AGENDA ITEM: 8D

TITLE:
Receive Annual Racial Profiling Report from the Bastrop Police Department.

AGENDA ITEM SUBMITTED BY:
Clint Nagy, Chief of Police

BACKGROUND/HISTORY:
In 2021, the Bastrop Police Department contracted with Alex del Carman Ph.D. of Del Carmen Consulting to assist in the preparation of the department’s annual racial profiling report. The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001, the Texas Racial Profiling Law. During the past year, the Bastrop Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified, and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Law requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. All these requirements have been met by the Bastrop Police Department and are included in this report. This report includes statistical data relevant to contacts (as defined by the law) which were made during motor vehicle stops that took place between 1/1/21 and 12/31/21.

FISCAL IMPACT:
N/A

RECOMMENDATION:
In accordance with Texas Code of Criminal Procedure, Article 2.134 “Compilation and Analysis of Information Collected”, the chief administrator of a local law enforcement agency shall provide a Racial Profiling Report to the municipal governing body for the incident-based data compiled during the previous year no later than March 1st of each year.

The Bastrop Police Department Policy & Procedure Manual, Section 2.2 “Bias Based Policing” also requires that a Racial Profiling Report is reported to the City Council annually.

2021 Annual Bastrop Police Department Racial Profiling Report
Overview

In 2001, The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted the Texas Racial Profiling Law. In previous years, the Bastrop Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices.

In the 2009 Texas legislative session, the Racial Profiling Law was modified, and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with TX HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Act requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis.
In 2021, the Bastrop Police Department conducted 2,560 traffic stops resulting in a warning being issued, a citation being issued, a warning being issued with an arrest being made, and a citation being issued with an arrest being made.
Overview Continued

The following presentation is a breakdown of the 2,560 traffic stops as they relate to the:

● Driver’s Gender
● Driver’s Race / Ethnicity
● Race / Ethnicity of Driver Known Prior to Stop
● Reason For & Location of the Stop
● Search Conducted & Type of Search
● Contraband Discovered During Search
Overview Continued

- General Types of Contraband
- Final Result of the Traffic Stop
- If an Arrest Was Made, the General Category of the Arrest.
- Whether Bodily Injury Occurred During the Traffic Stop.
Overview Continued

- Percentage of searches, whether evidence was found, arrests, all stops, hardcopy citations, and warnings categorized by race and ethnicity.
- All data is one-to-one comparisons. For example, if any combination of two or more citations/warnings is given only one is imputed into racial profiling.
What's New

• Contracted with Alex del Carmen Ph.D. to assist, audit and analysis our process and data.
• 4 quarterly audits and 1 year end report rather than just 1 year end report.
• Compare data with US Bureau's Fair Roads Standard rather than solely population.
What is the Racial Profiling Report methodology?

- Whole numbers and percentages are used to analyze the data. Tables are used to organize the data.

- A bit about percentages. To reach a valid statistical conclusion the higher the sample pool the better.

Compliments & Complaints

Compliments or Complaints can be made at the Bastrop Police Department – 104 Grady Tuck Lane – Bastrop City Hall – 1311 Chestnut Street - Weekdays from 8:00 AM to 5:00 PM or at www.cityofbastrop.org or cnagy@cityofbastrop.org 24-7.

Please let us know when we are doing well and when there are areas you believe we can improve on!
Dear Distinguished Members of the City Council,

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001, the Texas Racial Profiling Law. During the past year, the Bastrop Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Law requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. All of these requirements have been met by the Bastrop Police Department and are included in this report.

This particular report contains three sections with information on motor vehicle-related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Bastrop Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents. In section 2, the report includes documentation which demonstrates compliance by the Bastrop Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the training of all police personnel on racial profiling prevention and the institutionalization of the compliment and complaint processes, as required by law.

In section 3, the report includes statistical data relevant to contacts (as defined by the law) which were made during the course of motor vehicle stops that took place between 1/1/21 and 12/31/21. In addition, this section contains the Tier 2 form, which is required to be submitted to this particular organization and the law enforcement agency's local governing authority, by March 1st of each year. The data in this report has been analyzed and compared to information derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report.

The last section of the report contains the original draft of the Texas Racial Profiling Law, SB1074, as well as the Sandra Bland Act (current law). Also, in this section, a list of requirements relevant to the Racial Profiling Law, as established by TCOLE (Texas Commission on Law Enforcement) is included. The findings in this report serve as evidence of the Bastrop Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

Responsing to the law
Informing the Public on the Process of Filing a Compliment or Complaint with the Bastrop Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Bastrop Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Bastrop Police officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

All Bastrop Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Bastrop Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Bastrop has been included in this report.

It is important to recognize that the Chief of the Bastrop Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Bastrop Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

   2. All holders of intermediate certificates and/or two-year-old licenses as of 09/01/2001 (training to be completed no later than 09/01/2003) – see legislation 77R-SB1074
1.1.2 LEARNING OBJECTIVE: The student will become familiar with Supreme Court decisions and other court decisions involving appropriate actions in traffic stops.

1. Motor vehicle search exemption
2. Traffic violation acceptable as pretext for further investigation
3. Selective enforcement can be challenged

B. Terry v. Ohio, 392 U.S. 1, 88 S.Ct. 1868 (1968)

2. Stopping and briefly detaining a person
3. Frisk and pat down

C. Other cases
2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer’s intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole.

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow’s legitimate stop.

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.
3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers

2. The driver and passengers are questioned about things that do not relate to the traffic violation

3. The driver and passengers are ordered out of the vehicle

4. The officers visually check all observable parts of the vehicle

5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside

6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)
3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

A. Drug courier profile (adapted from a profile developed by the DEA)
   1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
   2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
   3. Vehicle is rented
   4. Driver is a young male, 20-35
   5. No visible luggage, even though driver is traveling
   6. Driver was over-reckless or over-cautious in driving and responding to signals
   7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior
   1. Non-standard repainting (esp. on a new vehicle)
   2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
   3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
   4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators
   1. Not consistent with traffic flow
   2. Driver is overly cautious, or driver/passengers repeatedly look at police car
   3. Driver begins using a car- or cell-phone when signaled to stop
   4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior
   1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
   2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

In 2001, the Texas legislature passed Senate Bill 1074 which became the Texas Racial Profiling Law. This particular law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1st of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of individuals before detaining them. Further, it was required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and disclosing this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

In addition, the Texas Racial Profiling Law requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.
As mentioned earlier, in 2009, the Texas Legislature passed House Bill 3389, which modified the Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These changes included, but are not limited to, the re-definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it required police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the 2009 law required adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year.

In 2017, the Texas Legislators passed H.B. 3051 which removed the Middle Eastern data requirement while standardizing the racial and ethnic categories relevant to the individuals that came in contact with the police. In addition, the Sandra Bland Act (S.B. 1849) was passed and became law. Thus, the most significant legislative mandate (Sandra Bland Act) in Texas history regarding data requirements on law enforcement contacts, became law and took effect on January 1, 2018. The Sandra Bland Act not only currently requires the extensive collection of data relevant to police motor vehicle contacts, but it also mandates for the data to be analyzed while addressing the following:

1. A comparative analysis of the information compiled (under Article 2.133):

   a. Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;

   b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;

   c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches.

2. Information related to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

In an attempt to comply with The Texas Racial Profiling/Sandra Bland Law, the Bastrop Police Department commissioned the analysis of its 2021 contact data. Hence, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2021 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Whites, Blacks, Hispanics or Latinos, Asians and Pacific Islanders, Alaska Natives and American Indians (Middle Easterners and individuals belonging to the “other” category, as optional categories), that came in contact with the police in the course of a motor vehicle related contact, and were either issued a ticket, citation, warning were issued or an arrest was made. Also, included in this data were instances where a motor vehicle contact took place for an alleged violation of the law or ordinance. The Tier 2 data analysis included, but was not limited to, information relevant to the number and percentage of contacts by race/ethnicity, gender, reason for the stop, location of stop, searches while indicating the type of search performed, result of stop, basis of an arrest and use of physical force resulting in bodily injury.
It should be noted that the additional data analysis performed was based on a comparison of the 2021 motor vehicle contact data with a specific baseline. When reviewing this particular analysis, one should consider that there is disagreement, in the literature, regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Bastrop Police Department accepted our recommendation to rely, as a baseline measure, on the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2020) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

The census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Bastrop Police Department in 2021 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

In 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, as noted earlier, the Bastrop Police Department accepted the recommendation to utilize this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the city of Bastrop.

**Tier 2 (2021) Motor Vehicle-Related Contact Analysis**

When analyzing the enhanced and more detailed Tier 2 data collected in 2021, it was evident that most motor vehicle-related contacts were made with Whites. This was followed by Hispanics. Of those that came in contact with the police, most tickets or citations were issued to Whites and Hispanics; this was followed by Blacks. However, in terms of written warnings, most of these were issued to Whites; followed by Hispanics.

Regarding searches and arrests, the data showed that most searches took place among Whites. When considering all searches, most were consented by Whites and Hispanics, while most custody arrests were also of Whites. Overall, most searches resulted in contraband; of those that produced contraband, most were of Whites; this was followed by Blacks. Of the searches that did not produce contraband, most were of Whites. Most arrests were made on Whites. Most of the arrests that originated from a violation of the penal code involved Whites. Overall, the police department does not report any instances where force was used that resulted in bodily injury.
**Comparative Analysis**

The data analysis of motor vehicle contacts to the census data relevant to the number of “households” in Bastrop who indicated, in the 2020 census, that they had access to vehicles, produced interesting findings. Specifically, the percentage of Whites, Asians, and American Indians that came in contact with the police was lower than the percentage of White, Asian and American Indian households in Bastrop that claimed, in the 2020 census, to have access to vehicles. The opposite was true of Blacks and Hispanics. That is, a higher percentage of Blacks and Hispanics came in contact with the police than the percentage of Black and Hispanic households in Bastrop that claimed, in the 2020 census, to have access to vehicles.

The analysis of the searches resulting in contraband shows that the most significant contraband hit rate is of Whites. This was followed by Blacks and Hispanics. This means that among all searches performed in 2021, the most significant percentage of these that resulted in contraband was among Whites. The lowest contraband hit rate was among Hispanics.

**Summary of Findings**

The most recent Texas Racial Profiling Law requires that police department perform data audits in order to validate the data being reported. Consistent with this requirement, the Bastrop Police Department has engaged del Carmen Consulting in order to perform these audits in a manner consistent with normative statistical practices. As shown in table 6, the audit performed has shown that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings made in this analysis, it is recommended that the Bastrop Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Bastrop Police Department should continue to:

1) Perform an independent analysis on contact and search data in future years.

