATIONS AND DISTRICT BOUNDARIES. (a) The governing body of a municipality wishing to exercise the authority relating to zoning regulations and zoning district boundaries shall establish procedures for adopting and enforcing the regulations and boundaries. A regulation or boundary is not effective until after a public hearing on the matter at which parties in interest and citizens have an opportunity to be heard. Before the 15th day before the date of the hearing, notice of the time and place of the hearing must be published in an official newspaper or a newspaper of general circulation in the municipality.

Notice was published in the Bastrop Advertiser and notice was sent to property owners within 200 feet of the property boundary.

(b) In addition to the notice required by Subsection (a), a general-law municipality that does not have a zoning commission shall give notice of a proposed change in a zoning classification to each property owner who would be entitled to notice under Section 211.007(c) if the municipality had a zoning commission. That notice must be given in the same manner as required for notice to property owners under Section 211.007(c). The governing body may not adopt the proposed change until after the 30th day after the date the notice required by this subsection is given.

N/A. Bastrop is not a general-law municipality.

(c) If the governing body of a home-rule municipality conducts a hearing under Subsection (a), the governing body may, by a two-thirds vote, prescribe the type of notice to be given of the time and place of the public hearing. Notice requirements prescribed under this subsection are in addition to the publication of notice required by Subsection (a).

Notice of the meeting was posted at least 72 hours in advance.

(d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either:
(1) the area of the lots or land covered by the proposed change; or

(2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

(e) In computing the percentage of land area under Subsection (d), the area of streets and alleys shall be included.

At the time of this report, no protest has been received.

(f) The governing body by ordinance may provide that the affirmative vote of at least three-fourths of all its members is required to overrule a recommendation of the municipality's zoning commission that a proposed change to a regulation or boundary be denied.

If the Planning & Zoning Commission recommends denial of the zoning request, the City Council must have a minimum vote of 4 out of 5 members to approve the zoning request.

At least 5 members of the Planning & Zoning Commission must vote to make an official recommendation to the City Council. Failure to reach five vote means no official recommendation can be forwarded, but this does not impact the City Council's vote requirement to approve or deny the request.

Compliance with 2036 Comprehensive Plan:

Future Land Use Plan – The Industry character area supports light industrial, and warehousing and distribution, land uses. Activities within this character area include the assembly, production, and storage of finished products, and may require industrialized buildings of substantial size, as well as areas for outdoor storage. Primary land uses may be expected to generate high volumes of heavy vehicle traffic. The Industry character area may also support some heavy manufacturing activity on a case-by-case basis, but only where performance measures on nuisances (e.g., noise, dust, light, etc.) may be mitigated.

- Land uses should be located on and take vehicular access from arterial roads, or from industrial streets which lead directly to arterial streets.
- Substantial landscaping should be placed in required yards to enhance buffering and screening. The maintenance of existing tree cover in required yards should be encouraged to meet landscaping requirements.

The proposed PEC and Zoning Concept Scheme is in compliance with the Future Land Use Plan.

Compliance with Bastrop Building Block (B³) Code:

B³ CODE INTENT (See Executive Summary)
The code is built around three core intents:

- Fiscal Sustainability
New development and redevelopment must be done with a focus on the intersection of the Public and Private Realms. This is the area where city and utility infrastructure are maintained in an efficient manner and the commercial development creates a complete neighborhood.
The development provides street and infrastructure connections with a Conceptual Utility Plan and Conceptual Drainage Plan that shows the extension of the stormwater system, water system and wastewater system that includes the need for a future lift station.

- Geographically Sensitive Developments
Development will retain its natural form and visual character, which is derived from the topography and native environment.

This area has several drainage areas that will require additional detention ponds within the development. On three sides, the development is bounded by existing development (railroad, single-family development). The ZCS has identified two additional opportunities for future connectivity through currently undeveloped lots. The future street extension east of S. Jackson Street is shown as a dead end due to existing topography.

- Perpetuation of Authentic Bastrop
The B³ Code will perpetuate the built form that has been predominate over the City’s 189-year history. The recent trend of allowing parking and automobile traffic as the predominate feature has created a pattern that is contrary to the historical building patterns of the city and creates sites/buildings that are not adaptable and sustainable in the long-term.

The connection of Technology Drive and S. Jackson Street furthers the neighborhood’s development in the same built form that was established in the earlier phases of the Bastrop Business and Industrial Park. The architectural styles proposed are in accordance with the existing style of development in the Park and include primary frontage architectural encroachments.

B³ Code ARTICLE 5.1 INTENT OF DEVELOPMENT PATTERNS
(b) The Development Pattern type will be used to guide the creation of the Zoning Concept Scheme and Neighborhood Regulating Plan (see Article 2-3 Neighborhood Regulating Plans in B3 Technical Manual) configurations suitable for different geographies and Character Districts.

The Character District of this project is Pine Village, which allows for Traditional Neighborhood Development (TND) using the standard building block pattern. The development is proposing the TND form by providing internal blocks and external future connections to create new blocks with existing streets.

SEC. 5.2.002 TND STANDARDS
1. Detail the block perimeters, block lengths, pedestrian shed area, place type allocations per B³ Code 3.2.002b.

In PEC Mix, the block perimeter maximum is 2880 feet. This is the distance around one farm lot, which is a block length of 720 feet. The zoning concept scheme proposes three complete large blocks (6,044 feet and 5,908 feet, 5,641 feet) and two incomplete blocks on the west and east sides of the development (bounded by the railroad and Pine Forest Unit VI).
Four quarter-mile radii over the P2 Rural around creates the pedestrian sheds for the area. The goal of a pedestrian shed is to ensure the neighborhood created is walkable. Allocations of various place types provide variety in a neighborhood to promote a complete neighborhood. Place type changes to PEC are considered on a case-by-case basis and are not included in the standard place type allocation percentages. This allows for additional factors unique to the needs of employment center sites to be considered wholistically for both the neighborhood and the community at large. The pedestrian sheds in this area show proximity of potential housing and commercial development to the Park.

PLANNING & ZONING COMMISSION RECOMMENDATION:
The P&Z Commission held a public hearing and made a recommendation to approve the Zoning Concept Scheme request with the condition that a 75-foot greenbelt buffer must be provided along the south and east sides of the park in which trees cannot be removed. The recommendation was approved by a vote of 6-1.

STAFF RECOMMENDATION:
Hold public hearing and consider action on the first reading of Ordinance No. 2022-02 to approve a change in the zoning for 78.128 acres out of land out of Bastrop Business and Industrial Park, Phase 1, Block A, Lot 1 from P2 Rural to P-EC Employment Center, and establish the Bastrop Business and Industrial Park Zoning Concept Scheme on 146.213 acres in the Bastrop Business and Industrial Park Subdivision, with the condition of adding a 75-foot greenbelt buffer along the south and east sides of the park in which trees cannot be removed, located south of SH 71, within the city limits of Bastrop, Texas, as shown in Exhibit A, providing for findings of fact, adoption, repealer, severability, and enforcement; establishing and effective date; and proper notice and meeting, and move to include on the January 25 2022, Consent Agenda for second reading.

EXPLANATION OF THE CODE

The B³ Code is organized in a hierarchal structure from the highest scale, Citywide planning, to the smallest scale, the Lot and Building. This Code builds neighborhoods inclusive of all Place Types necessary to live in close proximity to services, a variety of housing types, and close access to nature. The location of a Place Type is handled by geographically determined Standards. The Place Types, align with the Street Types, the Frontage types, and Building Types to ensure all the components of the neighborhood work together in harmony. Each section of the Code provides Standards that guide development to be holistic to each Building, Street, Block, and neighborhood.

B³ DEVELOPMENT TABLES

The following B³ Development Tables contain the details necessary to develop using the Code. The text of the Code explains the Standards and how they are applied. They work together to create complete neighborhoods in a variety of forms and patterns.