2) Commission data audits in 2022 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive analysis of the data included in this report demonstrates that the Bastrop Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of tier 2 data, and ensures that the practice of racial profiling will not be tolerated.
CHECKLIST

The following requirements were met by the Bastrop Police Department in accordance with The Texas Racial Profiling Law:

- Implement a Racial Profiling Policy citing act or actions that constitute racial profiling.
- Include in the racial profiling policy, a statement indicating prohibition of any peace officer employed by the Bastrop Police Department from engaging in racial profiling.
- Implement a process by which an individual may file a complaint regarding racial profiling violations.
- Provide public education related to the compliment and complaint process.
- Implement disciplinary guidelines for officers found in violation of the Texas Racial Profiling Law.
- Collect, report and analyze motor vehicle data (Tier 2).
- Commission Data Audits and a Search Analysis.
- Indicate total number of officers who knew and did not know, the race/ethnicity of individuals before being detained.
- Produce an annual report on police contacts (Tier 2) and present this to the local governing body and TCOLE by March 1, 2022.
- Adopt a policy, if video/audio equipment is installed, on standards for reviewing video and audio documentation.
LEGISLATIVE & ADMINISTRATIVE ADDENDUM
TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background
Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of what must be accomplished by an agency but allows wide latitude in determining how the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The standard statement is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1
Each law enforcement agency has a detailed written directive that:

• clearly defines acts that constitute racial profiling;
• strictly prohibits peace officers employed by the agency from engaging in racial profiling;
• implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
• provides for public education relating to the complaint process;
• requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency’s written racial profiling policy; and
• requires the collection of certain types of data for subsequent reporting.

Commentary
Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”
The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

**Standard 2**

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

**Commentary**

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

**Standard 3**

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.
Commentary
Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:
1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:
1) the detained person’s gender and race or ethnicity;
2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
3) whether a search was conducted, and if so whether it was based on consent or probable cause;
4) facts supporting probable cause;
5) the type, if any, of contraband that was collected;
6) disposition of the stop, e.g., arrest, ticket, warning, or release;
7) location of stop; and
8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops.
including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

**Standard 4**
If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:
- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

**Commentary**
The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

**Standard 5**
Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

**Commentary**
None

**Standard 6**
Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:
- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

**Commentary**
The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.
**Standard 7**

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

**Commentary**

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.
The Texas Law on Racial Profiling

S.B. No. 1074 - An Act relating to the prevention of racial profiling by certain peace officers.
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING. (a) In this article:
(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.
(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.
(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:
(1) clearly define acts constituting racial profiling;
(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;
(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;
(4) provide public education relating to the agency's complaint process;
(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;
(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:
(A) the race or ethnicity of the individual detained; and
(B) whether a search was conducted and, if so, whether the person detained consented to the search; and

SECTION 1.01. SHORT TITLE. This Act shall be known as the Sandra Bland Act, in memory of Sandra Bland.

Art. 16.22. EARLY IDENTIFICATION OF DEFENDANT SUSPECTED OF HAVING MENTAL ILLNESS OR INTELLECTUAL DISABILITY [MENTAL RETARDATION]. On a determination that there is reasonable cause to believe that the defendant has a mental illness or is a person with an intellectual disability [mental retardation], the magistrate, except as provided by Subdivision

(2), shall order the local mental health or intellectual and developmental disability [mental retardation] authority or another qualified mental health or intellectual disability [mental retardation] expert to:

(2) The magistrate is not required to order the collection of information under Subdivision

A court that elects to use the results of that previous determination may proceed under Subsection (c).

(3) If the defendant fails or refuses to submit to the collection of information regarding the defendant as required under Subdivision (1), the magistrate may order the defendant to submit to an examination in a mental health facility determined to be appropriate by the local mental health or intellectual and developmental disability [mental retardation] authority for a reasonable period not to exceed 21 days. The magistrate may order a defendant to a facility operated by the Department of State Health Services or the Health and Human Services Commission [Department of Aging and Disability Services] for examination only on request of the local mental health or intellectual and developmental disability [mental retardation] authority and with the consent of the head of the facility. If a defendant who has been ordered to a facility operated by the Department of State Health Services or the Health and Human Services Commission [Department of Aging and Disability Services] for examination remains in the facility for a period exceeding 21 days, the head of that facility shall cause the defendant to be immediately transported to the committing court and placed in the custody of the sheriff of the county in which the committing court is located. ## I. POLICY

We are committed to a respect for constitutional rights in the performance of our duties. Our success is based on the respect we give to our communities, and the respect members of the community observe toward law enforcement. To this end, we shall exercise our sworn duties, responsibilities, and obligations in a manner that does not discriminate on the basis of race, sex, gender, sexual orientation, national origin, ethnicity, age, or religion. Respect for diversity and equitable enforcement of the law are essential to our mission.

All enforcement actions shall be based on the standards of reasonable suspicion or probable cause as required by the Fourth Amendment to the U. S. Constitution and by statutory authority. In all enforcement decisions, officers shall be able to articulate specific facts, circumstances, and conclusions that support probable cause or reasonable suspicion for arrests, searches, seizures, and stops of individuals. Officers shall not stop, detain, arrest, search, or attempt to search anyone based solely upon the person's race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group.

All departmental orders are informed and guided by this directive. Nothing in this order limits non-enforcement consensual contacts between officers and the public.

## II. PURPOSE

The purpose of this order is to inform officers that bias-based policing is prohibited by the department. Additionally, this order will assist officers in identifying key contexts in which bias may influence these actions and emphasize the importance of the constitutional guidelines within which we operate.

## III. DEFINITIONS

Most of the following terms appear in this policy statement. In any case, these terms appear in the larger public discourse about alleged biased enforcement behavior and in

“The Sole Reason We Exist Is to Serve the Citizens of Bastrop”
other orders. These definitions are intended to facilitate on-going discussion and analysis of our enforcement practices.

A. Bias: Prejudice or partiality based on preconceived ideas, a person's upbringing, culture, experience, or education.

B. Biased-based policing: Stopping, detaining, searching, or attempting to search, or using force against a person based upon an individual’s race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group.

C. Ethnicity: A cluster of characteristics that may include race but also cultural characteristics or traits that are shared by a group with a common experience or history.

D. Gender: Unlike sex, a psychological classification based on cultural characteristics or traits.

E. Probable cause: Specific facts and circumstances within an officer's knowledge that would lead a reasonable officer to believe that a specific offense has been or is being committed, and that the suspect has committed it. Probable cause will be determined by the courts reviewing the totality of the circumstances surrounding the arrest or search from an objective point of view.

F. Race: A category of people of a particular decent, including White, Black, Hispanic, Asian, Middle Eastern, or Native American descent. As distinct from ethnicity, race refers only to physical characteristics sufficiently distinctive to group people under a classification.

G. Racial profiling: A law-enforcement initiated action based on an individual’s race, ethnicity, or national origin rather than on the individual’s behavior or on information identifying the individual as having engaged in criminal activity.

H. Reasonable suspicion: Specific facts and circumstances that would lead a reasonable officer to believe criminal activity is afoot and the person to be detained is somehow involved. Reasonable suspicion will be determined by the courts reviewing the totality of the circumstances surrounding the detention from an objective point of view.

I. Sex: A biological classification, male or female, based on physical and genetic characteristics.

J. Stop: An investigative detention of a person for a brief period of time, based on reasonable suspicion.

IV. PROCEDURES

“The Sole Reason We Exist Is to Serve the Citizens of Bastrop”
A. General responsibilities

1. Officers are prohibited from engaging in bias-based profiling or stopping, detaining, searching, arresting, or taking any enforcement action including seizure or forfeiture activities, against any person based solely on the person’s race, ethnic background, gender, sexual orientation, religion, economic status, age, cultural group, or any other identifiable group. These characteristics, however, may form part of reasonable suspicion or probable cause when officers are seeking a suspect with one or more of these attributes. (TBP: 2.01)

2. Investigative detentions, motor vehicle contacts, arrests, searches, and property seizures by officers will be based on a standard of reasonable suspicion or probable cause in accordance with the Fourth Amendment of the U.S. Constitution. Officers must be able to articulate specific facts and circumstances that support reasonable suspicion or probable cause for investigative detentions, motor vehicle contacts, subject stops, arrests, nonconsensual searches, and property seizures. Except as provided in number 3 below, officers shall not consider race/ethnicity in establishing either reasonable suspicion or probably cause. Similarly, except as provided below, officers shall not consider race/ethnicity in deciding to initiate even those nonconsensual encounters that do not amount to legal detentions or to request consent to search.

3. Officers may take into account the reported race or ethnicity of a specific suspect or suspects based on trustworthy, locally relevant information that links a person or persons of a specific race/ethnicity to a particular unlawful incident(s). Race/ethnicity can never be used as the sole basis for probable cause or reasonable suspicion. Except as provided above, reasonable suspicion or probable cause shall form the basis for any enforcement actions or decisions. Individuals shall be subjected to stops, seizures, or detentions only upon reasonable suspicion that they have committed, are committing, or are about to commit an offense. Officers shall document the elements of reasonable suspicion and probable cause in appropriate reports.

4. Officers shall observe all constitutional safeguards and shall respect the constitutional rights of all persons.

   a. As motor vehicle contacts furnish a primary source of bias-related complaints, officers shall have a firm understanding of the warrantless searches allowed by law, particularly the use of consent. How the officer disengages from a motor vehicle contact may be crucial to a person's perception of fairness or discrimination.
   
   b. Officers shall not use the refusal or lack of cooperation to justify a search of the person or vehicle, or a prolonged detention once reasonable suspicion has been dispelled.

"The Sole Reason We Exist Is to Serve the Citizens of Bastrop"
2. All personnel shall treat everyone with the same courtesy and respect that they would have others observe to department personnel. To this end, personnel are reminded that the exercise of courtesy and respect engenders a future willingness to cooperate with law enforcement.

   a. Personnel shall facilitate an individual’s access to other governmental services whenever possible.

   b. And shall actively provide referrals to other appropriate agencies.

   c. All personnel shall courteously accept, document, and forward to the Chief of Police, Assistant Chief of Police or Supervisor any compliments / complaints made by an individual against the department. Further, officers shall provide information on the compliment / complaint process and shall give copies of "How to Make a Compliment / Complaint" when requested or when it is reasonable to assume a compliment / complaint is forthcoming.

3. When feasible, personnel shall offer explanations of the reasons for enforcement actions or other decisions that bear on the individual’s well-being unless the explanation would undermine an investigation or jeopardize an officer's safety.

4. When feasible, all personnel shall identify themselves by name. When a person requests the information, personnel shall give their departmental identification number, name of the immediate supervisor, or any other reasonable information.

5. All personnel are accountable for their actions. Personnel shall justify their actions when required.

B. Supervisory responsibilities

1. Supervisors shall be held accountable for the observance of constitutional safeguards during the performance of their duties and those of their subordinantes. Supervisors shall identify and correct instances of bias in the work of their subordinates.

2. Supervisors shall use the disciplinary mechanisms of the department to ensure compliance with this order and the constitutional requirements of law enforcement.

3. Supervisors shall be mindful that in accounting for the actions and performance of subordinates, supervisors are critical to maintaining community trust in law enforcement. Supervisors shall continually reinforce “The Sole Reason We Exist Is to Serve the Citizens of Bastrop”
the ethic of impartial enforcement of the laws, and shall ensure that personnel, by their actions, maintain the community's trust in law enforcement.

4. Supervisors are reminded that biased enforcement of the law engenders not only mistrust of law enforcement but increases safety risks to personnel as well as exposing the employee(s) and department to liability.

5. Supervisors shall be held accountable for repeated instances of biased enforcement of their subordinates if the supervisor knew, or should have known, of the subordinate’s actions.

6. Supervisors shall ensure that all enforcement actions are duly documented per departmental policy. Supervisors shall ensure that all reports show adequate documentation of reasonable suspicion and probable cause, if applicable. Any enforcement action that begins as a consensual encounter will also have the circumstances of the initial encounter documented.

7. Supervisors shall facilitate the filing of any compliments / complaints about law-enforcement service.

8. Supervisors will randomly review at least three videos per officer (either body camera and/or in-car camera video) per month. Supervisors are not required to watch each incident of an entire shift; however, reviewing the footage in a manner intended to gain an understanding of that officer’s performance and adherence to policy and law is required. Supervisors will document the random review of the video in their monthly report(s) and any violations of policy or law will be addressed through the use of existing internal affairs policy. (TBP: 2.01)

9. Section 8 above applies only to first-line uniformed officers and their immediate supervisors. In the absence of a first-line supervisor this responsibility will move to another supervisor.

C. Disciplinary consequences

Actions prohibited by this order shall be cause for disciplinary action, up to and including dismissal.

D. Training (TBP: 2.01)

Officers shall complete all training required by state law regarding bias-based profiling.

“The Sole Reason We Exist Is to Serve the Citizens of Bastrop”
II. COMPLIMENTS / COMPLAINTS

A. The department shall publish “How to Make a Compliment / Complaint” information and make this information available at city facilities and other public locations within the city. The department’s compliment / complaint process, its bias-based profiling policy, and how to submit a compliment / complaint will be posted on the department’s website. The information shall include, but is not limited to, the email, physical address, and telephone contact information for making a compliment / complaint against an employee. Whenever possible, the media will be used to inform the public of the department’s policy and compliment / complaint processes.

B. Complaints alleging incidents of bias-based profiling will be fully investigated as described under Policy 2.4.

C. Complainants will be notified of the results of the investigations when the investigation is completed.

Subject: Bastrop Business and Industrial Park Zoning Concept Scheme

==================================================================================================

ITEM DETAILS:
Site Address: South of Technology Dr. and Jackson St. (Attachment 1)
Total Acreage: 146.213 acres
Acreage Rezoned: 78.128 acres
Legal Description: 78.128 acres out of land out of Bastrop Business and Industrial Park, Phase 1, Block A, Lot 1, and 68.085 acres of land out of Bastrop Business and Industrial Park, Phase 1, Lot Reserve D

Property Owner: Bastrop Economic Development Corporation
Agent Contact: Jean Riemenschneider/BEDC

Existing Use: Vacant/Undeveloped
Existing Zoning: P-EC Employment Center/P2 Rural
Proposed Zoning: P-EC Employment Center
Character District: Pine Village
Future Land Use: Industry

BACKGROUND/HISTORY:
The applicant has submitted an application for a Zoning Concept Scheme (ZCS) for Bastrop Business and Industrial Park (Exhibit A). The request is to rezone part of the Bastrop Business and Industrial Park from P2 Rural to PEC Employment Center and establish development standards for the entire Park including the area zoned PEC.

Place Type Employment Center is defined in the code as “Areas that by their function, deposition, or configuration cannot, or should not, conform to one or more of the Place Types. EC shall be used for job creation centers and Building forms that do not fit within the character of the Place Types. The Development Standards set in the B³ Code for PEC are based on Place Type 5 zoning but have several standards that are left blank and are intended to be determined during the ZCS, Neighborhood Regulating Plan, or on individual sites by Warrant.

The proposed ZCS plans for the extensions of Technology Drive, S. Jackson Street, and two additional future streets. The base development standards call for the 720-foot block grid, however this area has a number of existing developed and geographic features.
To the west, the entire development is bounded by the Union Pacific Railroad. To the south and east, the property is bounded by existing residential lots. The ZCS lines up the future road extensions with currently vacant lots. To the east of the future road extension from S. Jackson Street, there is a ravine that would require additional infrastructure and the road would connect through developed residential lots. Due to these conditions, the block lengths will exceed 720 feet and the block perimeter or 2,880 feet. See block perimeter diagram below.
Zoning Concept Schemes also take into account the variety of place type zoning districts in a pedestrian shed. For this area, the applicant has shown four pedestrian sheds covering the existing P2 Place Type. For the Pedestrian Shed mix, PEC is not a required Place Type, as it is considered on a case-by-case basis. As there is no minimum for P2 Rural zoning, the change to PEC does not reduce the compliance with the Pedestrian Shed requirements.

Landscape plans for overall style and Street Type compliance are also considered. The landscape plan conceptually addresses the requirements, showing an emphasis on landscaping on the secondary street frontages and states that the development will provide street trees. Compliance with this regulation is verified upon review of the Public Improvement Plans and Site Development Plans. For the Street Type, the ZCS refers to the Regional Commercial cross section, which can be modified during the Public Improvement Plan review by the City Engineer to meet existing natural and built conditions of the existing development.
Drainage
A Zoning Concept Scheme must be accompanied by a Conceptual Drainage Plan to ensure that the proposed development is feasible. A Conceptual Drainage Plan has been reviewed with no major issues. With the new development, the plan identifies three new potential drainage ponds to mitigate the new development.

PUBLIC COMMENTS:
Property owner notifications were sent to 70 adjacent property owners on December 2, 2021 (Attachment 4). At the time of this report, 5 responses have been received, 2 in favor, 1 with no objection and 2 opposed (Attachment 5). Additionally, two owners of one residential ETJ property to the south spoke at the P&Z meeting and were concerned about what kind of buffer/separation would be provided at the southern border of the park.

POLICY EXPLANATION:
Texas Local Government Code
Sec. 211.006. PROCEDURES GOVERNING ADOPTION OF ZONING REGULATIONS AND DISTRICT BOUNDARIES. (a) The governing body of a municipality wishing to exercise the authority relating to zoning regulations and zoning district boundaries shall establish procedures for adopting and enforcing the regulations and boundaries. A regulation or boundary is not effective until after a public hearing on the matter at which parties in interest and citizens have an opportunity to be heard. Before the 15th day before the date of the hearing, notice of the time and place of the hearing must be published in an official newspaper or a newspaper of general circulation in the municipality.

Notice was published in the Bastrop Advertiser and notice was sent to property owners within 200 feet of the property boundary.

(b) In addition to the notice required by Subsection (a), a general-law municipality that does not have a zoning commission shall give notice of a proposed change in a zoning classification to each property owner who would be entitled to notice under Section 211.007(c) if the municipality had a zoning commission. That notice must be given in the same manner as required for notice to property owners under Section 211.007(c). The governing body may not adopt the proposed change until after the 30th day after the date the notice required by this subsection is given.

N/A. Bastrop is not a general-law municipality.

(c) If the governing body of a home-rule municipality conducts a hearing under Subsection (a), the governing body may, by a two-thirds vote, prescribe the type of notice to be given of the time and place of the public hearing. Notice requirements prescribed under this subsection are in addition to the publication of notice required by Subsection (a).

Notice of the meeting was posted at least 72 hours in advance.

(d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either:
(1) the area of the lots or land covered by the proposed change; or

(2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

(e) In computing the percentage of land area under Subsection (d), the area of streets and alleys shall be included.

At the time of this report, no protest has been received.

(f) The governing body by ordinance may provide that the affirmative vote of at least three-fourths of all its members is required to overrule a recommendation of the municipality's zoning commission that a proposed change to a regulation or boundary be denied.

If the Planning & Zoning Commission recommends denial of the zoning request, the City Council must have a minimum vote of 4 out of 5 members to approve the zoning request.

At least 5 members of the Planning & Zoning Commission must vote to make an official recommendation to the City Council. Failure to reach five vote means no official recommendation can be forwarded, but this does not impact the City Council’s vote requirement to approve or deny the request.

Compliance with 2036 Comprehensive Plan:
Future Land Use Plan – The Industry character area supports light industrial, and warehousing and distribution, land uses. Activities within this character area include the assembly, production, and storage of finished products, and may require industrialized buildings of substantial size, as well as areas for outdoor storage. Primary land uses may be expected to generate high volumes of heavy vehicle traffic. The Industry character area may also support some heavy manufacturing activity on a case-by-case basis, but only where performance measures on nuisances (e.g., noise, dust, light, etc.) may be mitigated.

- Land uses should be located on and take vehicular access from arterial roads, or from industrial streets which lead directly to arterial streets.
- Substantial landscaping should be placed in required yards to enhance buffering and screening. The maintenance of existing tree cover in required yards should be encouraged to meet landscaping requirements.

The proposed PEC and Zoning Concept Scheme is in compliance with the Future Land Use Plan.

Compliance with Bastrop Building Block (B³) Code:
B³ CODE INTENT (See Executive Summary)
The code is built around three core intents:

- Fiscal Sustainability
New development and redevelopment must be done with a focus on the intersection of the Public and Private Realms. This is the area where city and utility infrastructure are maintained in an efficient manner and the commercial development creates a complete neighborhood.
The development provides street and infrastructure connections with a Conceptual Utility Plan and Conceptual Drainage Plan that shows the extension of the stormwater system, water system and wastewater system that includes the need for a future lift station.

- Geographically Sensitive Developments
  Development will retain its natural form and visual character, which is derived from the topography and native environment.

  This area has several drainage areas that will require additional detention ponds within the development. On three sides, the development is bounded by existing development (railroad, single-family development). The ZCS has identified two additional opportunities for future connectivity through currently undeveloped lots. The future street extension east of S. Jackson Street is shown as a dead end due to existing topography.

- Perpetuation of Authentic Bastrop
  The B³ Code will perpetuate the built form that has been predominate over the City’s 189-year history. The recent trend of allowing parking and automobile traffic as the predominate feature has created a pattern that is contrary to the historical building patterns of the city and creates sites/buildings that are not adaptable and sustainable in the long-term.

  The connection of Technology Drive and S. Jackson Street furthers the neighborhood’s development in the same built form that was established in the earlier phases of the Bastrop Business and Industrial Park. The architectural styles proposed are in accordance with the existing style of development in the Park and include primary frontage architectural encroachments.

B³ Code ARTICLE 5.1 INTENT OF DEVELOPMENT PATTERNS
(b) The Development Pattern type will be used to guide the creation of the Zoning Concept Scheme and Neighborhood Regulating Plan (see Article 2-3 Neighborhood Regulating Plans in B³ Technical Manual) configurations suitable for different geographies and Character Districts.

The Character District of this project is Pine Village, which allows for Traditional Neighborhood Development (TND) using the standard building block pattern. The development is proposing the TND form by providing internal blocks and external future connections to create new blocks with existing streets.