Zoning Concept Scheme
Business & Industrial Park

Trey Job  
Assistant City Manager for Community Development  
Planning Director  
City of Bastrop, TX

Reference: Zoning Scheme for Bastrop EDC Property

Dear Mr. Job

On behalf of the Bastrop EDC, we wish to change a portion of EDC’s Business Park zoning. The EDC is requesting a change in zoning from P2 to EC for the property shown within the attachments.

A conceptual layout out plan showing the extension of Technology Drive, Jackson Street, and an additional street Brookhollow Drive. These streets divide the remainder business park property (south and East of the Gas Easement) into 5 large properties. As depicted on our zoning maps, we have identified the front of each newly formed property. This area will be for business (commercial and light industrial) only. Residential will not be permitted within the business park.

There are no existing Plats for this property and granting our zoning request will not be detrimental to the public health, safety, or welfare.

It is our opinion that the zoning change would better meet the Comprehensive plan.

Please accept our submission of the Zoning Scheme and associated Conceptual Drainage submittals.

Sincerely,

DOUCET & ASSOCIATES, INC.

Do to the close proximity to proposed new zoning. I fear our safe community will be opened to unwanted theft. It will be easy to get access to our homes. Right now it is difficult to get around because of the terrain. Many have gotten stuck and lost in the area due to washed out roads and muddy or rocky roads.

Pursuant to Chapter 1201, Texas Government Code, as amended, and particularly Subchapter D thereof, the duty of conversion and exchange of Certificates as aforesaid is hereby imposed upon the Paying Agent/Registrar, and, upon the execution of said Certificate, the converted and exchanged Certificate shall be valid, incontestable, and enforceable in the same manner and with the same effect as the Certificate which initially was issued and delivered pursuant to this Ordinance, approved by the Attorney General of the State of Texas and registered by the Comptroller of Public Accounts of the State of Texas.

(b) Payment of Certificates and Interest. The City hereby further appoints the Paying Agent/Registrar to act as the paying agent for paying the principal of and interest on the Certificates, all as provided in this Ordinance. The Paying Agent/Registrar shall keep proper records of all payments made by the City and the Paying Agent/Registrar with respect to the Certificates, and of all conversions and exchanges of Certificates, and all replacements of Certificates, as provided in this Ordinance. However, in the event of a nonpayment of interest on a scheduled payment date, and for thirty (30) days thereafter, a new record date for such interest payment (a "Special Record Date") will be established by the Paying Agent/Registrar, if and when funds for the payment of such interest have been received from the City. Notice of the past due interest shall be sent at least five (5) business days prior to the Special Record Date by
United States mail, first-class postage prepaid, to the address of each Registered Owner appearing on the Registration Books at the close of business on the last business day next preceding the date of mailing of such notice.

(c) General. The Certificate (i) shall be issued in fully registered form, without interest coupons, with the principal of and interest on such Certificate to be payable only to the Registered Owners thereof, (ii) may be redeemed prior to their scheduled maturities (notice of which shall be given to the Paying Agent/Registrar by the City at least 45 days prior to any such redemption date which shall indicate to which principal installments the redemption shall be applied), (iii) may be converted and exchanged for other Certificates, (iv) may be transferred and assigned in whole, but not in part, (v) shall have the characteristics, (vi) shall be signed, sealed, executed and authenticated, (vii) the principal of and interest on the Certificates shall be payable, and (viii) shall be administered and the Paying Agent/Registrar and the City shall have certain duties and responsibilities with respect to the Certificates, all as provided, and in the manner and to the effect as required or indicated, in the FORM OF CERTIFICATE set forth in this Ordinance. The Certificate initially issued and delivered pursuant to this Ordinance is not required to be, and shall not be, authenticated by the Paying Agent/Registrar, but on each substitute Certificate issued in conversion of and exchange or substitute for any Certificate or Certificates issued under this Ordinance the Paying Agent/Registrar shall execute the PAYING AGENT/REGISTRAR'S AUTHENTICATION CERTIFICATE, in the form set forth in the FORM OF CERTIFICATE.

(d) Substitute Paying Agent/Registrar. The City covenants with the Registered Owners of the Certificates that at all times while the Certificates are outstanding the City will provide a competent and legally qualified bank, trust company, financial institution, or other agency to act as and perform the services of Paying Agent/Registrar for the Certificates under this Ordinance, and that the Paying Agent/Registrar will be one entity. The City reserves the right to, and may, at its option, change the Paying Agent/Registrar upon not less than 30 days written notice to the Paying Agent/Registrar, to be effective at such time which will not disrupt or delay payment on the next principal or interest payment date after such notice. In the event that the entity at any time acting as Paying Agent/Registrar (or its successor by merger, acquisition, or other method) should resign or otherwise cease to act as such, the City covenants that promptly it will appoint a competent and legally qualified bank, trust company, financial institution, or other agency to act as Paying Agent/Registrar under this Ordinance. Upon any change in the Paying Agent/Registrar, the previous Paying Agent/Registrar promptly shall transfer and deliver the Registration Books (or a copy thereof), along with all other pertinent books and records relating to the Certificates, to the new Paying Agent/Registrar designated and appointed by the City. Upon any change in the Paying Agent/Registrar, the City promptly will cause a written notice thereof to be sent by the new Paying Agent/Registrar to each Registered Owner of the Certificates, by United States mail, first-class postage prepaid, which notice also shall give the address of the new Paying Agent/Registrar. By accepting the position and performing as such, each Paying Agent/Registrar shall be deemed to have agreed to the provisions of this Ordinance, and a certified copy of this Ordinance shall be delivered to each Paying Agent/Registrar.

(e) Book-Entry-Only System. The Certificates issued in exchange for the Certificates initially issued as provided in Section 4(i) shall be issued in the form of a separate single fully
registered Certificate for each of the maturities thereof registered in the name of Cede & Co., as nominee of The Depository Trust Company of New York ("DTC") and except as provided in subsection (f) hereof, all of the outstanding Certificates shall be registered in the name of Cede & Co., as nominee of DTC.

With respect to Certificates registered in the name of Cede & Co., as nominee of DTC, the City and the Paying Agent/Registrar shall have no responsibility or obligation to any securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations on whose behalf DTC was created to hold securities to facilitate the clearance and settlement of securities transactions among DTC participants (the "DTC Participant") or to any person on behalf of whom such a DTC Participant holds an interest in the Certificates. Without limiting the immediately preceding sentence, the City and the Paying Agent/Registrar shall have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede & Co. or any DTC Participant with respect to any ownership interest in the Certificates, (ii) the delivery to any DTC Participant or any other person, other than a Registered Owner, as shown on the Registration Books, of any notice with respect to the Certificates, or (iii) the payment to any DTC Participant or any person, other than a Registered Owner, as shown on the Registration Books of any amount with respect to principal of or interest on the Certificates. Notwithstanding any other provision of this Ordinance to the contrary, but to the extent permitted by law, the City and the Paying Agent/Registrar shall have no responsibility or obligation for the purpose of payment of principal of and interest, with respect to such Certificate, for the purposes of registering transfers with respect to such Certificate, and for all other purposes of registering transfers with respect to such Certificates, and for all other purposes whatsoever. The Paying Agent/Registrar shall pay all principal of and interest on the Certificates only to or upon the order of the respective Registered Owners, as shown in the Registration Books as provided in this Ordinance, or their respective attorneys duly authorized in writing, and all such payments shall be valid and effective to fully satisfy and discharge the City's obligations with respect to payment of principal of and interest on the Certificates to the extent of the sum or sums so paid. No person other than a Registered Owner, as shown in the Registration Books, shall receive a Certificate evidencing the obligation of the City to make payments of principal, and interest pursuant to this Ordinance. Upon delivery by DTC to the Paying Agent/Registrar of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the provisions in this Ordinance with respect to interest checks being mailed to the registered owner at the close of business on the Record Date the word "Cede & Co." in this Ordinance shall refer to such new nominee of DTC.