SEC. 5.2.002 TND STANDARDS
1. Detail the block perimeters, block lengths, pedestrian shed area, place type allocations per B³ Code 3.2.002b.

  In PEC Mix, the block perimeter maximum is 2880 feet. This is the distance around one farm lot, which is a block length of 720 feet. The zoning concept scheme proposes three complete large blocks (6,044 feet and 5,908 feet, 5,641 feet) and two incomplete blocks on the west and east sides of the development (bounded by the railroad and Pine Forest Unit VI).
Four quarter-mile radii over the P2 Rural around creates the pedestrian sheds for the area. The goal of a pedestrian shed is to ensure the neighborhood created is walkable. Allocations of various place types provide variety in a neighborhood to promote a complete neighborhood. Place type changes to PEC are considered on a case-by-case basis and are not included in the standard place type allocation percentages. This allows for additional factors unique to the needs of employment center sites to be considered wholistically for both the neighborhood and the community at large. The pedestrian sheds in this area show proximity of potential housing and commercial development to the Park.

PLANNING & ZONING COMMISSION RECOMMENDATION:
The P&Z Commission held a public hearing and made a recommendation to approve the Zoning Concept Scheme request with the condition that a 75-foot greenbelt buffer must be provided along the south and east sides of the park in which trees cannot be removed. The recommendation was approved by a vote of 6-1.

STAFF RECOMMENDATION:
Hold public hearing and consider action on the first reading of Ordinance No. 2022-02 to approve a change in the zoning for 78.128 acres out of land out of Bastrop Business and Industrial Park, Phase 1, Block A, Lot 1 from P2 Rural to P-EC Employment Center, and establish the Bastrop Business and Industrial Park Zoning Concept Scheme on 146.213 acres in the Bastrop Business and Industrial Park Subdivision, with the condition of adding a 75-foot greenbelt buffer along the south and east sides of the park in which trees cannot be removed, located south of SH 71, within the city limits of Bastrop, Texas, as shown in Exhibit A, providing for findings of fact, adoption, repealer, severability, and enforcement; establishing and effective date; and proper notice and meeting, and move to include on the January 25 2022, Consent Agenda for second reading.

EXPLANATION OF THE CODE

The B³ Code is organized in a hierarchal structure from the highest scale, Citywide planning, to the smallest scale, the Lot and Building. This Code builds neighborhoods inclusive of all Place Types necessary to live in close proximity to services, a variety of housing types, and close access to nature. The location of a Place Type is handled by geographically determined Standards. The Place Types, align with the Street Types, the Frontage types, and Building Types to ensure all the components of the neighborhood work together in harmony. Each section of the Code provides Standards that guide development to be holistic to each Building, Street, Block, and neighborhood.

B³ DEVELOPMENT TABLES

The following B³ Development Tables contain the details necessary to develop using the Code. The text of the Code explains the Standards and how they are applied. They work together to create complete neighborhoods in a variety of forms and patterns.

Zoning Concept Scheme
Business & Industrial Park

Date: 12/2/2021

1 inch = 1,000 feet
November 16, 2021

Trey Job
Assistant City Manager for Community Development
Planning Director
City of Bastrop, TX

Reference: Zoning Scheme for Bastrop EDC Property

Dear Mr. Job

On behalf of the Bastrop EDC, we wish to change a portion of EDC’s Business Park zoning. The EDC is requesting a change in zoning from P2 to EC for the property shown within the attachments.

A conceptual layout out plan showing the extension of Technology Drive, Jackson Street, and an additional street Brookhollow Drive. These streets divide the remainder business park property (south and East of the Gas Easement) into 5 large properties. As depicted on our zoning maps, we have identified the front of each newly formed property. This area will be for business (commercial and light industrial) only. Residential will not be permitted within the business park.

There are no existing Plats for this property and granting our zoning request will not be detrimental to the public health, safety, or welfare.

It is our opinion that the zoning change would better meet the Comprehensive plan.

Please accept our submission of the Zoning Scheme and associated Conceptual Drainage submittals.

Sincerely,

DOUCET & ASSOCIATES, INC.

Do to the close proximity to proposed new zoning, I fear our safe community will be opened to unwanted theft. It will be easy access to our homes. Right now it is difficult to get around because of the terrain. Many have gotten stuck and lost in the area due to washed out roads and muddy or rocky roads.

2022 JAG Narrative

Project Abstract

This project will improve the investigation and evidence collection efforts by the investigators of the Bastrop Police Department by providing a crime scene vehicle. Specifically, this project will provide day to day operations of the police department's criminal investigations unit and major crash investigation team by allowing them to respond to and process complex major crimes scenes and fatal vehicle crashes. The Bastrop Police Department investigates fatality crashes as a major crime. Therefore, the City of Bastrop requests seventy-four thousand seven hundred forty-five dollars and forty-five cents ($74,745.45) to purchase a crime scene vehicle for the Bastrop Police Department. Purchasing the crime scene vehicle will allow our investigators to respond in a vehicle that can adequately store all their equipment in one vehicle, be deployed quickly, and transport large amounts of evidence back to the police department.

Problem Statement

The Bastrop Police Department has never had a designated crime scene vehicle. The department's criminal investigation division will be assigned and solely utilize this vehicle. Currently, five detectives are assigned retired vehicles and take turns being on-call. Due to not having a crime scene vehicle, the detectives can only supply their cars minimally. The rest of the equipment is stored at the police department because it is shared equipment and must remain available upon a major crime. Therefore, the detectives usually have to respond to the police department first to gather the needed equipment before responding to the scene. Having a crime scene vehicle would allow the on-call detective to drive straight from their home to the major crime scene. This process would save valuable time when time is already at a premium.

Supporting Data

Dick Warrington spent 25 years with the Shawnee County Sheriff's Department in Topeka Kansas and retired as the sergeant of the crime scene unit. For the last 21 years, he has served as a Crime Scene Consultant for the Lynn Peavy Company. Mr. Warrington wrote the following statement in an article for the Forensic Magazine, "to accomplish this goal [ability to solve crimes and convict criminals], investigators need to arrive at each scene with the proper equipment to conduct a thorough investigation. In addition, investigators now realize that with the right vehicle, they can often make an even stronger case by processing evidence right at major crime scenes" (Mobile Crime Scene Vehicles, 2008). Mr. Warrington later wrote for the magazine, "Some of your most important prep work for a crime scene should occur before you ever leave your office. First, remember to keep your crime scene vehicle fully stocked with the equipment and supplies that you're likely to need, no matter the type of crime scene. The more things you can carry to the scene, the better. After all, how likely is it that you'll go back to the office to get additional supplies or equipment once you're in the middle of processing the scene?

Even if you could go back to your office, your time would be better spent processing evidence as soon as possible.

Keeping your vehicle in good shape and adequately stocked with supplies helps you do your job more accurately and more efficiently" (Preparation and Crime Scene Processing, 2009). These two statements show the need for a designated vehicle to be used for crime scene responses.
and the importance of having a designated vehicle to store all the vital equipment that might be needed for a large spectrum of incidents for detectives.

The Texas Department of Transportation has annually released a report on Fatal Crashes and Fatalities by County and Road Type. Unfortunately, Bastrop County has continuously been one of the highest counties in Texas for fatalities. As such, the Bastrop Police Department investigates several throughout the year. The Bastrop Police Department has invested in creating its Crash Reconstruction Team to investigate such major crashes effectively.

**Project Approach & Activities**

This project will enhance the operational responses to major crime scenes and fatal crashes, by the members of the criminal investigation division. The crime scene vehicle will be a van-based vehicle with either a van with shelving built into it or a customized box style bed attached to the van's frame. The van's bed will be tall enough for personnel to walk upright, and shelving will allow for the proper storage of equipment and evidence.

The equipment stored in the van will include but not be limited to crime scene investigation equipment and tools, crash reconstruction equipment (such as a total station), and evidence collection supplies. Additional equipment such as scene lighting, a generator, and traffic cones can be used for large scenes that cover a great amount of area.

**Capacity and Capabilities**

The Bastrop Police Department currently uses officer's patrol units and assigned vehicles of the Criminal Investigation Division to respond to and collect evidence from major crime scenes.

**Performance Management**

The Bastrop Police Department will use best practice policies to purchase and maintain the crime scene vehicle. The integrity of the chain of custody with evidence that comes into and leaves the vehicle will be documented and maintained by the detectives. We will use the two below-mentioned evidence-based matrix diagrams to evaluate and document the deployment of the crime scene vehicle. One diagram will tract the method of deploying the vehicle with who (Criminal Investigation Division, and the Crash Reconstruction Team), what manner it was deployed (reactive or planned), and where (response to incidents in the city, training, special events, assist other agencies). The second diagram will show how effective the vehicle was on those incidents (effective, non-effective, mixed, or negative).

**Data Management**

The data on this project will be utilized in the two evidence-based matrix diagrams listed below. One diagram will tract the method of deploying the vehicle with who (Criminal Investigation Division, Evidence Technicians, and the Crash Reconstruction Team), what manner it is was deployed (reactive or planned), and where (responding to incidents in the city, training, special events, assist other agencies). The second diagram will show how effective the vehicle was on those incidents (practical, non-effective, mixed, or negative). Data Management for the evidence
that is collected by the crime Scene vehicle will be maintained by the Evidence Technicians at the Bastrop Police Department.

**Target Group**

This project will target six members of the criminal investigation division, and eight officers on the crash reconstruction team of the Bastrop Police Department.

**Evidence-Based Practices**

This project will use two (2) evidence-based matrix diagrams to document the different scopes of targets, types of deployment, and level of proactivity that come from using the crime scene vehicle with our detectives and crash reconstruction team. The scope of the targets will include the City of Bastrop, the Bastrop County Sheriff’s Office, and other agencies. The deployment type will be between Call-out responses and planned responses (training, major crime, fatality, etc.). The Level of Proactivity will show if it was reactive, proactive, or highly proactive.

One diagram will tract the method of deploying the vehicle with who (criminal investigation division, evidence technicians, and the crash reconstruction team), what manner it was deployed (called out or planned), and where (response to incidents in the city, training, assist other agencies). The second diagram will show how effective the vehicle was on those incidents (effective, non-effective, mixed, or negative).

AGENDA ITEM: 12D

TITLE:
Consider action to approve Resolution No. R-2022-16 of the City Council of the City of Bastrop, Texas to approve a Standard Contract with Arch Technical Services, LLC (ATS) for thirty-party building review and inspection services in an amount not to exceed Eight Hundred Thousand Dollars and 00/100 Cents ($800,000.00); authorizing the City Manager to execute all necessary documents, providing for a repealing clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Jennifer C. Bills, Director of Planning & Development

BACKGROUND/HISTORY:
The City of Bastrop uses third party building and fire review and inspection services to allow the department to respond to a fluctuating level of inspections. The contract sets a not to exceed amount for a contract term of one year that can be extend yearly for up to 3 years. Staff will encumber the available amount budgeted from Contractual Services. As reviews and inspection revenue exceeds the budgeted amount, a budget amendment will be brought before City Council to increase the professional services amount. See the attached memo for more information.