(f) Successor Securities Depository; Transfer Outside Book-Entry-Only System. In the event that the City determines to discontinue the book-entry system through DTC or a successor or DTC determines to discontinue providing its services with respect to the Certificate, the City shall either (i) appoint a successor securities depository, qualified to act as such under Section 17(a) of the Securities and Exchange Act of 1934, as amended, notify DTC and DTC Participants of the appointment of such successor securities depository and transfer one or more separate Certificates to such successor securities depository or (ii) notify DTC and DTC Participants of the availability through DTC of Certificates and transfer one or more separate Certificates to DTC Participants having Certificates credited to their DTC accounts. In such
event, the Certificates shall no longer be restricted to being registered in the Registration Books in the name of Cede & Co., as nominee of DTC, but may be registered in the name of the successor securities depository, or its nominee, or in whatever name or names the Registered Owner transferring or exchanging Certificate shall designate, in accordance with the provisions of this Ordinance.

(g) Payments to Cede & Co. Notwithstanding any other provision of this Ordinance to the contrary, so long as any Certificate is registered in the name of Cede & Co., as nominee of DTC, all payments with respect to principal of, and interest on such Certificate and all notices with respect to such Certificate shall be made and given, respectively, in the manner provided in the Letter of Representations of the City to DTC.

(h) DTC Blanket Letter of Representations. The City confirms execution of a Blanket Issuer Letter of Representations with DTC establishing the Book-Entry-Only System which will be utilized with respect to the Certificates.

(i) Cancellation of Initial Certificate. On the closing date, one Initial Certificate representing the entire principal amount of the Certificates, payable in stated installments to the order of the purchaser of the Certificates or its designee set forth in Section 12 of this Ordinance, executed by manual or facsimile signature of the Mayor or Mayor Pro-tem and City Secretary, approved by the Attorney General of Texas, and registered and manually signed by the Comptroller of Public Accounts of the State of Texas, will be delivered to such Underwriters set forth in Section 12 of this Ordinance or its designee. Upon payment for the Initial Certificate, the Paying Agent/Registrar shall cancel the Initial Certificate and deliver to DTC on behalf of such Underwriters one registered definitive Certificate for each year of maturity of the Certificates, in the aggregate principal amount of all the Certificates for such maturity.

Section 5. FORM OF CERTIFICATE. The form of the Certificate, including the form of Paying Agent/Registrar's Authentication Certificate, the form of Assignment and the form of Registration Certificate of the Comptroller of Public Accounts of the State of Texas to be attached to the Certificate initially issued and delivered pursuant to this Ordinance, shall be, respectively, substantially as follows, with such appropriate variations, omissions or insertions as are permitted or required by this Ordinance.

Notice of such redemption or redemptions shall be sent by United States mail, first-class postage prepaid, not less than 30 days before the date fixed for redemption, to the registered owner of each of the Bonds to be redeemed in whole or in part. Notice having been so given, the Bonds or portions thereof designated for redemption shall become due and payable on the redemption date specified in such notice, and from and after such date, notwithstanding that any of the Bonds or portions thereof so called for redemption shall not have been surrendered for payment, interest on such Bonds or portions thereof shall cease to accrue. Conditional notice of redemption may also be given as provided in the Ordinance.

**WITH RESPECT TO** any optional redemption of the Certificates, unless certain prerequisites to such redemption required by the Ordinance have been met and moneys sufficient to pay the principal of and premium, if any, and interest on the Certificates to be redeemed shall have been received by the Paying Agent/Registrar prior to the giving of such notice of redemption, such notice shall state that said redemption may, at the option of the City, be conditional upon the satisfaction of such prerequisites and receipt of such moneys by the Paying Agent/Registrar on or prior to the date fixed for such redemption, or upon any prerequisite set forth in such notice of redemption. If a conditional notice of redemption is given and such prerequisites to the redemption and sufficient moneys are not received, such notice shall be of no force and effect, the City shall not redeem such Certificates and the Paying Agent/Registrar shall give notice, in the manner in which the notice of redemption was given, to the effect that the Certificates have not been redeemed.

ness of the proceedings for the redemption of the Certificates. By the date fixed for any such redemption due provision shall be made with the Paying Agent/Registrar for the payment of the required redemption price for the Certificates. If due provision for such payment is made, all as provided above, the Certificates thereby automatically shall be treated as redeemed prior to its scheduled maturity, and it shall not bear interest after the date fixed for redemption, and it shall not be regarded as being outstanding except for the right of the Registered Owner to receive the redemption price from the Paying Agent/Registrar out of the funds provided for such payment.

**ALL CERTIFICATES OF THIS SERIES** are issuable solely as fully registered certificates, without interest coupons, in the denomination of $5,000 and any integral multiple of $5,000 in excess thereof. As provided in the Ordinance, this Certificate may, at the request of the Registered Owner or the assignee or assignees hereof, be assigned, transferred, converted into and exchanged for a like aggregate principal amount of fully registered certificate, without interest coupons, payable to the appropriate Registered Owner, assignee or assignees, as the case may be, having the same denomination or denominations of $5,000 and in any integral multiple of $5,000 in excess thereof as requested in writing by the appropriate Registered Owner, assignee or assignees, as the case may be, upon surrender of this Certificate to the Paying Agent/Registrar for cancellation, all in accordance with the form and procedures set forth in the Ordinance. Among other requirements for such assignment and transfer, this Certificate must be presented and surrendered to the Paying Agent/Registrar, together with proper instruments of assignment, in form and with guarantee of signatures satisfactory to the Paying Agent/Registrar, evidencing assignment of this Certificate or any portion or portions hereof in any denomination of $5,000 and any integral multiple of $5,000 in excess thereof to the assignee or assignees in whose name or names this Certificate or any such portion or portions hereof is or are to be registered. The form of Assignment printed or endorsed on this Certificate may be executed by the Registered Owner to evidence the assignment hereof, but such method is not exclusive, and other instruments of assignment satisfactory to the Paying Agent/Registrar may be used to evidence the assignment of this Certificate or any portion or portions hereof from time to time by the Registered Owner. The Paying Agent/Registrar's reasonable standard or customary fees and charges for assigning, transferring, converting and exchanging any Certificate or portion thereof will be paid by the City. In any circumstance, any taxes or governmental charges required to be paid with respect thereto shall be paid by the one requesting such assignment, transfer, conversion or exchange, as a condition precedent to the exercise of such privilege. The Paying Agent/Registrar shall not be required to make any such transfer, conversion, or exchange (i) during the period commencing with the close of business on any Record Date and ending with the opening of business on the next following principal or interest payment date, or (ii) with respect to any Certificate or any portion thereof called for redemption prior to maturity, within 45 days prior to its redemption date; provided, however, such limitation of transfer shall not be applicable to an exchange by the Registered Owner of the unredeemed balance of the Certificates.

**WHENEVER** the beneficial ownership of this Certificate is determined by a book entry at a securities depository for the Certificate, the foregoing requirements of holding, delivering or transferring this Certificate shall be modified to require the appropriate person or entity to meet the requirements of the securities depository as to registering or transferring the book entry to produce the same effect.
IN THE EVENT any Paying Agent/Registrar for the Certificates is changed by the City, resigns, or otherwise ceases to act as such, the City has covenanted in the Ordinance that it promptly will appoint a competent and legally qualified substitute therefor, and cause written notice thereof to be mailed to the Registered Owner of the Certificates.

IT IS HEREBY certified, recited and covenanted that this Certificate has been duly and validly authorized, issued and delivered; that all acts, conditions and things required or proper to be performed, exist and be done precedent to or in the authorization, issuance and delivery of this Certificate have been performed, existed and been done in accordance with law; and that annual ad valorem taxes sufficient to provide for the payment of the interest on and principal of this Certificate, as such interest comes due and such principal matures, have been levied and ordered to be levied against all taxable property in said City, and have been pledged for such payment, within the limit prescribed by law, and that this Certificate, together with other obligations of the City, is additionally secured by and payable from the surplus revenues of the City's Waterworks and Sewer System, remaining after payment of all operation and maintenance expenses thereof, and all debt service, reserve and other requirements in connection with all of the City's revenue bonds or other obligations (now or hereafter outstanding), which are payable from all or part of the Net Revenues of the City's Waterworks and Sewer System, which amount shall not exceed $1,000 all as provided in the Ordinance.

BY BECOMING the Registered Owner of this Certificate, the Registered Owner thereby acknowledges all of the terms and provisions of the Ordinance, agrees to be bound by such terms and provisions, acknowledges that the Ordinance is duly recorded and available for inspection in the official minutes and records of the governing body of the City, and agrees that the terms and provisions of this Certificate and the Ordinance constitute a contract between each Registered Owner hereof and the City.

IN WITNESS WHEREOF, the City has caused this Certificate to be signed with the manual or facsimile signature of the Mayor of the City and countersigned with the manual or facsimile signature of the City Secretary of said City, and has caused the official seal of the City to be duly impressed, or placed in facsimile, on this Certificate.

C. The Initial Certificate shall be numbered "T-1."

Section 6. INTEREST AND SINKING FUND. A special "Interest and Sinking Fund" is hereby created and shall be established and maintained by the City at an official depository bank of said City. Said Interest and Sinking Fund shall be kept separate and apart from all other funds and accounts of said City, and shall be used only for paying the interest on and principal of said Certificates. All ad valorem taxes levied and collected for and on account of said Certificates shall be deposited, as collected, to the credit of said Interest and Sinking Fund. During each year while any of said Certificates are outstanding and unpaid, the governing body of said City shall compute and ascertain a rate and amount of ad valorem tax which will be sufficient to raise and produce the money required to pay the interest on said Certificates as such interest comes due, and to provide and maintain a sinking fund adequate to pay the principal of said Certificates as such principal matures (but never less than 2% of the original amount of said Certificates as a sinking fund each year); and said tax shall be based on the latest approved tax rolls of said City, with full allowances being made for tax delinquencies and the cost of tax collection. Said rate and amount of ad valorem tax is hereby levied, and is hereby ordered to be levied, against all taxable property in said City, for each year while any of said Certificates are outstanding and unpaid, and said tax shall be assessed and collected each such year and deposited to the credit of the aforesaid Interest and Sinking Fund. Said ad valorem taxes sufficient to provide for the payment of the interest on and principal of said Certificates, as such interest comes due and such principal matures, are hereby pledged for such payment, within the limit prescribed by law. Accrued interest and any premium on the Certificates shall be deposited in the Interest and Sinking Fund and used to pay interest on the Certificates.

Section 7. REVENUES. The Certificates together with other obligations of the City, are additionally secured by and shall be payable from a limited pledge of the surplus revenues of the City's Water and Sewer System remaining after payment of all operation and maintenance expenses thereof, and all debt service, reserve, and other requirements in connection with all of the City's revenue bonds or other obligation (now or hereafter outstanding) which are payable from all or any part of the net revenues of the City's Water and Sewer System, with such amount not to exceed $1,000 constituting "Surplus Revenues." The City shall deposit such Surplus Revenues to the credit of the Interest and Sinking Fund created pursuant to Section 6, to the
extent necessary to pay the principal and interest on the Certificates. Notwithstanding the requirements of Section 6, if Surplus Revenues are actually on deposit or budgeted for deposit in the Interest and Sinking Fund in advance of the time when ad valorem taxes are scheduled to be levied for any year, then the amount of taxes which otherwise would have been required to be levied pursuant to Section 6 may be reduced to the extent and by the amount of the Surplus Revenues then on deposit in the Interest and Sinking Fund or budgeted for deposit therein.

The Mayor of the City Council of the City and the City Secretary of the City are hereby ordered to do any and all things necessary to accomplish the transfer of monies to the Interest and Sinking Fund of this issue in ample time to pay such items of principal and interest.

Section 8. DEFEASANCE OF CERTIFICATES. (a) Any Certificate and the interest thereon shall be deemed to be paid, retired and no longer outstanding (a "Defeased Certificate") within the meaning of this Ordinance, except to the extent provided in subsections (c) and (e) of this Section 8, when payment of the principal of such Certificate, plus interest thereon to the due date or dates (whether such due date or dates be by reason of maturity, upon redemption, or otherwise) either (i) shall have been made or caused to be made in accordance with the terms thereof (including the giving of any required notice of redemption or the establishment of irrevocable provisions for the giving of such notice) or (ii) shall have been provided for on or before such due date by irrevocably depositing with or making available to the Paying Agent/Registrar or an eligible trust company or commercial bank for such payment (1) lawful money of the United States of America sufficient to make such payment, (2) Defeasance Securities, certified by an independent public accounting firm of national reputation to mature as to principal and interest in such amounts and at such times as will ensure the availability, without reinvestment, of sufficient money to provide for such payment and when proper arrangements have been made by the City with the Paying Agent/Registrar or an eligible trust company or commercial bank for the payment of its services until all Defeased Certificates shall have become due and payable or (3) any combination of (1) and (2). At such time as a Certificate shall be deemed to be a Defeased Certificate hereunder, as aforesaid, such Certificate and the interest thereon shall no longer be secured by, payable from, or entitled to the benefits of, the ad valorem taxes or revenues herein levied and pledged as provided in this Ordinance, and such principal and interest shall be payable solely from such money or Defeasance Securities.

(b) The deposit under clause (ii) of subsection (a) shall be deemed a payment of a Certificate as aforesaid when proper notice of redemption of such Certificates shall have been given or upon the establishment of irrevocable provisions for the giving of such notice, in accordance with this Ordinance. Any money so deposited with the Paying Agent/Registrar or an eligible trust company or commercial bank as provided in this Section may at the discretion of the City Council of the City also be invested in Defeasance Securities, maturing in the amounts and at the times as hereinbefore set forth, and all income from all Defeasance Securities in possession of the Paying Agent/Registrar or an eligible trust company or commercial bank pursuant to this Section which is not required for the payment of such Certificate and premium, if any, and interest thereon with respect to which such money has been so deposited, shall be remitted to the City Council of the City.
(c) Notwithstanding any provision of any other Section of this Ordinance which may be contrary to the provisions of this Section, all money or Defeasance Securities set aside and held in trust pursuant to the provisions of this Section for the payment of principal of the Certificates and premium, if any, and interest thereon, shall be applied to and used solely for the payment of the particular Certificates and premium, if any, and interest thereon, with respect to which such money or Defeasance Securities have been so set aside in trust. Until all Defeased Certificates shall have become due and payable, the Paying Agent/Registrar shall perform the services of Paying Agent/Registrar for such Defeased Certificates the same as if they had not been defeased, and the City shall make proper arrangements to provide and pay for such services as required by this Ordinance.

(d) Notwithstanding anything elsewhere in this Ordinance, if money or Defeasance Securities have been deposited or set aside with the Paying Agent/Registrar or an eligible trust company or commercial bank pursuant to this Section for the payment of Certificates and such Certificates shall not have in fact been actually paid in full, no amendment of the provisions of this Section shall be made without the consent of the registered owner of each Certificate affected thereby.