FISCAL IMPACT:
The building review and inspections collect revenue through fees, which are estimated on page 67-68 of the FY21-22 Annual Budget. The Contractual Services funds are budgeted on page 149.

RECOMMENDATION:
The Director of Planning & Development recommends approval of Resolution No. R-2022-16 of the City Council of the City of Bastrop, Texas to approve a Standard Contract with Arch Technical Services, LLC (ATS) for thirty-party building review and inspection services in an amount not to exceed Eight Hundred Thousand Dollars and 00/100 Cents ($800,000.00); authorizing the City Manager to execute all necessary documents, providing for a repealing clause; and establishing an effective date.

ATTACHMENTS:
- Resolution R-2022-16
- Standard Contract with Arch Technical Services, LLC
- Background Memo
BACKGROUND/HISTORY:
The City of Bastrop has experienced an increase in the amount of single-family residential permits in 2021. Starting in Fiscal Year 2022, the budget includes funds in the Building Inspection Division’s Professional Services to cover the cost of third-party building reviews and inspections.

Arch Technical Services, LLC is qualified to provide ICC Certified commercial and residential reviewers and inspectors that can respond to a fluctuating level of construction projects. This will enable the City to scale the number of plan reviews and inspections relative to the current demand, rather than having one dedicated team. This also allows the City to provide continuity of services if the Building Official is unavailable. The review and inspection fees have been calculated to cover cost recovery for the Building Inspection Division. The City will be contracting with other providers which will provide the flexibility to spread out reviews and inspections to minimize review and response times if the demand is high or one provider is temporarily unavailable.

Review & Inspection Services/Timelines
ATS will serve as the primary third-party inspection provider for residential and commercial inspections. Timeline for inspections is all requested inspections, commercial and remodel, will usually be completed within 24 hours of request made before 3:00 pm, excluding weekends and holidays, and will always be completed within 48 hours.

ATS will serve as a secondary third-party provider on Commercial or Residential plan reviews for new and/or remodel construction, when assigned by the Building Official based on construction volume.

POLICY EXPLANATION:
The City has adopted the 2018 International Code Council Commercial, Residential, Plumbing, Mechanical and Fire Codes along with the NFPA National Electric Code. Plan review and inspections are necessary to ensure that commercial and residential buildings are safe and will be sustainable through code compliant construction methods and practices.

FUNDING SOURCE:
The building review and inspections collect revenue through fees, which are estimated on page 67-68 of the FY21-22 Annual Budget. The Contractual Services funds are budgeted on page 149.

**Building Inspection Scheduling Procedures:**

Code inspections conducted by ATS Engineers, Inspectors & Surveyors can be called in or received via email or on the MyGov Online system to ATS prior to 4:00pm on the day before the inspection is needed. Our office number is 512-328-6995 and fax number is 512-328-6996. Email address for inspection request is scheduler@ats-engineers.com. If a preference exists for either a morning or afternoon inspection, or if an inspector must meet with a contractor/owner on the job site, it must be notated by the person requesting the inspection.

It is the responsibility of the City to request inspections through call in, email or through the City’s MyGov Online system for each phase of construction prior to proceeding with construction and/or covering work. Inspections not requested or authorized by the City will not be paid. This must include the name and phone number of the permit holder, the physical address of the permitted project and the type of inspection(s) requested. Passed inspections allow construction to proceed to the next stage. Failed inspections shall be corrected and re-inspected for compliance prior to proceeding with construction. All re-inspection fees must be paid prior to further inspection requests being performed.

Inspections will be combined at stages where combining is appropriate and the completion of one stage does not interfere with the inspection at another stage. Inspections performed individually other than those listed in stages at the convenience of the permit holder or necessary due to site conditions or other unforeseeable situations will be billed separately. The following are minimum required inspections for new construction. Please see the Plan Review documents for required inspections list.
Reviewed, stamped Job Copy plans, Construction Documents, Energy reports, Plan Review documents, Manufacturer's installation instructions, test reports and test certificates, and other documentation pertinent to the permitted project must be on-site and available to the Inspector upon request. The following is a list of common inspection types but is not all-inclusive and may change. It is important to check with the Jurisdiction prior to construction on the required inspections. The City of Bastrop has adopted the following Codes: 2018 editions of the International Building Code (IBC), International Fire Code (IFC), International Mechanical Code (IMC), International Plumbing Code (IPC), International Fuel Gas Code (IFGC), International Residential Code (IRC), 2018 International Energy Conservation Code (IECC) and 2017 National Electric Code.

AGENDA ITEM: 12E

TITLE:
Consider action to approve Resolution No. R-2022-18 of the City Council of the City of Bastrop, Texas to approve a Standard Contract with SAFEbuilt, LLC for third-party building review and inspection services in an amount not to exceed Six Hundred Fifty Thousand Dollars and 00/100 Cents ($650,000.00); authorizing the City Manager to execute all necessary documents, providing for a repealing clause; and establishing an effective date.

AGENDA ITEM SUBMITTED BY:
Jennifer C. Bills, Director of Planning & Development

BACKGROUND/HISTORY:
The City of Bastrop uses third party building and fire review and inspection services to allow the department to respond to a fluctuating level of inspections. The contract sets a not to exceed amount for a contract term of one year that can be extend yearly for up to 3 years. Staff will encumber the available amount budgeted from Contractual Services. As reviews and inspection revenue exceeds the budgeted amount, a budget amendment will be brought before City Council to increase the professional services amount. See the attached memo for more information.

FISCAL IMPACT:
The building review and inspections collect revenue through fees, which are estimated on page 67-68 of the FY21-22 Annual Budget. The Contractual Services funds are budgeted on page 149.

RECOMMENDATION:
The Director of Planning & Development recommends approval Resolution No. R-2022-18 of the City Council of the City of Bastrop, Texas to approve a Standard Contract with SAFEbuilt, LLC for third-party building review and inspection services in an amount not to exceed Six Hundred Fifty Thousand Dollars and 00/100 Cents ($650,000.00); authorizing the City Manager to execute all necessary documents, providing for a repealing clause; and establishing an effective date.

ATTACHMENTS:
- Resolution R-2022-18
- Standard Contract with SAFEbuilt, LLC
- Background Memo
BACKGROUND/HISTORY:
The City of Bastrop has experienced an increase in the amount of single-family residential permits in 2021. Starting in Fiscal Year 2022, the budget includes funds in the Building Inspection Division’s Professional Services to cover the cost of third-party building reviews and inspections.

SAFEbuilt, LLC is qualified to provide ICC Certified commercial and residential reviewers and inspectors that can respond to a fluctuating level of construction projects. This will enable the City to scale the number of plan reviews and inspections relative to the current demand, rather than having one dedicated team. This also allows the City to provide continuity of services if the Building Official is unavailable. The review and inspection fees have been calculated to cover cost recovery for the Building Inspection Division. The City will be contracting with other providers which will provide the flexibility to spread out reviews and inspections to minimize review and response times if the demand is high or one provider is temporarily unavailable.

Review & Inspection Services/Timelines
SAFEbuilt will serve as the primary third-party provider on all commercial and residential plan reviews for new and remodel construction across all disciplines. This includes building, fire, plumbing, mechanical and electrical. This will facilitate coordination across all trades and will result in increased efficiency in the plan review process. Timeline for completed plan reviews: a Residential Plan Review – First comments, 5 business days, Second comments, 5 business days. Multi-family/Commercial – First comments, 10 – 20 business days, Second comments, 5 – 10 business days. They will also provide primary third-party fire inspection services. Inspections requested before 3:00 p.m. will be completed within 1 business day, excluding weekends and holidays.

SAFEbuilt will serve as a secondary third-party inspection provider to be used when the Building Official determines additional field staff is necessary due to the construction volume. Timeline for inspections is all requested inspections, Commercial and Remodel, will be completed within one business day of request made before 3:00 p.m., excluding weekends and holidays.

POLICY EXPLANATION:
The City has adopted the 2018 International Code Council Commercial, Residential, Plumbing, Mechanical and Fire Codes along with the NFPA National Electric Code. Plan review and inspections are necessary to ensure that commercial and residential buildings are constructed in accordance with these requirements and are safe and will be sustainable through code compliant construction methods and practices.

FUNDING SOURCE:
The building review and inspections collect revenue through fees, which are estimated on page 67-68 of the FY21-22 Annual Budget. The Contractual Services funds are budgeted on page 149.

Such approval shall not be deemed to be an assumption of such responsibility or liability by the City for any defect in the design
and specifications prepared by the consulting engineer, his officers, agents, servants, or employees, it being the intent of the parties that approval by the City Engineer or other City employee, official, consultant, or officer signifies the City's approval of only the general design concept of the improvements to be constructed. 4.32 Approval of Plans

The Developer and City agree that the approval of plans and specifications by the City shall not be construed as representing or implying that improvements built in accordance therewith shall be free of defects. Any such approvals shall in no event be construed as representing or guaranteeing that any improvement built in accordance therewith will be designed or built in a good and workmanlike manner.
Neither the City or County, nor its elected officials, officers, employees, contractors and/or agents shall be responsible or liable in damages or otherwise to anyone submitting plans and specifications for approval by the City for any defects in any plans or specifications submitted, revised, or approved, in the loss or damages to any person arising out of approval or disapproval or failure to approve or disapprove any plans or specifications, for any loss or damage arising from the non-compliance of such plans or specifications with any governmental ordinance or regulation, nor any defects in construction undertaken pursuant to such plans and specifications.

AGENDA ITEM: 13B

TITLE:
Consider action to approve Resolution No. R-2022-23 of the City Council of the city of Bastrop, to approve the City of Bastrop to receive a grant from the St. David’s Foundation for a two-hundred and fifty thousand dollars and no cents ($250,000) in contribution to the City of Bastrop Parks & Recreation Master Plan; authorizing the City Manager to sign a Grant Agreement on behalf of the City; providing for a severability clause and establishing an effective date.

STAFF REPRESENTATIVE:
Rebecca Gleason, Assistant City Manager for Community Engagement

BACKGROUND/HISTORY:
This Parks and Recreation Master Plan will encompass a comprehensive analysis of the City’s parks and recreation assets, an extensive community needs assessment, provide recommendations to development, recreation, policies, land acquisition, and prioritize needs based on the community’s short and long-term parks and recreation needs. The Master Plan will also include Sports Complex Feasibility Study paid for through Type B (BEDC) funding of $50,000.

The City applied for the grant in September of 2021 and received notice of grant award in December 2021.

Through acceptance of this grant, staff is seeking permission to peruse a plan to bring back a mid-year budget amendment for the addition of a new FTE in support of our commitment to the St. David’s Foundation, the Emile Multicultural Center, and increasing service levels in both recreation and parks.

POLICY EXPLANATION:
In accordance with Council discussions from the Pre-Budget Planning Meeting in May of 2021, and in support of the Focus Area of Uniquely Bastrop, Unique Environment, and Fiscal Responsibility, the City of Bastrop City Council directed staff to pursue steps in building a robust parks and recreation program to better support our community’s quality of life.