(e) Notwithstanding the provisions of subsection (a) immediately above, to the extent that, upon the defeasance of any Defeased Certificate to be paid at its maturity, the City retains the right under Texas law to later call that Defeased Certificate for redemption in accordance with the provisions of this Ordinance, the City may call such Defeased Certificate for redemption upon complying with the provisions of Texas law and upon the satisfaction of the provisions of subsection (a) immediately above with respect to such Defeased Certificate as though it was being defeased at the time of the exercise of the option to redeem the Defeased Certificate and the effect of the redemption is taken into account in determining the sufficiency of the provisions made for the payment of the Defeased Certificate.

As used in this Section, "Defeasance Securities" means (i) Federal Securities, (ii) noncallable obligations of an agency or instrumentality of the United States of America, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date the City Council of the City adopts or approves proceedings authorizing the issuance of refunding bonds or otherwise provide for the funding of an escrow to effect the defeasance of the Certificates are rated as to investment quality by a nationally recognized investment rating firm not less than "AAA" or its equivalent, and (iii) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision of a state that have been refunded and that, on the date the City Council of the City adopts or approves proceedings authorizing the issuance of refunding bonds or otherwise provide for the funding of an escrow to effect the defeasance of the Certificates, are rated as to investment quality by a nationally recognized investment rating firm no less than "AAA" or its equivalent. "Federal Securities" as used herein means direct, noncallable obligations of the United States of America, including obligations that are unconditionally guaranteed by the United States of America (including Interest Strips of the Resolution Funding Corporation).

Section 9. DAMAGED, MUTILATED, LOST, STOLEN, OR DESTROYED CERTIFICATES
(a) Replacement Certificates. In the event any outstanding Certificate is
damaged, mutilated, lost, stolen or destroyed, the Paying Agent/Registrar shall cause to be printed, executed and delivered, a new certificate of the same principal amount, maturity and interest rate, as the damaged, mutilated, lost, stolen or destroyed Certificate, in replacement for such Certificate in the manner hereinafter provided.

(b) Application for Replacement Certificates. Application for replacement of damaged, mutilated, lost, stolen or destroyed Certificates shall be made by the Registered Owner thereof to the Paying Agent/Registrar. In every case of loss, theft or destruction of a Certificate, the Registered Owner applying for a replacement certificate shall furnish to the City and to the Paying Agent/Registrar evidence to their satisfaction of the loss, theft or destruction of such Certificate, as the case may be. In every case of damage or mutilation of a Certificate, the Registered Owner shall surrender to the Paying Agent/Registrar for cancellation the Certificate so damaged or mutilated.

(c) No Default Occurred. Notwithstanding the foregoing provisions of this Section, in the event any such Certificates shall have matured, and no default has occurred which is then continuing in the payment of the principal of, redemption premium, if any, or interest on the Certificates, the City may authorize the payment of the same (without surrender thereof except in the case of a damaged or mutilated Certificate) instead of issuing a replacement Certificate, provided security or indemnity is furnished as above provided in this Section.

(d) Charge for Issuing Replacement Certificates. Prior to the issuance of any replacement certificate, the Paying Agent/Registrar shall charge the Registered Owner of such Certificate with all legal, printing, and other expenses in connection therewith. Every replacement Certificate issued pursuant to the provisions of this Section by virtue of the fact that any Certificate is lost, stolen or destroyed shall constitute a contractual obligation of the City whether or not the lost, stolen or destroyed Certificate shall be found at any time, or be enforceable by anyone, and shall be entitled to all the benefits of this Ordinance equally and proportionately with any and all other Certificates duly issued under this Ordinance.

(e) Authority for Issuing Replacement Certificates. In accordance with Subchapter B of Chapter 1206, Texas Government Code, this Section 9 of this Ordinance shall constitute authority for the issuance of any such replacement Certificate without necessity of further action by the governing body of the City or any other body or person, and the duty of the replacement of such Certificate is hereby authorized and imposed upon the Paying Agent/Registrar, and the Paying Agent/Registrar shall authenticate and deliver such Certificate in the form and manner and with the effect, as provided in Section 4(a) of this Ordinance for the Certificates issued in conversion and exchange for other Certificates.

Section 10. CUSTODY, APPROVAL, AND REGISTRATION OF THE CERTIFICATE; BOND COUNSEL’S OPINION; CUSIP NUMBERS AND CONTINGENT INSURANCE PROVISION, IF OBTAINED. The Mayor of the City Council of the City is hereby authorized to have control of the Certificate initially issued and
delivered hereunder and all necessary records and proceedings pertaining to the Certificate pending their delivery and their investigation, examination, and approval by the Attorney General of the State of Texas, and their registration by the Comptroller of Public Accounts of the State of Texas. Upon registration of the Certificate said Comptroller of Public Accounts (or a deputy designated in writing to act for said Comptroller) shall manually sign the Comptroller's Registration Certificate attached to such Certificate, and the seal of said Comptroller shall be impressed, or placed in facsimile, on such Certificate. The approving legal opinion of the City's Bond Counsel and the assigned CUSIP numbers, if any, may, at the option of the City, be printed on the Certificate issued and delivered under this Ordinance, but neither shall have any legal effect, and shall be solely for the convenience and information of the Registered Owners of the Certificate. In addition, if bond insurance is obtained, the Certificate may bear an appropriate legend as provided by the insurer.

Section 11. COVENANTS REGARDING TAX EXEMPTION OF INTEREST ON THE CERTIFICATES. (a) Covenants. The City covenants to take any action necessary to assure, or refrain from any action which would adversely affect, the treatment of the Certificates as obligations described in section 103 of the Internal Revenue Code of 1986, as amended (the "Code"), the interest on which is not includable in the "gross income" of the holder for purposes of federal income taxation. In furtherance thereof, the City covenants as follows:

(1) to take any action to assure that no more than 10 percent of the proceeds of the Certificates or the projects financed therewith (less amounts deposited to a reserve fund, if any) are used for any "private business use," as defined in section 141(b)(6) of the Code or, if more than 10 percent of the proceeds of the Certificates or the projects financed therewith are so used, such amounts, whether or not received by the City, with respect to such private business use, do not, under the terms of this Ordinance or any underlying arrangement, directly or indirectly, secure or provide for the payment of more than 10 percent of the debt service on the Certificates, in contravention of section 141(b)(2) of the Code;

(2) to take any action to assure that in the event that the "private business use" described in subsection (1) hereof exceeds 5 percent of the proceeds of the Certificates or the projects financed therewith (less amounts deposited into a reserve fund, if any) then the amount in excess of 5 percent is used for a "private business use" which is "related" and not "disproportionate," within the meaning of section 141(b)(3) of the Code, to the governmental use;

(4) to take any action to assure that no amount which is greater than the lesser of $5,000,000, or 5 percent of the proceeds of the Certificates (less amounts deposited into a reserve fund, if any) is directly or indirectly used to finance loans to persons, other than state or local governmental units, in contravention of section 141(c) of the Code;

(5) to refrain from taking any action which would otherwise result in the Certificates being treated as "private activity bonds" within the meaning of section 141(b) of the Code;
(6) to refrain from taking any action that would result in the Certificates being "federally guaranteed" within the meaning of section 149(b) of the Code;

(7) to refrain from using any portion of the proceeds of the Certificates, directly or indirectly, to acquire or to replace funds which were used, directly or indirectly, to acquire investment property (as defined in section 148(b)(2) of the Code) which produces a materially higher yield over the term of the Certificates, other than investment property acquired with --

(A) proceeds of the Certificates invested for a reasonable temporary period of 3 years or less or, in the case of a refunding bond, for a period of 90 days,

(B) amounts invested in a bona fide debt service fund, within the meaning of section 1.148-1(b) of the Treasury Regulations, and

(C) amounts deposited in any reasonably required reserve or replacement fund to the extent such amounts do not exceed 10 percent of the proceeds of the Certificates;

(8) to otherwise restrict the use of the proceeds of the Certificates or amounts treated as proceeds of the Certificates, as may be necessary, so that the Certificates do not otherwise contravene the requirements of section 148 of the Code (relating to arbitrage) and, to the extent applicable, section 149(d) of the Code (relating to advance refunding);

(9) to pay to the United States of America at least once during each five-year period (beginning on the date of delivery of the Certificates) an amount that is at least equal to 90 percent of the "Excess Earnings," within the meaning of section 148(f) of the Code and to pay to the United States of America, not later than 60 days after the Certificates have been paid in full, 100 percent of the amount then required to be paid as a result of Excess Earnings under section 148(f) of the Code; and

(10) to assure that the proceeds of the Certificates will be used solely for new money projects.

(b) Rebate Fund. In order to facilitate compliance with the above covenant (8), a "Rebate Fund" is hereby established by the City for the sole benefit of the United States of America, and such fund shall not be subject to the claim of any other person, including without limitation the bondholders. The Rebate Fund is established for the additional purpose of compliance with section 148 of the Code.

(c) Proceeds. The City understands that the term "proceeds" includes "disposition proceeds" as defined in the Treasury Regulations and, in the case of refunding bonds, transferred proceeds (if any) [and] proceeds of the refunded bonds expended prior to the date of issuance of the Certificates. It is the understanding of the City that the covenants contained herein are intended to assure compliance with the Code and any regulations or rulings promulgated by the
U.S. Department of the Treasury pursuant thereto. In the event that regulations or rulings are hereafter promulgated which modify or expand provisions of the Code, as applicable to the Certificates, the City will not be required to comply with any covenant contained herein to the extent that such failure to comply, in the opinion of nationally recognized bond counsel, will not adversely affect the exemption from federal income taxation of interest on the Certificates under section 103 of the Code. In the event that regulations or rulings are hereafter promulgated which impose additional requirements which are applicable to the Certificates, the City agrees to comply with the additional requirements to the extent necessary, in the opinion of nationally recognized bond counsel, to preserve the exemption from federal income taxation of interest on the Certificates under section 103 of the Code. In furtherance of such intention, the City hereby authorizes and directs the City Manager or Director of Finance to execute any documents, certificates or reports required by the Code and to make such elections, on behalf of the City, which may be permitted by the Code as are consistent with the purpose for the issuance of the Certificates. This Ordinance is intended to satisfy the official intent requirements set forth in Section 1.150-2 of the Treasury Regulations.

(d) Allocation Of, and Limitation On, Expenditures for the Project. The City covenants to account for the expenditure of sale proceeds and investment earnings to be used for the purposes described in Section 1 of this Ordinance (the "Project") on its books and records in accordance with the requirements of the Internal Revenue Code. The City recognizes that in order for proceeds to be expended under the Internal Revenue Code, the sale proceeds or investment earnings must be expended no more than 60 days after the earlier of (1) the fifth anniversary of the delivery of the Certificates, or (2) the date the Certificates are retired. The City agrees to obtain the advice of nationally-recognized bond counsel if such expenditure fails to comply with the foregoing to assure that such expenditure will not adversely affect the tax-exempt status of the Certificates. For purposes hereof, the City shall not be obligated to comply with this covenant if it obtains an opinion that such failure to comply will not adversely affect the excludability for federal income tax purposes from gross income of the interest.

(e) Disposition of Project. The City covenants that the property constituting the projects financed with the proceeds of the Certificates will not be sold or otherwise disposed in a transaction resulting in the receipt by the City of cash or other compensation, unless the City obtains an opinion of nationally-recognized bond counsel that such sale or other disposition will not adversely affect the tax-exempt status of the Certificates. For purposes of the foregoing, the portion of the property comprising personal property and disposed in the ordinary course shall not be treated as a transaction resulting in the receipt of cash or other compensation. For purposes hereof, the City shall not be obligated to comply with this covenant if it obtains an opinion that such failure to comply will not adversely affect the excludability for federal income tax purposes from gross income of the interest.

(f) Written Procedures. Unless superseded by another action of the City, to ensure compliance with the covenants contained herein regarding private business use, remedial actions, arbitrage and rebate, the City hereby adopts and establishes the instructions attached hereto as Exhibit "A" as their written procedures for the Certificates and any other tax-exempt debt or obligation outstanding or hereafter issued.
Section 12. SALE OF CERTIFICATES. The Certificates are hereby sold to the bidder whose bid produced the lowest net effective interest rate, pursuant to the taking of public bids therefor, on this date, and shall be delivered to a syndicate of the purchaser represented by ___________ (the "Purchaser") at a price of $________, representing the par amount of the Certificates, plus a reoffering premium of $________, less an underwriter's discount of $________. The Certificates shall initially be registered in the name of CEDE & Co.

Section 13. DEFAULT AND REMEDIES.

(a) Events of Default. Each of the following occurrences or events for the purpose of this Ordinance is hereby declared to be an Event of Default: (i) the failure to make payment of the principal of or interest on any of the Certificates when the same becomes due and payable; or (ii) default in the performance or observance of any other covenant, agreement or obligation of the City, the failure to perform which materially, adversely affects the rights of the Registered Owners of the Certificates, and the continuation thereof for a period of 60 days after notice of such default is given by any Registered Owner to the City.

(b) Remedies for Default. It is further provided, however, that any interest earnings on bond proceeds which are required to be rebated to the United States of America pursuant to Section 11 hereof in order to prevent the Certificates from being arbitrage bonds shall be so rebated and not considered as interest earnings for the purposes of this Section.

Section 15. APPROVAL OF OFFICIAL STATEMENT. The City hereby approves the form and content of the Official Statement relating to the Certificates and any addenda, supplement or amendment thereto, and approves the distribution of such Official Statement in the reoffering of the Certificates by the Purchaser in final form, with such changes therein or additions thereto as the officer executing the same may deem advisable, such determination to be conclusively evidenced by his execution thereof. (c) Limitations, Disclaimers, and Amendments. The City shall be obligated to observe and perform the covenants specified in this Section for so long as, but only for so long as, the City remains an "obligated person" with respect to the Certificates within the meaning of the Rule, except that the City in any event will give notice of any deposit made in accordance with Section 12.02 of this Ordinance that causes the Certificates no longer to be outstanding.

The provisions of this Section are for the sole benefit of the holders and beneficial owners of the Certificates, and nothing in this Section, express or implied, shall give any benefit or any legal or equitable right, remedy, or claim hereunder to any other person. The City
undertakes to provide only the financial information, operating data, financial statements, and notices which it has expressly agreed to provide pursuant to this Section and does not hereby undertake to provide any other information that may be relevant or material to a complete presentation of the City’s financial results, condition, or prospects or hereby undertake to update any information provided in accordance with this Section or otherwise, except as expressly provided herein. The City does not make any representation or warranty concerning such information or its usefulness to a decision to invest in or sell Certificates at any future date.

UNDER NO CIRCUMSTANCES SHALL THE CITY BE LIABLE TO THE HOLDER OR BENEFICIAL OWNER OF ANY CERTIFICATE OR ANY OTHER PERSON, IN CONTRACT OR TORT, FOR DAMAGES RESULTING IN WHOLE OR IN PART FROM ANY BREACH BY THE CITY, WHETHER NEGLIGENT OR WITHOUT FAULT ON ITS PART, OF ANY COVENANT SPECIFIED IN THIS SECTION, BUT EVERY RIGHT AND REMEDY OF ANY SUCH PERSON, IN CONTRACT OR TORT, FOR OR ON ACCOUNT OF ANY SUCH BREACH SHALL BE LIMITED TO AN ACTION FOR MANDAMUS OR SPECIFIC PERFORMANCE.

No default by the City in observing or performing its obligations under this Section shall comprise a breach of or default under this Ordinance for purposes of any other provision of this Ordinance.