FISCAL IMPACT:
The fiscal impact includes $250,000 from St. David’s Foundation Grant towards the Parks and Recreation Master Plan as well as a Sports Complex Feasibility Study funded by Type B (BEDC) funding of $50,000. The grant agreement with the St. David’s Foundation includes a city commitment of $125,000 in dedicated staffing.
RECOMMENDATION:

The Assistant City Manager for Community Engagement recommends Council approval of the grant awarded by the St. David’s Foundation to create a Parks and Recreation Master Plan.

Consider action to approve Resolution No. R-2022-23 of the city council of the city of Bastrop, Texas to approve the City of Bastrop to receive a grant from the St. David’s Foundation for a two-hundred and fifty thousand dollars and no cents ($250,000) in contribution to the City of Bastrop Parks & Recreation Master Plan; authorizing the City Manager to sign a Grant Agreement on behalf of the City; providing for a severability clause and establishing an effective date.

City of Bastrop Parks & Recreation Master Plan:
This Parks and Recreation Master Plan will encompass a comprehensive analysis of the City’s parks and recreation assets, an extensive community needs assessment, provide recommendations to development, recreation, policies, land acquisition, and prioritize needs based on the community’s short and long-term parks and recreation needs. The Master Plan will also include Sports Complex Feasibility Study paid for through Type B (BEDC) funding of $50,000.

The City of Bastrop Parks & Recreation Plan was written in 2008 and updated in 2015. Since that time, the City has grown substantially, and we have seen large shifts in our demographics as more families move to the area. Texas Parks and Wildlife recommends a community updates their master plan every 5 years and rewrites it every 10 years, so it is time to get an accurate representation of our community’s needs and City assets.

For the City of Bastrop, this Master Plan is a necessary step in ongoing efforts to create a robust recreation program as well as investing in raising the quality of life for our citizens through our parks. It is also an opportunity, through the creation and implementation of a vigorous community engagement plan, to begin building and improving relationships in our community with special focus paid to historically underserved groups, Bastrop area youth, and those new to the City of Bastrop.

St. David’s Foundation Grant Commitment:
The City applied for the St. David’s Foundation grant to pay for the Parks and Recreation Master Plan in the amount of $250,000 in September of 2021 and received notice of the grant award in December 2021.

In particular, the City of Bastrop has committed to St. David’s Foundation:
- $125,000 or more in dedicated key FTE equivalents, value of which was provided to St. David’s Foundation by the City.
- Two written reports that include a narrative summary of accomplishments and challenges with more reports to be given upon request.
- Utilization of Bastrop County Cares to ensure authentic community engagement through design and implementation of the needs assessment, selection of the Master Plan consultant, and to guarantee efforts are congruent with other developing local efforts.
- A one-year time period for completing the work. Accordingly, the City plans to immediately begin the process of selecting master plan consultants, and to ask Council to approve the consultant selection in June of 2022.

Emile Multicultural Center Commitment:
When the City of Bastrop applied for this grant, the Emile Multicultural Center was not yet part of the City’s plans for our recreational future. Since the realization of this exciting project, the City has committed through a letter of intent, to engage in a cooperative endeavor through a series of
real estate transactions, historical designation, programing, and construction efforts in furtherance of building, maintaining, and operating a multicultural and recreational structure.

**Fiscal Year 2022 Budget:**
The Parks and Recreation Master Plan, the Emile Multicultural Center, and the ongoing efforts to develop recreation programing (including the development of a comprehensive fee schedule for both parks and recreation) are expected to take substantial staff resources for the remainder of Fiscal Year 2022 and well into the future.

The Fiscal Year 2022 base budget currently supports one person devoted to the recreation effort which is our Recreation Manager. The position is currently being filled by contract with a consultant, but interviews are scheduled, and that position will be filled in February of 2022.

The City’s commitments to the Emile Multicultural Center Project, the requirements of the St. David’s grant, the scope of our Parks & Recreation Master Plan, and the level to which our current recreation programing has so quickly grown, justifies the commitment of this increased level of funding in recreation.

Our preliminary plans for the Fiscal Year 2023 budget, consistent with our efforts to enhance recreation programing into the future, would have included a recommendation to increase FTEs in the area of recreation to two (2) in order to help carry out the outcomes of our Parks and Recreation Master Plan and Sports Feasibility Study. Given the timing of the work that needs to be done over the next few months, and to ensure the City of Bastrop is able to fully leverage the opportunities before us for our citizens, the new recommendation is to provide the full-time position in Fiscal Year 2022 with a mid-year budget amendment that will be brought back to Council.

**Future of City of Bastrop Recreation:**
In accordance with Council discussions from the Pre-Budget Planning Meeting in May of 2021, and in support of the Focus Area of Uniquely Bastrop, Unique Environment, and Fiscal Responsibility, the City of Bastrop City Council directed staff to pursue steps in building a robust parks and recreation program to better support our community’s quality of life. Staff is still creating the detail around how to best achieve that goal within current and future resources, but the proposed additional FTE, as mentioned above, would be a step towards recreation being addressed at a department level with elevated presence on the organization chart in furtherance of increasing service levels in both recreation and parks.

Project Summary

This project will improve the strategic short and long-term viability and day-to-day operations of the City of Bastrop Police Department by establishing a victim's assistant specialist unit in our administration division via a single full-time employee.

Problem Statement

The City of Bastrop Police Department is in a rural area but only twenty minutes from the United States' fastest-growing large metro area in 2020, that being Austin, Texas. The Austin metro, to include the City of Bastrop, is projected to grow by an additional 37.6 percent from 2020 to 2030. As a result, Bastrop County experienced double-digit growth from people looking to live near Austin, but in a more affordable community during the same period.

1) The Bastrop Police Department does not have a victim's assistance specialist. This is a significant gap in our operational process. As a result, the department cannot provide personalized and individual services designed to lessen traumas experienced because of victimization.

Existing Capacity Levels

The department does not have any person assigned to victim assistance.

Capability Gaps

This project will assist in adding necessary resources in the area of a victim's assistance specialist to better serve and support the victims of crime through what can be an arduous process. The Criminal Investigations Division (6 detectives) is currently tasked to liaison with victims, suspects, defendants, witnesses, supporting agencies, district attorney, and the patrol division. Unfortunately, this is no longer a sustainable model because of our city’s unprecedented upward moving call loads, raising crimes trends, and major crime investigations.

Impact Statement

Funding will enable the Bastrop Police Department to serve all victims of crimes to include previously underserved victim populations, including victims of color, American Indians and Alaska Natives, adults assaulted as children, victims of elder abuse, and LGBTQ+ victims. Furthermore, the department desires to assist other victims of abuses that may go unreported and often not prosecuted—such as hate and bias crimes, bullying, and sex and labor trafficking.
Funding will allow the department to provide personalized and individual services designed to lessen the traumas experienced by victimization by providing support, education, and outreach.

Funding will allow the department to be fully active in numerous multidisciplinary teams such as the Children’s Advocacy Center and Family Crisis Center.

Funding will allow the department to meet some or all the requirements of the Texas Constitution regarding crime victims.

Funding will enable and greatly enhance the department's ability to become Texas Police Chief’s Association Best Practice certified.

**Target Group**

The target of this project is the victims of crimes and their families. This project’s victim’s specialist branch will support agencies such as the Bastrop Independent School District, its police department, the Bastrop County District Attorney, Bastrop Family Crisis Center, the Bastrop & Fayette County Children's Advocacy Center, and Bluebonnet Trails Community Services by having a central resource at the Bastrop Police Department.

**Long Term**

The Bastrop Police Department will conduct ongoing evaluations to ensure the accomplishment of the intended goals and improve the process with eventual sole funding through the City of Bastrop. The cost of this project is sixty-two thousand three hundred and seventy-six dollars and eighty-seven cents ($62,376.87).

**Evidence-Based Practices**

This project will use two evidence-based matrix diagrams to document the different scopes of targets, types of deployment, and proactivity levels.

The department will tabulate types of assistance (criminal investigations division, patrol, or assisting supporting agencies) and will document how effective the work was (effective, non-effective, mixed, or negative).

Criminal Justice Advisory Committee Member,

I am writing to request consideration be given to the City of Bastrop Police Department’s application for the 2022 victim assistance grant via the U.S. Department of Justice, Office for Victims of Crime.

If awarded the grant funds, the City of Bastrop Police Department plans to hire a single full-time employee as victim assistance liaison coordinator and property & evidence manager. While the Bastrop Police Department will employ the coordinator, the department has offered to assist regional support agencies such as the Children’s Advocacy Center that serves Bastrop, Lee, and Fayette Counties. The City of Bastrop Police Department is an active part of our Multidisciplinary Team, and a person dedicated to assisting victims of crime, including families and children affected by child abuse, would be a welcome addition.

Upon funding, the Bastrop Police Department will offer direct assistance to crime victims through advocacy, support, education, and outreach. In addition, the liaison will work closely with various social service providers and legal agencies within the Bastrop County area and will be familiar with a wide variety of resources available to victims of crime.

Thank you for considering the 2022 Victim Assistance grant by the Bastrop Police Department. If you need any additional information, please contact me at 512-321-6161 ext. 206 or mary.fox@cacbastrop.org.

Introduction

The City of Bastrop’s Home-Rule Charter is a foundational governmental document. Much like a municipality’s constitution, the Charter is both the legal source of authority and a limit on the City’s authority. Along with state law, it establishes the essential framework for the local government.

The Charter was last amended by the voters at an election held on in 2016. State law prevents charters from being amended more frequently than every two years. Bastrop’s Charter states that it should be evaluated at least every six years. Accordingly, the City Council of the City of Bastrop wishes to order a Special Election for the purpose of submitting to the voters certain amendments to the Charter. The City Council ordered an election to be held on May 7, 2022. Early voting starts on Monday, April 25, 2022.

The proposed Charter amendments will be adopted if approved by a majority of the qualified voters at an election held for that purpose. All registered voters of the City will be entitled to cast a vote.

At the Special Election voters can vote FOR or AGAINST each of the individual amendments to the Charter. Below are the individual propositions and brief explanations of why they are offered for consideration. Most propositions may be characterized as non-substantive clean-up edits. This is educational material, only. The City of Bastrop as an organization offers these propositions for consideration but does not advocate for or against passage of these items.

Propositions

Prop A: Shall Section 2.03 of the Charter be amended to conform with state law by removing reference to the City’s power to annex territory without consent of the inhabitants?

Explanation: Legislative changes to Texas statutory law have made it difficult to annex property without the consent of the property owners. See Texas Local Government Code Chapter 43.

Amended Text: If approved, the section will read (in relevant part):

Section 2.03 - Annexation
The Council shall have the power by ordinance to fix the boundary limits of the City
to provide for the alteration and the extension of said boundary limits, and the
annexation of additional territory lying adjacent to the City, in compliance with state
law with or without the consent of the territory and inhabitants annexed. During the
annexation process, the Council shall provide an opportunity for all interested persons
to be heard at public hearing(s), in conformance with state law….

**Prop. B:** Shall Section 3.06(6) of the Charter be amended to conform with state law
creating a vacancy on the city council when a council member announces their candidacy
for certain elected offices and the unexpired term of the council member exceeds one
year and thirty days?

*Explanation:* The Texas Constitution has a provision commonly referred to as the
*Resign to Run* rule, which automatically creates a vacancies in certain elected offices
if the incumbent announces they are seeking another elected office. The *Resign to Run*
rule applies (in relevant part) when certain candidates for other offices have 1
year and 30 days left on their current term. The current Charter provision only
references the 1 year mark, but omits the additional 30 days.

*Amended Text:* If approved, the section will read (in relevant part):

Section 3.06 - Vacancies, Forfeiture of Office and Filling of Vacancies.
The office of a Council Member shall become vacant upon the member's death,
resignation, removal from or forfeiture of that office. A Council Member shall forfeit
that office if the Council Member: …
(6) announces his/her candidacy, or shall in fact become a candidate, in any General,
Special or Primary Election, for any office of profit or trust under the laws of the
State of Texas or the United States other than the office then held, at any time when
the unexpired term of the Council Member then held shall exceed one (1) year and 30
days, such announcement or such candidacy shall constitute an automatic resignation
of the Council position then held, as set forth in Article XVI, Sec. 65(b) of the Texas
Constitution.

**Prop. C:** Shall Section 3.15(b) of the Charter be amended to authorize the city council to
waive by an affirmative vote of four (4) or more Council Members the requirement that
an ordinance be read in two separate meetings?

*Explanation:* State law does not require that all ordinances be read at two separate
meetings before being adopted. However, the current Charter does. There are
occasions when it would be expeditious and advantageous to dispense with the
second reading (e.g., at the end of the year and during holiday seasons). This
amendment allows waiver of the two-reading requirement if the waiver is approved
by a super-majority vote of the City Council.

*Amended Text:* If approved, the section will read (in relevant part):

Section 3.15 - Ordinances in General.
(b) Procedure. An ordinance may be introduced and acted upon at any regular or special meeting of the Council. No ordinance shall be passed, except in cases of emergency, until the descriptive caption of the ordinance shall have been read in two separate meetings of the Council.

The requirement for considering ordinances and reading the descriptive caption thereof at two (2) separate meetings may be dispensed with: (1) where an ordinance relating to the immediate preservation of the public peace, health or safety is adopted as an emergency measure by a majority vote of the Council Members and such emergency ordinance shall take effect immediately upon its adoption and execution without a second consideration; or (2) when a majority vote of four or more Council Members determines through a separate motion that the first reading is sufficient for adequate consideration of the ordinance.

Prop. D: Shall Section 3.16 of the Charter be amended to reflect the fact that codes of technical regulations are available to the public digitally and free of charge?

Explanation: Technical regulations such as the Building Bastrop Block Technical Manual are often necessary to implement city policies regarding building and construction. State law does not require such rules to be posted online. Whether to provide technical codes online is a local policy decision. With advances in technology, it is not always necessary or feasible to print and sell hardcopy versions of the City’s Code of Ordinances. Instead, the technical codes can now be accessed by the public at-will and without fees from the City’s home page.

Amended Text: If approved, the section will read (in relevant part):

Section 3.16 Codes of Technical Regulations.

The Council may adopt any standard code of technical regulations by reference thereto in an adopting ordinance. The procedures and requirements governing such an adopting ordinance shall be that prescribed for ordinances generally. A copy of each adopted code of technical regulations, as well as the adopting ordinance, shall be authenticated and recorded by the City Secretary pursuant to Section 3.17. Copies of any adopted code of technical regulations shall be made available by the City Secretary digitally without charge through the City’s website for purchase at a reasonable price.

Prop. E: Shall Section 3.17(b) of the Charter be amended to reflect the fact that ordinances are available to the public digitally and free of charge?

Explanation: Ordinances are municipal rules and regulations. State law does not require ordinances be compiled into a published collection called the Code of Ordinances (i.e., codified). Whether to codify ordinances is a local policy decision. State law does not mandate how Codes of Ordinances are published when codified. Bastrop has a Code of Ordinances. With advances in technology, it is no longer necessary or feasible to print expensive hardcopy versions of the City’s Code of
Ordinances. Instead, the ordinances can now be accessed by the public at-will and without fees from the City’s home page.

**Amended Text:** If approved, the section will read (in relevant part):

Section 3.17 Authentication and Recording; Codification
(b) Codification. All City ordinances having the force of law shall be codified. The general codification shall be adopted by the Council by ordinance and shall be published online in loose-leaf form and shall include this Charter and any amendments thereto. The official copy of the City Code in the office of the City Secretary shall be kept up to date and properly indexed. It shall not be necessary to repeat in this codification any technical codes adopted by reference. Copies of the City Code shall be available to the public digitally without charge through the City’s website furnished to City offices, placed in libraries and public offices for free public reference and made otherwise available for purchase by the public at a reasonable price fixed by the Council. Amendments to the City Code shall also be made available for purchase by the public as they become available.

**Prop. F:** Shall Section 5.02 of the Charter be amended to conform with state law by stating that the term of office of municipal court judges shall be provided for by ordinance?

**Explanation:** State law states that the city council shall provide by ordinance for the term of office of its municipal judges. The term must be for a definite term of two or four years. Tex. Gov’t Code § 30.00006(d). The Bastrop Code of Ordinances provides for a two-year term. The current Charter provision states that the term is three years.

**Amended Text:** If approved, the section will read (in relevant part):

Section 5.02 - Judge of the Municipal Court.
The Municipal Court shall be presided over by a Judge(s). The Judge(s) shall be nominated by the Mayor and appointed by the Council for a term provided by ordinance of three (3) years to run concurrently with the term of the office of the Mayor, or for the portion of such unexpired term as may remain at the time of the appointment.

**Prop. G:** Shall Section 10.04 of the Charter be amended to conform with state law by requiring petitions calling for initiative or referendum elections to comply with the Texas Election Code?

**Explanation:** Texas Election Code Ch. 277 states that once petitions can’t be amended or supplemented (with certain exceptions) after they are filed. The current language is inconsistent with state law.

**Amended Text:** If approved, the section will read (in relevant part):
Section 10.04 Filing, Examination and Certification of Petitions
All papers comprising a petition for initiative or referendum shall be assembled and filed with the City Secretary as one instrument… A petition may be amended or supplemented in compliance with the Texas Election Code at any time within ten (10) days after a notice of insufficiency has been sent by the City Secretary, by filing a supplementary petition. In such event, the same procedures shall then be followed by the City Secretary and Council as in the case of the original petition for the same purpose.

Prop. H: Shall Section 10.08 of the Charter be amended to conform with state law by requiring petitions calling for recall elections to comply with the Texas Election Code?

Explanation: Texas Election Code Ch. 277 states petitions can’t be amended or supplemented (with certain exceptions) after they are filed. The current language is inconsistent with state law.

Amended Text: If approved, the section will read (in relevant part):

Section 10.08 - Recall Election.
All papers comprising a recall petition shall be assembled and filed with the City Secretary. Within thirty (30) days after the petition is filed, the City Secretary shall determine its sufficiency and, if found to be sufficient, shall certify this fact to the Council at its next regular meeting. A petition may be amended or supplemented in compliance with the Texas Election Code. If a recall petition is found to be insufficient, it may be amended within ten (10) days after notice of such insufficiency by the City Secretary, by filing a supplementary petition.

Prop. I: Shall Section 12.01 of the Charter be amended to establish 7 as the minimum number of Planning and Zoning commissioners?

Explanation: State law does not specify the membership of a Planning and Zoning Commission; thus, it is a matter of local preference. The current size of the P&Z under the Charter is 9. The City has sometimes found it difficult to recruit 9 members, and to then meet the quorum requirement of having 5 in attendance to conduct meetings. This amendment establishes the minimum number of commissioners as 7 and allows the City Council to set the actual size of the P&Z by ordinance.

Amended Text: If approved, the section will read (in relevant part):

Section 12.01 - Planning and Zoning Commission.
There shall be established a Planning and Zoning Commission which the membership shall be established by ordinance providing for a minimum of seven (7) shall be consist of nine (9) residents, serving staggered three-year terms.
Any vacancy on the Commission shall be filled by the Council for the remainder of the unexpired term in question. Members of the Commission shall serve without compensation and may be removed by the Council at its sole discretion. The Commission shall annually elect a Chair and a Vice Chair from among its membership. A majority of members shall constitute a quorum. The Commission shall keep minutes of its proceedings and such minutes shall be of public record.

**Prop. J:** Shall Sections 14.03 and 14.04 of the Charter be repealed in their entirety as outdated, transitional provisions that are now irrelevant?

**Explanation:** These provisions are surplus language included as part of the 2010 Charter amendments as an explanation regarding the implementation of that collection of modifications, which included increasing terms of office from 2 to 3 years. They no longer have any relevance to the current Charter and will not affect any future amendments.

**Section 14.03—Submission of Charter Amendment to Election.**

The City Council, in preparing these Charter Amendments, finds and declares that it is impracticable to segregate each subject so that the voter may vote "yes" or "no" on the same, for the reason that the Charter is so constructed that in order to enable it to properly function it is necessary that it should be amended as set forth on the seven (7) separate ballots presented. For this reason, the City Council directs that the ballot provisions related to these Charter Amendments be voted upon as set forth on the seven (7) ballot propositions presented, and that these amendments shall be submitted to the qualified voters of the City at an election to be held on the 2nd day of November, 2010. The various Charter Amendments approved by a majority of the qualified voters, voting at this election, shall become the Amended Charter of the City of Bastrop on the date the Council enters an order in the records of the City declaring that the various approved Charter Amendments are adopted and the Home Rule Charter is, thus, Amended to include the ballot changes approved by the voters of the City of Bastrop. No amendments to the Charter are intended nor shall same be made other than those specifically approved by the voters in the upcoming election, and as noted herein.

**Section 14.04—Transitional Elections/Staggered Terms.**

In order to provide for a smooth transition from the former two-year terms for all Council Members to the three-year staggered terms set forth in Charter Section 3.02, the following transitional election rules shall be applied.

(1) **Staggering Terms.** At the first Council meeting following the approval by the electorate of three-year terms of office pursuant to the Amended Charter, then sitting Council Members, including the Mayor, shall draw lots to determine which Council places and/or Mayoral position shall be subject to a transitional length term of office, in order to provide for staggering of terms, the objective being that as stated in Section 3.02, specifically that each year, two (2) Council places, including the Mayoral position, shall be up for election for 3-year terms of office.
(2) Implementation of Staggered Terms. No City Council Member shall be required to draw lots that would result in a transitional term of less than two years or exceeding four years to accomplish the staggering of terms as set forth herein.