Should the Rule be amended to obligate the City to make filings with or provide notices to entities other than the MSRB, the City hereby agrees to undertake such obligation with respect to the Certificates in accordance with the Rule as amended.

Nothing in this Section is intended or shall act to disclaim, waive, or otherwise limit the duties of the City under federal and state securities laws.

The provisions of this Section may be amended by the City from time to time to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the City, but only if (1) the provisions of this Section, as so amended, would have permitted an underwriter to purchase or sell Certificates in the primary offering of the Certificates in compliance with the Rule, taking into account any amendments or interpretations of the Rule since such offering as well as such changed circumstances and (2) either (a) the holders of a majority in aggregate principal amount (or any greater amount required by any other provision of this Ordinance that authorizes such an amendment) of the outstanding Certificates consents to such amendment or (b) a person that is unaffiliated with the City (such as nationally recognized bond counsel) determines that such amendment will not materially impair the interest of the holders and beneficial owners of the Certificates. If the City so amends the provisions of this Section, it shall include with any amended financial information or operating data next provided in accordance with paragraph (a) of this Section an explanation, in narrative form, of the reason for the amendment and of the impact of any change in the type of financial information or operating data so provided. The City may also amend or repeal the provisions of this continuing disclosure agreement if the SEC amends or repeals the applicable provision of the Rule or a court of final jurisdiction enters judgment that such provisions of the Rule are invalid, but only if and to the extent that the
provisions of this sentence would not prevent an underwriter from lawfully purchasing or selling Certificates in the primary offering of the Certificates.

Section 19. **NO RECOURSE AGAINST CITY OFFICIALS.** No recourse shall be had for the payment of principal of or interest on the Certificates or for any claim based thereon or on this Ordinance against any official of the City or any person executing any Certificates.

Section 20. **FURTHER ACTIONS.** The officers and employees of the City are hereby authorized, empowered and directed from time to time and at any time to do and perform all such acts and things and to execute, acknowledge and deliver in the name and under the corporate seal and on behalf of the City all such instruments, whether or not herein mentioned, as may be necessary or desirable in order to carry out the terms and provisions of this Ordinance, the Certificates, the initial sale and delivery of the Certificates, the Paying Agent/Registrar Agreement, and any insurance commitment letter or insurance policy. In addition, prior to the initial delivery of the Certificates, the Mayor, the City Secretary, the City Manager or Assistant City Manager, the City Attorney and Bond Counsel are hereby authorized and directed to approve any technical changes or corrections to this Ordinance or to any of the instruments authorized and approved by this Ordinance necessary in order to (i) correct any ambiguity or mistake or properly or more completely document the transactions contemplated and approved by this Ordinance and as described in the Official Statement, (ii) obtain a rating from any of the national bond rating agencies or satisfy requirements of any bond insurer, or (iii) obtain the approval of the Certificates by the Attorney General's office.

In case any officer of the City whose signature shall appear on any Certificate shall cease to be such officer before the delivery of such Certificate, such signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery.

Section 21. **INTERPRETATIONS.** All terms defined herein and all pronouns used in this Ordinance shall be deemed to apply equally to singular and plural and to all genders. The titles and headings of the articles and sections of this Ordinance have been inserted for convenience of reference only and are not to be considered a part hereof and shall not in any way modify or restrict any of the terms or provisions hereof. This Ordinance and all the terms and provisions hereof shall be liberally construed to effectuate the purposes set forth herein and to sustain the validity of the Certificates and the validity of the lien on and pledge to secure the payment of the Certificates.

Section 22. **INCONSISTENT PROVISIONS.** All ordinances, orders or resolutions, or parts thereof, which are in conflict or inconsistent with any provisions of this Ordinance are hereby repealed to the extent of such conflict and the provisions of this Ordinance shall be and remain controlling as to the matters contained herein.

Section 23. **INTERESTED PARTIES.** Nothing in this Ordinance expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the City and the Registered Owners of the Certificates, any right, remedy or claim under or by reason of this Ordinance or any covenant, condition or stipulation hereof, and all covenants,
stipulations, promises and agreements in this Ordinance contained by and on behalf of the City shall be for the sole and exclusive benefit of the City and the registered owners of the Certificates.

Section 24. INCORPORATION OF RECITALS. The City hereby finds that the statements set forth in the recitals of this Ordinance are true and correct, and the City hereby incorporates such recitals as a part of this Ordinance.

Section 25. REPEALER. All orders, resolutions and ordinances, or parts thereof, inconsistent herewith are hereby repealed to the extent of such inconsistency.

Section 26. SEVERABILITY. The provisions of this Ordinance are severable; and in case any one or more of the provisions of this Ordinance or the application thereof to any person or circumstance should be held to be invalid, unconstitutional, or ineffective as to any person or circumstance, the remainder of this Ordinance nevertheless shall be valid, and the application of any such invalid provision to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

Section 27. PERFECTION. Chapter 1208, Government Code, applies to the issuance of the Certificates and the pledge of ad valorem taxes and revenues granted by the City under Sections 6 and 7 of this Ordinance, and such pledge is therefore valid, effective and perfected. If Texas law is amended at any time while the Certificates are outstanding and unpaid such that the pledge of ad valorem taxes and revenues granted by the City under Sections 6 and 7 of this Ordinance is to be subject to the filing requirements of Chapter 9, Business & Commerce Code, then in order to preserve to the registered owners of the Certificates the perfection of the security interest in said pledge, the City agrees to take such measures as it determines are reasonable and necessary under Texas law to comply with the applicable provisions of Chapter 9, Business & Commerce Code and enable a filing to perfect the security interest in said pledge to occur.

Section 28. EFFECTIVE DATE. This Ordinance shall become effect immediately from and after its passage on first and final reading in accordance with Section 1201.028, Texas Government Code, as amended.

Section 29. NO PERSONAL LIABILITY. No covenant or agreement contained in the Certificates, this Ordinance or any corollary instrument shall be deemed to be the covenant or agreement of any member of the City Council or any officer, agent, employee or representative of the City Council in his individual capacity, and neither the directors, officers, agents, employees or representatives of the City Council nor any person executing the Certificates shall be personally liable thereon or be subject to any personal liability for damages or otherwise or accountability by reason of the issuance thereof, or any actions taken or duties performed, whether by virtue of any constitution, statute or rule of law, or by the enforcement of any assessment or penalty, or otherwise, all such liability being expressly released and waived as a condition of and in consideration for the issuance of the Certificates.

Section 30. CUSTODY, APPROVAL, AND REGISTRATION OF CERTIFICATE; BOND COUNSEL'S OPINION; AND CONTINGENT INSURANCE PROVISION, IF
**OBTAINED.** The Mayor of the City is hereby authorized to have control of the Certificate initially issued and delivered hereunder and all necessary records and proceedings pertaining to the Certificate pending its delivery and their investigation, examination, and approval by the Attorney General of the State of Texas, and their registration by the Comptroller of Public Accounts of the State of Texas. Upon registration of the Certificate said Comptroller of Public Accounts (or a deputy designated in writing to act for said Comptroller) shall manually sign the Comptroller's Registration Certificate attached to such Certificate, and the seal of said Comptroller shall be impressed, or placed in facsimile, on such Certificate. The approving legal opinion of the City's Bond Counsel, at the option of the City, be printed on the Certificate issued and delivered under this Ordinance, but neither shall have any legal effect, and shall be solely for the convenience and information of the Registered Owner of the Certificate. In addition, if bond insurance is obtained, the Certificate may bear an appropriate legend as provided by the insurer.
IN ACCORDANCE WITH SECTION 1201.028, Texas Government Code, passed and approved on the final reading on the 11th day of January, 2022.