(3) Deadline for Accomplishing Staggering Terms. The City Council shall accomplish staggering the terms of office for all Council Member places and the Mayoral position on or before the General Election that will occur in 2015.

Prop. K: Shall the Charter be amended throughout to replace gender-specific language with gender-neutral terminology?

**Explanation:** The Charter is replete with gender-specific terms, including:

- his,
- his or her,
- his/her,
- him,
- him/her

**Amended Text:** If approved, the gender-specific wording listed above will be replaced with they, their, or theirs, as appropriate in context.

**Conclusion**

This explanation is provided by the City of Bastrop as *educational material, only*. While the City Council voted in favor of calling the Special Election to place these propositions before the voters, the City of Bastrop as an entity does not advocate for or against passage of any particular item.

C. **Applications for Mail Ballots.** The CITY shall date stamp and then immediately hand deliver to the Contracting Officer all original mail ballot applications for mail ballots that it receives.

D. **Election Orders, Election Notices, Canvas.** The CITY shall prepare the election order, resolutions, notices, official canvass, and other pertinent documents for adoption by the CITY’s governing body. The CITY shall be responsible for having the required election notice under Section 4.003(a)(1) of the Texas Election Code published in the newspaper as required by State law. The CITY shall also be responsible for posting the notice required under Section 4.003(b) of the Texas Election Code as required by law. Promptly after approval of election order, resolutions, notices, official canvass, and other pertinent documents by the CITY’s governing body and within such time so as not to impede the orderly conduct of the election, the CITY shall return said documents to the Contracting Officer for proper recordkeeping. The CITY assumes the responsibility of promoting the schedules for Early Voting and Election Day.

The CITY will provide for the appointment of the Contracting Officer as the early voting clerk for the election in the orders calling the election. The orders will also include approval of election day polling places; times, dates and places for early voting; and appointment of precinct judges.

The CITY shall also confirm its territory and whether it has any territory outside the County, including providing the County with a map of the CITY’s territory. The CITY agrees that the Contracting Officer shall administer only the County portion of the election.

E. **Paper Ballots.** In advance of the March 23, 2022 date on which the Texas Secretary of State’s Office encourages the mailing out of ballots for early voting by mail, the Contracting Officer shall arrange with a third party to prepare the necessary optical paper ballots for the election. The ballots shall be in English with the Spanish translation included.

The CITY shall furnish the Contracting Officer a list of candidates and/or propositions showing the order and the exact manner in which their names or proposition(s) are to appear on the official ballot (including bilingual titles and text). This list shall be delivered to the Contracting Officer as soon as possible after ballot positions have been determined. The CITY shall perform the duties required for drawing for place on the ballot by candidates. The CITY shall be responsible for proofreading and approving the ballot insofar as it pertains to the authority’s candidates and/or propositions.

III. **SPECIAL PROVISIONS RELATING TO ELECTION WORKERS**
A. **Compensation.** The parties agree that presiding judges and alternate judges will be compensated at a rate of $12.00/hr., and election clerks will be compensated at a rate of $10.00/hr. They will be compensated for all hours actually worked, including the time to set up the polling location and the time to complete the counting and to wrap up the paper work, but not to exceed one hour before and two hours after the polling location is open for voting. The presiding judge, or the election worker at the polling location that he or she designates, who picks up the election supplies from the Contracting Officer and who returns the remaining supplies, ballot boxes, and all other election records from the polling location to the Contracting Officer will be compensated with a delivery fee of $25 at the same time that payment is made for the hours worked. The Contracting Officer will pay the election workers directly and be reimbursed for such by the CITY.

B. **Number of Election Workers.** The parties agree that at all polling locations there will be a minimum of three election workers, consisting of the presiding judge, alternate judge, and one clerk.

IV. **JOINT EXPENSES AND PAYMENT**

A. **Expenses Incurred and Billing.** The participating authorities agree to share actual costs incurred to the extent that the costs and expenses are incurred in connection with a polling location used by more than one local political subdivision, such as (without limitation) the cost of renting polling locations and voting equipment, programming the voting equipment, supplies needed for the polling place, wages and salaries of election workers. Election expenses shall be pro-rated equally among the participants.

The parties agree, for those polling locations used solely by the CITY and not shared by any other participating authority, that the CITY will pay the wages, salaries, and other applicable election costs and expenses directly related to such polling location.

It is understood that to the extent space is available, other districts and political subdivisions may wish to participate in the use of Bastrop County’s election equipment and voting places, and it is agreed that the Elections Administrator may contract with such other districts or political subdivisions for such purposes and that in such event there may be an adjustment of the pro-rata share to be paid to Bastrop County by the participating authorities.

B. **Billing.** As soon as reasonably possible after Election Day, the Contracting Officer will submit an itemized invoice to the CITY for (1) actual expenses directly attributable to the coordination, supervision, and running of the election and incurred on behalf of the CITY by the Contracting Officer, including expenses for supplies in connection with the election school(s), publication and printing of election notices, election supplies, wages paid to the Contracting Officer’s employees for services under this contract performed outside of normal business hours, election workers, and any other expenses reasonably and directly related to the election, including, without limitation, rental and programming of DREs and audio ballots, and (2) the Contracting Officer’s fee under Section 31.100(d) of the Texas Election Code and as provided in Section IV.E below. Expenses related to wages shall be supported by compensation sheets. Other expenses shall be supported by invoices or receipts, except that the price of items coming out of the Contracting Officer’s stock of election supplies shall be supported by the Contracting Officer’s certificate about the number of items used and the unit cost therefore according to the vendor’s standard price list.
C. **Payment.** The CITY shall pay the Contracting Officer’s invoice within 30 days from the date of receipt to: **Bastrop County, Attn: Kristin Miles, Elections Administrator, 804 Pecan Street, Bastrop, TX 78602.** If the CITY disputes any portion of the invoice, the CITY shall pay the undisputed portion of the invoice, and the parties will discuss in good faith a resolution of the disputed portion. All payments shall be made from current revenues available to the CITY.

D. **Expense Item Larger than $500.** If a single election expense exceeds $500, the Contracting Officer reserves the right to invoice the CITY for such expense at the time it is incurred, supported by an invoice or receipt, rather than waiting until after Election Day. The CITY shall pay such invoice within 30 days from the date of receipt.

E. **Estimated Cost of Services.** A cost estimate for election expenses is attached hereto and made a part of this contract as Exhibit “C” or Exhibit “C-1”, whichever is applicable. The parties agree that these are an estimate only and that the CITY is obligated to pay their respective portion of the actual expenses of the election (and runoff election, if applicable) as set forth herein. The Contracting Officer agrees to advise the CITY if it appears that the actual expenses incurred by the Contracting Officer will exceed by 20% or more the estimated expenses to be paid initially by the Contracting Officer and reimbursed jointly by the CITY.

F. **Administrative Fee.** The CITY shall pay the Contracting Officer a 10% administrative fee, pursuant to the Texas Election Code, Section 31.100.

V. **GENERAL PROVISIONS**

A. **Nontransferable Functions.** In accordance with Section 31.096 of the Texas Election Code, nothing in this contract shall be construed as changing

1. the authority with whom applications of candidates for a place on the ballot are filed;

2. the authority with whom documents relating to political funds and campaigns under Title 15 of the Texas Election Code are filed; or

B. **Joint Election.** The parties acknowledge that the Contracting Officer may contract with other entities holding elections at the same time as the CITY on May 7, 2022 and that such elections will be held jointly.

C. **Cancellation of Election.** If the CITY cancels its election pursuant to Section 2.053 of the Texas Election Code, the Contracting Officer shall only be entitled to receive the actual expenses incurred before the date of cancellation in connection with the election and an administrative fee of $75. The Contracting Officer shall submit an invoice for such expenses (properly supported as described in IV. PAYMENT above) as soon as reasonably possible after the cancellation and the CITY shall make payment therefore in a manner similar to that set forth in IV. PAYMENT above. The Contracting Officer agrees to use reasonable diligence not to incur major costs in connection with election preparations until it is known that the election will be held, unless the CITY authorizes such major costs in writing. An entity canceling an election will not be liable for any further costs incurred by the Contracting Officer.
D. Contract Copies to Treasurer and Auditor. In accordance with Section 31.099 of the Texas Election Code, the Contracting Officer agrees to file copies of this contract with the County Treasurer of Bastrop County, Texas and the County Auditor of Bastrop County, Texas.

E. Representatives. For purposes of implementing this contract and coordinating activities hereunder, the CITY and the Contracting Officer designate the following individuals, and whenever the contract requires submission of information or documents or notice to the CITY or the Contracting Officer, respectively, submission or notice shall be to these individuals:

F. Recount. A recount may be obtained as provided by Title 13 of the Texas Election Code. By signing this contract, CITY agrees that any recount shall take place at the offices of the Contracting Officer, and that the CITY shall serve as the Recount Supervisor, and the CITY official or employee who performs the duties of a secretary under the Texas Election Code shall serve as Recount Coordinator. The Contracting Officer agrees to provide advisory services to the CITY as necessary to conduct a proper recount.

G. Runoff Elections. The CITY shall have the option of extending the terms of this contract through its runoff election, if applicable. In the event of such runoff election, the terms of this contract shall automatically extend unless the CITY notifies the Contracting Officer in writing within three (3) business days of the original election. The CITY shall reserve the right to reduce the number of early voting locations and/or Election Day voting locations in a runoff election. The CITY agrees to order any runoff election(s) at its meeting for canvassing the votes from the May 7, 2022 election and to conduct its drawing for ballot positions at or immediately following such meeting in order to expedite preparations for its runoff election. The CITY agrees that the date of the runoff election, if necessary, shall be June 11, 2022, with early voting being held in accordance with the Election Code. Early Voting by personal appearance for the runoff election shall be conducted during the hours and time period and at the locations listed in Exhibit “A-1,” attached hereto and made a part of this contract. The Election Day polling locations for the runoff election are those listed in Exhibit “B-1,” attached hereto and made a part of this contract.

Article I – Name, Purpose, Responsibilities

The Central Texas Clean Air Coalition, herein after known as the “CLEAN AIR COALITION”, is a voluntary, unincorporated association which became linked with the Capital Area Council of Governments (CAPCOG) by a resolution that was adopted November 13, 2002.

The purpose of the CLEAN AIR COALITION is:

- To establish and monitor a regional effort toward the improvement of air quality;
- To develop policies and strategies that will provide guidance for each of its independent governing bodies about actions that will achieve clean air in Central Texas;
- To work cooperatively to achieve clean air standards that will protect public health and yet allow local governments and other organizations the flexibility to select measures best-suited to their needs and resources; and
- To provide the CAPCOG Executive Committee with recommendations for administering funding provided by local sources for the purpose of supporting the regional air quality plan or program implementation, assessment, and improvement activities in Central Texas.

Article II – Membership

Members

CLEAN AIR COALITION members are organizations that support the regional effort toward improvement of air quality in the Metropolitan Statistical Area (MSA) for the Austin Urbanized Area, as defined by the Office of Management and Budget (OMB).