AGENDA ITEM SUBMITTED BY:
Trey Job, Assistant City Manager for Community Development

BACKGROUND/HISTORY:
In 2009 the City of Bastrop entered into the Original Development agreement with XS Ranch VI, L.P. Since that time subsequent amendments have been executed, the final was in 2012. The agreement addresses water and wastewater services to the district, construction and ownership of those facilities, the MUD’s area of service, operation and maintenance of such facilities. The agreement also addresses park and road facilities, budget reporting and audit reporting. Lastly the agreement allows annexation of the entire property after the MUD debt is retired. Although we are allowed to annex a 10’ strip of land around the entire development. The 10’ strip will be part of the 2022 annexation plan. As a result of XS Ranch filing for bankruptcy in 2015, CL Bastrop became the subsequent owner through foreclosure over the last several years. Since that time the land has been sold to CLI3 and approval of this resolution allows the assignment of the rights and obligations to the new owner.

In addition to the development agreement the new property owners purchased the ownership of the existing ground water rights and the payments from the City of Bastrop for those rights. The City of Bastrop purchased 3,000-acre feet of water from XS Ranch Water Company LLC in 2014 and exercised the option to an additional 3,000-acre feet in 2018. The city agreed to pay $200,000 a year for five years and the payments are scheduled until 2023.

RE: Request for Consent to Assignment of the Amended and Restated Development Agreement and for Consent to Assignment of the Groundwater Rights Purchase Agreement (collectively, “Consents to Assignment”) for the 8,737.4 acres of land commonly known as “XS Ranch”

Dear Mr. Job:

The intent of this letter is to provide the development and construction qualifications for Capital Land Investments 3, LP (“CLI 3, LP”) and to formally request the City’s approval of the Consents to Assignment. Tim Riley and Carlotta McLean serve in a managerial role for CLI 3, LP, along with affiliates, Capital Land Investments 1, Ltd., Capital Land Investments 2, Ltd., Capital Land Holdings 1, Ltd., Capital Land Holdings 2, Ltd., and Capital Land Holdings 3, Ltd. Combined, these entities own over 15,000 acres in Central Texas real estate properties, all of which were purchased and are under the management of Tim and Carlotta. CLI 3, LP, and affiliates, own all entity assets free and clear of any debt or other financial leverage. Management of CLI 3, LP is centralized with all management authority held by Tim and Carlotta who have authority over most all decisions regarding the XS Ranch property.

Tim and Carlotta have an in-depth knowledge of the XS Ranch property and planned development dating back to 2009 when they represented the project as real estate brokers for XS Ranch Fund XI. While CLI 3, LP has the in-house qualifications to manage and administer the XS Ranch projects and the XS Ranch Municipal Utility District (“XS Ranch MUD”), it also utilizes McLean & Howard (Bill McLean, Jeff Howard and Tony Corbett), Development Planning and Financing Group (Rick Rosenberg), LJA Engineering (Joe Longaro), and other consultants who have extensive experience with the creation, administration and operation of development agreements, development entitlements, PIDs, MUDs and WCIDs. CLI 3, LP intends to utilize these consultants for any tasks related to the XS Ranch MUD, the Amended and Restated Development Agreement, the Groundwater Rights Purchase Agreement and any other items that
exceed the in-house qualifications of CLI 3, LP. Please also note that CLI, LP may forgo any
development of the XS Ranch and may merely hold the asset for the foreseeable future.

Should you have any questions regarding this information, please contact me at the info
below.

Sincerely,

Tim Riley

AGENDA ITEM: 9H

TITLE:
Consider action to approve Resolution No. R-2022-03 of the City Council of the City of Bastrop, Texas, approving a professional services contract with Dial Development Services, Ltd. (DDS), to provide the services of construction management and inspection to a not to exceed amount of two hundred thousand dollars ($200,000); authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Fabiola de Carvalho, MIAM, Director of Engineering and Capital Project Management

BACKGROUND/HISTORY:
The City of Bastrop hired Dial Development in November of 2021 to assist the City by providing construction management and inspection services of public infrastructure from private development.

Currently, City has extensive public infrastructure being built through private development. Timely and quality construction inspection will reduce long term costs and will ensure projects are constructed according to plans and specifications.

By outsourcing this oversight role, the Engineering and Capital Project Management Department can be scalable, and has the ability to act quickly, when needed. The City will only pay for services when we need them.

In the past, an in-house construction manager provided oversight on those construction management and inspection activities.

The approval of the professional services contract, allows for approval of additional task orders for a total amount not to exceed of $200,000; the first task order, and part of this contract is in the amount of $149,000 and will cover construction inspection of the following projects, but not limited to: West Bastrop Village Section 1, West Bastrop Off-Site Wastewater Line, Bastrop Grove Section 4 Phase 1A & 1B, Bastrop Grove Section 4 Phase 2, and multiple sections of The Colony.

FISCAL IMPACT:
FY22 Annual Budget:
Professional Services out of Engineering budget (pg. 152) and salary savings from unfilled Construction Manager position. Except for $43,900 that will come out of The Colony escrow funds.

RECOMMENDATION:
Consider action to approve Resolution No. R-2022-03 of the City Council of the City of Bastrop, Texas, approving a professional services contract with Dial Development Services, Ltd. (DDS).
to provide the services of construction management and inspection in a not to exceed amount of two hundred thousand dollars ($200,000); authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date

AGENDA ITEM: 9I

TITLE:
Consider action to approve Resolution No. R-2022-07 of the City Council of the City of Bastrop, Texas awarding an amendment to task order Bas.006 to provide professional engineering services for the Transfer Lift Station and Force Main (TLS & FM) project, with KSA Engineers, Inc. to a not to exceed amount of Two Hundred and Twenty Thousand Dollars ($220,000); authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Fabiola de Carvalho, MIAM, Director of Engineering and Capital Project Management

BACKGROUND/HISTORY:
On August 28, 2018, the City Council approved three task orders for the design of the Wastewater Treatment Plant (WWTP) #3, currently under construction, and its ancillary projects. One of the ancillary associated projects, is the design and construction of a TLS & FM.

The TLS & FM project is currently in design and proposes to divert the influent from the WWTP #1&2 to the new WWTP#3. Once the new WWTP is online, the WWTP#1&2 can subsequently be planned to be decommissioned.

During the 60% design of the TLS & FM project a previously established main route (east of the Colorado River) for the force main, KSA encountered various issues, to include, but not limited to: environmental concerns, multiple property owner disputes and a family cemetery that required relocation of its graves, which made this route not a feasible for design and/or construction, in addition to becoming more costly than anticipated. Due to these issues and the need to expedite redirecting the influents from the WWTP #1&2, City asked KSA to study the possibility of using an alternative route for the force main. At the time, the eastern route seemed more appropriate because the land acquisition for the large gravity main that would serve the west side of the river had not been acquired.

KSA is proposing an alternative route (attached as Exhibit A), west of the Colorado River subject of this task order amendment, to replace the eastern route. KSA documented its findings in the Western Force Main Route Alternative Tech Memo.

This proposal identifies changes to KSA’s original scope and associated fees for evaluating and designing the new western route alternative. The western route would start at the proposed TLS, which is planned to be located adjacent to the WWTP#1&2 and run directly west across the Colorado River. It would intersect and discharge into the new 42-inch trunk line under the West
Collection System Phase II, currently in design. This change is expected to save approximately two million dollars in construction costs.

**FISCAL IMPACT:**
The funding for this project will be coming from CO 2021.

**RECOMMENDATION:**
Consider action to approve Resolution No. R-2022-07 of the City Council of the City of Bastrop, Texas awarding an amendment to task order Bas.006 to provide professional engineering services for the Transfer Lift Station and Force Main (TLS & FM) project, with KSA Engineers, Inc. to a not to exceed amount of Two Hundred and Twenty Thousand Dollars ($220,000); authorizing the City Manager to execute all necessary documents; providing for a repealing clause; and establishing an effective date.
